GENERAL INFORMATION AND INSTRUCTIONS

- Section 5(e) of the Home Owners' Loan Act (HOLA), as amended (12 U.S.C. 1464(e)), for a federal savings association charter.

All questions must be answered with complete and accurate information that is subject to verification. If the answer is "none," "not applicable," or "unknown," so state. Answers of "unknown" should be explained.

The questions in the application are not intended to limit the Applicant's presentation nor are the questions intended to duplicate information supplied on another form or in an exhibit. For such information, a cross reference to the information is acceptable. *Any such cross-reference must be made to a specific cite or location in the documents, so the information can be located easily.* Supporting information for all relevant factors, setting forth the basis for Applicant's conclusions, should accompany the application. The regulatory agency may request additional information.

This application form collects information that the regulatory agencies will need to evaluate a charter or insurance application. While most of the information will be available when the organizers submit the application, some information will not be available at that time. Each agency has specific purposes and different timing requirements in collecting some of this information; for example, receipt of the organizers' draft policies. For any question about when to submit a specific item, organizers should contact the appropriate regulatory agencies to discuss the specific timing for submission.

The regulatory agency must consider the applicable statutory requirements set forth in the preceding provisions, as well as applicable regulatory requirements, when acting on this application. For additional information regarding these statutory and regulatory requirements, as well as processing procedures and guidelines and any supplemental information that may be required, please refer to the appropriate regulatory agency's procedural guidelines [i.e., *Comptroller's Corporate Manual*, the FDIC's Rules and Regulations (12 C.F.R. 303) and Statement of Policy on "Applications for Deposit Insurance", the OTS' *Applications Processing Handbook*, or the application guidelines for the state in which the Applicant seeks a state charter]. The Applicant may contact the agency

directly for specific instruction or visit their websites at www.fdic.gov, www.occ.treas.gov, www.ots.treas.gov, and www.csbs.org (through "Links" to each state banking department).

Notice of Publication

The Applicant must publish notice of the proposed organization in a newspaper of general circulation in the community or communities in which the proposed financial institution will be located. Contact the appropriate regulatory agency for the specific requirements of the notice of publication.

Electronic Submission

In addition to an original application and the appropriate number of signed copies, the regulatory agencies would like to have an electronic copy of the information in the application, especially of the business plan's financial projections. Submission of an electronic copy is voluntary. It will be used only for internal review and processing and will not be released to the public. The electronic copy may be provided on a computer diskette, using common word processing and spreadsheet software. For E-mail submissions, contact the appropriate regulatory agency for instructions and information about secure transmission of confidential material.

Confidentiality

Any Applicant desiring confidential treatment of specific portions of the application must submit a request in writing with the application. The request must discuss the justification for the requested treatment. The Applicant's reasons for requesting confidentiality should specifically demonstrate the harm (for example, loss of competitive position, invasion of privacy) that would result from public release of information (5 U.S.C. 552 or relevant state law). Information for which confidential treatment is requested should be: (1) specifically

identified in the public portion of the application (by reference to the confidential section); (2) separately bound; and (3) labeled "Confidential." The Applicant should follow the same procedure when requesting confidential treatment for the subsequent filing of supplemental information to the application.

The Applicant should contact the appropriate regulatory agency for specific instructions regarding requests for confidential treatment. The appropriate regulatory agency will determine whether the information will be treated as confidential and will advise the Applicant of any decision to publicly release information labeled as "Confidential."

Business Plan Guidelines

Preparation and Use

The business plan should be an integral part of the management and oversight of a financial institution (institution). It should establish the institution's goals and objectives. It is a written summary of how the business will organize its resources to meet its goals and how the institution will measure progress.

The business plan should be a comprehensive plan, which is the result of in-depth planning by the institution's organizers and management. It should realistically forecast market demand, customer base, competition, and economic conditions. The plan must reflect sound banking principles and demonstrate realistic assessment of risk in light of economic and competitive conditions in the market to be served. An institution with a special purpose or focus (for example, credit card, trust only, cash management, or bankers' bank) should address this special or unique feature in detail in the appropriate sections of the plan.

The business plan should cover three years and provide detailed explanations of actions that are proposed to accomplish the primary functions of the institution. The description should provide enough detail to demonstrate that the institution has a reasonable chance for success, will operate in a safe and sound manner, and will have adequate capital to support the risk profile.

For any institution with an Internet or alternative electronic delivery channel, the plan should contain a clear and detailed definition of the market the institution plans to serve and the products and services it will provide through electronic channels. Because the Internet has a potential global market and can reach anyone with Internet access, the selected information on market area and products and services is essential. The marketing plan should explain how the institution would achieve brand recognition.

Confidentiality

Any Applicant desiring confidential treatment of specific portions of the plan and projections must submit the request in writing. The request must discuss the justification for the requested treatment. The Applicant's reasons for requesting confidentiality should specifically demonstrate the harm (for example, loss of its competitive position, invasion of privacy) that would result from public release of information (5 U.S.C. 552 or relevant state law). Information for which confidential treatment is requested should be: (1) specifically identified in the public portion of the application (by reference to the confidential section); (2) separately bound; and (3) labeled "Confidential." The Applicant should follow the same procedure when requesting confidential treatment for the subsequent filing of supplemental information to the plan.

The Applicant should contact the appropriate regulatory agency for specific instructions regarding requests for confidential treatment. The appropriate regulatory agency will determine whether the information will be treated as confidential and will advise the Applicant of any decision to publicly release information labeled as "Confidential."

IV. Marketing Plan

A marketing plan should provide in detail factual support that the institution has reasonable prospects to achieve the revenue projections, customer volume, and key marketing and income targets. The analysis should be based on the most current data available, and the sources of information should be referenced. This section should contain an in-depth discussion of the major planning assumptions for the market analysis, economic, and competitive components used to develop the plans, objectives, and the basis for the assumptions.

A. Product Strategy

- 1) List and describe the general terms of the planned products and services, including activities of any subsidiaries. Discuss any plans to engage in any subprime or speculative lending, including plans to originate loans with high loan-to-value ratios.
- 2) Discuss how the institution will offer products and services over the three years, indicating any variation in the different market areas or distribution channels, and include the time frame for the introduction and the anticipated cost associated with each.

- 3) Describe the institution's plans to engage in any secondary market/mortgage banking activity, including loan participations. Discuss plans to use forward take-out commitments or engage in loan securitization. Describe any plans to engage in hedging activity to mitigate the risks of this activity. Also, discuss plans to retain recourse and servicing.
- 4) Describe the primary sources of loans and deposits and the major methods to solicit them. If using brokers or agents, provide full details of the nature and extent of all such activities, including sources, amounts, fees, and any intended tie-in of compensatory arrangements with the broker or agent.

- 3) Describe the current economic characteristics of the proposed market(s), for example, size, income, and industry and housing patterns.
- 4) Based on the economic characteristics described previously, discuss the economic factors that influence the products and services to be offered. A more in-depth discussion is warranted when different types of services are identified for different market areas in the Description of Business section.

⁹ If obtained, discuss any independent economic survey or market feasibility study.

D. Competitive Analysis

- 1) Compare and contrast the institution's product strategy with its principal competitors in the target market(s). Include expected results in terms of relative strength, market share, and pricing.

VI. Records, Systems, and Controls

- A. Describe the institution's current and/or proposed accounting and internal control systems, indicating any use of electronic processing systems.

- 3) Discuss the institution's asset and liability portfolio in terms of sensitivity to interest rate changes and the impact of earnings and capital and net portfolio value.¹⁰ Discuss the risk limits to control interest rate risk.
- 4) Describe any plans to use hedging activities (for example, futures, options, interest rate swaps, or other derivative instruments).

¹⁰ For OTS filing, see Thrift Bulletin 13a.

- D. Credit Risk

IX. Alternative Business Strategy (Optional unless your regulator requires)

An alternative business strategy details how an institution will operate under scenarios in which market conditions differ significantly from those projected in this business plan. This alternative business strategy should be realistic about the business risks and incorporate sound management of such risks. This alternative strategy should consider potential adverse scenarios relating to the asset or liability mixes, interest rates, operating expenses, marketing costs, and growth rates. This discussion should include realistic plans for how the bank would access additional capital, if needed, in the future and, if applicable, contingency funding plans that address strategies for managing potential liquidity fluctuations. This plan also should discuss any financial safeguards to offset unexpected costs and remain well capitalized.

Periodically, the institution should update this section, especially as the institution becomes more complex and as industry conditions change.

X. Financial Projections

- A. Provide financial information for opening day *pro forma* and quarterly projections for the three years of operations. Also provide annual totals for the Income Statement. The line items in the financial statements should be consistent with the Consolidated Reports of Condition and Income or the Thrift Financial Report (Report)¹¹ so that projected items may be compared conveniently with actual performance. The following reports should be used:

¹¹ See FDIC's Web site, <http://www.fdic.gov/regulations/resources/call/crinst/callinst.html> or <http://www.ots.treas.gov> (link to TFR form and instructions).

Projected Balance Sheet (Schedule RC or SC)

Projected Income Statement (Schedule RI or SO)

Regulatory Capital Schedule (Schedule RI-A or CCR)

The financial statements should be presented in two ways: (1) showing the dollar amounts, and (2) as a percentage of total assets.

- 1) Describe in detail all of the assumptions used to prepare the projected statements, including the assumed interest rate scenario for each interest earning asset and interest costing liability over the term of the business plan. Also present a thorough justification to support proposed capital, including any branch expansion and off-balance-sheet activities contemplated.
 - 2) Provide the basis for the assumptions used for noninterest income and noninterest expense. Indicate the amount of lease expense, capital improvements, and furniture, fixtures, and equipment, including systems and equipment upgrades.
 - 3) Describe the assumptions for the start-up costs, volumes, expected returns, and expected time frame to introduce each new product and service.
- B. Discuss how the institution used marketing studies or surveys to support the institution's projected growth.
- C. Discuss the level of marketing expenses necessary to achieve the projected market share for both loan and deposit products. Assumptions should be consistent with those experienced by other institutions in the target market. Explain any significant variances between the assumptions in the target market.
- D. Provide a sensitivity analysis of the financial projections. A sensitivity analysis provides a realistic stress test of the major underlying assumptions used in the business plan and the resultant financial projections. For example, adjust the financials to reflect the effects of adverse changes in the interest rate environment, changes in the asset/liability mix, higher than expected operating expenses, marketing costs, and/or growth rates.
