withdrawn, and forfeited and payments thereon received and receipted for by any person, regardless of age, in the same manner and with the same binding effect as though such person were of the age of majority, except that a minor or his or her estate shall not be bound on his or her subscription to stock except to the extent of payments actually made thereon.

(b) Whenever a share account is accepted by any building and loan association in the name of any person, regardless of age, the deposit may be withdrawn by the shareholder by any of the following methods:

(i) Check or other instrument in writing. The check or other instrument in writing constitutes a receipt or acquittance if the check or other instrument in writing is signed by the shareholder and constitutes a valid release in discharge to the building and loan association for all payments so made; or

(ii) Electronic means through:

(A) Preauthorized direct withdrawal;

(B) An automatic teller machine;

(C) A debit card;

(D) A transfer by telephone;

(E) A network, including the Internet; or

(2) All trustees, guardians, personal representatives, administrators, and conservators appointed by the courts of this state may invest and reinvest in, acquire, make withdrawals in whole or in part, hold, transfer, or make new or additional investments in or transfers of shares of stock in any (a) building and loan association organized under the laws of the State of Nebraska or (b) federal savings and loan association incorporated under the provisions of the federal Home Owners' Loan Act of 1933, having its principal office and place of business in this state, without an order of approval from any court.

If any such retirement plan, within the judgment of the association, constitutes a qualified plan under the federal Self-Employed Individuals Tax Retirement Act of 1962, or under the terms and provisions of section 408(a) of the Internal Revenue Code, and the regulations promulgated thereunder at the time the trust was established and accepted by the association, is subsequently determined not to be such a qualified plan or subsequently ceases to be such a qualified plan, in whole or in part, the association may continue to act as trustee of any deposits theretofore made under such plan and to dispose of the same in accordance with the directions of the member and beneficiaries thereof. For purposes of this section, real property and real estate shall include a leasehold or subleasehold estate in real property under a lease or sublease the term of which does not expire, or which is renewable automatically or at the option of the holder or of the association so as not to expire for at least five years beyond the maturity of the debt. The aggregate amount of loans made under subdivisions (a) and (b) of this subsection shall not at any time exceed twenty percent of the association's assets. (5) The stock of such association may be accepted as security for a loan of the amount of the withdrawal value of such stock without other security.

(6) An association when so licensed may make loans to its own members upon the terms and security set forth in the Nebraska Installment Loan Act.

(7) Any provisions of this section to the contrary notwithstanding, an association may make any loan that a federal savings and loan association doing business in this state is or may be authorized to make.

(8) An association may invest in loans, obligations, and advances of credit, all of which are referred to in this subsection as loans, made for the payment of expenses of business school, technical training school, college, or university education, but no association shall make any investment in loans under this subsection if the principal amount of its investment in such loans, exclusive of any investment which is or which at the time of its making was otherwise authorized, would thereupon exceed five percent of its assets. Such loans may be secured, partly secured, or unsecured, and the association may require a comaker or comakers, insurance, guaranty under a governmental student loan guarantee plan, or other protection against contingencies. The borrower shall certify to the association that the proceeds of the loan are to be used by a full-time student solely for the payment of expenses of business, technical training school, college, or university education.

(9) An association may participate with other lenders in making loans of any type that an association may otherwise make if (a) each of the lenders is either an instrumentality of the United States Government or is insured by the Federal Deposit Insurance Corporation or, in the case of another lender, the interest of the association in such loan is superior to the participating interests of the other participants and (b) an association whose accounts are insured by the Federal Deposit

Insurance Corporation which may be a federal association or an association chartered by this state, or another association chartered by this state which is not so insured, has otherwise complied with subsection (1) of this section with respect to loans to members.

Reserve fund; requirements; replenishment; increase; reduction; division for federal tax purposes; special increase; approval by department.

Every association organized under the laws of this state for the purposes set forth in section 8-302, except such associations as are conducted upon the serial plan and in which the various series are operated wholly separate and distinct from each other, shall provide a reserve fund for the payment of contingent losses, by setting aside at least five percent of the net earnings for each year to such fund until it reaches at least five percent of the total assets of the association exclusive of cash on hand. Any credit to a reserve account required by any federal agency shall be considered to apply to the reserve fund requirement of this section.

All losses shall be paid out of such fund until the same is exhausted, and whenever the amount in the fund falls below five percent of the total assets, it shall be replenished by annual appropriations of at least five percent of the net earnings until it again reaches the amount. The board of directors shall have power to increase the reserve above five percent, but not to exceed twelve percent, if determined that it is to the best interest of the association and its shareholders. An association may establish such other and additional undivided profits accounts or special reserves as may be ordered by its board of directors. The board of directors may, for federal tax purposes, divide the reserve fund, surplus account, and undivided profits account, in accordance with the provisions of the Internal Revenue Code and regulations adopted pursuant thereto. If, in the opinion of a majority of the board of directors of any such association, a reserve fund of twelve percent is insufficient at any time to cover the probable losses among the assets, or if for other good and sufficient reason they determine it to be for the best interests of the association and its shareholders that the reserve fund be maintained or increased, they shall have power to maintain or increase the fund from the net earnings to an amount not greater than the sum of such probable losses or greater than sufficient to best serve the interest of the association and its shareholders as by them determined. Such special increase of the reserve fund shall first be approved by the Department of Banking and Finance, and if, in the opinion of the department after an examination, such special increase of the reserve fund is deemed necessary or advisable for the protection of stockholders, the department may order such reserve fund increased in like manner and within the same limits as aforesaid. Such reserve fund may at any time, with the consent of the department, be reduced to not less than five percent of the assets.

Dividends; how and when paid.

Every association of the character defined in section 8-326, shall be required, at least annually, to transfer the residue of earnings, after paying expenses and setting aside a sum for the reserve funds as herein provided, as a dividend to members holding share accounts. All such members shall participate in earnings pro rata to the withdrawal value of their respective accounts, except that an association may classify its share accounts according to the character, amount, or duration thereof, or regularity of additions thereto, and may agree in advance to pay an additional rate of earnings, over and above the minimum rate of earnings paid on share accounts, on accounts based on such classifications, and shall regulate such earnings in such manner that each share account in the same classification shall receive the same ratable portion of such additional earnings. Earnings may be declared on the withdrawal value of each share account at the beginning of the accounting period, plus additions thereto made during the period, less amounts previously withdrawn and amounts covered by notice for withdrawal which for earnings purposes shall be deducted from the latest previous additions thereto, computed at the declared rate for the time the funds have been invested determined as next provided. The date of investment shall be the date of actual receipt by the association of an account or an addition to an account, except that if the board of directors shall so determine, accounts in one or more classifications or additions thereto received by the association on or before a date not later than the twentieth day of the month, unless the day

determined is not a business day and in such case it may be the next succeeding business day, shall receive earnings as if invested on the first day of the month in which such payments were received; and if the board shall make such determination, it also shall determine that payments received subsequent to such determination date shall either (1) receive earnings as if invested on the first day of the next succeeding month, or (2) receive earnings from the date of actual receipt by the association. The directors shall determine by resolution the method of calculating the amount of any earnings on share accounts as herein provided, and the time or times when earnings are to be declared, paid, or credited, but the association shall not be required to credit or pay dividends on inactive share accounts of fifty dollars or less.

(2) Every association shall maintain membership records, which shall show the name and address of the member, whether the member is a share account holder, or a borrower, or a share account holder and borrower, and the date of membership thereof. In the case of account-holding members, the association shall obtain a card containing the signature of the owner of such account or his duly authorized representative and shall preserve such signature card in the records of the association.

(3) Associations shall not be required to preserve or keep their records or files for a longer period than five years next after the first day of January of the year following the payment in full of a mortgage or other loan or the closing of a savings or investment account or the final closing or completion of any other contract or transaction; **Provided**, that ledger sheets showing unpaid accounts in favor of members of such savings and loan associations shall not be destroyed.

(4) No liability shall accrue against any association destroying any such records after the expiration of the time provided in subsection (3) of this section, and in any cause or proceedings in which any such records or files may be called in question or be demanded of the association or any officer or employee thereof, a showing that such records and files have been destroyed in accordance with the terms of subsection (3) of this section shall be a sufficient excuse for the failure to produce them.

(5) All causes of action against an association based upon a claim or claims inconsistent with an entry or entries in any savings and loan association record or ledger, made in the regular course of business, shall be deemed to have accrued, and shall accrue, one year after the date of such entry or entries; and no action founded upon such a cause may be brought after the expiration of five years from the date of such accrual.

(6) The provisions of this section, so far as applicable, shall apply to the records of federal savings and loan associations.

(7) Any association may cause any or all records kept by such association to be copied or reproduced by any photostatic, photographic or microfilming process which correctly and permanently copies, reproduces or forms a medium for copying or reproducing the original record on a film or other durable material and such association may thereafter dispose of the original record. Any such copy or reproduction shall be deemed to be an original record for all purposes and shall be treated as an original record in all courts or administrative agencies for the purpose of its admissibility in evidence. A facsimile, exemplification or certified copy of any such copy or reproduction reproduced from a film record shall, for all purposes, be deemed a facsimile, exemplification or certified copy of the original.

Loans; charges authorized; statement; interest rate.

Every association may require borrowing members to pay all reasonable expenses incurred in connection with the making, closing, disbursing, extending, readjusting, or renewing of real estate loans. Such expenses may include abstract, recording, and registration fees, title examinations, survey, escrow services, and taxes or charges imposed upon or in connection with the making and recording of any mortgage. Such reasonable charges may be collected by the association from the borrower and shall not be considered interest or a charge for the use of the money loaned. A charge not exceeding one percent or that allowed a federally chartered association for the premature prepayment may be made. The rate of interest on any loan of money shall be determined and computed upon the assumption that the debt will be paid according to the agreed terms and in the event the loan is paid or collected by court action prior to the term of the loan, any payment charged, received, or taken as an advance or forbearance which is in the nature of and taken into account in the calculation of interest, shall be spread over the stated term of the loan for the purpose of determining the rate of interest. Any amounts paid or contracted to be paid by persons other than the borrower shall not be considered interest and shall not be taken into account in the calculation of interest. Interest may be paid on escrow accounts held for the payment of taxes, insurance, and similar payments, if agreed to in writing by the borrower and association. Loans

may be made by an association under a license granted it pursuant to the Nebraska Installment Loan Act, to borrowing members whose loans are secured by real estate, to the same extent and in the same amount as such loans may lawfully be made to nonborrowing members. The association shall furnish a loan settlement statement to each borrower, indicating in detail the charges and fees such borrower has paid or obligated himself or herself to pay to the association or to any other person in connection with such loan. A copy of such statement shall be retained in the records of the association.

An association may charge and receive interest, on property improvement loans including loans made under Title I of the National Housing Act, as amended, and unsecured loans authorized in section 5(c) of the Home Owners' Loan Act, as amended.

Any federal savings and loan association, having its principal place of business and home office in the State of Nebraska, if permitted by federal law, may convert itself into a state association under Chapter 8, article 3, and amendments thereto, in accordance with the following procedure:

(1) At any regular meeting of the shareholders of any such association, or at any special meeting of the shareholders of such association, in either case called to consider such action and held in accordance with the laws governing such association, such shareholders by an affirmative record vote of the shareholders owning and voting two-thirds of the total number of shares outstanding, present in person or by proxy, may declare by resolution the determination to convert said association into a state association as provided in Chapter 8, article 3, and amendments thereto.

(2) A copy of the minutes of such meeting of the shareholders certified by the president or vice president and the secretary of the meeting, shall be filed within ten days after such meeting in the office of the Department of Banking and Finance, and a copy shall be mailed to the Federal Home Loan Bank Board, Washington, D.C., within ten days after such meeting.
