that a disqualification existed under paragraph (a) of this section.

Instruction to paragraph (b)(4). An issuer will not be able to establish that it has exercised reasonable care unless it has made, in light of the circumstances, factual inquiry into whether any disqualifications exist. The nature and scope of the factual inquiry will vary based on the facts and circumstances concerning, among other things, the issuer and the other offering participants.

(c) Affiliated issuers. For purposes of paragraph (a) of this section, events relating to any affiliated issuer that occurred before the affiliation arose will be not considered disqualifying if the affiliated entity is not:

(1) In control of the issuer; or

(2) Under common control with the issuer by a third party that was in control of the affiliated entity at the time of such events.

(d) Intermediaries. A person that is subject to a statutory disqualification as defined in section 3(a)(39) of the Exchange Act (15 U.S.C. 78c(a)(39)) may not act as, or be an associated person of, an intermediary in a transaction involving the offer or sale of securities in reliance on section 4(a)(6) of the Securities Act (15 U.S.C. 77d(a)(6)) unless so permitted pursuant to Commission rule or order.

Instruction to paragraph (d), §240.17f-2 of this chapter generally requires the fingerprinting of every person who is a partner, director, officer or employee of a broker, subject to certain exceptions.

Securities and Exchange Commission § 229.10

Subpart 229.10—General

§ 229.10 (Item 10) General.

(a) Application of Regulation S-K. This part (together with the General Rules and Regulations under the Securities Act of 1933, 15 U.S.C. 77a et seq., as amended (Securities Act), and the Securities Exchange Act of 1934, 15 U.S.C. 78a et seq., as amended (Exchange Act) (parts 230 and 240 of this chapter), the Interpretative Releases under these Acts (parts 231 and 241 of this chapter) and the forms under these Acts (parts 239 and 249 of this chapter)) states the requirements applicable to the content of the non-financial statement portions of:

(1) Registration statements under the Securities Act (part 239 of this chapter) to the extent provided in the forms to be used for registration under such Act; and

(2) Registration statements under section 12 (subpart C of part 249 of this chapter), annual or other reports under sections 13 and 15(d) (subparts D and E of part 249 of this chapter), going-private transaction statements under section 13 (part 240 of this chapter), tender offer statements under sections 13 and 14 (part 240 of this chapter), annual reports to security holders and proxy and information statements under section 14 (part 240 of this chapter), and any other documents required to be filed under the Exchange Act, to the extent provided in the forms and rules under that Act.

(b) Commission policy on projections. The Commission encourages the use in documents specified in Rule 175 under the Securities Act (§230.175 of this chapter) and Rule 3b–6 under the Exchange Act (§240.3b–6 of this chapter) of management’s projections of future economic performance that have a reasonable basis and are presented in an appropriate format. The guidelines set forth herein represent the Commission’s views on important factors to be considered in formulating and disclosing such projections.

(1) Basis for projections. The Commission believes that management must have the option to present in Commission filings its good faith assessment of a registrant’s future performance. Management, however, must have a...
reasonable basis for such an assessment. Although a history of operations or experience in projecting may be among the factors providing a basis for management’s assessment, the Commission does not believe that a registrant always must have had such a history or experience in order to formulate projections with a reasonable basis. An outside review of management’s projections may furnish additional support for having a reasonable basis for a projection. If management decides to include a report of such a review in a Commission filing, there also should be disclosure of the qualifications of the reviewer, the extent of the review, the relationship between the reviewer and the registrant, and other material factors concerning the process by which any outside review was sought or obtained. Moreover, in the case of a registration statement under the Securities Act, the reviewer would be deemed an expert and an appropriate consent must be filed with the registration statement.

(2) Format for projections. In determining the appropriate format for projections included in Commission filings, consideration must be given to, among other things, the financial items to be projected, the period to be covered, and the manner of presentation to be used. Although traditionally projections have been given for three financial items generally considered to be of primary importance to investors (revenues, net income (loss) and earnings (loss) per share), projection information need not necessarily be limited to these three items. However, management should take care to assure that the choice of items projected is not susceptible of misleading inferences through selective projection of only favorable items. Revenues, net income (loss) and earnings (loss) per share usually are presented together in order to avoid any misleading inferences that may arise when the individual items reflect contradictory trends. There may be instances, however, when it is appropriate to present earnings (loss) from continuing operations in addition to or in lieu of net income (loss). It generally would be misleading to present sales or revenue projections without one of the foregoing measures of income. The period that appropriately may be covered by a projection depends to a large extent on the particular circumstances of the company involved. For certain companies in certain industries, a projection covering a two or three year period may be entirely reasonable. Other companies may not have a reasonable basis for projections beyond the current year. Accordingly, management should select the period most appropriate in the circumstances. In addition, management, in making a projection, should disclose what, in its opinion, is the most probable specific amount or the most reasonable range for each financial item projected based on the selected assumptions. Ranges, however, should not be so wide as to make the disclosures meaningless. Moreover, several projections based on varying assumptions may be judged by management to be more meaningful than a single number or range and would be permitted.

(3) Investor understanding. (i) When management chooses to include its projections in a Commission filing, the disclosures accompanying the projections should facilitate investor understanding of the basis for and limitations of projections. In this regard investors should be cautioned against attributing undue certainty to management’s assessment, and the Commission believes that investors would be aided by a statement indicating management’s intention regarding the furnishing of updated projections. The Commission also believes that investor understanding would be enhanced by disclosure of the assumptions which in management’s opinion are most significant to the projections or are the key factors upon which the financial results of the enterprise depend and encourages disclosure of assumptions in a manner that will provide a framework for analysis of the projection.

(ii) Management also should consider whether disclosure of the accuracy or inaccuracy of previous projections would provide investors with important insights into the limitations of projections. In this regard, consideration should be given to presenting the projections in a format that will facilitate subsequent analysis of the reasons
Securities and Exchange Commission

§ 229.10

for differences between actual and forecast results. An important benefit may arise from the systematic analysis of variances between projected and actual results on a continuing basis, since such disclosure may highlight for investors the most significant risk and profit-sensitive areas in a business operation.

(iii) With respect to previously issued projections, registrants are reminded of their responsibility to make full and prompt disclosure of material facts, both favorable and unfavorable, regarding their financial condition. This responsibility may extend to situations where management knows or has reason to know that its previously disclosed projections no longer have a reasonable basis.

(iv) Since a registrant's ability to make projections with relative confidence may vary with all the facts and circumstances, the responsibility for determining whether to discontinue or to resume making projections is best left to management. However, the Commission encourages registrants not to discontinue or to resume projections in Commission filings without a reasonable basis.

(c) Commission policy on security ratings.

In view of the importance of security ratings (ratings) to investors and the marketplace, the Commission permits registrants to disclose, on a voluntary basis, ratings assigned by rating organizations to classes of debt securities, convertible debt securities and preferred stock in registration statements and periodic reports. Set forth herein are the Commission's views on important matters to be considered in disclosing security ratings.

(1) Securities Act filings. (i) If a registrant includes in a registration statement filed under the Securities Act any rating(s) assigned to a class of securities, it should consider including:

(A) Any other rating intended for public dissemination assigned to such class by a nationally recognized statistical rating organization (NRSRO) (additional NRSRO rating) that is available on the date of the initial filing of the document and that is materially different from any rating disclosed; and

(B) the name of each rating organization whose rating is disclosed; each such rating organization's definition or description of the category in which it rated the class of securities; the relative rank of each rating within the assigning rating organization's overall classification system; and a statement informing investors that a security rating is not a recommendation to buy, sell or hold securities, that it may be subject to revision or withdrawal at any time by the assigning rating organization, and that each rating should be evaluated independently of any other rating. The registrant also should include the written consent of any rating organization that is not a NRSRO whose rating is included. With respect to the written consent of any NRSRO whose rating is included, see Rule 436(g) under the Securities Act (§ 230.436(g) of this chapter).

(ii) If a change in a rating already included is available subsequent to the filing of the registration statement, but prior to its effectiveness, the registrant should consider including such rating change in the final prospectus. If the rating change is material or if a materially different rating from any disclosed becomes available during this period, the registrant should consider amending the registration statement to include the rating change or additional rating and recirculating the preliminary prospectus.

(iii) If a materially different additional NRSRO rating or a material change in a rating already included becomes available during any period in which offers or sales are being made, the registrant should consider disclosing such additional rating or rating change by means of post-effective amendment or sticker to the prospectus pursuant to Rule 424(b) under the Securities Act (§ 230.424(b) of this chapter), unless, in the case of a registration statement on Form S–3 (§ 239.13 of this chapter), it has been disclosed in a document incorporated by reference into the registration statement subsequent to its effectiveness and prior to the termination of the offering.

(2) Exchange Act filings. (i) If a registrant includes in a registration statement or periodic report filed under the Exchange Act any rating(s) assigned to a class of securities, it should consider
§ 229.10

including the information specified in paragraphs (c)(1)(i)(A) and (B) of this section.

(ii) If there is a material change in the rating(s) assigned by any NRSRO(s) to any outstanding class(es) of securities of a registrant subject to the reporting requirements of section 13(a) or 15(d) of the Exchange Act, the registrant should consider filing a report on Form 8-K (§249.308 of this chapter) or other appropriate report under the Exchange Act disclosing such rating change.

(d) [Reserved]

(e) Use of non-GAAP financial measures in Commission filings. (1) Whenever one or more non-GAAP financial measures are included in a filing with the Commission:

(i) The registrant must include the following in the filing:

(A) A presentation, with equal or greater prominence, of the most directly comparable financial measure or measures calculated and presented in accordance with Generally Accepted Accounting Principles (GAAP);

(B) A reconciliation (by schedule or other clearly understandable method), which shall be quantitative for historical non-GAAP measures presented, and quantitative, to the extent available without unreasonable efforts, for forward-looking information, of the differences between the non-GAAP financial measure disclosed or released with the most directly comparable financial measure or measures calculated and presented in accordance with GAAP identified in paragraph (e)(1)(i)(A) of this section;

(C) A statement disclosing the reasons why the registrant’s management believes that presentation of the non-GAAP financial measure provides useful information to investors regarding the registrant’s financial condition and results of operations; and

(D) To the extent material, a statement disclosing the additional purposes, if any, for which the registrant’s management uses the non-GAAP financial measure that are not disclosed pursuant to paragraph (e)(1)(i)(C) of this section; and

(ii) A registrant must not:

(A) Exclude charges or liabilities that required, or will require, cash settlement, or would have required cash settlement absent an ability to settle in another manner, from non-GAAP liquidity measures, other than the measures earnings before interest and taxes (EBIT) and earnings before interest, taxes, depreciation, and amortization (EBITDA);

(B) Adjust a non-GAAP performance measure to eliminate or smooth items identified as non-recurring, infrequent or unusual, when the nature of the charge or gain is such that it is reasonably likely to recur within two years or there was a similar charge or gain within the prior two years;

(C) Present non-GAAP financial measures on the face of the registrant’s financial statements prepared in accordance with GAAP or in the accompanying notes;

(D) Present non-GAAP financial measures on the face of any pro forma financial information required to be disclosed by Article 11 of Regulation S-X (17 CFR 210.11–01 through 210.11–03); or

(E) Use titles or descriptions of non-GAAP financial measures that are the same as, or confusingly similar to, titles or descriptions used for GAAP financial measures; and

(iii) If the filing is not an annual report on Form 10-K or Form 20-F (17 CFR 249.220f), a registrant need not include the information required by paragraphs (e)(1)(i)(C) and (e)(1)(i)(D) of this section if that information was included in its most recent annual report on Form 10-K or Form 20-F or a more recent filing, provided that the required information is updated to the extent necessary to meet the requirements of paragraphs (e)(1)(i)(C) and (e)(1)(i)(D) of this section at the time of the registrant’s current filing.

(2) For purposes of this paragraph (e), a non-GAAP financial measure is a numerical measure of a registrant’s historical or future financial performance, financial position or cash flows that:

(i) Excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statement of comprehensive income, balance sheet or
statement of cash flows (or equivalent statements) of the issuer; or
(ii) Includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented.

(3) For purposes of this paragraph (e), GAAP refers to generally accepted accounting principles in the United States, except that:
(i) In the case of foreign private issuers whose primary financial statements are prepared in accordance with non-U.S. generally accepted accounting principles, GAAP refers to the principles under which those primary financial statements are prepared; and
(ii) In the case of foreign private issuers that include a non-GAAP financial measure derived from or based on a measure calculated in accordance with U.S. generally accepted accounting principles, GAAP refers to U.S. generally accepted accounting principles for purposes of the application of the requirements of this paragraph (e) to the disclosure of that measure.

(4) For purposes of this paragraph (e), non-GAAP financial measures exclude:
(i) Operating and other statistical measures; and
(ii) Ratios or statistical measures calculated using exclusively one or both of:
(A) Financial measures calculated in accordance with GAAP; and
(B) Operating measures or other measures that are not non-GAAP financial measures.

(5) For purposes of this paragraph (e), non-GAAP financial measures exclude financial measures required to be disclosed by GAAP, Commission rules, or a system of regulation of a government or governmental authority or self-regulatory organization that is applicable to the registrant. However, the financial measure should be presented outside of the financial statements unless the financial measure is required or expressly permitted by the standard-setter that is responsible for establishing the GAAP used in such financial statements.

(6) The requirements of paragraph (e) of this section shall not apply to a non-GAAP financial measure included in disclosure relating to a proposed business combination, the entity resulting therefrom or an entity that is a party thereto, if the disclosure is contained in a communication that is subject to §230.425 of this chapter, §240.14a–12 or §240.14d–2(b)(2) of this chapter or §229.1015 of this chapter.

(7) The requirements of paragraph (e) of this section shall not apply to investment companies registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8).

Note to paragraph (e): A non-GAAP financial measure that would otherwise be prohibited by paragraph (e)(1)(ii) of this section is permitted in a filing of a foreign private issuer if:
1. The non-GAAP financial measure relates to the GAAP used in the registrant’s primary financial statements included in its filing with the Commission;
2. The non-GAAP financial measure is required or expressly permitted by the standard-setter that is responsible for establishing the GAAP used in such financial statements; and
3. The non-GAAP financial measure is included in the annual report prepared by the registrant for use in the jurisdiction in which it is domiciled, incorporated or organized or for distribution to its security holders.

(f) Smaller reporting companies. The requirements of this part apply to smaller reporting companies. A smaller reporting company may comply with either the requirements applicable to smaller reporting companies or the requirements applicable to other companies for each item, unless the requirements for smaller reporting companies specify that smaller reporting companies must comply with the smaller reporting company requirements. (1) Definition of smaller reporting company. As used in this part, the term smaller reporting company means an issuer that is not an investment company, an asset-backed issuer (as defined in §229.1101), or a majority-owned subsidiary of a parent that is not a smaller reporting company and that:

(i) Had a public float of less than $250 million; or

(ii) Had annual revenues of less than $100 million and either:

(A) No public float; or

(B) A public float of less than $700 million.

(2) Determination. Whether an issuer is a smaller reporting company is determined on an annual basis.

(i) For issuers that are required to file reports under section 13(a) or 15(d) of the Exchange Act:

(A) Public float is measured as of the last business day of the issuer’s most recently completed second fiscal quarter and computed by multiplying the aggregate worldwide number of shares of its voting and non-voting common equity held by non-affiliates by the price at which the common equity was last sold, or the average of the bid and asked prices of common equity, in the principal market for the common equity;

(B) Annual revenues are as of the most recently completed fiscal year for which audited financial statements are available; and

(C) An issuer must reflect the determination of whether it came within the definition of smaller reporting company in its quarterly report on Form 10-Q for the first fiscal quarter of the next year, indicating on the cover page of that filing, and in subsequent filings for that fiscal year, whether it is a smaller reporting company, except that, if a determination based on public float indicates that the issuer is newly eligible to be a smaller reporting company, the issuer may choose to reflect this determination beginning with its first quarterly report on Form 10-Q following the determination, rather than waiting until the first fiscal quarter of the next year.

(ii) For determinations based on an initial registration statement under the Securities Act or Exchange Act for shares of its common equity:

(A) Public float is measured as of a date within 30 days of the date of the filing of the registration statement and computed by multiplying the aggregate worldwide number of shares of its voting and non-voting common equity held by non-affiliates before the registration plus, in the case of a Securities Act registration statement, the number of shares of its voting and non-voting common equity included in the registration statement by the estimated public offering price of the shares;

(B) Annual revenues are as of the most recently completed fiscal year for which audited financial statements are available; and

(C) The issuer must reflect the determination of whether it came within the definition of smaller reporting company in the registration statement and must appropriately indicate on the cover page of the filing, and subsequent filings for the fiscal year in which the filing is made, whether it is a smaller reporting company. The issuer must re-determine its status at the end of its second fiscal quarter and then reflect any change in status as provided in paragraph (f)(2)(i)(C) of this section. In the case of a determination based on an initial Securities Act registration statement, an issuer that was not determined to be a smaller reporting company has the option to re-determine its status at the conclusion of the offering covered by the registration statement based on the actual offering price and number of shares sold.

(iii) Once an issuer determines that it does not qualify for smaller reporting company status because it exceeded one or more of the current thresholds, it will remain unqualified unless when making its annual determination either:

(A) It determines that its public float was less than $200 million; or

(B) It determines that its annual revenues were less than $100 million; or

(C) It determines that it is no longer a majority-owned subsidiary of a parent that is not a smaller reporting company; or

(D) It determines that it ceased to be an asset-backed issuer.
(B) It determines that its public float and its annual revenues meet the requirements for subsequent qualification included in the following chart:

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>Less than $100 million</td>

<td>Revenues—Less than $80 million</td>

INSTRUCTION 1 TO PARAGRAPH (F): A registrant that qualifies as a smaller reporting company under the public float thresholds identified in paragraphs (f)(1)(i) and (f)(2)(iii)(A) of this section will qualify as a smaller reporting company regardless of its revenues.

Disclosure relating to any plan shall include such matters as:

1. In the case of a registration statement on Form S-1, a statement in narrative form indicating the registrant’s opinion as to the period of time that the proceeds from the offering will satisfy cash requirements and whether in the next six months it will be necessary to raise additional funds to meet the expenditures required for operating the business of the registrant; the specific reasons for such opinion shall be set forth and categories of expenditures and sources of cash resources shall be identified; however, amounts of expenditures and cash resources need not be provided; in addition, if the narrative statement is based on a cash budget, such budget shall be furnished to the Commission as supplemental information, but not as part of the registration statement;

2. An explanation of material product research and development to be performed during the period covered in the plan;

3. Any anticipated material acquisition of plant and equipment and the capacity thereof;

4. Any anticipated material changes in number of employees in the various departments such as research and development, production, sales or administration; and

5. Other material areas which may be peculiar to the registrant’s business.

(c) Narrative description of business. (1) Describe the business done and intended to be done by the registrant and its subsidiaries, focusing upon the registrant’s dominant segment or each reportable segment about which financial information is presented in the financial statements. To the extent material to an understanding of the registrant’s business taken as a whole, the description of each such segment shall include the information specified in paragraphs (c)(1) through (x) of this section. The matters specified in paragraphs (c)(1) (xi) through (xiii) of this section shall be discussed with respect to the registrant’s business in general; where material, the segments to which these matters are significant shall be identified.

(i) The principal products produced and services rendered by the registrant in the segment and the principal markets for, and methods of distribution of, the segment’s principal products and services. In addition, state for each of the last three fiscal years the amount or percentage of total revenue contributed by any class of similar products or services which accounted for 10 percent or more of consolidated revenue in any of the last three fiscal years or 15 percent or more of consolidated revenue, if total revenue did not exceed $50,000,000 during any of such fiscal years.

(ii) A description of the status of a product or segment (e.g. whether in the planning stage, whether prototypes exist, the degree to which product design has progressed or whether further engineering is necessary), if there has been a public announcement of, or if the registrant otherwise has made public information about, a new product or segment that would require the investment of a material amount of the assets of the registrant or that otherwise is material. This paragraph is not intended to require disclosure of otherwise nonpublic corporate information the disclosure of which would affect adversely the registrant’s competitive position.

(iii) The sources and availability of raw materials.

(iv) The importance to the segment and the duration and effect of all patents, trademarks, licenses, franchises and concessions held.

(v) The extent to which the business of the segment is or may be seasonal.

(vi) The practices of the registrant and the industry (respective industries) relating to working capital items (e.g., where the registrant is required to carry significant amounts of inventory to meet rapid delivery requirements of customers or to assure itself of a continuous allotment of goods from suppliers; where the registrant provides rights to return merchandise; or where the registrant has provided extended payment terms to customers).

(vii) The dependence of the segment upon a single customer, or a few customers, the loss of any one or more of which would have a material adverse effect on the segment. The name of any...
customer and its relationship, if any, with the registrant or its subsidiaries shall be disclosed if sales to the customer by one or more segments are made in an aggregate amount equal to 10 percent or more of the registrant’s consolidated revenues and the loss of such customer would have a material adverse effect on the registrant and its subsidiaries taken as a whole. The names of other customers may be included, unless in the particular case the effect of including the names would be misleading. For purposes of this paragraph, a group of customers under common control or customers that are affiliates of each other shall be regarded as a single customer.

(viii) The dollar amount of backlog orders believed to be firm, as of a recent date and as of a comparable date in the preceding fiscal year, together with an indication of the portion thereof not reasonably expected to be filled within the current fiscal year, and seasonal or other material aspects of the backlog. (There may be included as firm orders government orders that are firm but not yet funded and contracts awarded but not yet signed, provided an appropriate statement is added to explain the nature of such orders and the amount thereof. The portion of orders already included in sales or operating revenues on the basis of percentage of completion or program accounting shall be excluded.)

(ix) A description of any material portion of the business that may be subject to renegotiation of profits or termination of contracts or subcontracts at the election of the Government.

(x) Competitive conditions in the business involved including, where material, the identity of the particular markets in which the registrant competes, an estimate of the number of competitors and the registrant’s competitive position, if known or reasonably available to the registrant. Separate consideration shall be given to the principal products or services or classes of products or services of the segment, if any. Generally, the names of competitors need not be disclosed. The registrant may include such names, unless in the particular case the effect of including the names would be misleading. Where, however, the registrant knows or has reason to know that one or a small number of competitors is dominant in the industry it shall be identified. The principal methods of competition (e.g., price, service, warranty or product performance) shall be identified, and positive and negative factors pertaining to the competitive position of the registrant, to the extent that they exist, shall be explained if known or reasonably available to the registrant.

(xi) [Reserved]

(xii) Appropriate disclosure also shall be made as to the material effects that compliance with Federal, State and local provisions which have been enacted or adopted regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment, may have upon the capital expenditures, earnings and competitive position of the registrant and its subsidiaries. The registrant shall disclose any material estimated capital expenditures for environmental control facilities for the remainder of its current fiscal year and its succeeding fiscal year and for such further periods as the registrant may deem materials.

(xiii) The number of persons employed by the registrant.

(d) [Reserved]

(iii) If you do not make your filings available in this manner, whether you voluntarily will provide electronic or paper copies of your filings free of charge upon request.

(f) Reports to security holders. Disclose the following information in any registration statement you file under the Securities Act:

(h) Smaller reporting companies. This business development description should include:

Disclose your internet address, if available.

(6) Foreign issuers. Provide the information required by Item 101(g) of Regulation S–K (§ 229.101(g)).

Instructions to Item 101: 1. In determining what information about the segments is material to an understanding of the registrant’s business taken as a whole and therefore required to be disclosed, pursuant to paragraph (c) of this Item, the registrant should take into account both quantitative and qualitative factors such as the significance of the matter to the registrant (e.g., whether a matter with a relatively minor impact on the registrant’s business is represented by management to be important to its future profitability), the pervasiveness of the matter (e.g., whether it affects or may affect numerous items in the segment information), and the impact of the matter (e.g., whether it distorts the trends reflected in the segment information). Situations may arise when information should be disclosed about a segment, although the information in quantitative terms may not appear significant to the registrant’s business taken as a whole.

2. Base the determination of whether information about segments is required for a particular year upon an evaluation of interperiod comparability. For instance, interperiod comparability would require a registrant to report segment information in the current period even if not material under the criteria for reportability of FASB ASC Topic 280, Segment Reporting, if a segment has been significant in the immediately preceding period and the registrant expects it to be significant in the future.

3. The Commission, upon written request of the registrant and where consistent with the protection of investors, may permit the omission of any of the information required by this Item or the furnishing in substitution thereof of appropriate information of comparable character.

§ 229.102 (Item 102) Description of property.

To the extent material, disclose the location and general character of the
§ 229.103  registrant’s principal physical properties. In addition, identify the segment(s), as reported in the financial statements, that use the properties described. If any such property is not held in fee or is held subject to an encumbrance that is material to the registrant, so state and describe briefly how held.

Instruction 1 to Item 102: This item requires information that will reasonably inform investors as to the suitability, adequacy, productive capacity, and extent of utilization of the registrant’s principal physical properties of the registrant and its subsidiaries, to the extent the described properties are material. A registrant should engage in a comprehensive consideration of the materiality of its properties. If appropriate, descriptions may be provided on a collective basis; detailed descriptions of the physical characteristics of individual properties or legal descriptions by metes and bounds are not required and shall not be given.

Instruction 2 to Item 102: In determining materiality under this Item, the registrant should take into account both quantitative and qualitative factors. See Instruction 1 to Item 101 of Regulation S–K (§ 229.101).

Instruction 3 to Item 102: Registrants engaged in mining operations must refer to and, if required, provide the disclosure under §§ 229.1300 through 229.1305 (subpart 1300 of Regulation S–K), in addition to any disclosure required by this section.

Instruction 4 to Item 102: A registrant engaged in oil and gas producing activities shall provide the information required by Subpart 1200 of Regulation S–K.

Instruction 5 to Item 102: The definitions in § 210.4–10(a) of Regulation S–X (17 CFR 210) shall apply to this Item with respect to oil and gas operations.

Instruction 6 to Item 102: The attention of certain issuers engaged in oil and gas producing activities is directed to the information called for in Securities Act Industry Guide 4 (referred to in § 229.801(d)).

Instruction 7 to Item 102: The attention of issuers engaged in real estate activities is directed to the information called for in Guide 5 (§ 229.801(e) of this chapter).

§ 229.103 (Item 103) Legal proceedings.

Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the registrant or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

Instructions to Item 103: 1. If the business ordinarily results in actions for negligence or other claims, no such action or claim need be described unless it departs from the normal kind of such actions.

2. No information need be given with respect to any proceeding that involves primarily a claim for damages if the amount involved, exclusive of interest and costs, does not exceed 10 percent of the current assets of the registrant and its subsidiaries on a consolidated basis. However, if any proceeding presents in large degree the same legal and factual issues as other proceedings pending or known to be contemplated, the amount involved in such other proceedings shall be included in computing such percentage.

3. Notwithstanding Instructions 1 and 2, any material bankruptcy, receivership, or similar proceeding with respect to the registrant or any of its significant subsidiaries shall be described.

4. Any material proceedings to which any director, officer or affiliate of the registrant, any owner of record or beneficially of more than five percent of any class of voting securities of the registrant, or any associate of any such director, officer, affiliate of the registrant, or security holder is a party adverse to the registrant or any of its subsidiaries or has a material interest adverse to the registrant or any of its subsidiaries also shall be described.

5. Notwithstanding the foregoing, an administrative or judicial proceeding (including, for purposes of A and B of this Instruction, proceedings which present in large degree the same issues) arising under any Federal, State or local provisions that have been enacted or adopted regulating the discharge of materials into the environment or primary for the purpose of protecting the environment shall not be deemed “ordinary routine litigation incidental to the business” and shall be described if:

A. Such proceeding is material to the business or financial condition of the registrant;

B. Such proceeding involves primarily a claim for damages, or involves potential monetary sanctions, capital expenditures, deferred charges or charges to income and the amount involved, exclusive of interest and costs, exceeds 10 percent of the current...

(vii) The total number of mining-related fatalities.

Instruction to Item 104(a)(1)(vii): Registrants must report all fatalities occurring at a coal or other mine during the period covered by the report unless the fatality has been determined by MSHA to be unrelated to mining activity.

(2) A list of coal or other mines, of which the registrant or a subsidiary of the registrant is an operator, that receive written notice from the Mine Safety and Health Administration of:

(i) A pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to the cause and effect of coal or other mine health or safety hazards under section 104(e) of such Act (30 U.S.C. 814(e)); or

(ii) The potential to have such a pattern.

(3) Any pending legal action before the Federal Mine Safety and Health Review Commission involving such coal or other mine.

Instruction to Item 104(a)(3): The registrant must report the total number of legal actions that were pending before the Federal Mine Safety and Health Review Commission as of the last day of the time period covered by the report, as well as the aggregate number of legal actions instituted and the aggregate number of legal actions resolved during the reporting period. With respect to the total number of legal actions that were pending before the Federal Mine Safety and Health Review Commission as of the last day of the time period covered by the report, the registrant must also report the number of such legal actions that are:

In addition, the registrant must provide a statement, in an appropriately captioned section of the periodic report, that the information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and this Item is included in exhibit 95 to the periodic report. 

2. When the disclosure required by this item is included in an exhibit to an annual report on Form 10–K, the information is to be provided for the registrant’s fiscal year. 

§ 229.105 (Item 105) Risk factors. 

Where appropriate, provide under the caption “Risk Factors” a discussion of the most significant factors that make an investment in the registrant or offering speculative or risky. This discussion must be concise and organized logically. Do not present risks that could apply generically to any registrant or any offering. Explain how the risk affects the registrant or the securities being offered. Set forth each risk factor under a subcaption that adequately describes the risk. If the risk factor discussion is included in a registration statement, it must immediately follow the summary section. If you do not include a summary section, the risk factor section must immediately follow the cover page of the prospectus or the pricing information section that immediately follows the cover page. Pricing information means price and price-related information that you may omit from the prospectus in an effective registration statement based on Rule 430A (§230.430A(a) of this chapter). (a) Market information. 

(1)(i) Identify the principal United States market(s) and the corresponding trading symbol(s) for each class of the registrant’s common equity. In the case of foreign registrants, also identify the principal foreign public trading market(s), if any, and the corresponding trading symbol(s) for each class of the registrant’s common equity. 

(ii) If the principal United States market for such common equity is not an exchange, indicate, as applicable, that any over-the-counter market quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions. 

(iii) Where there is no established public trading market for a class of common equity, furnish a statement to that effect and, if applicable, state the range of high and low bid information for each full quarterly period within the two most recent fiscal years and any subsequent interim period for which financial statements are included, or are required to be included by 17 CFR 210.3–01 through 210.3–20 (Article 3 of Regulation S–X), indicating the source of such quotations. Reference to quotations shall be qualified by appropriate explanation. For purposes of this Item the existence of limited or sporadic quotations should not
Securities and Exchange Commission § 229.201

of itself be deemed to constitute an "established public trading market."

(2) If the information called for by this paragraph (a) is being presented in a registration statement on Form S–1 (§ 239.11 of this chapter) under the Securities Act or on Form 10 (§ 249.210 of this chapter) under the Exchange Act relating to a class of common equity for which at the time of filing there is no established United States public trading market, indicate the amount(s) of common equity:

(ii) That could be sold pursuant to § 230.144 of this chapter or that the registrant has agreed to register under the Securities Act for sale by security holders; or

(iii) That is being, or has been publicly proposed to be, publicly offered by the registrant (unless such common equity is being offered pursuant to an employee benefit plan or dividend reinvestment plan), the offering of which could have a material effect on the market price of the registrant’s common equity.

(b) Holders. (1) Set forth the approximate number of holders of each class of common equity of the registrant as of the latest practicable date.

(2) If the information called for by this paragraph (b) is being presented in a registration statement filed pursuant to the Securities Act or a proxy statement or information statement filed pursuant to the Exchange Act that relates to an acquisition, business combination or other reorganization, indicate the effect of such transaction on the amount and percentage of present holdings of the registrant’s common equity owned beneficially by (i) any person (including any group as that term is used in section 13(d)(3) of the Exchange Act) who is known to the registrant to be the beneficial owner of more than five percent of any class of the registrant’s common equity and (ii) each director and nominee and (iii) all directors and officers as a group, and the registrant’s present commitments to such persons with respect to the issuance of shares of any class of its common equity.

(c) Dividends. (1) [Reserved]

(2) Where registrants have a record of paying no cash dividends although earnings indicate an ability to do so, they are encouraged to consider the question of their intention to pay cash dividends in the foreseeable future and, if no such intention exists, to make a statement of that fact in the filing. Registrants which have a history of paying cash dividends also are encouraged to indicate whether they currently expect that comparable cash dividends will continue to be paid in the future and, if not, the nature of the change in the amount or rate of cash dividend payments.

(d) Securities authorized for issuance under equity compensation plans. No disclosure is required with respect to

2. For purposes of this paragraph, an “individual compensation arrangement” includes, but is not limited to, the following: a written compensation contract within the meaning of “employee benefit plan” under §236.405 of this chapter and a plan (whether or not set forth in any formal document) applicable to one person as provided under Item 402(a)(6)(1) of Regulation S-K (§229.402(a)(6)(1)).

3. If more than one class of equity security is issued under its equity compensation plans, a registrant should aggregate plan information for each class of security.

4. A registrant may aggregate information regarding individual compensation arrangements with the plan information required under paragraph (d)(1)(i) and (ii) of this Item, as applicable.

5. A registrant may aggregate information regarding a compensation plan assumed in connection with a merger, consolidation or other acquisition transaction pursuant to which the registrant may make subsequent grants or awards of its equity securities with the plan information required under paragraph (d)(1)(i) and (ii) of this Item with respect to any individual options, warrants or rights assumed in connection with a merger, consolidation or other acquisition transaction.

6. To the extent that the number of securities remaining available for future issuance disclosed in column (c) includes securities available for future issuance under any compensation plan or individual compensation arrangement other than upon the exercise of an option, warrant or right, disclose the number of securities and type of plan separately for each such plan in a footnote to the table.

7. If the description of an equity compensation plan set forth in a registrant’s financial statements contains the disclosure required by paragraph (d)(3) of this Item, a cross-reference to such description will satisfy the requirements of paragraph (d)(3) of this Item.

8. If an equity compensation plan contains a formula for calculating the number of securities available for issuance under the plan, including, without limitation, a formula that automatically increases the number of securities available for issuance by a percentage of the number of outstanding securities of the registrant, a description of this formula shall be disclosed in a footnote to the table.

9. Except where it is part of a document that is incorporated by reference into a prospectus, the information required by this paragraph need not be provided in any registration statement filed under the Securities Act.

(e) Performance graph. (1) Provide a line graph comparing the yearly percentage change in the registrant’s cumulative total shareholder return on a class of common stock registered under section 12 of the Exchange Act (as measured by dividing the sum of the
cumulative amount of dividends for the measurement period, assuming dividend reinvestment, and the difference between the registrant's share price at the end and the beginning of the measurement period; by the share price at the beginning of the measurement period with:

(i) The cumulative total return of a broad equity market index assuming reinvestment of dividends, that includes companies whose equity securities are traded on the same exchange or are of comparable market capitalization; provided, however, that if the registrant is a company within the Standard & Poor's 500 Stock Index, the registrant must use that index; and

(ii) The cumulative total return, assuming reinvestment of dividends, of:

(A) A published industry or line-of-business index;

(B) Peer issuer(s) selected in good faith. If the registrant does not select its peer issuer(s) on an industry or line-of-business basis, the registrant shall disclose the basis for its selection; or

(C) Issuer(s) with similar market capitalization(s), but only if the registrant does not use a published industry or line-of-business index and does not believe it can reasonably identify a peer group. If the registrant uses this alternative, the graph shall be accompanied by a statement of the reasons for this selection.

(2) For purposes of paragraph (e)(1) of this Item, the term "measurement period" shall be the period beginning at the "measurement point" established by the market close on the last trading day before the beginning of the registrant's fifth preceding fiscal year, through and including the end of the registrant's last completed fiscal year. If the class of securities has been registered under section 12 of the Exchange Act (15 U.S.C. 78l) for a shorter period of time, the period covered by the comparison may correspond to that time period.

(3) For purposes of paragraph (e)(1)(ii)(A) of this Item, the term "published industry or line-of-business index" means any index that is prepared by a party other than the registrant or an affiliate and is accessible to the registrant's security holders; provided, however, that registrants may use an index prepared by the registrant or affiliate if such index is widely recognized and used.

(4) If the registrant selects a different index from an index used for the immediately preceding fiscal year, explain the reason(s) for this change and also compare the registrant's total return with that of both the newly selected index and the index used in the immediately preceding fiscal year.

Instructions to Item 201(e): 1. In preparing the required graphic comparisons, the registrant should:

a. Use, to the extent feasible, comparable methods of presentation and assumptions for the total return calculations required by paragraph (e)(1) of this Item; provided, however, that if the registrant constructs its own peer group index under paragraph (e)(1)(ii)(B), the same methodology must be used in calculating both the registrant's total return and that on the peer group index; and

b. Assume the reinvestment of dividends into additional shares of the same class of equity securities at the frequency with which dividends are paid on such securities during the applicable fiscal year.

2. In constructing the graph:

a. The closing price at the measurement point must be converted into a fixed investment, stated in dollars, in the registrant's stock (or in the stocks represented by a given index) with cumulative returns for each subsequent fiscal year measured as a change from that investment; and

b. Each fiscal year should be plotted with points showing the cumulative total return as of that point. The value of the investment as of each point plotted on a given return line is the number of shares held at that point multiplied by the then-prevailing share price.

3. The registrant is required to present information for the registrant's last five fiscal years, and may choose to graph a longer period; but the measurement point, however, shall remain the same.

4. Registrants may include comparisons using performance measures in addition to total return, such as return on average common shareholders' equity.

5. If the registrant uses a peer issuer(s) comparison or comparison with issuer(s) with similar market capitalizations, the identity of those issuers must be disclosed and the returns of each component issuer of the group must be weighted according to the respective issuer's stock market capitalization at the beginning of each period for which a return is indicated.
§ 229.202  

6. Smaller reporting companies. A registrant that qualifies as a smaller reporting company, as defined by §229.10(f)(5), is not required to provide the information required by paragraph (e) of this Item.

7. The information required by paragraph (e) of this Item need not be provided in any filings other than an annual report to security holders required by Exchange Act Rule 14a-3 (17 CFR 240.14a-3) or Exchange Act Rule 14c-3 (17 CFR 240.14c-3) that precedes or accompanies a registrant’s proxy or information statement relating to an annual meeting of security holders at which directors are to be elected (or special meeting or written consents in lieu of such meeting). Such information will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.

8. The information required by paragraph (e) of this Item shall not be deemed to be “soliciting material” or to be “filed” with the Commission or subject to Regulation 14A or 14C (17 CFR 240.14a–1–240.14a–104 or 240.14c–1–240.14c–101), other than as provided in this item, or to the liabilities of section 18 of the Exchange Act (15 U.S.C. 78r), except to the extent that the registrant specifically requests that such information be treated as soliciting material or specifically incorporates it by reference into a filing under the Securities Act or the Exchange Act.

Instruction 3 to Item 201 The computation of the approximate number of holders of registrant’s common equity may be based upon the number of record holders or also may include individual participants in security position listings. See Rule 17Ad–8 under the Exchange Act. The method of computation that is chosen shall be indicated.

Instruction 4 to Item 201 If the registrant is a foreign issuer, describe briefly:

B. All taxes, including withholding provisions, to which United States common equity holders are subject under existing laws and regulations of the foreign country in which the registrant is organized. Include a brief description of pertinent provisions of any reciprocal tax treaty between such foreign country and the United States regarding withholding. If there is no such treaty, so state.

Instruction 5 to Item 201 If the registrant is a foreign private issuer whose common equity of the class being registered is wholly or partially in bearer form, the response to this Item shall so indicate together with as much information as the registrant is able to provide with respect to security holdings in the United States. If the securities being registered trade in the United States in the form of American Depositary Receipts or similar certificates, the response to this Item shall so indicate together with the name of the depositary issuing such receipts and the number of shares or other units of the underlying security representing the trading units in such receipts.

(4) Provisions restricting the declaration of dividends or requiring the maintenance of any asset ratio or the creation or maintenance of reserves;

(c) Warrants and rights. If the securities described are to be offered pursuant to warrants or rights state:

(1) The amount of securities called for by such warrants or rights;

§ 229.303 Management’s discussion and analysis of financial condition and results of operations.

(a) Full fiscal years. Discuss registrant’s financial condition, changes in financial condition and results of operations. The discussion shall provide information as specified in paragraphs (a)(1) through (5) of this Item and also shall provide such other information that the registrant believes to be necessary to an understanding of its financial condition, changes in financial condition and results of operations. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated. Where in the registrant’s judgment a discussion of segment information and/or of other subdivisions (e.g., geographic areas) of the registrant’s business would be appropriate to an understanding of such business, the discussion shall focus on each relevant, reportable segment and/or other subdivision of the business and on the registrant as a whole.

(1) Liquidity. Identify any known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the registrant’s liquidity increasing or decreasing in any material way. If a material deficiency is identified, indicate the course of action that the registrant has taken or proposes to take to remedy the deficiency. Also identify and separately describe internal and external sources of liquidity, and briefly discuss any material unused sources of liquid assets.

(2) Capital resources. (i) Describe the registrant’s material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purpose of such commitments and the anticipated source of funds needed to fulfill such commitments.

(ii) Describe any known material trends, favorable or unfavorable, in the registrant’s capital resources. Indicate any expected material changes in the mix and relative cost of such resources. The discussion shall consider changes between equity, debt and any off-balance sheet financing arrangements.

(3) Results of operations. (i) Describe any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, indicate the extent to which income was so affected. In addition, describe any other significant components of revenues or expenses that, in the registrant’s judgment, should be described in order to understand the registrant’s results of operations.

(ii) Describe any known trends or uncertainties that have had or that the registrant reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations. If the registrant knows of events that will cause a material change in the relationship between costs and revenues (such as known future increases in costs of labor or materials or price increases or inventory adjustments), the change in the relationship shall be disclosed.
(iii) To the extent that the financial statements disclose material increases in net sales or revenues, provide a narrative discussion of the extent to which such increases are attributable to increases in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.

(iv) For the three most recent fiscal years of the registrant or for those fiscal years in which the registrant has been engaged in business, whichever period is shortest, discuss the impact of inflation and changing prices on the registrant’s net sales and revenues and on income from continuing operations.

(4) Off-balance sheet arrangements. (i) In a separately-captioned section, discuss the registrant’s off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the registrant’s financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors. The disclosure shall include the items specified in paragraphs (a)(4)(i)(A), (B), (C) and (D) of this Item to the extent necessary to an understanding of such arrangements and effect and shall also include such other information that the registrant believes is necessary for such an understanding.

(A) The nature and business purpose to the registrant of such off-balance sheet arrangements;
(B) The importance to the registrant of such off-balance sheet arrangements in respect of its liquidity, capital resources, market risk support, credit risk support or other benefits;
(C) The amounts of revenues, expenses and cash flows of the registrant arising from such arrangements; the nature and amounts of any interests retained, securities issued and other indebtedness incurred by the registrant in connection with such arrangements; and the nature and amounts of any other obligations or liabilities (including contingent obligations or liabilities) of the registrant arising from such arrangements that are or are reasonably likely to become material and the triggering events or circumstances that could cause them to arise; and

(D) Any known event, demand, commitment, trend or uncertainty that will result in or is reasonably likely to result in the termination, or material reduction in availability to the registrant, of its off-balance sheet arrangements that provide material benefits to it, and the course of action that the registrant has taken or proposes to take in response to any such circumstances.

(ii) As used in this paragraph (a)(4), the term off-balance sheet arrangement means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with the registrant is a party, under which the registrant has:

(A) Any obligation under a guarantee contract that has any of the characteristics identified in FASB ASC paragraph 460–10–15–4 (Guarantees Topic), as may be modified or supplemented, and that is not excluded from the initial recognition and measurement provisions of FASB ASC paragraphs 460–10–15–7, 460–10–25–1, and 460–10–30–1.

(B) A retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to such entity for such assets;

(C) Any obligation, including a contingent obligation, under a contract that would be accounted for as a derivative instrument, except that it is both indexed to the registrant’s own stock and classified in stockholders’ equity in the registrant’s statement of financial position, and therefore excluded from the scope of FASB ASC Topic 815, Derivatives and Hedging, pursuant to FASB ASC subparagraph 815–10–15–74(a), as may be modified or supplemented; or

(D) Any obligation, including a contingent obligation, arising out of a variable interest (as defined in the FASB ASC Master Glossary), as may be modified or supplemented) in an unconsolidated entity that is held by, and material to, the registrant, where such entity provides financing, liquidity, market risk or credit risk support to, or engages in leasing, hedging or research and development services with, the registrant.
(5) **Tabular disclosure of contractual obligations.** (i) In a tabular format, provide the information specified in this paragraph (a)(5) as of the latest fiscal year end balance sheet date with respect to the registrant's known contractual obligations specified in the table that follows this paragraph (a)(5)(i). The registrant shall provide amounts, aggregated by type of contractual obligation. The registrant may disaggregate the specified categories of contractual obligations using other categories suitable to its business, but the presentation must include all of the obligations of the registrant that fall within the specified categories. A presentation covering at least the periods specified shall be included. The tabular presentation may be accompanied by footnotes to describe provisions that create, increase or accelerate obligations, or other pertinent data to the extent necessary for an understanding of the timing and amount of the registrant’s specified contractual obligations.

(ii) **Definitions:** The following definitions apply to this paragraph (a)(5):

(A) **Long-term debt obligation** means a payment obligation under long-term borrowings referenced in FASB ASC paragraph 470–10–50–1 (Debt Topic), as may be modified or supplemented.

(B) **Capital lease obligation** means a payment obligation under a lease classified as a capital lease pursuant to FASB ASC Topic 840, “Leases”, as may be modified or supplemented.

(C) **Operating lease obligation** means a payment obligation under a lease classified as an operating lease and disclosed pursuant to FASB ASC Topic 840, as may be modified or supplemented.

(D) **Purchase obligation** means an agreement to purchase goods or services that is enforceable and legally binding on the registrant that specifies all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction.

**Instructions to paragraph 303(a):** 1. The registrant’s discussion and analysis shall be of the financial statements and other statistical data that the registrant believes will enhance a reader’s understanding of its financial condition, changes in financial condition, and results of operations. Generally, the discussion shall cover the periods covered by the financial statements included in the filing and the registrant may use any presentation that in the registrant’s judgment enhances a reader’s understanding. A smaller reporting company’s discussion shall cover the two-year period required in Article 8 of Regulation S-X and may use any presentation that in the registrant’s judgment enhances a reader’s understanding. For registrants providing financial statements covering three years in a filing, discussion about the earliest of the three years may be omitted if such discussion was already included in the registrant’s prior filings on EDGAR that required disclosure in compliance with Item 303 of Regulation S-K, provided that registrants electing not to include a discussion of the earliest year must include a statement that identifies the location in the prior filing where the omitted discussion may be found. An emerging growth company, as defined in Rule 405 of the Securities Act (§ 230.405 of this chapter) or Rule 12b–2 of the Exchange Act (§ 240.12b–2 of this chapter), may provide the discussion required in paragraph (a) of this Item for its two most recent fiscal years if, pursuant to Section 7(a) of the Securities Act of 1933 (15 U.S.C. 77g(a)), it provides audited financial statements for two years in a Securities Act registration statement for the initial public offering of the emerging growth company’s common equity securities.
2. The purpose of the discussion and analysis shall be to provide to investors and other users information relevant to an assessment of the financial condition and results of operations of the registrant as determined by evaluating the amounts and certainty of cash flows from operations and from outside sources.

3. The discussion and analysis shall focus specifically on material events and uncertainties known to management that would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition. This would include descriptions and amounts of (A) matters that would have an impact on future operations and have not had an impact in the past, and (B) matters that have had an impact on reported operations and are not expected to have an impact upon future operations.

4. Where the consolidated financial statements reveal material changes from year to year in one or more line items, the causes for the changes shall be described to the extent necessary to an understanding of the registrant’s businesses as a whole; Provided, however, That if the causes for a change in one line item also relate to other line items, no repetition is required and a line-by-line analysis of the financial statements as a whole is not required or generally appropriate. Registrants need not recite the amounts of changes from year to year which are readily computable from the financial statements. The discussion shall not merely repeat numerical data contained in the consolidated financial statements.

5. The term “liquidity” as used in this Item refers to the ability of an enterprise to generate adequate amounts of cash to meet the enterprise’s needs for cash. Except where it is otherwise clear from the discussion, the registrant shall indicate those balance sheet conditions or income or cash flow items which the registrant believes may be indicators of its liquidity condition. Liquidity generally shall be discussed on both a long-term and short-term basis. The issue of liquidity shall be discussed in the context of the registrant’s own business or businesses. For example a discussion of working capital may be appropriate for certain manufacturing, industrial or related operations but might be inappropriate for a bank or public utility.

6. Where financial statements presented or incorporated by reference in the registration statement are required by §210.4–08(e)(3) of Regulation S-X [17 CFR part 210] to include disclosure of restrictions on the ability of both consolidated and unconsolidated subsidiaries to transfer funds to the registrant in the form of cash dividends, loans or advances, the discussion of liquidity shall include a discussion of the nature and extent of such restrictions and the impact such restrictions have had and are expected to have on the ability of the parent company to meet its cash obligations.

8. Registrants are only required to discuss the effects of inflation and other changes in prices when considered material. This discussion may be made in whatever manner appears appropriate under the circumstances. All that is required is a brief textual presentation of management’s views. No specific numerical financial data need be presented except as Rule 3–20(c) of Regulation S-X (§210.3–20(c) of this chapter) otherwise requires. However, registrants may elect to voluntarily disclose supplemental information on the effects of changing prices as provided for in FASB ASC Topic 255, Changing Prices, or through other supplemental disclosures. The Commission encourages experimentation with these disclosures in order to provide the most meaningful presentation of the impact of price changes on the registrant’s financial statements.

9. Registrants that elect to disclose supplemental information on the effects of changing prices as specified by FASB ASC Topic 255 may combine such explanations with the discussion and analysis required pursuant to this Item or may supply such information separately with appropriate cross reference.

10. All references to the registrant in the discussion and in this Item shall mean the registrant and its subsidiaries consolidated.

11. Foreign private registrants also shall discuss briefly any pertinent governmental economic, fiscal, monetary, or political policies or factors that have materially affected or could materially affect, directly or indirectly, their operations or investments by United States nationals.

12. If the registrant is a foreign private issuer, the discussion shall focus on the primary financial statements presented in the registration statement or report. There shall be a reference to the reconciliation to United States generally accepted accounting principles, not discussed in the reconciliation, that the registrant believes is necessary for an understanding of the financial statements as a whole.

13. The attention of bank holding companies is directed to the information called for in Guide 3 (§229.801(c) and §229.802(c)).

14. The attention of property-casualty insurance companies is directed to the information called for in Guide 6 (§229.801(f)).

Instructions to paragraph 303(a)(4): 1. No obligation to make disclosure under paragraph
§ 229.303

17 CFR Ch. II (4–1–20 Edition)

(a)(4) of this Item shall arise in respect of an off-balance sheet arrangement until a definitive agreement that is unconditionally binding or subject only to customary closing conditions exists or, if there is no such agreement, when settlement of the transaction occurs.

2. Registrants should aggregate off-balance sheet arrangements in groups or categories that provide material information in an efficient and understandable manner and should avoid repetition and disclosure of immaterial information. Effects that are common or similar with respect to a number of off-balance sheet arrangements must be analyzed in the aggregate to the extent the aggregation increases understanding. Distinctions in arrangements and their effects must be discussed to the extent the information is material, but the discussion should avoid repetition and disclosure of immaterial information.

3. For purposes of paragraph (a)(4) of this Item only, contingent liabilities arising out of litigation, arbitration or regulatory actions are not considered to be off-balance sheet arrangements.

4. Generally, the disclosure required by paragraph (a)(4) shall cover the most recent fiscal year. However, the discussion should address changes from the previous year where such discussion is necessary to an understanding of the disclosure.

5. In satisfying the requirements of paragraph (a)(4) of this Item, the discussion of off-balance sheet arrangements need not repeat information provided in the footnotes to the financial statements, provided that such discussion clearly cross-references to specific information in the relevant footnotes and integrates the substance of the footnotes into such discussion in a manner designed to inform readers of the significance of the information that is not included within the body of such discussion.

(b) Interim periods. If interim period financial statements are included or are required to be included by Article 3 of Regulation S-X (17 CFR 210), a management’s discussion and analysis of the financial condition and results of operations shall be provided so as to enable the reader to assess material changes in financial condition and results of operations between the periods specified in paragraphs (b)(1) and (2) of this Item. The discussion and analysis shall include a discussion of material changes in those items specifically listed in paragraph (a) of this Item, except that the impact of inflation and changing prices on operations for interim periods need not be addressed.

1. Material changes in financial condition. Discuss any material changes in financial condition from the end of the preceding fiscal year to the date of the most recent interim balance sheet provided. If the interim financial statements include an interim balance sheet as of the corresponding interim date of the preceding fiscal year, any material changes in financial condition from that date to the date of the most recent interim balance sheet provided also shall be discussed. If discussions of changes from both the end and the corresponding interim date of the preceding fiscal year are required, the discussions may be combined at the discretion of the registrant.

2. Material changes in results of operations. Discuss any material changes in the registrant’s results of operations with respect to the most recent fiscal year-to-date period for which a statement of comprehensive income (or statement of operations if comprehensive income is presented in two separate but consecutive financial statements or if no other comprehensive income) is provided and the corresponding year-to-date period of the preceding fiscal year. If the registrant is required to or has elected to provide a statement of comprehensive income (or statement of operations if comprehensive income is presented in two separate but consecutive financial statements or if no other comprehensive income) for the most recent fiscal quarter, such discussion also shall cover material changes with respect to that fiscal quarter and the corresponding fiscal quarter in the preceding fiscal year. In addition, if the registrant has elected to provide a statement of comprehensive income (or statement of operations if comprehensive income is presented in two separate but consecutive financial statements or if no other comprehensive income) for the twelve-month period ended as of the date of the most recent interim balance sheet provided, the discussion also shall cover material changes with respect to that twelve-month period and the twelve-month period ended as of the corresponding interim balance sheet date of the preceding fiscal year. Notwithstanding the above, if for purposes of a registration
statement a registrant subject to §210.3–03(b) of Regulation S–X of this chapter provides a statement of comprehensive income (or statement of operations if comprehensive income is presented in two separate but consecutive financial statements or if no other comprehensive income element of the registrant's income results of operations shall identify any significant elements of the registrant's income. The registrant's discussion of material changes in interim financial statements. The information provided shall include that which is available to the user of the interim financial statements and which does not clearly appear in the registrant's condensed interim financial statements. The discussion shall not merely repeat numerical data contained in the financial statements. The discussion derived from information provided by the issuer or information supplied is expressly covered by the statutory safe harbors except for historical facts.

(c) Safe harbor. (1) The safe harbor provided in section 27A of the Securities Act of 1933 (15 U.S.C. 77z–2) and section 21E of the Securities Exchange Act of 1934 (15 U.S.C. 78u–5) ("statutory safe harbors") shall apply to forward looking information supplied is expressly covered by the statutory safe harbors except for historical facts. Any forward looking information provided pursuant to paragraphs (a)(4) and (5) of this Item, provided that the disclosure is made by: an issuer; a person acting on behalf of the issuer; an outside reviewer retained by the issuer making a statement on behalf of the issuer; or an underwriter, with respect to information provided by the issuer or information derived from information provided by the issuer.

(2) For purposes of paragraph (c) of this Item only:

(i) All information required by paragraphs (a)(4) and (5) of this Item is deemed to be a forward looking statement as that term is defined in the statutory safe harbors, except for historical facts.

(ii) With respect to paragraph (a)(4) of this Item, the meaningful cautionary statements element of the statutory safe harbors will be satisfied if a registrant satisfies all requirements of that same paragraph (a)(4) of this Item.

(d) Smaller reporting companies. A smaller reporting company, as defined by §229.10(f)(1), may provide the information required in paragraph (a)(3)(iv)
§ 229.304 Changes in and disagreements with accountants on accounting and financial disclosure.

(a)(1) If during the registrant’s two most recent fiscal years or any subsequent interim period, an independent accountant who was previously engaged as the principal accountant to audit the registrant’s financial statements, or an independent accountant who was previously engaged to audit a significant subsidiary and on whom the principal accountant expressed reliance in its report, has resigned (or indicated it has declined to stand for re-election after the completion of the current audit) or was dismissed, then the registrant shall:

(i) State whether the former accountant resigned, declined to stand for re-election or was dismissed and the date thereof.

(ii) State whether the principal accountant’s report on the financial statements for either of the past two years contained an adverse opinion or a disclaimer of opinion, or was qualified or modified as to uncertainty, audit scope, or accounting principles; and also describe the nature of each such adverse opinion, disclaimer of opinion, modification, or qualification.

(iii) State whether the decision to change accountants was recommended or approved by:

(A) Any audit or similar committee of the board of directors, if the issuer has such a committee; or

(B) The board of directors, if the issuer has no such committee.

(iv) State whether during the registrant’s two most recent fiscal years and any subsequent interim period preceding such resignation, declination or dismissal there were any disagreements with the former accountant on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreement(s), if not resolved to the satisfaction of the former accountant, would have caused it to make reference to the subject matter of the disagreement(s) in connection with its report. Also, (A) describe each such disagreement; (B) state whether any audit or similar committee of the board of directors, or the board of directors, discussed the subject matter of each of such disagreements with the former accountant; and (C) state whether the registrant has authorized the former accountant to respond fully to the inquiries of the successor accountant concerning the subject matter of each of such disagreements and, if not, describe the nature of any limitation thereon and the reason therefore. The disagreements required to be reported in response to this Item include both those resolved to the former accountant’s satisfaction and those not resolved to the former accountant’s satisfaction. Disagreements contemplated by this Item are those that occur at the decision-making level, i.e., between personnel of the registrant responsible for presentation of its financial statements and personnel of the accounting firm responsible for rendering its report.

(v) Provide the information required by paragraph (a)(1)(iv) of this Item for each of the kinds of events (even though the registrant and the former accountant did not express a difference of opinion regarding the event) listed in paragraphs (a)(1)(v) (A) through (D) of this section, that occurred within the registrant’s two most recent fiscal years and any subsequent interim period preceding the former accountant’s resignation, declination to stand for re-election, or dismissal (“reportable events”). If the event led to a disagreement or difference of opinion, then the event should be reported as a disagreement under paragraph (a)(1)(iv) and need not be repeated under this paragraph.
(A) The accountant’s having advised
the registrant that the internal con-
trols necessary for the registrant to de-
velop reliable financial statements do
not exist;

(B) The accountant’s having advised
the registrant that information has
come to the accountant’s attention
that has led it to no longer be able to
rely on management’s representations,
or that has made it unwilling to be as-
associated with the financial statements
prepared by management;

(C)(1) The accountant’s having ad-
vised the registrant of the need to ex-
pand significantly the scope of its
audit, or that information has come to
the accountant’s attention during the
time period covered by Item 304(a)(1)(iv), that if further inves-
tigated may:

(i) Materially impact the fairness or
reliability of either: a previously
issued audit report or the underlying
financial statements; or the financial
statements issued or to be issued cov-
ering the fiscal period(s) subsequent to
the date of the most recent financial
statements covered by an audit report
(including information that may pre-
vent it from rendering an unqualified
audit report on those financial state-
ments), or

(ii) Cause it to be unwilling to rely on
management’s representations or be
associated with the registrant’s finan-
cial statements, and

(2) Due to the accountant’s resigna-
tion (due to audit scope limitations or
otherwise) or dismissal, or for any
other reason, the accountant did not so
expand the scope of its audit or con-
duct such further investigation; or

(D)(1) The accountant’s having ad-
vised the registrant that information
has come to the accountant’s attention
that it has concluded materially im-
pacts the fairness or reliability of ei-
ther (i) a previously issued audit report
or the underlying financial statements,
or (ii) the financial statements issued
or to be issued covering the fiscal pe-
riod(s) subsequent to the date of the
most recent financial statements cov-
ered by an audit report (including in-
formation that, unless resolved to the
accountant’s satisfaction, would pre-
vent it from rendering an unqualified
audit report on those financial state-
ments), and

(2) Due to the accountant’s resigna-
tion, dismissal or declination to stand
for re-election, or for any other reason,
the issue has not been resolved to the
accountant’s satisfaction prior to its
resignation, dismissal or declination to
stand for re-election.

(2) If during the registrant’s two
most recent fiscal years or any subse-
quent interim period, a new inde-
dependent accountant has been engaged
as either the principal accountant to
audit the registrant’s financial state-
ments, or as an independent account-
ant to audit a significant subsidiary
and on whom the principal accountant
is expected to express reliance in its re-
port, then the registrant shall identify
the newly engaged accountant and in-
dicate the date of such accountant’s
engagement. In addition, if during the
registrant’s two most recent fiscal
years, and any subsequent interim pe-
riod prior to engaging that accountant,
the registrant (or someone on its be-
half) consulted the newly engaged ac-
countant regarding:

(i) Either: The application of ac-
counting principles to a specified
transaction, either completed or pro-
posed; or the type of audit opinion that
might be rendered on the registrant’s
financial statements, and either a writ-
ten report was provided to the reg-
istrant or oral advice was provided
that the new accountant concluded was
an important factor considered by the
registrant in reaching a decision as to
the accounting, auditing or financial
reporting issue; or

(ii) Any matter that was either the
subject of a disagreement (as defined in
paragraph 304(a)(1)(iv) and the related
instructions to this item) or a report-
able event (as described in paragraph
304(a)(1)(v)), then the registrant shall:

(A) So state and identify the issues
that were the subjects of those con-
sultations;

(B) Briefly describe the views of the
newly engaged accountant as expressed
orally or in writing to the registrant
on each such issue and, if written views
were received by the registrant, file
them as an exhibit to the report or reg-
istration statement requiring compli-
ance with this Item 304(a);
(C) State whether the former accountant was consulted by the registrant regarding any such issues, and if so, provide a summary of the former accountant’s views; and

(D) Request the newly engaged accountant to review the disclosure required by this Item 304(a) before it is filed with the Commission and provide the new accountant the opportunity to furnish the registrant with a letter addressed to the Commission containing any new information, clarification of the registrant’s expression of its views, or the respects in which it does not agree with the statements made by the registrant in response to Item 304(a). The registrant shall file any such letter as an exhibit to the report or registration statement containing the disclosure required by this Item.

(3) The registrant shall provide the former accountant with a copy of the disclosures it is making in response to this Item 304(a) that the former accountant shall receive no later than the day that the disclosures are filed with the Commission. The registrant shall request the former accountant to furnish the registrant with a letter addressed to the Commission stating whether it agrees with the statements made by the registrant in response to this Item 304(a) and, if not, stating the respects in which it does not agree. The registrant shall file the former accountant’s letter as an exhibit to the report on registration statement containing this disclosure. If the former accountant’s letter is unavailable at the time of filing such report or registration statement, then the registrant shall request the former accountant to provide the letter as promptly as possible so that the registrant can file the letter with the Commission within ten business days after the filing of the report or registration statement. Notwithstanding the ten business day period, the registrant shall file the letter by amendment within two business days of receipt; if the letter is received on a Saturday, Sunday or holiday on which the Commission is not open for business, then the two business day period shall begin to run on and shall include the first business day thereafter. The former accountant may provide the registrant with an interim letter highlighting specific areas of concern and indicating that a more detailed letter will be forthcoming within the ten business day period noted above. If not filed with the report or registration statement containing the registrant’s disclosure under this Item 304(a), then the interim letter, if any, shall be filed by the registrant by amendment within two business days of receipt.

(b) If: (1) In connection with a change in accountants subject to paragraph (a) of this Item 304, there was any disagreement of the type described in paragraph (a)(1)(iv) or any reportable event as described in paragraph (a)(1)(v) of this Item;

(2) During the fiscal year in which the change in accountants took place or during the subsequent fiscal year, there have been any transactions or events similar to those which involved such disagreement or reportable event; and

(3) Such transactions or events were material and were accounted for or disclosed in a manner different from that which the former accountants apparently would have concluded was required, the registrant shall state the existence and nature of the disagreement or reportable event and also state the effect on the financial statements if the method had been followed which the former accountants apparently would have concluded was required. These disclosures need not be made if the method asserted by the former accountants ceases to be generally accepted because of authoritative standards or interpretations subsequently issued.

Instructions to Item 304: 1. The disclosure called for by paragraph (a) of this Item need not be provided if it has been previously reported as that term is defined in Rule 12b–2 under the Exchange Act (§240.12b–2 of this chapter); the disclosure called for by paragraph (a) must be provided, however, notwithstanding prior disclosure, if required pursuant to Item 9 of Schedule 14A (§240.14a–101 of this chapter). The disclosure called for by paragraph (b) of this section must be furnished, where required, notwithstanding any prior disclosure about accountant changes or disagreements.

2. When disclosure is required by paragraph (a) of this section in an annual report to security holders pursuant to Rule 14a–3 (§240.14a–3 of this chapter) or Rule 14c–3...
§ 229.305 Quantitative and qualitative disclosures about market risk.

(a) Quantitative information about market risk. (1) Registrants shall provide, in their reporting currency, quantitative information about market risk as of the end of the latest fiscal year, in accordance with one of the following three disclosure alternatives. In preparing this quantitative information, registrants shall categorize market risk sensitive instruments into instruments entered into for trading purposes and instruments entered into for purposes other than trading purposes. Within both the trading and other than trading portfolios, separate quantitative information shall be presented, to the extent material, for each market risk exposure category (i.e., interest rate risk, foreign currency exchange rate risk, commodity price risk, and other relevant market risks, such as equity price risk). A registrant may use one of the three alternatives set forth in this section for all of the required quantitative disclosures about market risk. A registrant also may choose, from among the three alternatives, one disclosure alternative for market risk sensitive instruments entered into for trading purposes and another disclosure alternative for market risk sensitive instruments entered into for other than trading purposes. Alternatively, a registrant may choose any disclosure alternative, from among the three alternatives, for each market risk exposure category within the trading and other than trading portfolios. The three disclosure alternatives are:

1. (A) Tabular presentation of information related to market risk sensitive instruments; such information shall include fair values of the market

rendering the accounting firm’s opinion (or their designee) will generally suffice as the accountant advising the registrant of a reportable event or as a statement of a disagreement at the “decision-making level” within the accounting firm and require disclosure under this Item.
risk sensitive instruments and contract terms sufficient to determine future cash flows from those instruments, categorized by expected maturity dates.

(2) Tabular information relating to contract terms shall allow readers of the table to determine expected cash flows from the market risk sensitive instruments for each of the next five years. Comparable tabular information for any remaining years shall be displayed as an aggregate amount.

(3) Within each risk exposure category, the market risk sensitive instruments shall be grouped based on common characteristics. Within the foreign currency exchange rate risk category, the market risk sensitive instruments shall be grouped by functional currency and within the commodity price risk category, the market risk sensitive instruments shall be grouped by type of commodity.

(4) See the Appendix to this Item for a suggested format for presentation of this information; and

(B) Registrants shall provide a description of the contents of the table and any related assumptions necessary to understand the disclosures required under paragraph (a)(1)(i)(A) of this Item 305; or

(ii)(A) Sensitivity analysis disclosures that express the potential loss in future earnings, fair values, or cash flows of market risk sensitive instruments resulting from one or more selected hypothetical changes in interest rates, foreign currency exchange rates, commodity prices, and other relevant market rates or prices over a selected period of time. The magnitude of selected hypothetical changes in rates or prices may differ among and within market risk exposure categories; and

(B) Registrants shall provide a description of the model, assumptions, and parameters, which are necessary to understand the disclosures required under paragraphs (a)(1)(ii)(A) and (B) of this Item 305.

(2) Registrants shall discuss material limitations that cause the information required under paragraph (a)(1) of this Item 305 not to reflect fully the net market risk exposures of the entity. This discussion shall include summarized descriptions of instruments, positions, and transactions omitted from the quantitative market risk disclosure information or the features of instruments, positions, and transactions that are included, but not reflected fully in the quantitative market risk disclosure information.

(3) Registrants shall present summarized market risk information for the preceding fiscal year. In addition, registrants shall discuss the reasons for material quantitative changes in market risk exposures between the current and preceding fiscal years. Information required by this paragraph (a)(3), however, is not required if disclosure is not required under paragraph (a)(1) of this
Item 305 for the current fiscal year. Information required by this paragraph (a)(3) is not required for the first fiscal year end in which a registrant must present Item 305 information.

(i) If registrants change disclosure alternatives or key model characteristics, assumptions, and parameters used in providing quantitative information about market risk (e.g., changing from tabular presentation to value at risk, changing the scope of instruments included in the model, or changing the definition of loss from fair values to earnings), and if the effects of any such change is material, the registrant shall:

(i) Explain the reasons for the change; and

(ii) Either provide summarized comparable information, under the new disclosure method, for the year preceding the current year or, in addition to providing disclosure for the current year under the new method, provide disclosures for the current year and preceding fiscal year under the method used in the preceding year.

Instructions to paragraph 305(a): 1. Under paragraph 305(a)(1):

A. For each market risk exposure category within the trading and other than trading portfolios, registrants may report the average, high, and low sensitivity analysis or value at risk amounts for the reporting period, as an alternative to reporting year-end amounts.

B. In determining the average, high, and low amounts for the fiscal year under Instruction 1.A. of the Instructions to Paragraph 305(a), registrants should use sensitivity analysis or value at risk amounts for the reporting period as a base, as an alternative to reporting year-end amounts.

C. Functional currency means functional currency as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary).

D. Registrants using the sensitivity analysis and value at risk disclosure alternatives are encouraged, but not required, to provide quantitative amounts that reflect the aggregate market risk inherent in the trading and other than trading portfolios.

2. Under paragraph 305(a)(1)(i):

A. Examples of contract terms sufficient to determine future cash flows from market risk sensitive instruments include, but are not limited to:

i. Debt instruments—principal amounts and weighted average effective interest rates;

ii. Forwards and futures—contract amounts and weighted average settlement prices;

iii. Options—contract amounts and weighted average strike prices;

iv. Swaps—notional amounts, weighted average pay rates or prices, and weighted average receive rates or prices; and

v. Complex instruments—likely to be a combination of the contract terms presented in 2.A.i. through iv. of this Instruction;

B. When grouping based on common characteristics, instruments should be categorized, at a minimum, by the following characteristics, when material:

i. Fixed rate or variable rate assets or liabilities;

ii. Long or short forwards and futures;

iii. Written or purchased put or call options with similar strike prices;

iv. Receive fixed and pay variable swaps, receive variable and pay fixed swaps, and receive variable and pay variable swaps;

v. The currency in which the instruments’ cash flows are denominated;

vi. Financial instruments for which foreign currency transaction gains and losses are reported in the same manner as translation adjustments under generally accepted accounting principles (see, e.g., FASB ASC paragraph 830–20–35–3 (Foreign Currency Matters Topic)); and

vi. Derivatives used to manage risks inherent in anticipated transactions;

C. Registrants may aggregate information regarding functional currencies that are economically related, managed together for internal risk management purposes, and have statistical correlations of greater than 75% over each of the past three years.

D. Market risk sensitive instruments that are exposed to rate or price changes in more than one market risk exposure category should be presented within the tabular information for each of the risk exposure categories to which those instruments are exposed.

E. If a currency swap eliminates all foreign currency exposures in the cash flows of a foreign currency denominated debt instrument, neither the currency swap nor the foreign currency denominated debt instrument are required to be disclosed in the foreign currency risk exposure category. However, both the currency swap and the foreign currency denominated debt instrument should be disclosed in the interest rate risk exposure category; and

F. The contents of the table and related assumptions that should be described include, but are not limited to:

i. The different amounts reported in the table for various categories of the market risk sensitive instruments (e.g., principal
amounts for debt, notional amounts for swaps, and contract amounts for options and futures;

ii. The different types of reported market rates or prices (e.g., contractual rates or prices, spot rates or prices, forward rates or prices); and

iii. Key prepayment or reinvestment assumptions relating to the timing of reported amounts.

3. Under paragraph 305(a)(1)(ii):

A. Registrants should select hypothetical changes in market rates or prices that are expected to reflect reasonably possible near-term changes in those rates and prices. In this regard, absent economic justification for the selection of a different amount, registrants should use changes that are not less than 10 percent of end of period market rates or prices;

B. For purposes of instruction 3.A. of the Instructions to Paragraph 305(a), the term reasonably possible has the same meaning as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary);

C. For purposes of instruction 3.A. of the Instructions to Paragraph 305(a), the term near term means a period of time going forward up to one year from the date of the financial statements (see FASB ASC Master Glossary);

D. Market risk sensitive instruments that are exposed to rate or price changes in more than one market risk exposure category should be included in the sensitivity analysis disclosures for each market risk category to which those instruments are exposed;

E. Registrants with multiple foreign currency exchange rate exposures should prepare foreign currency sensitivity analysis disclosures that measure the aggregate sensitivity to changes in all foreign currency exchange rate exposures, including the effects of changes in both transactional currency/functional currency exchange rate exposures and functional currency/reporting currency exchange rate exposures. For example, assume a French division of a registrant presenting its financial statements in U.S. dollars ($US) invests in a deutschmark(DM)-denominated debt security. In these circumstances, the $US is the reporting currency and the DM is the transactional currency. In addition, assume this division determines that the French franc (FF) is its functional currency according to FASB ASC Topic 830, Foreign Currency Matters. In preparing the foreign currency sensitivity analysis disclosures, this registrant should report the aggregate potential loss from hypothetical changes in both the DM/FF exchange rate exposure and the FF/$US exchange rate exposure; and

F. Model, assumptions, and parameters that should be described include, but are not limited to, how loss is defined by the model (e.g., loss in earnings, fair values, or cash flows), a general description of the modeling technique (e.g., duration modeling, modeling that measures the change in net present values arising from selected hypothetical changes in market rates or prices, and a description as to how optionality is addressed by the model), the types of instruments covered by the model (e.g., derivative financial instruments, other financial instruments, derivative commodity instruments, and whether other instruments are included voluntarily, such as certain commodity instruments and positions, cash flows from anticipated transactions, and certain financial instruments excluded under instruction 4.C.ii. of the General Instructions to Paragraphs 305(a) and 305(b)), and other relevant information about the model’s assumptions and parameters (e.g., the magnitude and timing of selected hypothetical changes in market rates or prices used, the method by which discount rates are determined, and key prepayment or reinvestment assumptions).

4. Under paragraph 305(a)(1)(iii):

A. The confidence intervals selected should reflect reasonably possible near-term changes in market rates and prices. In this regard, absent economic justification for the selection of different confidence intervals, registrants should use intervals that are 95 percent or higher;

B. For purposes of instruction 4.A. of the Instructions to Paragraph 305(a), the term reasonably possible has the same meaning as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary);

C. For purposes of instruction 4.A. of the Instructions to Paragraphs 305(a), the term near term means a period of time going forward up to one year from the date of the financial statements (see FASB ASC Master Glossary);

D. Registrants with multiple foreign currency exchange rate exposures should prepare foreign currency value at risk analysis disclosures that measure the aggregate sensitivity to changes in all foreign currency exchange rate exposures, including the aggregate effects of changes in both transactional currency/functional currency exchange rate exposures and functional currency/reporting currency exchange rate exposures. For example, assume a French division of a registrant presenting its financial statements in U.S. dollars ($US) invests in a deutschmark(DM)-denominated debt security. In these circumstances, the $US is the reporting currency and the DM is the transactional currency. In addition, assume this division determines that the French franc (FF) is its functional currency according to FASB ASC Topic 830, Foreign Currency Matters. In preparing the foreign currency value
at risk disclosures, this registrant should report the aggregate potential loss from hypothetical changes in both the DM/FF exchange rate exposure and the FF/$US exchange rate exposure; and

E. Model, assumptions, and parameters that should be described include, but are not limited to, how loss is defined by the model (e.g., loss in earnings, fair values, or cash flows), the type of model used (e.g., variance/covariance, historical simulation, or Monte Carlo simulation and a description as to how optionality is addressed by the model), the types of instruments covered by the model (e.g., derivative financial instruments, other financial instruments, derivative commodity instruments, and whether other instruments are included voluntarily, such as certain commodity instruments and positions, cash flows from anticipated transactions, and certain financial instruments excluded under instruction 3.C.ii. of the General Instructions to Paragraphs 305(a) and 305(b)), and other relevant information about the model’s assumptions and parameters, (e.g., holding periods, confidence intervals, and, when appropriate, the methods used for aggregating value at risk amounts across market risk exposure categories, such as by assuming perfect positive correlation, independence, or actual observed correlation).

5. Under paragraph 305(a)(2), limitations that should be considered include, but are not limited to:

A. The exclusion of certain market risk sensitive instruments, positions, and transactions from the disclosures required under paragraph 305(a)(1) (e.g., derivative commodity instruments not permitted by contract or business custom to be settled in cash or with another financial instrument, commodity positions, cash flows from anticipated transactions, and certain financial instruments excluded under instruction 3.C.ii. of the General Instructions to Paragraphs 305(a) and 305(b)). Failure to include such instruments, positions, and transactions in preparing the disclosures under paragraph 305(a)(1) may be a limitation because the resulting disclosures may not fully reflect the net market risk of a registrant; and

B. The ability of disclosures required under paragraph 305(a)(1) to reflect fully the market risk that may be inherent in instruments with leverage, option, or prepayment features (e.g., options, including written options, structured notes, collateralized mortgage obligations, leveraged swaps, and options embedded in swaps).

(b) Qualitative information about market risk. (1) To the extent material, describe:

(i) The registrant’s primary market risk exposures; (ii) How those exposures are managed. Such descriptions shall include, but not be limited to, a discussion of the objectives, general strategies, and instruments, if any, used to manage those exposures; and

(iii) Changes in either the registrant’s primary market risk exposures or how those exposures are managed, when compared to what was in effect during the most recently completed fiscal year and what is known or expected to be in effect in future reporting periods.

(2) Qualitative information about market risk shall be presented separately for market risk sensitive instruments entered into for trading purposes and those entered into for purposes other than trading.

Instructions to paragraph 305(b): 1. For purposes of disclosure under paragraph 305(b), primary market risk exposures means:

A. The following categories of market risk: interest rate risk, foreign currency exchange rate risk, commodity price risk, and other relevant market rate or price risks (e.g., equity price risk); and

B. Within each of these categories, the particular markets that present the primary risk of loss to the registrant. For example, if a registrant has a material exposure to foreign currency exchange rate risk and, within this category of market risk, is most vulnerable to changes in dollar/yen, dollar/pound, and dollar/peso exchange rates, the registrant should disclose those exposures. Similarly, if a registrant has a material exposure to interest rate risk and, within this category of market risk, is most vulnerable to changes in short-term U.S. prime interest rates, it should disclose the existence of that exposure.

2. For purposes of disclosure under paragraph 305(b), registrants should describe primary market risk exposures that exist as of the end of the latest fiscal year, and how those exposures are managed.

General Instructions to paragraphs 305(a) and 305(b): 1. The disclosures called for by paragraphs 305(a) and 305(b) are intended to clarify the registrant’s exposures to market risk associated with activities in derivative financial instruments, other financial instruments, and derivative commodity instruments.

2. In preparing the disclosures under paragraphs 305(a) and 305(b), registrants are required to include derivative financial instruments, other financial instruments, and derivative commodity instruments.
other financial instruments, and derivative commodity instruments (collectively referred to as “market risk sensitive instruments”) are defined as follows:

A. Derivative financial instruments have the same meaning as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary), and includes futures, forwards, swaps, commodity options, and other financial instruments with similar characteristics;

B. Other financial instruments means all financial instruments as defined by generally accepted accounting principles for which fair value disclosures are required (see, e.g., FASB ASC paragraph 825–10–50–8 (Financial Instruments Topic), except for derivative financial instruments, as defined above;

C. 1. Other financial instruments include, but are not limited to, trade accounts receivable, inventories, loans, structured notes, mortgage-backed securities, trade accounts payable, indexed debt instruments, interest-only and principal-only obligations, deposits, and other debt obligations;

ii. Other financial instruments exclude employers’ and plans’ obligations for pension and other post-retirement benefits, subordinately extinguished debt, insurance contracts, lease contracts, warranty obligations and rights, unconditional purchase obligations, investments accounted for under the equity method, noncontrolling interests in consolidated enterprises, and equity instruments issued by the registrant and classified in stockholders’ equity in the statement of financial position (see, e.g., FASB ASC paragraph 825–10–50–8). For purposes of this item, trade accounts receivable and trade accounts payable need not be considered other financial instruments when their carrying amounts approximate fair value; and

D. Derivative commodity instruments include, to the extent such instruments are not derivative financial instruments, commodity futures, commodity forwards, commodity swaps, commodity options, and other commodity instruments with similar characteristics that are permitted by contract or business custom to be settled in cash or with another financial instrument. For purposes of this paragraph, settlement in cash includes settlement in cash of the net change in value of the derivative commodity instrument (e.g., net cash settlement based on changes in the price of the underlying commodity).

4.A. In addition to providing required disclosures for the market risk sensitive instruments defined in instruction 2. of the General Instructions to Paragraphs 305(a) and 305(b), registrants are encouraged to include other market risk sensitive instruments, positions, and transactions within the disclosures required under paragraphs 305(a) and 305(b). Such instruments, positions, and transactions might include commodity positions, derivative commodity instruments that are not permitted by contract or business custom to be settled in cash or with another financial instrument, cash flows from anticipated transactions, and certain financial instruments excluded under instruction 3.C.ii. of the General Instructions to Paragraphs 305(a) and 305(b).

B. Registrants that voluntarily include other market risk sensitive instruments, positions and transactions within their quantitative disclosures about market risk under the sensitivity analysis or value at risk disclosure alternatives are not required to provide separate market risk disclosures for any voluntarily selected instruments, positions, or transactions. Instead, registrants selecting the sensitivity analysis and value at risk disclosure alternatives are permitted to present comprehensive market risk disclosures, which reflect the combined market risk exposures inherent in both the required and any voluntarily selected instruments, position, or transactions. Registrants that choose the tabular presentation disclosure alternative should present voluntarily selected instruments, positions, or transactions in a manner consistent with the requirements in Item 305(a) for market risk sensitive instruments.

C. If a registrant elects to include voluntarily a particular type of instrument, position, or transaction in their quantitative disclosures about market risk, that registrant should include all, rather than some, of those instruments, positions, or transactions within those disclosures. For example, if a registrant holds in inventory a particular type of commodity position and elects to include that commodity position within their market risk disclosures, the registrant should include the entire commodity position, rather than only a portion thereof, in their quantitative disclosures about market risk.

5.A. Under paragraphs 305(a) and 305(b), a materiality assessment should be made for each market risk exposure category within the trading and other than trading portfolios.

B. For purposes of making the materiality assessment under instruction 5.A. of the General Instructions to Paragraphs 305(a) and 305(b), registrants should evaluate both:

i. The materiality of the fair values of derivative financial instruments, other financial instruments, and derivative commodity instruments outstanding as of the end of the latest fiscal year; and

ii. The materiality of potential, near-term losses in future earnings, fair values, and/or cash flows from reasonably possible near-term changes in market rates or prices.

iii. If either paragraphs B.i. or B.ii. in this instruction of the General Instructions to Paragraphs 305(a) and 305(b) are material, the registrant should disclose quantitative and qualitative information about market risk.
risk, if such market risk for the particular market risk exposure category is material.

C. For purposes of instruction 5.B.1. of the General Instructions to Paragraphs 305(a) and 305(b), registrants generally should not net fair values, except to the extent allowed under generally accepted accounting principles (see, e.g., FASB ASC Subtopic 210-20, Balance Sheet—Offsetting). For example, under this instruction, the fair value of assets generally should not be netted with the fair value of liabilities.

D. For purposes of instruction 5.B.ii. of the General Instructions to Paragraphs 305(a) and 305(b), the term near term means a period of time going forward up to one year from the date of the financial statements (see FASB ASC Master Glossary).

E. For the purpose of instructions 5.B.ii. and 5.D.ii. of the General Instructions to Paragraphs 305(a) and 305(b), the term reasonably possible has the same meaning as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary).

F. For purposes of paragraphs 305(a) and 305(b), registrants should present the information outside of, and not incorporate the information into, the financial statements (including the footnotes to the financial statements). In addition, registrants are encouraged to provide the required information in one location. However, alternative presentation, such as inclusion of all or part of the information in Management’s Discussion and Analysis, may be used at the discretion of the registrant. If information is disclosed in more than one location, registrants should provide cross-references to the locations of the related disclosures.

7. For purposes of the instructions to paragraphs 305(a) and 305(b), trading purposes means dealing and other trading activities measured at fair value with gains and losses recognized in earnings. In addition, anticipated transactions means transactions (other than transactions involving existing assets or liabilities or transactions necessitated by existing firm commitments) an enterprise expects, but is not obligated, to carry out in the normal course of business.

(c) Interim periods. If interim period financial statements are included or are required to be included by Article 3 of Regulation S-X (17 CFR 210), discussion and analysis shall be provided so as to enable the reader to assess the

§ 229.305

409

sources and effects of material changes in information that would be provided under Item 305 of Regulation S-K from the end of the preceding fiscal year to the date of the most recent interim balance sheet.

Instructions to paragraph 305(c): 1. Information required under paragraph (c) of this Item 305 is not required until after the first fiscal year end in which this Item 305 is applicable.

(d) Safe harbor. (1) The safe harbor provided in Section 27A of the Securities Act of 1933 (15 U.S.C. 77z–2) and Section 21E of the Securities Exchange Act of 1934 (15 U.S.C. 78u–5) (“statutory safe harbors”) shall apply, with respect to all types of issuers and transactions, to information provided pursuant to paragraphs (a), (b), and (c) of this Item 305, provided that the disclosure is made by: an issuer; a person acting on behalf of the issuer; an outside reviewer retained by the issuer making a statement on behalf of the issuer; or an underwriter, with respect to information provided by the issuer or information derived from information provided by the issuer.

(2) For purposes of paragraph (d) of this Item 305 only:

(1) All information required by paragraphs (a), (b)(1)(i), (b)(1)(ii), and (c) of this Item 305 is considered forward looking statements for purposes of the statutory safe harbors, except for historical facts such as the terms of particular contracts and the number of market risk sensitive instruments held during or at the end of the reporting period; and

(ii) With respect to paragraph (a) of this Item 305, the meaningful cautionary statements prong of the statutory safe harbors will be satisfied if a registrant satisfies all requirements of that same paragraph (a) of this Item 305.

(e) Smaller reporting companies. A smaller reporting company, as defined by §229.10(f)(1), is not required to provide the information required by this Item.

General instructions to paragraphs 305(a), 305(b), 305(c), 305(d), and 305(e): 1. Bank registrants, thrift registrants, and non-bank and non-thrift registrants with market capitalizations on January 29, 1997 in excess of
§ 229.305

\$2.5 billion should provide Item 305 disclosures in filings with the Commission that include annual financial statements for fiscal years ending after June 15, 1997. Non-bank and thrift registrants with market capitalizations on January 28, 1997 of \$2.5 billion or less should provide Item 305 disclosures in filings with the Commission that include financial statements for fiscal years ending after June 15, 1998.

2.A. For purposes of instruction 1. of the General Instructions to Paragraphs 305(a), 305(b), 305(c), 305(d), and 305(e), bank registrants and thrift registrants include any registrant which has control over a depository institution.

B. For purposes of instruction 2.A. of the General Instructions to Paragraphs 305(a), 305(b), 305(c), 305(d), and 305(e), a registrant has control over a depository institution if:

i. The registrant directly or indirectly or acting through one or more other persons owns, controls, or has power to vote 25% or more of any class of voting securities of the depository institution;

ii. The registrant controls in any manner the election of a majority of the directors or trustees of the depository institution; or

iii. The Federal Reserve Board or Office of Thrift Supervision determines, after notice and opportunity for hearing, that the registrant directly or indirectly exercises a controlling influence over the management or policies of the depository institution.

C. For purposes of instruction 2.B. of the General Instructions to Paragraphs 305(a), 305(b), 305(c), 305(d), and 305(e), a depository institution means any of the following:

i. An insured depository institution as defined in section 3(c)(2) of the Federal Deposit Insurance Act (12 U.S.C.A. Sec. 1813 (c));

ii. An institution organized under the laws of the United States, any State of the United States, the District of Columbia, any territory of the United States, Puerto Rico, Guam, American Samoa, or the Virgin Islands, which both accepts demand deposits or deposits that the depositor may withdraw by check or similar means for payment to third parties or others and is engaged in the business of making commercial loans.

D. For purposes of instruction 1. of the General Instructions to Paragraphs 305(a), 305(b), 305(c), 305(d), and 305(e), market capitalization is the aggregate market value of common equity as set forth in General Instruction 1.B.1. of Form S–3, provided however, that common equity held by affiliates is included in the calculation of market capitalization; and provided further that instead of using the 60 day period prior to filing referenced in General Instruction I.B.1. of Form S–3, the measurement date is January 28, 1997.

APPENDIX TO ITEM 305—TABULAR DISCLOSURES

The tables set forth below are illustrative of the format that might be used when a registrant elects to present the information required by paragraph (a)(1)(1)(A) of Item 305 regarding terms and information about derivative financial instruments, other financial instruments, and derivative commodity instruments. These examples are for illustrative purposes only. Registrants are not required to display the information in the specific format illustrated below. Alternative methods of display are permissible as long as the disclosure requirements of the section are satisfied. Furthermore, these examples were designed primarily to illustrate possible formats for presentation of the information required by the disclosure item and do not purport to illustrate the broad range of derivative financial instruments, other financial instruments, and derivative commodity instruments utilized by registrants.

INTEREST RATE SENSITIVITY

The table below provides information about the Company’s derivative financial instruments and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected (contractual) maturity dates. For interest rate swaps, the table presents notional amounts and weighted average interest rates by expected maturity dates. Interest rate swaps, the table presents notional amounts and weighted average interest rates by expected (contractual) maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on implied forward rates in the yield curve at the reporting date. The information is presented in U.S. dollar equivalents, which is the Company’s reporting currency. The instrument’s actual cash flows are denominated in both U.S. dollars (\$US) and German deutschmarks (DM), as indicated in parentheses.

**Exchange Rate Sensitivity**

The table below provides information about the Company’s derivative financial instruments, other financial instruments, and firmly committed sales transactions by functional currency and presents such information in U.S. dollar equivalents. The table summarizes information on instruments and transactions that are sensitive to foreign currency exchange rates, including foreign currency forward exchange agreements, deutschmark (DM)-denominated debt obligations, and firmly committed DM sales transactions. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For firmly committed DM-sales transactions, sales amounts are presented by the expected transaction date, which are not expected to exceed two years. For foreign currency forward exchange agreements, the table presents the notional amounts and weighted average exchange rates by expected (contractual) maturity dates. These notional amounts generally are used to calculate the contractual payments to be exchanged under the contract.

COMMODITY PRICE SENSITIVITY

The table below provides information about the Company’s corn inventory and futures contracts that are sensitive to changes in commodity prices, specifically corn prices. For inventory, the table presents the carrying amount and fair value at December 31, 19X1. For the futures contracts the table presents the notional amounts in bushels, the weighted average contract prices, and the total dollar contract amount by expected maturity dates, the latest of which occurs one year from the reporting date. Contract amounts are used to calculate the contractual payments and quantity of corn to be exchanged under the futures contracts.

List the names and ages of all directors of the registrant, and all persons nominated or chosen to become directors; indicate all positions and offices with the registrant held by each such person; state his term of office as director and any period(s) during which he has served as such; describe briefly any arrangement or understanding between him and any
other person(s) (naming such person(s)) pursuant to which he was or is to be selected as a director or nominee.

Instructions to paragraph (a) of Item 401: 1. Do not include arrangements or understandings with directors or officers of the registrant acting solely in their capacities as such.
2. No nominee or person chosen to become a director who has not consented to act as such shall be named in response to this Item. In this regard, with respect to proxy statements, see Rule 14a-4(d) under the Exchange Act (§240.14a–4(d) of this chapter).
3. If the information called for by this paragraph (a) is being presented in a proxy or information statement, no information need be given respecting any director whose term of office as a director will not continue after the meeting to which the statement relates.
4. With regard to proxy statements in connection with action to be taken concerning the election of directors, if fewer nominees are named than the number fixed by or pursuant to the governing instruments, state the reasons for this procedure and that the proxies cannot be voted for a greater number of persons than the number of nominees named.
5. With regard to proxy statements in connection with action to be taken concerning the election of directors, if more nominees are named than the number fixed by or pursuant to the governing instruments, state the reasons for this procedure and that the proxies cannot be voted for a greater number of persons than the number of nominees named.

(b) Identification of executive officers. List the names and ages of all executive officers of the registrant and all persons chosen to become executive officers; indicate all positions and offices with the registrant held by each such person; state his term of office as officer and the period during which he has served as such and describe briefly any arrangement or understanding between him and any other person(s) (naming such person) pursuant to which he was or is to be selected as an officer.

Such disclosure need not be made if the registrant was subject to section 13(a) or 15(d) of the Exchange Act or was exempt from section 13(a) by section 12(k)(2)(G) of such Act immediately prior to the filing of the registration statement, report, or statement to which this Item is applicable.

(d) Family relationships. State the nature of any family relationship between any director, executive officer, or person nominated or chosen by the registrant to become a director or executive officer.

Instruction to paragraph 401(d): The term “family relationship” means any relationship by blood, marriage, or adoption, not more remote than first cousin.

(e) Business experience—(1) Background. Briefly describe the business experience during the past five years of each director, executive officer, person nominated or chosen to become a director or executive officer, and each person named in answer to paragraph (c) of Item 401, including: each person’s principal occupations and employment during the past five years; the name and principal business of any corporation or other organization in which such occupations and employment were carried on; and whether such corporation or organization is a parent, subsidiary or other affiliate of the registrant. In addition, for each director or person nominated or chosen to become a director, briefly discuss the specific experience, qualifications, attributes or skills that led to the conclusion that the person should serve as a director for the registrant at the time that the disclosure is made, in light of the registrant’s business and structure. If material, this disclosure should cover more than the past five years, including information about the person’s particular areas of expertise or other relevant qualifications. When an executive officer or person named in response to paragraph (c) of Item 401 has been employed by the registrant or

Instruction to Paragraph (e) of Item 401: For the purposes of paragraph (e)(2), where the other directorships of each director or person nominated or chosen to become a director include directorships of two or more registered investment companies that are part of a “fund complex” as that term is defined in Item 22(a) of Schedule 14A under the Exchange Act (§240.14a–101 of this chapter), the registrant may, rather than listing each such investment company, identify the fund complex and provide the number of investment company directorships held by the director or nominee in such fund complex.

Instructions to paragraph (f) of Item 401: 1. For purposes of computing the ten-year period referred to in this paragraph, the date of a reportable event shall be deemed the date on which the final order, judgment or decree was entered, or the date on which any rights of appeal therefrom preliminary orders, judgments, or decrees have lapsed. With respect to bankruptcy petitions, the computation date shall be the date of filing for uncontested petitions or the date upon which approval of a contested petition became final.

2. If any event specified in this paragraph (f) has occurred and information in regard thereto is omitted on the grounds that it is not material, the registrant may furnish to the Commission, at time of filing (or at the time preliminary materials are filed, or ten days before definitive materials are filed in preliminary filing is not required, pursuant to Rule 14a-6 or 14c-6 under the Exchange Act (§§240.14a-6 and 240-14c-6 of this chapter)), as supplemental information and not as part of the registration statement, report, or proxy or information statement, materials to which the omission relates, a description of the event and a statement of the reasons for the omission of information in regard thereto.

3. The registrant is permitted to explain any mitigating circumstances associated with events reported pursuant to this paragraph.

4. If the information called for by this paragraph (f) is being presented in a proxy or information statement, no information need be given respecting any director whose term of office as a director will not continue after the meeting to which the statement relates.

5. This paragraph (f)(7) shall not apply to any settlement of a civil proceeding among private litigants.

(g) Promoters and control persons. (1) Registrants, which have not been subject to the reporting requirements of section 13(a) or 15(d) of the Exchange Act (15 U.S.C. 78m(a) or 78o(d)) for the twelve months immediately prior to the filing of the registration statement, report, or statement to which this Item is applicable, and which had a promoter at any time during the past five fiscal years, shall describe with respect to any promoter, any of the events enumerated in paragraphs (f)(1) through (f)(6) of this Item that occurred during the past five years and that are material to a voting or investment decision.

(2) Registrants, which have not been subject to the reporting requirements of section 13(a) or 15(d) of the Exchange Act for the twelve months immediately prior to the filing of the registration statement, report, or statement to which this Item is applicable, shall describe with respect to any control person, any of the events enumerated in paragraphs (f)(1) through (f)(6) of this section that occurred during the past five years and that are material to a voting or investment decision.

Instruction to Item 401. The information regarding executive officers called for by this
Securities and Exchange Commission

§ 229.402

Executive compensation.

(a) General—(1) Treatment of foreign private issuers. A foreign private issuer will be deemed to comply with this Item if it provides the information required by Items 6.B and 6.E.2 of Form 20-F (17 CFR 249.220f), with more detailed information furnished if otherwise made publicly available or required to be disclosed pursuant to paragraph (a)(3)(iii) of this Item but for the fact that the individual was not serving as an executive officer of the registrant at the end of the last completed fiscal year.

(b) Information for full fiscal year.

(1) All individuals serving as the registrant’s principal executive officer or acting in a similar capacity during the last completed fiscal year (“PEO”), regardless of compensation level;

(2) All compensation covered. This Item requires clear, concise and understandable disclosure of all plan and non-plan compensation awarded to, earned by, or paid to the named executive officers designated under paragraph (a)(3) of this Item, and directors covered by paragraph (k) of this Item, by any person for all services rendered in all capacities to the registrant and its subsidiaries, unless otherwise specifically excluded from disclosure in this Item. All such compensation shall be reported pursuant to this Item, even if also called for by another requirement, including transactions between the registrant and a third party where a purpose of the transaction is to furnish compensation to any such named executive officer or director. No amount reported as compensation for one fiscal year need be reported in the same manner as compensation for a subsequent fiscal year; amounts reported as compensation for one fiscal year may be required to be reported in a different manner pursuant to this Item.

(3) Persons covered. Disclosure shall be provided pursuant to this Item for each of the following (the “named executive officers”):

(i) All individuals serving as the registrant’s principal executive officer or acting in a similar capacity during the last completed fiscal year (“PEO”), regardless of compensation level;

(ii) All individuals serving as the registrant’s principal financial officer or acting in a similar capacity during the last completed fiscal year (“PFO”), regardless of compensation level;

(iii) The registrant’s three most highly compensated executive officers other than the PEO and PFO who were serving as executive officers at the end of the last completed fiscal year; and

(iv) Up to two additional individuals for whom disclosure would have been provided pursuant to paragraph (a)(3)(iii) of this Item but for the fact that the individual was not serving as an executive officer of the registrant at the end of the last completed fiscal year.

Instructions to Item 402(a)(3).

1. Determination of most highly compensated executive officers. The determination as to which executive officers are most highly compensated shall be made by reference to total compensation for the last completed fiscal year (as required to be disclosed pursuant to paragraph (c)(2)(x) of this Item) reduced by the amount required to be disclosed pursuant to paragraph (c)(2)(viii) of this Item, provided, however, that no disclosure need be provided for any executive officer, other than the PEO and PFO, whose total compensation, as so reduced, does not exceed $100,000.

2. Inclusion of executive officer of subsidiary. It may be appropriate for a registrant to include as named executive officers one or more executive officers of subsidiaries in the disclosure required by this Item. See Rule 3b–7 under the Exchange Act (17 CFR 240.3b–7).

3. Exclusion of executive officer due to overseas compensation. It may be appropriate in limited circumstances for a registrant not to include in the disclosure required by this Item an individual, other than its PEO or PFO, who is one of the registrant’s most highly compensated executive officers due to the payment of amounts of cash compensation relating to overseas assignments attributed predominantly to such assignments.

4. Information for full fiscal year. If the PEO or PFO served in that capacity during any part of a fiscal year with respect to which information is
required, information should be provided as to all of his or her compensation for the full fiscal year. If a named executive officer (other than the PEO or PFO) served as an executive officer of the registrant (whether or not in the same position) during any part of the fiscal year with respect to which information is required, information shall be provided as to all compensation of that individual for the full fiscal year.

(5) Omission of table or column. A table or column may be omitted if there has been no compensation awarded to, earned by, or paid to any of the named executive officers or directors required to be reported in that table or column in any fiscal year covered by that table.

(6) Definitions. For purposes of this Item:

(i) The term stock means instruments such as common stock, restricted stock, restricted stock units, phantom stock, phantom stock units, common stock equivalent units or any similar instruments that do not have option-like features, and the term option means instruments such as stock options, stock appreciation rights and similar instruments with option-like features. The term stock appreciation rights ("SARs") refers to SARs payable in cash or stock, including SARs payable in cash or stock at the election of the registrant or a named executive officer. The term equity is used to refer generally to stock and/or options.

(ii) The term plan includes, but is not limited to, the following: Any plan, contract, authorization or arrangement, whether or not set forth in any formal document, pursuant to which cash, securities, similar instruments, or any other property may be received. A plan may be applicable to one person. Except with respect to the disclosure required by paragraph (t) of this Item, registrants may omit information regarding group life, health, hospitalization, or medical reimbursement plans that do not discriminate in scope, terms or operation, in favor of executive officers or directors of the registrant and that are available generally to all salaried employees.

(iii) The term incentive plan means any plan providing compensation intended to serve as incentive for performance to occur over a specified period, whether such performance is measured by reference to financial performance of the registrant or an affiliate, the registrant's stock price, or any other performance measure. An equity incentive plan is an incentive plan or portion of an incentive plan under which awards are granted that fall within the scope of FASB ASC Topic 718, Compensation—Stock Compensation. A non-equity incentive plan is an incentive plan or portion of an incentive plan that is not an equity incentive plan. The term incentive plan award means an award provided under an incentive plan.

(iv) The terms date of grant or grant date refer to the grant date determined for financial statement reporting purposes pursuant to FASB ASC Topic 718.

(v) Closing market price is defined as the price at which the registrant's security was last sold in the principal United States market for such security as of the date for which the closing market price is determined.

(b) Compensation discussion and analysis. (1) Discuss the compensation awarded to, earned by, or paid to the named executive officers. The discussion shall explain all material elements of the registrant's compensation of the named executive officers. The discussion shall describe the following:

(i) The objectives of the registrant's compensation programs;

(ii) What the compensation program is designed to reward;

(iii) Each element of compensation;

(iv) Why the registrant chooses to pay each element;

(v) How the registrant determines the amount (and, where applicable, the formula) for each element to pay;

(vi) How each compensation element and the registrant's decisions regarding that element fit into the registrant's overall compensation objectives and affect decisions regarding other elements; and

(vii) Whether and, if so, how the registrant has considered the results of the most recent shareholder advisory vote on executive compensation required by section 14A of the Exchange Act (15 U.S.C. 78n-1) or §240.14a-20 of this chapter in determining compensation policies and decisions and, if so,
how that consideration has affected the registrant’s executive compensation decisions and policies.

(2) While the material information to be disclosed under Compensation Discussion and Analysis will vary depending upon the facts and circumstances, examples of such information may include, in a given case, among other things, the following:

(i) The policies for allocating between long-term and currently paid out compensation;

(ii) The policies for allocating between cash and non-cash compensation, and among different forms of non-cash compensation;

(iii) For long-term compensation, the basis for allocating compensation to each different form of award (such as relationship of the award to the achievement of the registrant’s long-term goals, management’s exposure to downside equity performance risk, correlation between cost to registrant and expected benefits to the registrant);

(iv) How the determination is made as to when awards are granted, including awards of equity-based compensation such as options;

(v) What specific items of corporate performance are taken into account in setting compensation policies and making compensation decisions;

(vi) How specific forms of compensation are structured and implemented to reflect these items of the registrant’s performance, including whether discretion can be or has been exercised (either to award compensation absent attainment of the relevant performance goal(s) or to reduce or increase the size of any award or payout), identifying any particular exercise of discretion, and stating whether it applied to one or more specified named executive officers or to all compensation subject to the relevant performance goal(s);

(vii) How specific forms of compensation are structured and implemented to reflect the named executive officer’s individual performance and/or individual contribution to these items of the registrant’s performance, describing the elements of individual performance and/or contribution that are taken into account;

(viii) Registrant policies and decisions regarding the adjustment or recovery of awards or payments if the relevant registrant performance measures upon which they are based are restated or otherwise adjusted in a manner that would reduce the size of an award or payment;

(ix) The factors considered in decisions to increase or decrease compensation materially;

(x) How compensation or amounts realizable from prior compensation are considered in setting other elements of compensation (e.g., how gains from prior option or stock awards are considered in setting retirement benefits);

(xi) With respect to any contract, agreement, plan or arrangement, whether written or unwritten, that provides for payment(s) at, following, or in connection with any termination or change-in-control, the basis for selecting particular events as triggering payment (e.g., the rationale for providing a single trigger for payment in the event of a change-in-control);

(xii) The impact of the accounting and tax treatments of the particular form of compensation;

(xiii) The registrant’s equity or other security ownership requirements or guidelines (specifying applicable amounts and forms of ownership), and any registrant policies regarding hedging the economic risk of such ownership;

(xiv) Whether the registrant engaged in any benchmarking of total compensation, or any material element of compensation, identifying the benchmark and, if applicable, its components (including component companies); and

(xv) The role of executive officers in determining executive compensation.

Instructions to Item 402(b). 1. The purpose of the Compensation Discussion and Analysis is to provide to investors material information that is necessary to an understanding of the registrant’s compensation policies and decisions regarding the named executive officers.

2. The Compensation Discussion and Analysis should be of the information contained in the tables and otherwise disclosed pursuant to this Item. The Compensation Discussion and Analysis should also cover actions regarding executive compensation that were taken after the registrant’s last fiscal year’s end. Actions that should be addressed might include, as examples only, the adoption or implementation of new or modified programs and policies or specific decisions that were
made or steps that were taken that could affect a fair understanding of the named executive officer’s compensation for the last fiscal year. Moreover, in some situations it may be necessary to discuss prior years in order to give context to the disclosure provided.

3. The Compensation Discussion and Analysis should focus on the material principles underlying the registrant’s executive compensation policies and decisions and the most important factors relevant to analysis of those policies and decisions. The Compensation Discussion and Analysis shall reflect the individual circumstances of the registrant and shall avoid boilerplate language and repetition of the more detailed information set forth in the tables and narrative disclosures that follow.

4. Registrants are not required to disclose target levels with respect to specific quantitative or qualitative performance-related factors considered by the compensation committee or the board of directors, or any other factors or criteria involving confidential trade secrets or confidential commercial or financial information, the disclosure of which would result in competitive harm for the registrant. The standard to use when determining whether disclosure would cause competitive harm for the registrant is the same standard that would apply when a registrant requests confidential treatment of confidential trade secrets or confidential commercial or financial information pursuant to Securities Act Rule 406 (17 CFR 230.406) and Exchange Act Rule 24b–2 if it determines that the disclosure would cause competitive harm in reliance on this instruction; however, in that case, the registrant must discuss how difficult it will be for the executive or how likely it will be for the registrant to achieve the undisclosed target levels or other factors.

5. Disclosure of target levels that are non-GAAP financial measures will not be subject to Regulation G (17 CFR 244.100–102) and Item 10(e) (§229.10(e)); however, disclosure must be provided as to how the number is calculated from the registrant’s audited financial statements.

6. In proxy or information statements with respect to the election of directors, if the information disclosed pursuant to Item 407(i) would satisfy paragraph (b)(2)(xiii) of this Item, a registrant may refer to the information disclosed pursuant to Item 407(i).

(c) Summary compensation table—(1) General. Provide the information specified in paragraph (c)(2) of this Item, concerning the compensation of the named executive officers for each of the registrant’s last three completed fiscal years, in a Summary Compensation Table in the tabular format specified below.

SUMMARY COMPENSATION TABLE
(2) The Table shall include:

(i) The name and principal position of the named executive officer (column (a));

(ii) The fiscal year covered (column (b));

(iii) The dollar value of base salary (cash and non-cash) earned by the named executive officer during the fiscal year covered (column (c));

(iv) The dollar value of bonus (cash and non-cash) earned by the named executive officer during the fiscal year covered (column (d));

(v) For awards of stock, the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 (column (e));

(vi) For awards of options, with or without tandem SARs (including awards that subsequently have been transferred), the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 (column (f));

Instruction 1 to Item 402(c)(2)(v) and (vi). For awards reported in columns (e) and (f), include a footnote disclosing all assumptions made in the valuation by reference to a discussion of those assumptions in the registrant’s financial statements, footnotes to the financial statements, or discussion in the Management’s Discussion and Analysis. The sections so referenced are deemed part of the disclosure provided pursuant to this Item.

Instruction 2 to Item 402(c)(2)(v) and (vi). If at any time during the last completed fiscal year, the registrant has adjusted or amended the exercise price of options or SARs previously awarded to a named executive officer, whether through amendment, cancellation or replacement grants, or any other means (“repriced”), or otherwise has materially modified such awards, the registrant shall include, as awards required to be reported in column (f), the incremental fair value, computed as of the repricing or modification date in accordance with FASB ASC Topic 718, with respect to that repriced or modified award.

Instruction 3 to Item 402(c)(2)(v) and (vi). For any awards that are subject to performance conditions, report the value at the grant date based upon the probable outcome of such conditions. This amount should be consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures. In a footnote to the table, disclose the value of the award at the grant date assuming that the highest level of performance conditions will

be achieved if an amount less than the maximum was included in the table.

(vii) The dollar value of all earnings for services performed during the fiscal year pursuant to awards under non-equity incentive plans as defined in paragraph (a)(6)(iii) of this Item, and all earnings on any outstanding awards (column (g));

Instructions to Item 402(c)(2)(vii). 1. If the relevant performance measure is satisfied during the fiscal year (including for a single year in a plan with a multi-year performance measure), the earnings are reportable for that fiscal year, even if not payable until a later date, and are not reportable again in the fiscal year when amounts are paid to the named executive officer.

2. All earnings on non-equity incentive plan compensation must be identified and quantified in a footnote to column (g), whether the earnings were paid during the fiscal year, payable during the period but deferred at the election of the named executive officer, or payable by their terms at a later date.

(viii) The sum of the amounts specified in paragraphs (c)(2)(viii)(A) and (B) of this Item (column (h)) as follows:

(A) The aggregate change in the actuarial present value of the named executive officer’s accumulated benefit under all defined benefit and actuarial pension plans (including supplemental plans) from the pension plan measurement date used for financial statement reporting purposes with respect to the registrant’s audited financial statements for the prior completed fiscal year to the pension plan measurement date used for financial statement reporting purposes with respect to the registrant’s audited financial statements for the covered fiscal year; and

(B) Above-market or preferential earnings on compensation that is deferred on a basis that is not tax-qualified, including such earnings on non-qualified defined contribution plans;

Instructions to Item 402(c)(2)(viii). 1. The disclosure required pursuant to paragraph (c)(2)(viii)(A) of this Item applies to each plan that provides for the payment of retirement benefits, or benefits that will be paid primarily following retirement, including but not limited to tax-qualified defined benefit plans and supplemental executive retirement plans, but excluding tax-qualified defined contribution plans and nonqualified defined contribution plans. For purposes of this disclosure, the registrant should use the same amounts required to be disclosed pursuant to paragraph (h)(2)(iv) of this Item for the covered fiscal year and the amounts that were or would have been required to be reported for the executive officer pursuant to paragraph (h)(2)(iv) of this Item for the prior completed fiscal year.

2. Regarding paragraph (c)(2)(viii)(B) of this Item, interest on deferred compensation is above-market only if the rate of interest exceeds 120% of the applicable federal long-term rate, with compounding (as prescribed under section 1274(d) of the Internal Revenue Code, (26 U.S.C. 1274(d))) at the rate that corresponds most closely to the rate under the registrant’s plan at the time the interest rate or formula is set. In the event of a discretionary reset of the interest rate, the requisite calculation must be made on the basis of the interest rate at the time of such reset, rather than when originally established. Only the above-market portion of the interest must be included. If the applicable interest rates vary depending upon conditions such as a minimum period of continued service, the reported amount should be calculated assuming satisfaction of all conditions to receiving interest at the highest rate. Dividends (and dividend equivalents) on deferred compensation denominated in the registrant’s stock (“deferred stock”) are preferential only if earned at a rate higher than dividends on the registrant’s common stock. Only the preferential portion of the dividends or equivalents must be included. Footnote or narrative disclosure may be provided explaining the registrant’s criteria for determining any portion considered to be above-market.

3. The registrant shall identify and quantify footnoting the separate amounts attributable to each of paragraphs (c)(2)(viii)(A) and (B) of this Item. Where such amount pursuant to paragraph (c)(2)(viii)(A) is negative, it should be disclosed by footnote but should not be reflected in the sum reported in column (h).

(ix) All other compensation for the covered fiscal year that the registrant could not properly report in any other column of the Summary Compensation Table (column (i)). Each compensation item that is not properly reportable in columns (c)–(h), regardless of the amount of the compensation item, must be included in column (i). Such compensation must include, but is not limited to:

(A) Perquisites and other personal benefits, or property, unless the aggregate amount of such compensation is less than $10,000;
Securities and Exchange Commission

§ 229.402

(B) All "gross-ups" or other amounts reimbursed during the fiscal year for the payment of taxes;

(C) For any security of the registrant or its subsidiaries purchased from the registrant or its subsidiaries (through deferral of salary or bonus, or otherwise) at a discount from the market price of such security at the date of purchase, unless that discount is available generally, either to all security holders or to all salaried employees of the registrant, the compensation cost, if any, computed in accordance with FASB ASC Topic 718;

(D) The amount paid or accrued to any named executive officer pursuant to a plan or arrangement in connection with:

(I) Any termination, including without limitation through retirement, resignation, severance or constructive termination (including a change in responsibilities) of such executive officer’s employment with the registrant and its subsidiaries; or

(2) A change in control of the registrant;

(E) Registrant contributions or other allocations to vested and unvested defined contribution plans;

(F) The dollar value of any insurance premiums paid by, or on behalf of, the registrant during the covered fiscal year with respect to life insurance for the benefit of a named executive officer; and

(G) The dollar value of any dividends or other earnings paid on stock or option awards, when those amounts were not factored into the grant date fair value required to be reported for the stock or option award in column (e) or (f); and

Instructions to Item 402(c)(2)(ix). 1. Non-equity incentive plan awards and earnings and earnings on stock and options, except as specified in paragraph (c)(2)(ix)(G) of this Item, are required to be reported elsewhere as provided in this Item and are not reportable as All Other Compensation in column (i).

2. Benefits paid pursuant to defined benefit and actuarial plans are not reportable as All Other Compensation in column (i) unless accelerated pursuant to a change in control; information concerning these plans is reportable pursuant to paragraphs (c)(2)(viii)(A) and (h) of this Item.

3. Any item reported for a named executive officer pursuant to paragraph (c)(2)(ix) of this Item that is not a perquisite or personal benefit and whose value exceeds $10,000 must be identified and quantified in a footnote to column (i). This requirement applies only to compensation for the last fiscal year. All items of compensation are required to be included in the Summary Compensation Table without regard to whether such items are required to be identified other than as specifically noted in this Item.

4. Perquisites and personal benefits may be excluded as long as the total value of all perquisites and personal benefits for a named executive officer is less than $10,000. If the total value of all perquisites and personal benefits is $10,000 or more for any named executive officer, then each perquisite or personal benefit, regardless of its amount, must be identified by type. If perquisites and personal benefits are required to be reported for a named executive officer pursuant to this rule, then each perquisite or personal benefit that exceeds the greater of $25,000 or 10% of the total amount of perquisites and personal benefits for that officer must be quantified and disclosed in a footnote. The requirements for identification and quantification apply only to compensation for the last fiscal year. Perquisites and other personal benefits shall be valued on the basis of the aggregate incremental cost to the registrant. With respect to the perquisite or other personal benefit for which footnote quantification is required, the registrant shall describe in the footnote its methodology for computing the aggregate incremental cost. Reimbursements of taxes owed with respect to perquisites or other personal benefits must be included in column (i) and are subject to separate quantification and identification as tax reimbursements (paragraph (c)(2)(ix)(B) of this Item) even if the associated perquisites or other personal benefits are not required to be included because the total amount of all perquisites or personal benefits for an individual named executive officer is less than $10,000 or are required to be identified but are not required to be separately quantified.

5. For purposes of paragraph (c)(2)(ix)(D) of this Item, an accrued amount is an amount for which payment has become due.

(X) The dollar value of total compensation for the covered fiscal year (column (j)). With respect to each named executive officer, disclose the sum of all amounts reported in columns (c) through (l).

Instructions to Item 402(c). 1. Information with respect to fiscal years prior to the last completed fiscal year will not be required if the registrant was not a reporting company pursuant to section 13(a) or 15(d) of the Exchange Act (15 U.S.C. 78m(a) or 78o(d)) at any
time during that year, except that the registrant will be required to provide information for any such year if that information previously was required to be provided in response to a Commission filing requirement.

2. All compensation values reported in the Summary Compensation Table must be reported in dollars and rounded to the nearest dollar. Reported compensation values must be reported numerically, providing a single numerical value for each grid in the table. Where compensation was paid to or received by a named executive officer in a different currency, a footnote must be provided to identify that currency and describe the rate and methodology used to convert the payment amounts to dollars.

3. If a named executive officer is also a director who receives compensation for his or her services as a director, reflect that compensation in the Summary Compensation Table and provide a footnote identifying and itemizing such compensation and amounts. Use the categories in the Director Compensation Table required pursuant to paragraph (k) of this Item.

4. Any amounts deferred, whether pursuant to a plan established under section 401(k) of the Internal Revenue Code (26 U.S.C. 401(k)), or otherwise, shall be included in the appropriate column for the fiscal year in which earned.

(d) Grants of plan-based awards table.

(1) Provide the information specified in paragraph (d)(2) of this Item, concerning each grant of an award made to a named executive officer in the last completed fiscal year under any plan, including awards that subsequently have been transferred, in the following tabular format:

(2) The Table shall include:

(i) The name of the named executive officer (column (a));

(ii) The grant date for equity-based awards reported in the table (column (b)). If such grant date is different than the date on which the compensation committee (or a committee of the board of directors performing a similar function or the full board of directors) takes action or is deemed to take action to grant such awards, a separate, adjoining column shall be added between columns (b) and (c) showing such date;

(iii) The dollar value of the estimated future payout upon satisfaction of the conditions in question under non-equity incentive plan awards granted in the fiscal year, or the applicable range of estimated payouts denominated in dollars (threshold, target and maximum amount) (columns (c) through (e));

(iv) The number of shares of stock, or the number of shares underlying options to be paid out or vested upon satisfaction of the conditions in question under equity incentive plan awards granted in the fiscal year, or the applicable range of estimated payouts denominated in the number of shares of stock, or the number of shares underlying options under the award (threshold, target and maximum amount) (columns (f) through (h));
(v) The number of shares of stock granted in the fiscal year that are not required to be disclosed in columns (f) through (h) (column (i));
(vi) The number of securities underlying options granted in the fiscal year that are not required to be disclosed in columns (f) through (h) (column (j));
(vii) The per-share exercise or base price of the options granted in the fiscal year (column (k)). If such exercise or base price is less than the closing market price of the underlying security on the date of the grant, a separate, adjoining column showing the closing market price on the date of the grant shall be added after column (k) and
(viii) The grant date fair value of each equity award computed in accordance with FASB ASC Topic 718 (column (l)).

Instructions to Item 402(d). 1. Disclosure on a separate line shall be provided in the Table for each grant of an award made to a named executive officer during the fiscal year. If grants of awards were made to a named executive officer during the fiscal year under more than one plan, identify the particular plan under which each such grant was made.
2. For grants of incentive plan awards, provide the information called for by columns (c), (d) and (e), or (f), (g) and (h), as applicable. For columns (c) and (f), threshold refers to the minimum amount payable for a certain level of performance under the plan. For columns (d) and (g), target refers to the amount payable if the specified performance target(s) are reached. For columns (e) and (h), maximum refers to the maximum payout possible under the plan. If the award provides only for a single estimated payout, that amount must be reported as the target in columns (d) and (g). In columns (d) and (g), registrants must provide a representative amount based on the previous fiscal year’s performance if the target amount is not determinable.

3. In determining if the exercise or base price of an option is less than the closing market price of the underlying security on the date of the grant, the registrant may use either the closing market price as specified in paragraph (a)(6)(v) of this Item, or if no market exists, any other formula prescribed for the security. Whenever the exercise or base price reported in column (k) is not the closing market price, describe the methodology for determining the exercise or base price either by a footnote or accompanying textual narrative.

4. A tandem grant of two instruments, only one of which is granted under an incentive plan, such as an option granted in tandem with a performance share, need be reported only in column (i) or (j), as applicable. For example, an option granted in tandem with a performance share would be reported only as an option grant in column (i), with the tandem feature noted either by a footnote or accompanying textual narrative.

5. Disclose the dollar amount of consideration, if any, paid by the executive officer for the award in a footnote to the appropriate column.

6. If non-equity incentive plan awards are denominated in units or other rights, a separate, adjoining column between columns (b) and (c) shall be added quantifying the units or other rights awarded.

7. Options, SARs and similar option-like instruments granted in connection with a repricing transaction or other material modification shall be reported in this Table. However, the disclosure required by this Table does not apply to any repricing that occurs through a pre-existing formula or mechanism in the plan or award that results in the periodic adjustment of the option or SAR exercise or base price, an antidilution provision in a plan or award, or a recapitalization or similar transaction equally affecting all holders of the class of securities underlying the options or SARs.

8. For any equity awards that are subject to performance conditions, report in column (l) the value at the grant date based upon the probable outcome of such conditions. This amount should be consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures.

(e) Narrative disclosure to summary compensation table and grants of plan-based awards table. (1) Provide a narrative description of any material factors necessary to an understanding of the information disclosed in the tables required by paragraphs (c) and (d) of this Item. Examples of such factors
may include, in given cases, among other things:

(i) The material terms of each named executive officer’s employment agreement or arrangement, whether written or unwritten;

(ii) If at any time during the last fiscal year, any outstanding option or other equity-based award was repriced or otherwise materially modified (such as by extension of exercise periods, the change of vesting or forfeiture conditions, the change or elimination of applicable performance criteria, or the change of the bases upon which returns are determined), a description of each such repricing or other material modification;

(iii) The material terms of any award reported in response to paragraph (d) of this Item, including a general description of the formula or criteria to be applied in determining the amounts payable, and the vesting schedule. For example, state where applicable that dividends will be paid on stock, and if so, the applicable dividend rate and whether that rate is preferential. Describe any performance-based conditions, and any other material conditions, that are applicable to the award. For purposes of the Table required by paragraph (d) of this Item and the narrative disclosure required by paragraph (e) of this Item, performance-based conditions include both performance conditions and market conditions, as those terms are defined in FASB ASC Topic 718; and

(iv) An explanation of the amount of salary and bonus in proportion to total compensation.

Instructions to Item 402(e)(1). 1. The disclosure required by paragraph (e)(1)(ii) of this Item would not apply to any repricing that occurs through a pre-existing formula or mechanism in the plan or award that results in the periodic adjustment of the option or SAR exercise or base price, an antidilution provision in a plan or award, or a recapitalization or similar transaction equally affecting all holders of the class of securities underlying the options or SARs.

2. Instructions 4 and 5 to Item 402(b) apply regarding disclosure pursuant to paragraph (e)(1) of this Item of target levels with respect to specific quantitative or qualitative performance-related factors considered by the compensation committee or the board of directors, or any other factors or criteria involving confidential trade secrets or confidential commercial or financial information, the disclosure of which would result in competitive harm for the registrant.

(2) [Reserved]

(f) Outstanding equity awards at fiscal year-end table. (1) Provide the information specified in paragraph (f)(2) of this Item, concerning unexercised options; stock that has not vested; and equity incentive plan awards for each named executive officer outstanding as of the end of the registrant’s last completed fiscal year in the following tabular format:

(2) The Table shall include:

(i) The name of the named executive officer (column (a));
(ii) On an award-by-award basis, the number of securities underlying unexercised options, including awards that have been transferred other than for value, that are exercisable and that are not reported in column (d) (column (b));
(iii) On an award-by-award basis, the number of securities underlying unexercised options, including awards that have been transferred other than for value, that are unexercisable and that are not reported in column (d) (column (c));
(iv) On an award-by-award basis, the total number of shares underlying unexercised options awarded under any equity incentive plan that have not been earned (column (d));
(v) For each instrument reported in columns (b), (c) and (d), as applicable, the exercise or base price (column (e));
(vi) For each instrument reported in columns (b), (c) and (d), as applicable, the expiration date (column (f));
(vii) The total number of shares of stock that have not vested and that are not reported in column (i) (column (g));
(viii) The aggregate market value of shares of stock that have not vested and that are not reported in column (j) (column (h));
(ix) The total number of shares of stock, units or other rights awarded under any equity incentive plan that have not vested and that have not been earned, and, if applicable the number of shares underlying any such unit or right (column (i)); and
(x) The aggregate market or payout value of shares of stock, units or other rights awarded under any equity incentive plan that have not vested and that have not been earned (column (j)).

Instructions to Item 402(f)(2). 1. Identify by footnote any award that has been transferred other than for value, disclosing the nature of the transfer.
2. The vesting dates of options, shares of stock and equity incentive plan awards held at fiscal-year end must be disclosed by footnote to the applicable column where the outstanding award is reported.
3. Compute the market value of stock reported in column (h) and equity incentive plan awards of stock reported in column (i).
by multiplying the closing market price of the registrant’s stock at the end of the last completed fiscal year by the number of shares or units of stock or the amount of equity incentive plan awards, respectively. The number of shares or units reported in columns (d) or (i), and the payout value reported in column (j), shall be based on achieving threshold performance goals, except that if the previous fiscal year’s performance has exceeded the threshold, the disclosure shall be based on the next higher performance measure (target or maximum) that exceeds the previous fiscal year’s performance. If the award provides only for a single estimated payout, that amount should be reported. If the target amount is not determinable, registrants must provide a representative amount based on the previous fiscal year’s performance.

4. Multiple awards may be aggregated where the expiration date and the exercise and/or base price of the instruments is identical. A single award consisting of a combination of options, SARs and/or similar option-like instruments shall be reported as separate awards with respect to each tranche with a different exercise and/or base price or expiration date.

5. Options or stock awarded under an equity incentive plan are reported in columns (d) or (i) and (j), respectively, until the relevant performance condition has been satisfied. Once the relevant performance condition has been satisfied, even if the option or stock award is subject to forfeiture conditions, options are reported in column (b) or (c), as appropriate, until they are exercised or expire, or stock is reported in columns (g) and (h) until it vests.

(g) Option exercises and stock vested table. (1) Provide the information specified in paragraph (g)(2) of this Item, concerning each exercise of stock options, SARs and similar instruments, and each vesting of stock, including restricted stock, restricted stock units and similar instruments, during the last completed fiscal year for each of the named executive officers on an aggregated basis in the following tabular format:

(2) The Table shall include:
(i) The name of the executive officer (column (a));
(ii) The number of securities for which the options were exercised (column (b));
(iii) The aggregate dollar value realized upon exercise of options, or upon the transfer of an award for value (column (c));
(iv) The number of shares of stock that have vested (column (d)); and
(v) The aggregate dollar value realized upon vesting of stock, or upon the transfer of an award for value (column (e)).

Instruction to Item 402(g)(2). Report in column (c) the aggregate dollar amount realized by the named executive officer upon exercise of the options or upon the transfer of such instruments for value. Compute the dollar amount realized upon exercise by determining the difference between the market price of the underlying securities at exercise and the exercise or base price of the options.
SECURITIES AND EXCHANGE COMMISSION

§ 229.402

Do not include the value of any related payment or other consideration provided (or to be provided) by the registrant to or on behalf of a named executive officer, whether in payment of the exercise price or related taxes. (Any such payment or other consideration provided by the registrant is required to be disclosed in accordance with paragraph (c)(2)(ix) of this Item.) Report in column (e) the aggregate dollar amount realized by the named executive officer upon the vesting of stock or the transfer of such instruments for value. Compute the aggregate dollar amount realized upon vesting by multiplying the number of shares of stock or units by the market value of the underlying shares on the vesting date. For any amount realized upon exercise or vesting for which receipt has been deferred, provide a footnote quantifying the amount and disclosing the terms of the deferral.

(h) Pension benefits. (1) Provide the information specified in paragraph (h)(2) of this Item with respect to each plan that provides for payments or other benefits at, following, or in connection with retirement, in the following tabular format:

<table>
<thead>
<tr>
<th>Name</th>
<th>Plan name</th>
<th>Number of years credited service (#)</th>

(2) The Table shall include:

(i) The name of the executive officer (column (a));

(ii) The name of the plan (column (b));

(iii) The number of years of service credited to the named executive officer under the plan, computed as of the same pension plan measurement date used for financial statement reporting purposes with respect to the registrant’s audited financial statements for the last completed fiscal year (column (c));

(iv) The actuarial present value of the named executive officer’s accumulated benefit under the plan, computed as of the same pension plan measurement date used for financial statement reporting purposes with respect to the registrant’s audited financial statements for the last completed fiscal year (column (d)); and

(v) The dollar amount of any payments and benefits paid to the named executive officer during the registrant’s last completed fiscal year (column (e)).

Instructions to Item 402(h)(2). 1. The disclosure required pursuant to this Table applies to each plan that provides for specified retirement payments and benefits, or payments and benefits that will be provided primarily following retirement, including but not limited to tax-qualified defined benefit plans and supplemental executive retirement plans, but excluding tax-qualified defined contribution plans and nonqualified defined contribution plans. Provide a separate row for each such plan in which the named executive officer participates.

2. For purposes of the amount(s) reported in column (d), the registrant must use the same assumptions used for financial reporting purposes under generally accepted accounting principles, except that retirement age shall be assumed to be the normal retirement age as defined in the plan, or if not so defined, the earliest time at which a participant may retire under the plan without any benefit reduction due to age. The registrant must disclose in the accompanying textual...
narrative the valuation method and all material assumptions applied in quantifying the present value of the current accrued benefit. A benefit specified in the plan document or the executive’s contract itself is not an assumption. Registrants may satisfy all or part of this disclosure by reference to a discussion of those assumptions in the registrant’s financial statements, footnotes to the financial statements, or discussion in the Management’s Discussion and Analysis. The sections so referenced are deemed part of the disclosure provided pursuant to this Item.

3. For purposes of allocating the current accrued benefit between tax qualified defined benefit plans and related supplemental plans, apply the limitations applicable to tax qualified defined benefit plans established by the Internal Revenue Code and the regulations thereunder that applied as of the pension plan measurement date.

4. If a named executive officer’s number of years of credited service with respect to any plan is different from the named executive officer’s number of actual years of service with the registrant, provide footnote disclosure quantifying the difference and any resulting benefit augmentation.

(3) Provide a succinct narrative description of any material factors necessary to an understanding of each plan covered by the tabular disclosure required by this paragraph. While material factors will vary depending upon the facts, examples of such factors may include, in given cases, among other things:

(i) The material terms and conditions of payments and benefits available under the plan, including the plan’s normal retirement payment and benefit formula and eligibility standards, and the effect of the form of benefit elected on the amount of annual benefits. For this purpose, normal retirement means retirement at the normal retirement age as defined in the plan, or if not so defined, the earliest time at which a participant may retire under the plan without any benefit reduction due to age;

(ii) If any named executive officer is currently eligible for early retirement under any plan, identify that named executive officer and the plan, and describe the plan’s early retirement payment and benefit formula and eligibility standards. For this purpose, early retirement means retirement at the early retirement age as defined in the plan, or otherwise available to the executive under the plan;

(iii) The specific elements of compensation (e.g., salary, bonus, etc.) included in applying the payment and benefit formula, identifying each such element;

(iv) With respect to named executive officers’ participation in multiple plans, the different purposes for each plan; and

(v) Registrant policies with regard to such matters as granting extra years of credited service.

(1) Nonqualified defined contribution and other nonqualified deferred compensation plans. (1) Provide the information specified in paragraph (i)(2) of this Item with respect to each defined contribution or other plan that provides for the deferral of compensation on a basis that is not tax-qualified in the following tabular format:

Securities and Exchange Commission § 229.402

(2) The Table shall include:
(i) The name of the executive officer (column (a));
(ii) The dollar amount of aggregate executive contributions during the registrant’s last fiscal year (column (b));
(iii) The dollar amount of aggregate registrant contributions during the registrant’s last fiscal year (column (c));
(iv) The dollar amount of aggregate interest or other earnings accrued during the registrant’s last fiscal year (column (d));
(v) The aggregate dollar amount of all withdrawals by and distributions to the executive during the registrant’s last fiscal year (column (e)); and
(vi) The dollar amount of total balance of the executive’s account as of the end of the registrant’s last fiscal year (column (f)).

Instruction to Item 402(i)(2). Provide a footnote quantifying the extent to which amounts reported in the contributions and earnings columns are reported as compensation in the last completed fiscal year in the registrant’s Summary Compensation Table and amounts reported in the aggregate balance at last fiscal year end (column (f)) previously were reported as compensation to the named executive officer in the registrant’s Summary Compensation Table for previous years.

(3) Provide a succinct narrative description of any material factors necessary to an understanding of each plan covered by tabular disclosure required by this paragraph. While material factors will vary depending upon the facts, examples of such factors may include, in given cases, among other things:
(i) The type(s) of compensation permitted to be deferred, and any limitations (by percentage of compensation or otherwise) on the extent to which deferral is permitted;
(ii) The measures for calculating interest or other plan earnings (including whether such measure(s) are selected by the executive or the registrant and the frequency and manner in which selections may be changed), quantifying interest rates and other earnings measures applicable during the registrant’s last fiscal year; and
(iii) Material terms with respect to payouts, withdrawals and other distributions.

(j) Potential payments upon termination or change-in-control. Regarding each contract, agreement, plan or arrangement, whether written or unwritten, that provides for payment(s) to a named executive officer at, following, or in connection with any termination, including without limitation resignation, severance, retirement or a constructive termination of a named executive officer, or a change in control of the registrant or a change in the named executive officer’s responsibilities, with respect to each named executive officer:
(1) Describe and explain the specific circumstances that would trigger payment(s) or the provision of other benefits, including perquisites and health care benefits;
(2) Describe and quantify the estimated payments and benefits that would be provided in each covered circumstance, whether they would or could be lump sum, or annual, disclosing the duration, and by whom they would be provided;
(3) Describe and explain how the appropriate payment and benefit levels are determined under the various circumstances that trigger payments or provision of benefits;
(4) Describe and explain any material conditions or obligations applicable to the receipt of payments or benefits, including but not limited to non-compete, non-solicitation, non-disparagement or confidentiality agreements, including the duration of such agreements and provisions regarding waiver of breach of such agreements; and
(5) Describe any other material factors regarding each such contract, agreement, plan or arrangement.

Instructions to Item 402(j). 1. The registrant must provide quantitative disclosure under these requirements, applying the assumptions that the triggering event took place on the last business day of the registrant’s last completed fiscal year, and the price per share of the registrant’s securities is the closing market price as of that date. In the event that uncertainties exist as to the provision of payments and benefits or the amounts involved, the registrant is required to make a reasonable estimate (or a reasonable estimated range of amounts) applicable to the payment or benefit and disclose material assumptions underlying such estimates or estimated ranges in its disclosure. In such
event, the disclosure would require forward-looking information as appropriate.

2. Perquisites and other personal benefits or property may be excluded only if the aggregate amount of such compensation will be less than $10,000. Individual perquisites and personal benefits shall be identified and quantified as required by Instruction 4 to paragraph (c)(2)(ix) of this Item. For purposes of quantifying health care benefits, the registrant must use the assumptions used for financial reporting purposes under generally accepted accounting principles.

3. To the extent that the form and amount of any payment or benefit that would be provided in connection with any triggering event is fully disclosed pursuant to paragraph (h) or (i) of this Item, reference may be made to that disclosure. However, to the extent that the form or amount of any such payment or benefit would be enhanced or its vesting or other provisions accelerated in connection with any triggering event, such enhancement or acceleration must be disclosed pursuant to this paragraph.

4. Where a triggering event has actually occurred for a named executive officer and that individual was not serving as a named executive officer of the registrant at the end of the last completed fiscal year, the disclosure required by this paragraph for that named executive officer shall apply only to that triggering event.

5. The registrant need not provide information with respect to contracts, agreements, plans or arrangements to the extent they do not discriminate in scope, terms or operation, in favor of executive officers of the registrant and that are available generally to all salaried employees.

(k) Compensation of directors. (1) Provide the information specified in paragraph (k)(2) of this Item, concerning the compensation of the directors for the registrant’s last completed fiscal year, in the following tabular format:

(2) The Table shall include:

(i) The name of each director unless such director is also a named executive officer under paragraph (a) of this Item and his or her compensation for service as a director is fully reflected in the Summary Compensation Table pursuant to paragraph (c) of this Item and otherwise as required pursuant to paragraphs (d) through (j) of this Item (column (a));

(ii) The aggregate dollar amount of all fees earned or paid in cash for services as a director, including annual retainer fees, committee and/or chairmanship fees, and meeting fees (column (b));

(iii) For awards of stock, the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 (column (c));

(iv) For awards of options, with or without tandem SARs (including
§ 229.402

Securities and Exchange Commission

awards that subsequently have been transferred), the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 (column (d));

Instruction to Item 402(k)(2)(iii) and (iv). For each director, disclose by footnote to the appropriate column: the grant date fair value of each equity award computed in accordance with FASB ASC Topic 718; for each option, SAR or similar option like instrument for which the registrant has adjusted or amended the exercise or base price during the last completed fiscal year, whether through amendment, cancellation or replacement grants, or any other means ("re-priced") or otherwise has materially modified such awards, the incremental fair value, computed as of the repricing or modification date in accordance with FASB ASC Topic 718; and the aggregate number of stock awards and the aggregate number of option awards outstanding at fiscal year end. However, the disclosure required by this Instruction does not apply to any repricing that occurs through a pre-existing formula or mechanism in the plan or award that results in the periodic adjustment of the option or SAR exercise or base price, an antidilution provision in a plan or award, or a recapitalization or similar transaction equally affecting all holders of the class of securities underlying the options or SARs.

(vii) All other compensation for the covered fiscal year that the registrant could not properly report in any other column of the Director Compensation Table (column (g)). Each compensation item that is not properly reportable in columns (b)–(f), regardless of the amount of the compensation item, must be included in column (g). Such compensation must include, but is not limited to:

(A) Perquisites and other personal benefits, or property, unless the aggregate amount of such compensation is less than $10,000;

(B) All “gross-ups” or other amounts reimbursed during the fiscal year for the payment of taxes;

(C) For any security of the registrant or its subsidiaries purchased from the registrant or its subsidiaries (through deferral of salary or bonus, or otherwise) at a discount from the market price of such security at the date of purchase, unless that discount is available generally, either to all security holders or to all salaried employees of the registrant, the compensation cost, if any, computed in accordance with FASB ASC Topic 718;

(D) The amount paid or accrued to any director pursuant to a plan or arrangement in connection with:

(1) The resignation, retirement or any other termination of such director; or

(2) A change in control of the registrant;

(E) Registrant contributions or other allocations to vested and unvested defined contribution plans;

(F) Consulting fees earned from, or paid or payable by the registrant and/or its subsidiaries (including joint ventures);

(G) The annual costs of payments and promises of payments pursuant to director legacy programs and similar charitable award programs;

(H) The dollar value of any insurance premiums paid by, or on behalf of, the registrant during the covered fiscal year with respect to life insurance for the benefit of a director; and

(I) The dollar value of any dividends or other earnings paid on stock or option awards, when those amounts were not factored into the grant date fair value required to be reported for the
Instructions to Item 402(k)(2)(vii). 1. Programs in which registrants agree to make donations to one or more charitable institutions in a director’s name, payable by the registrant currently or upon a designated event, such as the retirement or death of the director, are charitable awards programs or director legacy programs for purposes of the disclosure required by paragraph (k)(2)(vii)(G) of this Item. Provide footnote disclosure of the total dollar amount payable under the program and other material terms of each such program for which tabular disclosure is provided.

2. Any item reported for a director pursuant to paragraph (k)(2)(vii) of this Item that is not a perquisite or personal benefit and whose value exceeds $10,000 must be identified and quantified in a footnote to column (g). All items of compensation are required to be included in the Director Compensation Table without regard to whether such items are required to be identified other than as specifically noted in this Item.

3. Perquisites and personal benefits may be excluded as long as the total value of all perquisites and personal benefits for a director is less than $10,000. If the total value of all perquisites and personal benefits is $10,000 or more for any director, then each perquisite or personal benefit, regardless of its amount, must be identified by type. If perquisites and personal benefits are required to be reported for a director pursuant to this rule, then each perquisite or personal benefit that exceeds the greater of $25,000 or 10% of the total amount of perquisites and personal benefits for that director must be quantified and disclosed in a footnote. Perquisites and other personal benefits shall be valued on the basis of the aggregate incremental cost to the registrant. With respect to the perquisite or other personal benefit for which footnote quantification is required, the registrant shall describe in the footnote its methodology for computing the aggregate incremental cost. Reimbursements of taxes owed with respect to perquisites or other personal benefits must be included in column (g) and are subject to separate quantification and identification as tax reimbursements (paragraph (k)(2)(vii)(B) of this Item) even if the associated perquisites or other personal benefits are not required to be included because the total amount of all perquisites or personal benefits for an individual director is less than $10,000 or are required to be identified but are not required to be separately quantified.

(viii) The dollar value of total compensation for the covered fiscal year (column (h)). With respect to each director, disclose the sum of all amounts reported in columns (b) through (g).

Instruction to Item 402(k)(2). Two or more directors may be grouped in a single row in the Table if all elements of their compensation are identical. The names of the directors for whom disclosure is presented on a group basis should be clear from the Table.

(3) Narrative to director compensation table. Provide a narrative description of any material factors necessary to an understanding of the director compensation disclosed in this Table. While material factors will vary depending upon the facts, examples of such factors may include, in given cases, among other things:

(1) A description of standard compensation arrangements (such as fees for retainers, committee service, service as chairman of the board or a committee, and meeting attendance); and

(ii) Whether any director has a different compensation arrangement, identifying that director and describing the terms of that arrangement.

Instruction to Item 402(k). In addition to the Instructions to paragraphs (c)(2)(iii) and (iv) and the Instructions to paragraph (k)(2)(vii) of this Item, the following apply equally to paragraph (k) of this Item: Instructions 2 and 4 to paragraph (c) of this Item; Instructions to paragraphs (c)(2)(ii) and (iv) of this Item; Instructions to paragraphs (c)(2)(v) and (vi) of this Item; Instructions to paragraph (c)(2)(vii) of this Item; Instructions to paragraph (c)(2)(viii) of this Item; and Instructions 1 and 5 to paragraph (c)(2)(ix) of this Item. These Instructions apply to the columns in the Director Compensation Table that are analogous to the columns in the Summary Compensation Table to which they refer and to disclosures under paragraph (k) of this Item that correspond to analogous disclosures provided for in paragraph (c) of this Item to which they refer.

(1) Smaller reporting companies and emerging growth companies. A registrant that qualifies as a “smaller reporting company,” as defined by Item 10(f) (§229.10(f)(1)), or is an “emerging growth company,” as defined in Rule 405 of the Securities Act (§230.405 of this chapter) or Rule 12b–2 of the Exchange Act (§240.12b–2 of this chapter), may provide the scaled disclosure in paragraphs (m) through (r) instead of paragraphs (a) through (k), (s), and (u) of this Item.
Securities and Exchange Commission

§ 229.402

(m) Smaller reporting companies—General—(1) All compensation covered. This Item requires clear, concise and understandable disclosure of all plan and non-plan compensation awarded to, earned by, or paid to the named executive officers designated under paragraph (m)(2) of this Item, and directors covered by paragraph (i) of this Item, by any person for all services rendered in all capacities to the smaller reporting company and its subsidiaries, unless otherwise specifically excluded from disclosure in this Item. All such compensation shall be reported pursuant to this Item, even if also called for by another requirement, including transactions between the smaller reporting company and a third party where a purpose of the transaction is to furnish compensation to any such named executive officer or director. No amount reported as compensation for one fiscal year need be reported in the same manner as compensation for a subsequent fiscal year; amounts reported as compensation for one fiscal year may be required to be reported in a different manner pursuant to this Item.

(2) Persons covered. Disclosure shall be provided pursuant to this Item for each of the following (the “named executive officers”):

(i) All individuals serving as the smaller reporting company’s principal executive officer or acting in a similar capacity during the last completed fiscal year (“PEO”), regardless of compensation level;

(ii) The smaller reporting company’s two most highly compensated executive officers other than the PEO who were serving as executive officers at the end of the last completed fiscal year; and

(iii) Up to two additional individuals for whom disclosure would have been provided pursuant to paragraph (m)(2)(i) of this Item but for the fact that the individual was not serving as an executive officer of the smaller reporting company at the end of the last completed fiscal year.

Instructions to Item 402(m)(2). 1. Determination of most highly compensated executive officers. The determination as to which executive officers are most highly compensated shall be made by reference to total compensation for the last completed fiscal year (as required to be disclosed pursuant to paragraph (m)(2)(x) of this Item) reduced by the amount required to be disclosed pursuant to paragraph (m)(2)(viii) of this Item, provided, however, that no disclosure need be provided for any executive officer, other than the PEO, whose total compensation, as so reduced, does not exceed $100,000.

2. Inclusion of executive officer of a subsidiary. It may be appropriate for a smaller reporting company to include as named executive officers one or more executive officers or other employees of subsidiaries in the disclosure required by this Item. See Rule 3b–7 under the Exchange Act (17 CFR 240.3b–7).

3. Exclusion of executive officer due to overseas compensation. It may be appropriate in limited circumstances for a smaller reporting company not to include in the disclosure required by this Item an individual, other than its PEO, who is one of the smaller reporting company’s most highly compensated executive officers due to the payment of amounts of cash compensation relating to overseas assignments attributed predominately to such assignments.

(3) Information for full fiscal year. If the PEO served in that capacity during any part of a fiscal year, with respect to which information is required, information should be provided as to all of his or her compensation for the full fiscal year. If a named executive officer (other than the PEO) served as an executive officer of the smaller reporting company (whether or not in the same position) during any part of the fiscal year with respect to which information is required, information shall be provided as to all compensation of that individual for the full fiscal year.

(4) Omission of table or column. A table or column may be omitted if there has been no compensation awarded to, earned by, or paid to any of the named executive officers or directors required to be reported in that table or column in any fiscal year covered by that table.

(5) Definitions. For purposes of this Item:

(i) The term stock means instruments such as common stock, restricted stock, restricted stock units, phantom stock, phantom stock units, common stock equivalent units or any similar instruments that do not have option-like features, and the term option means instruments such as stock options, stock appreciation rights and similar instruments with option-like features.
features. The term stock appreciation rights ("SARs") refers to SARs payable in cash or stock, including SARs payable in cash or stock at the election of the smaller reporting company or a named executive officer. The term equity is used to refer generally to stock and/or options.

(ii) The term plan includes, but is not limited to, the following: Any plan, contract, authorization or arrangement, whether or not set forth in any formal document, pursuant to which cash, securities, similar instruments, or any other property may be received. A plan may be applicable to one person. Except with respect to disclosure required by paragraph (t) of this Item, smaller reporting companies may omit information regarding group life, health, hospitalization, or medical reimbursement plans that do not discriminate in scope, terms or operation, in favor of executive officers or directors of the smaller reporting company and that are available generally to all salaried employees.

(iii) The term incentive plan means any plan providing compensation intended to serve as incentive for performance to occur over a specified period, whether such performance is measured by reference to financial performance of the smaller reporting company or an affiliate, the smaller reporting company’s stock price, or any other performance measure. An equity incentive plan is an incentive plan or portion of an incentive plan under which awards are granted that fall within the scope of FASB ASC Topic 718. A non-equity incentive plan is an incentive plan or portion of an incentive plan that is not an equity incentive plan. The term incentive plan award means an award provided under an incentive plan.

(iv) The terms date of grant or grant date refer to the grant date determined for financial statement reporting purposes pursuant to FASB ASC Topic 718.

(v) Closing market price is defined as the price at which the smaller reporting company’s security was last sold in the principal United States market for such security as of the date for which the closing market price is determined.

(n) Smaller reporting companies—Summary compensation table—(1) General. Provide the information specified in paragraph (n)(2) of this Item, concerning the compensation of the named executive officers for each of the smaller reporting company’s last two completed fiscal years, in a Summary Compensation Table in the tabular format specified below.

<table>

<tr>
<th>Summary Compensation Table</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name and principal position</td>
</tr>
<tr>
<td>(a)</td>
</tr>
<tr>
<td>PEO</td>

(2) The Table shall include:

(i) The name and principal position of the named executive officer (column (a));

(ii) The fiscal year covered (column (b));

(iii) The dollar value of base salary (cash and non-cash) earned by the named executive officer during the fiscal year covered (column (c));

(iv) The dollar value of bonus (cash and non-cash) earned by the named executive officer during the fiscal year covered (column (d));

Instructions to Item 402(n)(2)(iii) and (iv). 1. If the amount of salary or bonus earned in a given fiscal year is not calculable through the latest practicable date, a footnote shall be included disclosing that the amount of salary or bonus is not calculable through the latest practicable date and providing the date that the amount of salary or bonus is expected to be determined, and such amount...
must then be disclosed in a filing under Item 5.02(f) of Form 8-K (17 CFR 249.308).

2. Smaller reporting companies shall include in the salary column (column (c)) or bonus column (column (d)) any amount of salary or bonus forgone at the election of a named executive officer under which stock, equity-based or other forms of non-cash compensation have been transferred or SARs previously awarded to a named executive officer, whether through amendment, cancellation or replacement grants, or any other means (“repriced”), or otherwise has materially modified such awards, the smaller reporting company shall include, as awards required to be reported in column (f), the incremental fair value, computed as of the repricing or modification date in accordance with FASB ASC Topic 718, with respect to that repriced or modified date in accordance with FASB ASC Topic 718 (column (f));

Instruction 1 to Item 402(n)(2)(v) and (n)(2)(vi).

(c) For awards of options, with or without tandem SARs (including awards that subsequently have been transferred), the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 (column (e));

Instruction 2 to Item 402(n)(2)(v) and (n)(2)(vi).

For awards reported in columns (e) and (f), include a footnote disclosing all assumptions made in the valuation by reference to a discussion of those assumptions in the smaller reporting company’s financial statements, footnotes to the financial statements, or discussion in the Management’s Discussion and Analysis. The sections so referenced are deemed part of the disclosure provided pursuant to this Item.

Instruction 2 to Item 402(n)(2)(v) and (n)(2)(vi).

If at any time during the last completed fiscal year, the smaller reporting company has adjusted or amended the exercise price of options or SARs previously awarded to a named executive officer, whether through amendment, cancellation or replacement grants, or any other means (“repriced”), or otherwise has materially modified such awards, the smaller reporting company shall include, as awards required to be reported in column (f), the incremental fair value, computed as of the repricing or modification date in accordance with FASB ASC Topic 718, with respect to that repriced or modified award.

Instruction 3 to Item 402(n)(2)(v) and (vi).

For any awards that are subject to performance conditions, report the value at the grant date based upon the probable outcome of such conditions. This amount should be consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures. In a footnote to the table, disclose the value of the award at the grant date assuming that the highest level of performance conditions will be achieved if an amount less than the maximum was included in the table.

(vii) The dollar value of all earnings for services performed during the fiscal year pursuant to awards under non-equity incentive plans as defined in paragraph (m)(5)(iii) of this Item, and all earnings on any outstanding awards (column (g));

Instructions to Item 402(n)(2)(viii). 1. If the relevant performance measure is satisfied during the fiscal year (including for a single year in a plan with a multi-year performance measure), the earnings are reportable for that fiscal year, even if not payable until a later date, and are not reportable again in the fiscal year when amounts are paid to the named executive officer.

2. All earnings on non-equity incentive plan compensation must be identified and quantified in a footnote to column (g), whether the earnings were paid during the fiscal year, payable during the period but deferred at the election of the named executive officer, or payable by their terms at a later date.

(viii) Above-market or preferential earnings on compensation that is deferred on a basis that is not tax-qualified, including such earnings on non-qualified defined contribution plans (column (h));

Instruction to Item 402(n)(2)(viii).

Interest on deferred compensation is above-market only if the rate of interest exceeds 120% of the applicable federal long-term rate, with compounding (as prescribed under section 1274(d) of the Internal Revenue Code, 26 U.S.C. 1274(d)) at the rate that corresponds most closely to the rate under the smaller reporting company’s plan at the time the interest rate or formula is set. In the event of a discretionary reset of the interest rate, the requisite calculation must be made on the basis of the interest rate at the time of such reset, rather than when originally established. Only the above-market portion of the interest must be included. If the applicable interest rates vary depending upon conditions such as a minimum period of continued service, the reported amount should be calculated assuming satisfaction of all conditions to receiving interest at the highest rate. Dividends (and dividend equivalents) on deferred compensation denominated in the smaller reporting company’s stock (“deferred stock”) are preferential only if earned...
§ 229.402

at a rate higher than dividends on the smaller reporting company’s common stock. Only the preferential portion of the dividends or equivalents must be included. Footnote or narrative disclosure may be provided explaining the smaller reporting company’s criteria for determining any portion considered to be above-market.

(ix) All other compensation for the covered fiscal year that the smaller reporting company could not properly report in any other column of the Summary Compensation Table (column (i)). Each compensation item that is not properly reportable in columns (c) through (h), regardless of the amount of the compensation item, must be included in column (i). Such compensation must include, but is not limited to:

(A) Perquisites and other personal benefits, or property, unless the aggregate amount of such compensation is less than $10,000;

(B) All “gross-ups” or other amounts reimbursed during the fiscal year for the payment of taxes;

(C) For any security of the smaller reporting company or its subsidiaries purchased from the smaller reporting company or its subsidiaries (through deferral of salary or bonus, or otherwise) at a discount from the market price of such security at the date of purchase, unless that discount is available generally, either to all security holders or to all salaried employees of the smaller reporting company, the compensation cost, if any, computed in accordance with FASB ASC Topic 718;

(D) The amount paid or accrued to any named executive officer pursuant to a plan or arrangement in connection with:

(1) Any termination, including without limitation through retirement, resignation, severance or constructive termination (including a change in responsibilities) of such executive officer’s employment with the smaller reporting company and its subsidiaries; or

(2) A change in control of the smaller reporting company;

(E) Smaller reporting company contributions or other allocations to vested and unvested defined contribution plans;

(F) The dollar value of any insurance premiums paid by, or on behalf of, the smaller reporting company during the covered fiscal year with respect to life insurance for the benefit of a named executive officer; and

(G) The dollar value of any dividends or other earnings paid on stock or option awards, when those amounts were not factored into the grant date fair value required to be reported for the stock or option award in column (e) or (f); and

Instructions to Item 402(n)(2)(ix). 1. Non-equity incentive plan awards and earnings and earnings on stock or options, except as specified in paragraph (n)(2)(ix)(G) of this Item, are required to be reported elsewhere as provided in this Item and are not reportable as All Other Compensation in column (i).

2. Benefits paid pursuant to defined benefit and actuarial plans are not reportable as All Other Compensation in column (i) unless accelerated pursuant to a change in control; information concerning these plans is reportable pursuant to paragraph (q)(1) of this Item.

3. Reimbursements of taxes owed with respect to perquisites or other personal benefits must be included in the columns as tax reimbursements (paragraph (n)(2)(ix)(B) of this Item) even if the associated perquisites or other personal benefits are not required to be included because the aggregate amount of such compensation is less than $10,000.

4. Perquisites and other personal benefits shall be valued on the basis of the aggregate incremental cost to the smaller reporting company.

5. For purposes of paragraph (n)(2)(ix)(D) of this Item, an accrued amount is an amount for which payment has become due.

(x) The dollar value of total compensation for the covered fiscal year (column (j)). With respect to each named executive officer, disclose the sum of all amounts reported in columns (c) through (i).

Instructions to Item 402(n). 1. Information with respect to the fiscal year prior to the last completed fiscal year will not be required if the smaller reporting company was not a reporting company pursuant to section 13(a) or 15(d) of the Exchange Act (15 U.S.C. 78m(a) or 78o(d)) at any time during that year, except that the smaller reporting company will be required to provide information for any such year if that information previously was required to be provided in response to a Commission filing requirement.

2. All compensation values reported in the Summary Compensation Table must be reported in dollars and rounded to the nearest dollar. Reported compensation values must be reported numerically, providing a single
numerical value for each grid in the table. Where compensation was paid to or received by a named executive officer in a different currency, a footnote must be provided to identify that currency and describe the rate and methodology used to convert the payment amounts to dollars.

3. If a named executive officer is also a director who receives compensation for his or her services as a director, reflect that compensation in the Summary Compensation Table and provide a footnote identifying and itemizing such compensation and amounts. Use the categories in the Director Compensation Table required pursuant to paragraph (r) of this Item.

4. Any amounts deferred, whether pursuant to a plan established under section 401(k) of the Internal Revenue Code (26 U.S.C. 401(k)), or otherwise, shall be included in the appropriate column for the fiscal year in which earned.

(o) Smaller reporting companies—Narrative disclosure to summary compensation table. Provide a narrative description of any material factors necessary to an understanding of the information disclosed in the Table required by paragraph (n) of this Item. Examples of such factors may include, in given cases, among other things:

(1) The material terms of each named executive officer’s employment agreement or arrangement, whether written or unwritten;

(2) If at any time during the last fiscal year, any outstanding option or other equity-based award was repriced or otherwise materially modified (such as by extension of exercise periods, the change of vesting or forfeiture conditions, the change or elimination of applicable performance criteria, or the change of the bases upon which returns are determined), a description of each such repricing or other material modification;

(3) The waiver or modification of any specified performance target, goal or condition to payout with respect to any amount included in non-stock incentive plan compensation or payouts reported in column (g) to the Summary Compensation Table required by paragraph (n) of this Item, stating whether the waiver or modification applied to one or more specified named executive officers or to all compensation subject to the target, goal or condition;

(4) The material terms of each grant, including but not limited to the date of exercisability, any conditions to exercisability, any tandem feature, any reload feature, any tax-reimbursement feature, and any provision that could cause the exercise price to be lowered;

(5) The material terms of any non-equity incentive plan award made to a named executive officer during the last completed fiscal year, including a general description of the formula or criteria to be applied in determining the amounts payable and vesting schedule;

(6) The method of calculating earnings on nonqualified deferred compensation plans including nonqualified defined contribution plans; and

(7) An identification to the extent material of any item included under All Other Compensation (column (i)) in the Summary Compensation Table. Identification of an item shall not be considered material if it does not exceed the greater of $25,000 or 10% of all items included in the specified category in question set forth in paragraph (n)(2)(ix) of this Item. All items of compensation are required to be included in the Summary Compensation Table without regard to whether such items are required to be identified.

Instruction to Item 402(o). The disclosure required by paragraph (o)(2) of this Item would not apply to any repricing that occurs through a pre-existing formula or mechanism in the plan or award that results in the periodic adjustment of the option or SAR exercise or base price, an antidilution provision in a plan or award, or a recapitalization or similar transaction equally affecting all holders of the class of securities underlying the options or SARs.

(p) Smaller reporting companies—Outstanding equity awards at fiscal year-end table. (1) Provide the information specified in paragraph (p)(2) of this Item, concerning unexercised options; stock that has not vested; and equity incentive plan awards for each named executive officer outstanding as of the end of the smaller reporting company’s last completed fiscal year in the following tabular format:

(2) The Table shall include:

(i) The name of the named executive officer (column (a));

(ii) On an award-by-award basis, the number of securities underlying unexercised options, including awards that have been transferred other than for value, that are exercisable and that are not reported in column (d) (column (b));

(iii) On an award-by-award basis, the number of securities underlying unexercised options, including awards that have been transferred other than for value, that are unexercisable and that are not reported in column (d) (column (c));

(iv) On an award-by-award basis, the total number of shares underlying unexercised options awarded under any equity incentive plan that have not been earned (column (d));

(v) For each instrument reported in columns (b), (c) and (d), as applicable, the exercise or base price (column (e));

(vi) For each instrument reported in columns (b), (c) and (d), as applicable, the expiration date (column (f));

(vii) The total number of shares of stock that have not vested and that are not reported in column (i) (column (g));

(viii) The aggregate market value of shares of stock that have not vested and that are not reported in column (j) (column (h));

(ix) The total number of shares of stock, units or other rights awarded under any equity incentive plan that have not vested and that have not been earned, and, if applicable the number of shares underlying any such unit or right (column (i)); and

(x) The aggregate market or payout value of shares of stock, units or other rights awarded under any equity incentive plan that have not vested and that have not been earned (column (j)).

Instructions to Item 402(p)(2).

1. Identify by footnote any award that has been transferred other than for value, disclosing the nature of the transfer.

2. The vesting dates of options, shares of stock and equity incentive plan awards held at fiscal-year end must be disclosed by footnote to the applicable column where the outstanding award is reported.

3. Compute the market value of stock reported in column (h) and equity incentive plan awards of stock reported in column (j) by multiplying the closing market price of the smaller reporting company’s stock at the end of the last completed fiscal year by the number of shares or units of stock or the

---

440
amount of equity incentive plan awards, respectively. The number of shares or units reported in column (d) or (i), and the payout value reported in column (j), shall be based on achieving threshold performance goals, except that if the previous fiscal year’s performance has exceeded the threshold, the disclosure shall be based on the next higher performance measure (target or maximum) that exceeds the previous fiscal year’s performance. If the award provides only for a single estimated payout, that amount should be reported. If the target amount is not determinable, smaller reporting companies must provide a representative amount based on the previous fiscal year’s performance.

4. Multiple awards may be aggregated where the expiration date and the exercise and/or base price of the instruments is identical. A single award consisting of a combination of options, SARs and/or similar option-like instruments shall be reported as separate awards with respect to each tranche with a different exercise and/or base price or expiration date.

5. Options or stock awarded under an equity incentive plan are reported in columns (d) or (i) and (j), respectively, until the relevant performance condition has been satisfied. Once the relevant performance condition has been satisfied, even if the option or stock award is subject to forfeiture conditions, options are reported in column (b) or (c), as appropriate, until they are exercised or expire, or stock is reported in columns (g) and (h) until it vests.

(q) Smaller reporting companies—Additional narrative disclosure. Provide a narrative description of the following to the extent material:

(1) The material terms of each plan that provides for the payment of retirement benefits, or benefits that will be paid primarily following retirement, including but not limited to tax-qualified defined benefit plans, supplemental executive retirement plans, tax-qualified defined contribution plans and nonqualified defined contribution plans.

(2) The material terms of each contract, agreement, plan or arrangement, whether written or unwritten, that provides for payment(s) to a named executive officer at, following, or in connection with the resignation, retirement or other termination of a named executive officer, or a change in control of the smaller reporting company or a change in the named executive officer’s responsibilities following a change in control, with respect to each named executive officer.

(r) Smaller reporting companies—Compensation of directors. (1) Provide the information specified in paragraph (r)(2) of this Item, concerning the compensation of the directors for the smaller reporting company’s last completed fiscal year, in the following tabular format:

(2) The Table shall include:

(i) The name of each director unless such director is also a named executive officer under paragraph (m) of this Item and his or her compensation for service as a director is fully reflected in the Summary Compensation Table pursuant to paragraph (n) of this Item and otherwise as required pursuant to paragraphs (o) through (q) of this Item (column (a));

(ii) The aggregate dollar amount of all fees earned or paid in cash for services as a director, including annual retainer fees, committee and/or chairmanship fees, and meeting fees (column (b));

(iii) For awards of stock, the aggregate grant date fair value computed in
accordance with FASB ASC Topic 718 (column (c));

(iv) For awards of options, with or without tandem SARs (including awards that subsequently have been transferred), the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 (column (d));

Instruction to Item 402(r)(2)(iii) and (iv). For each director, disclose by footnote to the appropriate column, the aggregate number of stock awards and the aggregate number of option awards outstanding at fiscal year end.

(v) The dollar value of all earnings for services performed during the fiscal year pursuant to non-equity incentive plans as defined in paragraph (m)(5)(iii) of this Item, and all earnings on any outstanding awards (column (e));

(vi) Above-market or preferential earnings on compensation that is deferred on a basis that is not tax-qualified, including such earnings on non-qualified defined contribution plans (column (f));

(vii) All other compensation for the covered fiscal year that the smaller reporting company could not properly report in any other column of the Director Compensation Table (column (g)). Each compensation item that is not properly reportable in columns (b) through (f), regardless of the amount of the compensation item, must be included in column (g) and must be identified and quantified in a footnote if it is deemed material in accordance with paragraph (o)(7) of this Item. Such compensation must include, but is not limited to:

(A) Perquisites and other personal benefits, or property, unless the aggregate amount of such compensation is less than $10,000;

(B) All “gross-ups” or other amounts reimbursed during the fiscal year for the payment of taxes;

(C) For any security of the smaller reporting company or its subsidiaries purchased from the smaller reporting company or its subsidiaries (through deferral of salary or bonus, or otherwise) at a discount from the market price of such security at the date of purchase, unless that discount is available generally, either to all security holders or to all salaried employees of the smaller reporting company, the compensation cost, if any, computed in accordance with FASB ASC Topic 718;

(D) The amount paid or accrued to any director pursuant to a plan or arrangement in connection with:

(1) The resignation, retirement or any other termination of such director; or

(2) A change in control of the smaller reporting company;

(E) Smaller reporting company contributions or other allocations to vested and unvested defined contribution plans;

(F) Consulting fees earned from, or paid or payable by the smaller reporting company and/or its subsidiaries (including joint ventures);

(G) The annual costs of payments and promises of payments pursuant to director legacy programs and similar charitable award programs;

(H) The dollar value of any insurance premiums paid by, or on behalf of, the smaller reporting company during the covered fiscal year with respect to life insurance for the benefit of a director; and

(I) The dollar value of any dividends or other earnings paid on stock or option awards, when those amounts were not factored into the grant date fair value required to be reported for the stock or option award in column (c) or (d); and

Instruction to Item 402(r)(2)(vii). Programs in which smaller reporting companies agree to make donations to one or more charitable institutions in a director’s name, payable by the smaller reporting company currently or upon a designated event, such as the retirement or death of the director, are charitable awards programs or director legacy programs for purposes of the disclosure required by paragraph (r)(2)(vii)(G) of this Item. Provide footnote disclosure of the total dollar amount payable under the program and other material terms of each such program for which tabular disclosure is provided.

(viii) The dollar value of total compensation for the covered fiscal year (column (h)). With respect to each director, disclose the sum of all amounts reported in columns (b) through (g).

Instruction to Item 402(r)(2). Two or more directors may be grouped in a single row in the Table if all elements of their compensation are identical. The names of the directors for whom disclosure is presented on a group basis should be clear from the Table.
(3) Narrative to director compensation table. Provide a narrative description of any material factors necessary to an understanding of the director compensation disclosed in this Table. While material factors will vary depending upon the facts, examples of such factors may include, in given cases, among other things:

(i) A description of standard compensation arrangements (such as fees for retainer, committee service, service as chairman of the board or a committee, and meeting attendance); and

(ii) Whether any director has a different compensation arrangement, identifying that director and describing the terms of that arrangement.

Instruction to Item 402(r). In addition to the Instruction to paragraph (r)(2)(vii) of this Item, the following apply equally to paragraph (r) of this Item: Instructions 2 and 4 to paragraph (n) of this Item; the Instructions to paragraphs (n)(2)(iii) and (iv) of this Item; the Instructions to paragraphs (n)(2)(v) and (vi) of this Item; the Instructions to paragraph (n)(2)(vii) of this Item; the Instruction to paragraph (n)(2)(viii) of this Item; the Instructions to paragraph (n)(2)(ix) of this Item; and paragraph (o)(7) of this Item. These Instructions apply to the columns in the Director Compensation Table that are analogous to the columns in the Summary Compensation Table to which they refer and to disclosures under paragraph (r) of this Item that correspond to analogous disclosures provided for in paragraph (n) of this Item to which they refer.

(s) Narrative disclosure of the registrant’s compensation policies and practices as they relate to the registrant’s risk management. To the extent that risks arising from the registrant’s compensation policies and practices for its employees are reasonably likely to have a material adverse effect on the registrant, discuss the registrant’s policies and practices of compensating its employees, including non-executive officers, as they relate to risk management practices and risk-taking incentives. While the situations requiring disclosure will vary depending on the particular registrant and compensation policies and practices, situations that may trigger disclosure include, among others, compensation policies and practices; at a business unit of the company that carries a significant portion of the registrant’s risk profile; at a business unit with compensation structured significantly differently than other units within the registrant; at a business unit that is significantly more profitable than others within the registrant; at a business unit where compensation expense is a significant percentage of the unit’s revenues; and that vary significantly from the overall risk and reward structure of the registrant, such as when bonuses are awarded upon accomplishment of a task, while the income and risk to the registrant from the task extend over a significantly longer period of time. The purpose of this paragraph(s) is to provide investors material information concerning how the registrant compensates and incentivizes its employees that may create risks that are reasonably likely to have a material adverse effect on the registrant. While the information to be disclosed pursuant to this paragraph(s) will vary depending upon the nature of the registrant’s business and the compensation approach, the following are examples of the issues that the registrant may need to address for the business units or employees discussed:

(1) The general design philosophy of the registrant’s compensation policies and practices for employees whose behavior would be most affected by the incentives established by the policies and practices, as such policies and practices relate to or affect risk taking by employees on behalf of the registrant, and the manner of their implementation;

(2) The registrant’s risk assessment or incentive considerations, if any, in structuring its compensation policies and practices or in awarding and paying compensation;

(3) How the registrant’s compensation policies and practices relate to the realization of risks resulting from the actions of employees in both the short term and the long term, such as through policies requiring claw backs or imposing holding periods;

(4) The registrant’s policies regarding adjustments to its compensation policies and practices to address changes in its risk profile;

(5) Material adjustments the registrant has made to its compensation
policies and practices as a result of changes in its risk profile; and
(6) The extent to which the registrant monitors its compensation policies and practices to determine whether its risk management objectives are being met with respect to incentivizing its employees.

(t) **Golden parachute compensation.** (1) In connection with any proxy or consent solicitation material providing the disclosure required by section 14A(b)(1) of the Exchange Act (15 U.S.C. 78n–1(b)(1)) or any proxy or consent solicitation that includes disclosure under Item 14 of Schedule 14A (§240.14a–101 of this chapter) pursuant to Note A of Schedule 14A (excluding any proxy or consent solicitation of an "emerging growth company," as defined in Rule 405 of the Securities Act (§230.405 of this chapter) or Rule 12b–2 of the Exchange Act (§240.12b–2 of this chapter)), with respect to each named executive officer of the acquiring company and the target company, provide the information specified in paragraphs (t)(2) and (3) of this section regarding any agreement or understanding, whether written or unwritten, between such named executive officer and the acquiring company or target company, concerning any type of compensation, whether present, deferred or contingent, that is based on or otherwise relates to an acquisition, merger, consolidation, sale or other disposition of all or substantially all assets of the issuer, as follows:

(2) The table shall include, for each named executive officer:
(i) The name of the named executive officer (column (a));
(ii) The aggregate dollar value of any cash severance payments, including but not limited to payments of base salary, bonus, and pro-rated non-equity incentive compensation plan payments (column (b));
(iii) The aggregate dollar value of:
(A) Stock awards for which vesting would be accelerated;
(B) In-the-money option awards for which vesting would be accelerated; and
(C) Payments in cancellation of stock and option awards (column (c));
(iv) The aggregate dollar value of pension and nonqualified deferred compensation benefit enhancements (column (d));
(v) The aggregate dollar value of perquisites and other personal benefits or property, and health care and welfare benefits (column (e));
(vi) The aggregate dollar value of any tax reimbursements (column (f));
(vii) The aggregate dollar value of any other compensation that is based on or otherwise relates to the transaction not properly reported in columns (b) through (f) (column (g)); and
(viii) The aggregate dollar value of the sum of all amounts reported in columns (b) through (g) (column (h)).

INSTRUCTIONS TO ITEM 402(t)(2). 1. If this disclosure is included in a proxy or consent solicitation seeking approval of an acquisition, merger, consolidation, or proposed sale or other disposition of all or substantially all the assets of the registrant, or in a proxy or consent solicitation that includes disclosure under Item 14 of Schedule 14A (§240.14a–101) pursuant to Note A of Schedule 14A, the disclosure provided by this table shall be quantified assuming that the triggering event took place on the latest practicable date, and that the price per share of the registrant’s securities shall be determined as follows: If the shareholders are to receive a fixed dollar amount, the price per share shall be that fixed dollar amount, and if such value is not a fixed dollar amount, the price...
per share shall be the average closing market price of the registrant’s securities over the first five business days following the first public announcement of the transaction, or, if no such public announcement was made, the closing market price on the last trading day prior to the announcement of the transaction.

Section 229.402 requires disclosure of arrangements between the issuer and the executive officer (i.e., amounts triggered by a single-trigger arrangement). Provide a succinct narrative description of any material factors necessary to an understanding of each such contract, agreement, plan or arrangement and the payments quantified in the tabular disclosure required by this section. Such factors shall include, but not be limited to a description of:

(i) The specific circumstances that would trigger payment(s);

(ii) Whether the payments would or could be lump sum, or annual, disclosing the duration, and by whom they would be provided; and

(iii) Any material conditions or obligations applicable to the receipt of payment or benefits, including but not
limited to non-compete, non-solicitation, non-disparagement or confidentiality agreements, including the duration of such agreements and provisions regarding waiver or breach of such agreements.

INSTRUCTIONS TO ITEM 402(t). 1. A registrant that does not qualify as a “smaller reporting company,” as defined by §229.10(f)(1) of this chapter, must provide the information required by this Item 402(t) with respect to the individuals covered by Items 402(a)(3)(i), (ii) and (iii) of this section. A registrant that qualifies as a “smaller reporting company,” as defined by §229.10(f)(1) of this chapter, must provide the information required by this Item 402(t) with respect to the individuals covered by Items 402(m)(2)(i) and (ii) of this section.

2. The obligation to provide the information in this Item 402(t) shall not apply to agreements and understandings described in paragraph (t)(1) of this section with senior management of foreign private issuers, as defined in §240.3b–4 of this chapter.

(u) Pay ratio disclosure—(1) Disclose.
   (i) The median of the annual total compensation of all employees of the registrant, except the PEO of the registrant;
   (ii) The annual total compensation of the PEO of the registrant; and
   (iii) The ratio of the amount in paragraph (u)(1)(i) of this Item to the amount in paragraph (u)(1)(ii) of this Item. For purposes of the ratio required by this paragraph (u)(1)(iii), the amount in paragraph (u)(1)(i) of this Item shall equal one, or, alternatively, the ratio may be expressed narratively as the multiple that the amount in paragraph (u)(1)(ii) of this Item bears to the amount in paragraph (u)(1)(i) of this Item.

   (2) For purposes of this paragraph (u):
       (i) Total compensation for the median of annual total compensation of all employees of the registrant and the PEO of the registrant shall be determined in accordance with paragraph (c)(2)(x) of this Item. In determining the total compensation, all references to “named executive officer” in this Item and the instructions thereto may be deemed to refer instead, as applicable, to “employee” and, for non-salaried employees, references to “base salary” and “salary” in this Item and the instructions thereto may be deemed to refer instead, as applicable, to “wages plus overtime”;
   (ii) Annual total compensation means total compensation for the registrant’s last completed fiscal year; and
   (iii) Registrant means the registrant and its consolidated subsidiaries.

(3) For purposes of this paragraph (u), employee or employee of the registrant means an individual employed by the registrant or any of its consolidated subsidiaries, whether as a full-time, part-time, seasonal, or temporary worker, as of a date chosen by the registrant within the last three months of the registrant’s last completed fiscal year. The definition of employee or employee of the registrant does not include those workers who are employed, and whose compensation is determined, by an unaffiliated third party but who provide services to the registrant or its consolidated subsidiaries as independent contractors or “leased” workers.

(4) For purposes of this paragraph (u), an employee located in a jurisdiction outside the United States (a “non-U.S. employee”) may be exempt from the definition of employee or employee of the registrant under either of the following conditions:
   (i) The employee is employed in a foreign jurisdiction in which the laws or regulations governing data privacy are such that, despite its reasonable efforts to obtain or process the information necessary for compliance with this paragraph (u), the registrant is unable to so without violating such data privacy laws or regulations. The registrant’s reasonable efforts shall include, at a minimum, using or seeking an exemption or other relief under any governing data privacy laws or regulations. If the registrant chooses to exclude any employees using this exemption, it shall list the excluded jurisdictions, identify the specific data privacy law or regulation, explain how complying with this paragraph (u) violates such data privacy law or regulation (including the efforts made by the registrant to use or seek an exemption or other relief under such law or regulation), and provide the approximate number of employees exempted from each jurisdiction based on this exemption. In addition, if a registrant excludes any non-U.S. employees in a
Securities and Exchange Commission § 229.402

particular jurisdiction under this exemption, it must exclude all non-U.S. employees in that jurisdiction. Further, the registrant shall obtain a legal opinion from counsel that opines on the inability of the registrant to obtain or process the information necessary for compliance with this paragraph (u) without violating the jurisdiction’s laws or regulations governing data privacy, including the registrant’s inability to obtain an exemption or other relief under any governing laws or regulations. The registrant shall file the legal opinion as an exhibit to the filing in which the pay ratio disclosure is included.

(ii) The registrant’s non-U.S. employees account for 5% or less of the registrant’s total employees. In that circumstance, if the registrant chooses to exclude any non-U.S. employees under this exemption, it must exclude all non-U.S. employees. Additionally, if a registrant’s non-U.S. employees exceed 5% of the registrant’s total U.S. and non-U.S. employees, it may exclude up to 5% of its total employees who are non-U.S. employees; provided, however, if a registrant excludes any non-U.S. employees in a particular jurisdiction, it must exclude all non-U.S. employees in that jurisdiction. If more than 5% of a registrant’s employees are located in any one non-U.S. jurisdiction, the registrant may not exclude any employees in that jurisdiction under this exemption.

(A) In calculating the number of non-U.S. employees that may be excluded under this Item 402(u)(4)(ii) (“de minimis” exemption), a registrant shall count against the total any non-U.S. employee exempted under the data privacy law exemption under Item 402(u)(4)(i) (“data privacy” exemption). A registrant may exclude any non-U.S. employee from a jurisdiction that meets the data privacy exemption, even if the number of excluded employees exceeds 5% of the registrant’s total employees. If, however, the number of employees excluded under the data privacy exemption equals or exceeds 5% of the registrant’s total employees, the registrant may not use the de minimis exemption. Additionally, if the number of employees excluded under the data privacy exemption is less than 5% of the registrant’s total employees, the registrant may use the de minimis exemption to exclude no more than the number of non-U.S. employees that, combined with the data privacy exemption, does not exceed 5% of the registrant’s total employees.

(B) If a registrant excludes non-U.S. employees under the de minimis exemption, it must disclose the jurisdiction or jurisdictions from which those employees are being excluded, the approximate number of employees excluded from each jurisdiction under the de minimis exemption, the total number of its U.S. and non-U.S. employees irrespective of any exemption (data privacy or de minimis), and the total number of its U.S. and non-U.S. employees used for its de minimis calculation.

Instruction 1 to Item 402(u)—Disclosing the date chosen for identifying the median employee. A registrant shall disclose the date within the last three months of its last completed fiscal year that it selected pursuant to paragraph (u)(3) of this Item to identify its median employee. If the registrant changes the date it uses to identify the median employee from the prior year, the registrant shall disclose this change and provide a brief explanation about the reason or reasons for the change.

Instruction 2 to Item 402(u)—Identifying the median employee. A registrant is required to identify its median employee only once every three years and calculate total compensation for that employee each year; provided that, during a registrant’s last completed fiscal year there has been no change in its employee population or employee compensation arrangements that it reasonably believes would result in a significant change to its pay ratio disclosure. If there have been no changes that the registrant reasonably believes would significantly affect its pay ratio disclosure, the registrant shall disclose that it is using the same median employee in its pay ratio calculation and describe briefly the basis for its reasonable belief. For example, the registrant could disclose that there has been no change in its employee population or employee compensation arrangements that it believes would significantly impact the pay ratio disclosure. If there has been a change in the registrant’s
employee population or employee compensation arrangements that the registrant reasonably believes would result in a significant change in its pay ratio disclosure, the registrant shall re-identify the median employee for that fiscal year. If it is no longer appropriate for the registrant to use the median employee identified in year one as the median employee in years two or three because of a change in the original median employee’s circumstances that the registrant reasonably believes would result in a significant change in its pay ratio disclosure, the registrant may use another employee whose compensation is substantially similar to the original median employee based on the compensation measure used to select the original median employee.

 Instruction 3 to Item 402(u)—Updating for the last completed fiscal year. Pay ratio information (i.e., the disclosure called for by paragraph (u)(1) of this item) with respect to the registrant’s last completed fiscal year is not required to be disclosed until the filing of its annual report on Form 10-K for that last completed fiscal year or, if later, the filing of a definitive proxy or information statement relating to its next annual meeting of shareholders (or written consents in lieu of such a meeting) following the end of such fiscal year; provided that, the required pay ratio information must, in any event, be filed as provided in General Instruction G(3) of Form 10-K (17 CFR 249.310) not later than 120 days after the end of such fiscal year.

 Instruction 4 to Item 402(u)—Methodology and use of estimates. 1. Registrants may use reasonable estimates both in the methodology used to identify the median employee and in calculating the annual total compensation or any elements of total compensation for employees other than the PEO.

 2. In determining the employees from which the median employee is identified, a registrant may use its employee population or statistical sampling and/or other reasonable methods.

 3. A registrant may identify the median employee using annual total compensation or any other compensation measure that is consistently applied to all employees included in the calculation, such as information derived from the registrant’s tax and/or payroll records. In using a compensation measure other than annual total compensation to identify the median employee, if that measure is recorded on a basis other than the registrant’s fiscal year (such as information derived from tax and/or payroll records), the registrant may use the same annual period that is used to derive those amounts. Where a compensation measure other than annual total compensation is used to identify the median employee, the registrant must disclose the compensation measure used.

 4. In identifying the median employee, whether using annual total compensation or any other compensation measure that is consistently applied to all employees included in the calculation, the registrant may make cost-of-living adjustments to the compensation of employees in jurisdictions other than the jurisdiction in which the PEO resides so that the compensation is adjusted to the cost of living in the jurisdiction in which the PEO resides. If the registrant uses a cost-of-living adjustment to identify the median employee, and the median employee identified is an employee in a jurisdiction other than the jurisdiction in which the PEO resides, the registrant must use the same cost-of-living adjustment in calculating the median employee’s annual total compensation and disclose the median employee’s jurisdiction. The registrant also shall briefly describe the cost-of-living adjustments it used to identify the median employee and briefly describe the cost-of-living adjustments it used to calculate the median employee’s annual total compensation, including the measure used as the basis for the cost-of-living adjustment. A registrant electing to present the pay ratio in this manner also shall disclose the median employee’s annual total compensation and pay ratio without the cost-of-living adjustment. To calculate this pay ratio, the registrant will need to identify the median employee without using any cost-of-living adjustments.

 5. The registrant shall briefly describe the methodology it used to identify the median employee. It shall also
Securities and Exchange Commission

§ 229.402

briefly describe any material assumptions, adjustments (including any cost-of-living adjustments), or estimates it used to identify the median employee or to determine total compensation or any elements of total compensation, which shall be consistently applied. The registrant shall clearly identify any estimates used. The required descriptions should be a brief overview; it is not necessary for the registrant to provide technical analyses or formulas. If a registrant changes its methodology or its material assumptions, adjustments, or estimates from those used in its pay ratio disclosure for the prior fiscal year, and if the effects of any such change are significant, the registrant shall briefly describe the change and the reasons for the change. Registrants must also disclose if they changed from using the cost-of-living adjustment to not using that adjustment and if they changed from not using the cost-of-living adjustment to using it.

6. Registrants may, at their discretion, include personal benefits that aggregate less than $10,000 and compensation under non-discriminatory benefit plans in calculating the annual total compensation of the median employee as long as these items are also included in calculating the PEO’s annual total compensation. The registrant shall also explain any difference between the PEO’s annual total compensation used in the pay ratio disclosure and the total compensation amounts reflected in the Summary Compensation Table, if material.

Instruction 5 to Item 402(u)—Permitted annualizing adjustments. A registrant may annualize the total compensation for all permanent employees (full-time or part-time) that were employed by the registrant for less than the full fiscal year (such as newly hired employees or permanent employees on an unpaid leave of absence during the period). A registrant may not annualize the total compensation for employees in temporary or seasonal positions. A registrant may not make a full-time equivalent adjustment for any employee.

Instruction 6 to Item 402(u)—PEO compensation not available. A registrant that is relying on Instruction 1 to Item 402(c)(2)(iii) and (iv) in connection with the salary or bonus of the PEO for the last completed fiscal year, shall disclose that the pay ratio required by paragraph (u) of this Item is not calculable until the PEO salary or bonus, as applicable, is determined and shall disclose the date that the PEO’s actual total compensation is expected to be determined. The disclosure required by paragraph (u) of this Item shall then be disclosed in the filing under Item 5.02(f) of Form 8-K (17 CFR 249.308) that discloses the PEO’s salary or bonus in accordance with Instruction 1 to Item 402(c)(2)(iii) and (iv).

Instruction 7 to Item 402(u)—Transition periods for registrants. 1. Upon becoming subject to the requirements of Section 13(a) or 15(d) of the Exchange Act (15 U.S.C. 78m or 78o(d)), a registrant shall comply with paragraph (u) of this Item with respect to compensation for the first fiscal year following the year in which it became subject to such requirements, but not for any fiscal year commencing before January 1, 2017. The registrant may omit the disclosure required by paragraph (u) of this Item from any filing until the filing of its annual report on Form 10-K (17 CFR 249.310) for such fiscal year or, if later, the filing of a proxy or information statement relating to its next annual meeting of shareholders (or written consents in lieu of such a meeting) following the end of such year; provided that, such disclosure shall, in any event, be filed as provided in General Instruction G(3) of Form 10-K not later than 120 days after the end of such fiscal year.

2. A registrant may omit any employees that became its employees as the result of the business combination or acquisition of a business for the fiscal year in which the transaction becomes effective, but the registrant must disclose the approximate number of employees it is omitting. Those employees shall be included in the total employee count for the triennial calculations of the median employee in the year following the transaction for purposes of evaluating whether a significant change had occurred. The registrant shall identify the acquired business excluded for the fiscal year in
which the business combination or acquisition becomes effective.

3. A registrant shall comply with paragraph (u) of this Item with respect to compensation for the first fiscal year commencing on or after the date the registrant ceases to be a smaller reporting company, but not for any fiscal year commencing before January 1, 2017.

Instruction 8 to Item 402(u)—Emerging growth companies. A registrant is not required to comply with paragraph (u) of this Item if it is an emerging growth company as defined in Section 2(a)(19) of the Securities Act (15 U.S.C. 77(b)(a)(19)) or Section 3(a)(80) of the Exchange Act (15 U.S.C. 78c(a)(80)). A registrant shall comply with paragraph (u) of this Item with respect to compensation for the first fiscal year commencing on or after the date the registrant ceases to be an emerging growth company, but not for any fiscal year commencing before January 1, 2017.

Instruction 9 to Item 402(u)—Additional information. Registrants may present additional information, including additional ratios, to supplement the required ratio, but are not required to do so. Any additional information shall be clearly identified, not misleading, and not presented with greater prominence than the required ratio.

Instruction 10 to Item 402(u)—Multiple PEOs during the year. A registrant with more than one non-concurrent PEO serving during its fiscal year may calculate the annual total compensation for its PEO in either of the following manners:

1. The registrant may calculate the compensation provided to each person who served as PEO during the year for the time he or she served as PEO and combine those figures; or
2. The registrant may look to the PEO serving in that position on the date it selects to identify the median employee and annualize that PEO’s compensation.

Regardless of the alternative selected, the registrant shall disclose which option it chose and how it calculated its PEO’s annual total compensation.

Instruction 11 to Item 402(u)—Employees’ personally identifiable information. Registrants are not required to, and should not, disclose any personally identifiable information about that employee other than his or her compensation. Registrants may choose to generally identify an employee’s position to put the employee’s compensation in context, but registrants are not required to provide this information and should not do so if providing the information could identify any specific individual.

INSTRUCTION TO ITEM 402. Specify the applicable fiscal year in the title to each table required under this Item which calls for disclosure as of or for a completed fiscal year.

§ 229.403 (Item 403) Security ownership of certain beneficial owners and management.

(a) Security ownership of certain beneficial owners. Furnish the following information, as of the most recent practicable date, substantially in the tabular form indicated, with respect to any person (including any “group” as that term is used in section 13(d)(3) of the Exchange Act) who is known to the registrant to be the beneficial owner of more than five percent of any class of the registrant’s voting securities. The address given in column (2) may be a business, mailing or residence address. Show in column (3) the total number of shares beneficially owned and in column (4) the percentage of class so owned. Of the number of shares shown in column (3), indicate by footnote or otherwise the amount known to be shares with respect to which such listed beneficial owner has the right to acquire beneficial ownership, as specified in Rule 13d–3(d)(1) under the Exchange Act (§ 240.13d–3(d)(1) of this chapter).

§ 229.404

(c) Changes in control. Describe any arrangements, known to the registrant, including any pledge by any person of securities of the registrant or any of its parents, the operation of which may at a subsequent date result in a change in control of the registrant.

Instructions to Item 403: 1. The percentages are to be calculated on the basis of the amount of outstanding securities, excluding securities held by or for the account of the registrant or its subsidiaries, plus securities deemed outstanding pursuant to Rule 13d-3(d)(1) under the Exchange Act 17 (CFR 240.13d-3(d)(1)). For purposes of paragraph (b), if the percentage of shares beneficially owned by any director or nominee, or by all directors and executive officers of the registrant as a group, does not exceed one percent of the class so owned, the registrant may, in lieu of furnishing a precise percentage, indicate this fact by means of an asterisk and explanatory footnote or other similar means.

2. For the purposes of this Item, beneficial ownership shall be determined in accordance with Rule 13d-3 under the Exchange Act (§240.13d-3 of this chapter). Include such additional subcolumns or other appropriate explanation of column (3) necessary to reflect amounts as to which the beneficial owner has (A) sole voting power, (B) shared voting power, (C) sole investment power, or (D) shared investment power.

3. The registrant shall be deemed to know the contents of any statements filed with the Commission pursuant to section 13(d) or 13(g) of the Exchange Act. When applicable, a registrant may rely upon information set forth in such statements unless the registrant knows or has reason to believe that such information is not complete or accurate or that a statement or amendment should have been filed and was not.

4. For purposes of furnishing information pursuant to paragraph (a) of this Item, the registrant may indicate the source and date of such information.

5. Where more than one beneficial owner is known to be listed for the same securities, appropriate disclosure should be made to avoid confusion. For purposes of paragraph (b), in computing the aggregate number of shares owned by directors and officers of the registrant as a group, the same shares shall not be counted more than once.

6. Paragraph (c) of this Item does not require a description of ordinary default provisions contained in the charter, trust indentures or other governing instruments relating to securities of the registrant.

7. Where the holder(s) of voting securities reported pursuant to paragraph (a) hold more than five percent of any class of voting securities of the registrant pursuant to any voting trust or similar agreement, state the title of such securities, the amount held or to be held pursuant to the trust or agreement (if not clear from the table) and the duration of the agreement. Give the names and addresses of the voting trustees and outline briefly their voting rights and other powers under the trust or agreement.

§ 229.404 (Item 404) Transactions with related persons, promoters and certain control persons.

(a) Transactions with related persons. Describe any transaction, since the beginning of the registrant’s last fiscal year, or any currently proposed transaction, in which the registrant was or is to be a participant and the amount involved exceeds $120,000, and in which any related person had or will have a direct or indirect material interest. Disclose the following information regarding the transaction:

(1) The name of the related person and the basis on which the person is a related person.

(2) The related person’s interest in the transaction with the registrant, including the related person’s position(s)
(3) The approximate dollar value of the amount involved in the transaction.

(4) The approximate dollar value of the amount of the related person’s interest in the transaction, which shall be computed without regard to the amount of profit or loss.

(5) In the case of indebtedness, disclosure of the amount involved in the transaction shall include the largest aggregate amount of principal outstanding during the period for which disclosure is provided, the amount thereof outstanding as of the latest practicable date, the amount of principal paid during the periods for which disclosure is provided, the amount of interest paid during the period for which disclosure is provided, and the rate or amount of interest payable on the indebtedness.

(6) Any other information regarding the transaction or the related person in the context of the transaction that is material to investors in light of the circumstances of the particular transaction.

Instructions to Item 404(a). 1. For the purposes of paragraph (a) of this Item, the term related person means:

a. Any person who was in any of the following categories at any time during the specified period for which disclosure under paragraph (a) of this Item is required:
   - Any director or executive officer of the registrant;
   - Any nominee for director, when the information called for by paragraph (a) of this Item is being presented in a proxy or information statement relating to the election of that nominee for director; or
   - Any immediate family member of a director or executive officer of the registrant, or of any nominee for director when the information called for by paragraph (a) of this Item is being presented in a proxy or information statement relating to the election of that nominee for director, which means any child, stepchild, parent, stepparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of such director, and any person (other than a tenant or employee) sharing the household of such director, executive officer or nominee for director; and

b. Any person who was in any of the following categories when a transaction in which such person had a direct or indirect material interest occurred or existed:
   - A security holder covered by Item 403(a) (§ 229.403(a)); or
   - Any immediate family member of any such security holder, which means any child, stepchild, parent, stepparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of such security holder, and any person (other than a tenant or employee) sharing the household of such security holder.

2. For purposes of paragraph (a) of this Item, a transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

3. The amount involved in the transaction shall be computed by determining the dollar value of the amount involved in the transaction in question, which shall include:

a. In the case of any lease or other transaction providing for periodic payments or installments, the aggregate amount of all periodic payments or installments due on or after the beginning of the registrant's last fiscal year, including any required or optional payments due during or at the conclusion of the lease or other transaction providing for periodic payments or installments; and

b. In the case of indebtedness, the largest aggregate amount of all indebtedness outstanding at any time since the beginning of the registrant's last fiscal year and all amounts of interest payable on it during the last fiscal year.

4. In the case of a transaction involving indebtedness:

a. The following items of indebtedness may be excluded from the calculation of the amount of indebtedness and need not be disclosed:
   - Amounts due from the related person for purchases of goods and services subject to usual trade terms, for ordinary business travel and expense payments and for other transactions in the ordinary course of business;
   - Disclosures need not be provided of any indebtedness transaction for the related persons specified in Instruction 1.b. to paragraph (a) of this Item; and

b. If the lender is a bank, savings and loan association, or broker-dealer extending credit under Federal Reserve Regulation T (12 CFR part 220) and the loans are not disclosed as nonaccrual, past due, restructured or potential problems (see Item III.C.1. and 2. of Industry Guide 3, Statistical Disclosure by Bank Holding Companies (17 CFR 229.802(c))), disclosure under paragraph (a) of this Item may consist of a statement, if such is the case, that the loans to such persons:
i. Were made in the ordinary course of business;

ii. Were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the lender; and

iii. Did not involve more than the normal risk of collectibility or present other unfavorable features.

5. Disclosure of an employment relationship or transaction involving an executive officer and any related compensation solely resulting from that employment relationship or transaction need not be provided pursuant to paragraph (a) of this Item if:

i. The compensation arising from the relationship or transaction is reported pursuant to Item 402 (§229.402); or

ii. The executive officer is not an immediate family member (as specified in Instruction 1 to paragraph (a) of this Item) and such compensation would have been reported under Item 402 (§229.402) as compensation earned for services to the registrant if the executive officer was a named executive officer as that term is defined in Item 402(a)(3) (§229.402(a)(3)), and such compensation had been approved, or recommended to the board of directors of the registrant for approval, by the compensation committee of the board of directors (or group of independent directors performing a similar function) of the registrant.

6. A person who has a position or relationship with a firm, corporation, or other entity that engages in a transaction with the registrant shall not be deemed to have an indirect material interest within the meaning of paragraph (a) of this Item where:

a. The interest arises only:

i. From such person’s position as a director of another corporation or organization that is a party to the transaction; or

ii. From the direct or indirect ownership by such person and all other persons specified in Instruction 1 to paragraph (a) of this Item, in the aggregate, of less than a ten percent equity interest in another person (other than a partnership) which is a party to the transaction; or

iii. From both such position and ownership; or

b. The interest arises only from such person’s position as a limited partner in a partnership in which the person and all other persons specified in Instruction 1 to paragraph (a) of this Item, have an interest of less than ten percent, and the person is not a general partner of and does not hold another position in the partnership.

7. Disclosure need not be provided pursuant to paragraph (a) of this Item if:

a. The transaction is one where the rates or charges involved in the transaction are determined by competitive bids, or the transaction involves the rendering of services to other persons as a common or contract carrier, or public utility, at rates or charges fixed in conformity with law or governmental authority;

b. The transaction involves services as a bank depository of funds, transfer agent, registrar, trustee under a trust indenture, or similar services; or

c. The interest of the related person arises solely from the ownership of a class of equity securities of the registrant and all holders of that class of equity securities of the registrant received the same benefit on a pro rata basis.

(b) Review, approval or ratification of transactions with related persons. (1) Describe the registrant’s policies and procedures for the review, approval, or ratification of any transaction required to be reported under paragraph (a) of this Item. While the material features of such policies and procedures will vary depending on the particular circumstances, examples of such features may include, in given cases, among other things:

(i) The types of transactions that are covered by such policies and procedures;

(ii) The standards to be applied pursuant to such policies and procedures;

(iii) The persons or groups of persons who are responsible for applying such policies and procedures; and

(iv) A statement of whether such policies and procedures are in writing and, if not, how such policies and procedures are evidenced.

(2) Identify any transaction required to be reported under paragraph (a) of this Item since the beginning of the registrant’s last fiscal year where such policies and procedures did not require review, approval or ratification or where such policies and procedures were not followed.

Instruction to Item 404(b). Disclosure need not be provided pursuant to this paragraph regarding any transaction that occurred at a time before the related person became one of the enumerated persons in Instruction 1.a.i., ii., or iii. to Item 404(a) if such transaction did not continue after the related person became one of the enumerated persons in Instruction 1.a.i., ii., or iii. to Item 404(a).

(c) Promoters and certain control persons. (1) Registrants that are filing a
registration statement on Form S–1 under the Securities Act (§ 239.11 of this chapter) or on Form 10 under the Exchange Act (§ 249.210 of this chapter) and that had a promoter at any time during the past five fiscal years shall:

(i) State the names of the promoter(s), the nature and amount of anything of value (including money, property, contracts, options or rights of any kind) received or to be received by each promoter, directly or indirectly, from the registrant and the nature and amount of any assets, services or other consideration therefore received or to be received by the registrant; and

(ii) As to any assets acquired or to be acquired by the registrant from a promoter, state the amount at which the assets were acquired or are to be acquired and the principle followed or to be followed in determining such amount, and identify the persons making the determination and their relationship, if any, with the registrant or any promoter. If the assets were acquired by the promoter within two years prior to their transfer to the registrant, also state the cost thereof to the promoter.

(2) Registrants shall provide the disclosure required by paragraphs (c)(1)(i) and (c)(1)(ii) of this Item as to any person who acquired control of a registrant that is a shell company, or any person that is part of a group, consisting of two or more persons that agree to act together for the purpose of acquiring, holding, voting or disposing of equity securities of a registrant, that acquired control of a registrant that is a shell company. For purposes of this Item, shell company has the same meaning as in Rule 405 under the Securities Act (17 CFR 230.405) and Rule 12b–2 under the Exchange Act (17 CFR 240.12b–2).

(d) Smaller reporting companies. A registrant that qualifies as a “smaller reporting company,” as defined by §229.10(f)(1), must provide the following information in order to comply with this Item:

(1) The information required by paragraph (a) of this Item for the period specified there for a transaction in which the amount involved exceeds the lesser of $120,000 or one percent of the average of the smaller reporting company’s total assets at year end for the last two completed fiscal years;

(2) The information required by paragraph (c) of this Item; and

(3) A list of all parents of the smaller reporting company showing the basis of control and as to each parent, the percentage of voting securities owned or other basis of control by its immediate parent, if any.

Instruction to Item 404(d). 1. Include information for any material underwriting discounts and commissions upon the sale of securities by the smaller reporting company where any of the persons specified in paragraph (a) of this Item was or is to be a principal underwriter or is a controlling person or member of a firm that was or is to be a principal underwriter.

2. For smaller reporting companies information shall be given for the period specified in paragraph (a) of this Item and, in addition, for the fiscal year preceding the small reporting company’s last fiscal year.

Instructions to Item 404. 1. If the information called for by this Item is being presented in a registration statement filed pursuant to the Securities Act or the Exchange Act, information shall be given for the periods specified in the Item and, in addition, for the two fiscal years preceding the registrant’s last fiscal year, unless the information is being incorporated by reference into a registration statement on Form S–4 (17 CFR 239.25), in which case, information shall be given for the periods specified in the Item.

2. A foreign private issuer will be deemed to comply with this Item if it provides the information required by Item 7.B. of Form 20–F (17 CFR 249.220f) with more detailed information provided if otherwise made publicly available or required to be disclosed by the issuer’s home jurisdiction or a market in which its securities are listed or traded.

[71 FR 53232, Sept. 8, 2006, as amended at 73 FR 964, Jan. 4, 2008]

§ 229.405 (Item 405) Compliance with Section 16(a) of the Exchange Act

(a) Reporting obligation. Every registrant having a class of equity securities registered pursuant to Section 12 of the Exchange Act (15 U.S.C. 78l) and every closed-end investment company registered under the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.) must:

(1) Under the caption “Delinquent Section 16(a) Reports,” identify each
Securities and Exchange Commission

§ 229.406

person who, at any time during the fiscal year, was a director, officer, beneficial owner of more than ten percent of any class of equity securities of the registrant registered pursuant to Section 12 of the Exchange Act, or any other person subject to Section 16 of the Exchange Act with respect to the registrant because of the requirements of Section 30 of the Investment Company Act ("reporting person") that failed to file on a timely basis reports required by Section 16(a) of the Exchange Act during the most recent fiscal year or prior fiscal years.

(2) For each such person, set forth the number of late reports, the number of transactions that were not reported on a timely basis, and any known failure to file a required form. A known failure to file would include, but not be limited to, a failure to file a Form 3, which is required of all reporting persons, and a failure to file a Form 5 in the absence of the written representation referred to in paragraph (b)(3) of this section, unless the registrant otherwise knows that no Form 5 is required.

Instruction 1 to paragraph (a) of Item 405. If no disclosure is required, registrants are encouraged to exclude the caption "Delinquent Section 16(a) Reports."

Instruction 2 to paragraph (a) of Item 405. The registrant is only required to disclose a failure to file timely once. For example, if in the most recently concluded fiscal year a reporting person filed a Form 4 disclosing a transaction that took place in the prior fiscal year, and should have been reported in that year, the registrant should disclose that late filing and transaction pursuant to this Item 405 with respect to the most recently concluded fiscal year, but not in material filed with respect to subsequent years.

(b) Scope of the Inquiry. In determining whether disclosure is required pursuant to paragraph (a) of this section, the registrant may rely only on the following:

(1) A review of Forms 3 and 4 (17 CFR 249.103 and 249.104) and amendments thereto filed electronically with the Commission with respect to the registrant’s most recent fiscal year;

(2) A review of Forms 5 (17 CFR 249.105) and amendments thereto filed electronically with the Commission with respect to the registrant’s most recent fiscal year; and

(3) Any written representation from the reporting person that no Form 5 is required. The registrant must maintain the representation in its records for two years, making a copy available to the Commission or its staff upon request.

[84 FR 12717, Apr. 2, 2019]

(a) Disclose whether the registrant has adopted a code of ethics that applies to the registrant’s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. If the registrant has not adopted such a code of ethics, explain why it has not done so.

(b) For purposes of this Item 406, the term code of ethics means written standards that are reasonably designed to deter wrongdoing and to promote:

(1) Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;

(2) Full, fair, accurate, timely, and understandable disclosure in reports and documents that a registrant files with, or submits to, the Commission and in other public communications made by the registrant;

(3) Compliance with applicable governmental laws, rules and regulations;

(4) The prompt internal reporting of violations of the code to an appropriate person or persons identified in the code; and

(5) Accountability for adherence to the code.

(c) The registrant must:

(1) File with the Commission a copy of its code of ethics that applies to the registrant’s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, as an exhibit to its annual report;

(2) Post the text of such code of ethics on its Internet website and disclose, in its annual report, its Internet address and the fact that it has posted
such code of ethics on its Internet Web site; or

(3) Undertake in its annual report filed with the Commission to provide to any person without charge, upon request, a copy of such code of ethics and explain the manner in which such request may be made.

(d) If the registrant intends to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to, or a waiver from, a provision of its code of ethics that applies to the registrant’s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions and that relates to any element of the code of ethics definition enumerated in paragraph (b) of this Item by posting such information on its Internet website, disclose the registrant’s Internet address and such intention.

Instructions to Item 406. 1. A registrant may have separate codes of ethics for different types of officers. Furthermore, a code of ethics within the meaning of paragraph (b) of this Item may be a portion of a broader document that addresses additional topics or that applies to more persons than those specified in paragraph (a). In satisfying the requirements of paragraph (c), a registrant need only file, post or provide the portions of a broader document that constitutes a code of ethics as defined in paragraph (b) and that apply to the persons specified in paragraph (a).

2. If a registrant elects to satisfy paragraph (c) of this Item by posting its code of ethics on its website pursuant to paragraph (c)(2), the code of ethics must remain accessible on its Web site for as long as the registrant remains subject to the requirements of this Item and chooses to comply with this Item by posting its code on its Web site pursuant to paragraph (c)(2).

§ 229.407 (Item 407) Corporate governance.

(a) Director independence. Identify each director and, when the disclosure called for by this paragraph is being presented in a proxy or information statement relating to the election of directors, each nominee for director, that is independent under the independence standards applicable to the registrant under paragraph (a)(1) of this Item. In addition, if such independence standards contain independence requirements for committees of the board of directors, identify each director that is a member of the compensation, nominating or audit committee that is not independent under such committee independence standards. If the registrant does not have a separately designated audit, nominating or compensation committee or committee performing similar functions, the registrant must provide the disclosure of directors that are not independent with respect to all members of the board of directors applying such committee independence standards.

(1) In determining whether or not the director or nominee for director is independent for the purposes of paragraph (a) of this Item, the registrant shall use the applicable definition of independence, as follows:

(i) If the registrant is a listed issuer whose securities are listed on a national securities exchange or in an inter-dealer quotation system which has requirements that a majority of the board of directors be independent, the registrant’s definition of independence that it uses for determining if a majority of the board of directors is independent in compliance with the listing standards applicable to the registrant. When determining whether the members of a committee of the board of directors are independent, the registrant’s definition of independence that it uses for determining if the members of that specific committee are independent in compliance with the independence standards applicable for the members of the specific committee in the listing standards of the national securities exchange or inter-dealer quotation system that the registrant uses for determining if a majority of the board of directors are independent.

(ii) If the registrant is not a listed issuer, a definition of independence of a
national securities exchange or of an inter-dealer quotation system which has requirements that a majority of the board of directors be independent, and state which definition is used. Whatever such definition the registrant chooses, it must use the same definition with respect to all directors and nominees for director. When determining whether the members of a specific committee of the board of directors are independent, if the national securities exchange or national securities association whose standards are used has independence standards for the members of a specific committee, use those committee specific standards.

(iii) If the information called for by paragraph (a) of this Item is being presented in a registration statement on Form S-1 (§239.11 of this chapter) under the Securities Act or on a Form 10 (§249.10 of this chapter) under the Exchange Act where the registrant has applied for listing with a national securities exchange or in an inter-dealer quotation system that has requirements that a majority of the board of directors be independent, the definition of independence that the registrant uses for determining if a majority of the board of directors is independent, and the definition of independence that the registrant uses for determining if members of the specific committee of the board of directors are independent, that is in compliance with the independence listing standards of the national securities exchange or inter-dealer quotation system on which it has applied for listing, or if the registrant has not adopted such definitions, the independence standards for determining if the majority of the board of directors is independent and if members of the committee of the board of directors are independent of that national securities exchange or inter-dealer quotation system.

(2) If the registrant uses its own definitions for determining whether its directors and nominees for director, and members of specific committees of the board of directors, are independent, disclose whether these definitions are available to security holders on the registrant’s Web site. If so, provide the registrant’s Web site address. If not, include a copy of these policies in an appendix to the registrant’s proxy statement or information statement that is provided to security holders at least once every three fiscal years or if the policies have been materially amended since the beginning of the registrant’s last fiscal year. If a current copy of the policies is not available to security holders on the registrant’s Web site, and is not included as an appendix to the registrant’s proxy statement or information statement, identify the most recent fiscal year in which the policies were so included in satisfaction of this requirement.

(3) For each director and nominee for director that is identified as independent, describe, by specific category or type, any transactions, relationships or arrangements not disclosed pursuant to Item 404(a) (§229.404(a)), or for investment companies, Item 22(b) of Schedule 14A (§240.14a–101 of this chapter), that were considered by the board of directors under the applicable independence definitions in determining that the director is independent.

Instructions to Item 407(a). 1. If the registrant is a listed issuer whose securities are listed on a national securities exchange or in an inter-dealer quotation system which has requirements that a majority of the board of directors be independent, and also has exemptions to those requirements (for independence of a majority of the board of directors or committee member independence) upon which the registrant relied, disclose the exemption relied upon and explain the basis for the registrant’s conclusion that such exemption is applicable. The same disclosure should be provided if the registrant is not a listed issuer and the national securities exchange or inter-dealer quotation system selected by the registrant has exemptions that are applicable to the registrant. Any national securities exchange or inter-dealer quotation system which has requirements that at least 50 percent of the members of a small business issuer’s board of directors must be independent shall be considered a national securities exchange or inter-dealer quotation system which has requirements that a majority of the board of directors be independent for the purposes of the disclosure required by paragraph (a) of this Item.

2. Registrants shall provide the disclosure required by paragraph (a) of this Item for any person who served as a director during any part of the last completed fiscal year, except that no information called for by paragraph (a) of this Item need be given in a registration statement filed at a time when
the registrant is not subject to the reporting requirements of section 13(a) or 13(d) of the Exchange Act (15 U.S.C. 78m(a) or 78o(d)) respecting any director who is no longer a director at the time of effectiveness of the registration statement.

3. The description of the specific categories or types of transactions, relationships or arrangements required by paragraph (a)(3) of this Item must be provided in such detail as is necessary to fully describe the nature of the transactions, relationships or arrangements.

(b) Board meetings and committees; annual meeting attendance. (1) State the total number of meetings of the board of directors (including regularly scheduled and special meetings) which were held during the last full fiscal year. Name each incumbent director who during the last full fiscal year attended fewer than 75 percent of the aggregate of:

(i) The total number of meetings of the board of directors (held during the period for which he has been a director); and

(ii) The total number of meetings held by all committees of the board on which he served (during the periods that he served).

(2) Describe the registrant’s policy, if any, with regard to board members’ attendance at annual meetings of security holders and state the number of board members who attended the prior year’s annual meeting.

Instruction to Item 407(b)(2). In lieu of providing the information required by paragraph (b)(2) of this Item in the proxy statement, the registrant may instead provide the registrant’s Web site address where such information appears.

(c) Nominating committee. (1) If the registrant does not have a standing nominating committee or committee performing similar functions, state the basis for the view of the board of directors that it is appropriate for the registrant not to have such a committee and identify each director who participates in the consideration of director nominees.

(2) Provide the following information regarding the registrant’s director nomination process:

(i) State whether or not the nominating committee has a charter. If the nominating committee has a charter, provide the disclosure required by Instruction 2 to this Item regarding the nominating committee charter.

(ii) If the nominating committee has a policy with regard to the consideration of any director candidates recommended by security holders, provide a description of the material elements of that policy, which shall include, but need not be limited to, a statement as to whether the committee will consider director candidates recommended by security holders;

(iii) If the nominating committee does not have a policy with regard to the consideration of any director candidates recommended by security holders, state that fact and state the basis for the view of the board of directors that it is appropriate for the registrant not to have such a policy;

(iv) If the nominating committee will consider candidates recommended by security holders, describe the procedures to be followed by security holders in submitting such recommendations;

(v) Describe any specific minimum qualifications that the nominating committee believes must be met by a nominating committee-recommended nominee for a position on the registrant’s board of directors, and describe any specific qualities or skills that the nominating committee believes are necessary for one or more of the registrant’s directors to possess;

(vi) Describe the nominating committee’s process for identifying and evaluating nominees for director, including nominees recommended by security holders, and any differences in the manner in which the nominating
Securities and Exchange Commission

§ 229.407

corporate committee evaluates nominees for director based on whether the nominee is recommended by a security holder, and whether, and if so how, the nominating committee (or the board) considers diversity in identifying nominees for director. If the nominating committee (or the board) has a policy with regard to the consideration of diversity in identifying director nominees, describe how this policy is implemented, as well as how the nominating committee (or the board) assesses the effectiveness of its policy;

(vii) With regard to each nominee approved by the nominating committee for inclusion on the registrant’s proxy card (other than nominees who are executive officers or who are directors standing for re-election), state which one or more of the following categories of persons or entities recommended that nominee: Security holder, non-management director, chief executive officer, other executive officer, third-party search firm, or other specified source. With regard to each such nominee approved by a nominating committee of an investment company, state which one or more of the following additional categories of persons or entities recommended that nominee: Security holder, director, chief executive officer, other executive officer, third-party search firm, or other specified source. With regard to each such nominee approved by a nominating committee of an investment company, state which one or more of the following categories of persons or entities recommended that nominee: Security holder, non-management director, chief executive officer, other executive officer, third-party search firm, or other specified source.

(viii) If the registrant pays a fee to any third party or parties to identify or evaluate or assist in identifying or evaluating potential nominees, disclose the function performed by each such third party; and

(ix) If the registrant’s nominating committee received, by a date not later than the 120th calendar day before the date of the registrant’s proxy statement released to security holders in connection with the previous year’s annual meeting, a recommended nominee from a security holder that beneficially owned more than 5% of the registrant’s voting common stock for at least one year as of the date the recommendation was made, identify the candidate and the security holder or security holder group that recommended the candidate and disclose whether the nominating committee chose to nominate the candidate, provided, however, that no such identification or disclosure is required without the written consent of both the security holder or security holder group and the candidate to be so identified.

Instructions to Item 407(c)(2)(ix). 1. For purposes of paragraph (c)(2)(ix) of this Item, the percentage of securities held by a nominating security holder may be determined using information set forth in the registrant’s most recent quarterly or annual report, and any current report subsequent thereto, filed with the Commission pursuant to the Exchange Act (or, in the case of a registrant that is an investment company registered under the Investment Company Act of 1940, the registrant’s most recent report on Form N-CCSR (§§ 240.331 and 274.128 of this chapter)), unless the party relying on such report knows or has reason to believe that the information contained therein is inaccurate.

2. For purposes of the registrant’s obligation to provide the disclosure specified in paragraph (c)(2)(ix) of this Item, where the date of the annual meeting has been changed by more than 30 days from the date of the previous year’s meeting, the obligation under that Item will arise where the registrant receives the security holder recommendation a reasonable time before the registrant begins to print and mail its proxy materials.

3. For purposes of paragraph (c)(2)(ix) of this Item, the percentage of securities held by a recommending security holder, as well as the holding period of those securities, may be determined by the registrant if the security holder is the registered holder of the securities. If the security holder is not the registered owner of the securities, he or she can submit one of the following to the registrant to evidence the required ownership percentage and holding period:

a. A written statement from the “record” holder of the securities (usually a broker or bank) verifying that, at the time the security holder made the recommendation, he or she had held the required securities for at least one year; or

b. If the security holder has filed a Schedule 13D (§§ 240.13d–101 of this chapter), Schedule 13G (§§ 240.13d–102 of this chapter), Form 3 (§ 249.103 of this chapter), Form 4 (§ 249.104 of
this chapter), and/or Form 5 (§249.105 of this chapter), or amendments to those documents or updated forms, reflecting ownership of the securities as of or before the date of the recommendation, a copy of the schedule and/or form, and any subsequent amendments reporting a change in ownership level, as well as a written statement that the security holder continuously held the securities for the one-year period as of the date of the recommendation.

4. For purposes of the registrant’s obligation to provide the disclosure specified in paragraph (c)(2)(ix) of this Item, the security holder or group must have provided to the registrant, at the time of the recommendation, the written consent of all parties to be identified and, where the security holder or group members are not registered holders, proof that the security holder or group satisfied the required ownership percentage and holding period as of the date of the recommendation.

Instruction to Item 407(c)(2). For purposes of paragraph (c)(2) of this Item, the term nominating committee refers not only to nominating committees and committees performing similar functions, but also to groups of directors fulfilling the role of a nominating committee, including the entire board of directors.

(3) Describe any material changes to the procedures by which security holders may recommend nominees to the registrant’s board of directors, where those changes were implemented after the registrant last provided disclosure in response to the requirements of paragraph (c)(2)(iv) of this Item, or paragraph (c)(3) of this Item.

Instructions to Item 407(c)(3). 1. The disclosure required in paragraph (c)(3) of this Item need only be provided in a registrant’s quarterly or annual reports.

2. For purposes of paragraph (c)(3) of this Item, adoption of procedures by which security holders may recommend nominees to the registrant’s board of directors, where the registrant’s most recent disclosure in response to the requirements of paragraph (c)(2)(iv) of this Item, or paragraph (c)(3) of this Item, indicated that the registrant did not have in place such procedures, will constitute a material change.

(d) Audit committee. (1) State whether or not the audit committee has a charter. If the audit committee has a charter, provide the disclosure required by Instruction 2 to this Item regarding the audit committee charter.

(2) If a listed issuer’s board of directors determines, in accordance with the listing standards applicable to the issuer, to appoint a director to the audit committee who is not independent (apart from the requirements in §240.10A–3 of this chapter), including as a result of exceptional or limited or similar circumstances, disclose the nature of the relationship that makes that individual not independent and the reasons for the board of directors’ determination.

(3)(i) The audit committee must state whether:

(A) The audit committee has reviewed and discussed the audited financial statements with management;

(B) The audit committee has discussed with the independent auditors the matters required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board (“PCAOB”) and the Commission;

(C) The audit committee has received the written disclosures and the letter from the independent accountant required by applicable requirements of the PCAOB regarding the independent accountant’s communications with the audit committee concerning independence, and has discussed with the independent accountant the independent accountant’s independence; and

(D) Based on the review and discussions referred to in paragraphs (d)(3)(i)(A) through (d)(3)(i)(C) of this Item, the audit committee recommended to the board of directors that the audited financial statements be included in the company’s annual report on Form 10–K (17 CFR 249.310) (or, for closed-end investment companies registered under the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.), the annual report to shareholders required by section 30(e) of the Investment Company Act of 1940 (15 U.S.C. 80a–29(e)) and Rule 30d–1 (17 CFR 270.30d–1) thereunder) for the last fiscal year for filing with the Commission.

(ii) The name of each member of the company’s audit committee (or, in the absence of an audit committee, the board committee performing equivalent functions or the entire board of directors) must appear below the disclosure required by paragraph (d)(3)(i) of this Item.
(4)(i) If the registrant meets the following requirements, provide the disclosure in paragraph (d)(4)(ii) of this Item:

   (C) The registrant is neither:
      (1) A subsidiary of another listed issuer that is relying on the exemption in §240.10A–3(c)(2) of this chapter; nor

(ii)(A) State whether or not the registrant has a separately-designated standing audit committee established in accordance with section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)), or a committee performing similar functions. If the registrant has such a committee, however designated, identify each committee member. If the entire board of directors is acting as the registrant’s audit committee as specified in section 3(a)(58)(B) of the Exchange Act (15 U.S.C. 78c(a)(58)(B)), so state.

   (B) If the registrant provides the disclosure required by §240.10A–3(d) of this Item, it must disclose the name of the audit committee financial expert and whether that person is independent, as independence for audit committee members is defined in the listing standards applicable to the listed issuer.

   (C) If the registrant provides the disclosure required by paragraph (d)(5)(i)(A)(2) of this Item, it must explain why it does not have an audit committee financial expert.

Instruction to Item 407(d)(5)(i). If the registrant’s board of directors has determined that the registrant has more than one audit committee financial expert serving on its audit committee, the registrant may, but is not required to, disclose the names of those additional persons. A registrant choosing to identify such persons must indicate whether they are independent pursuant to paragraph (d)(5)(i)(B) of this Item.

   (B) The ability to assess the general application of such principles in connection with the accounting for estimates, accruals and reserves;

(B) The designation or identification of a person as an audit committee financial expert pursuant to this Item 407 does not impose on such person any duties, obligations or liability that are greater than the duties, obligations and liability imposed on such person as a member of the audit committee and board of directors in the absence of such designation or identification.

(C) The designation or identification of a person as an audit committee financial expert pursuant to this Item does not affect the duties, obligations or liability of any other member of the audit committee or board of directors.

Instructions to Item 407(d)(5). 1. The disclosure required by paragraphs (d)(1)–(3) of this Item need only be provided one time during any fiscal year.

2. If a person qualifies as an audit committee financial expert by means of having held a position described in paragraph (d)(5)(i)(D) of this Item, the registrant shall provide a brief listing of that person’s relevant experience. Such disclosure may be made by reference to disclosures required under Item 401(e) (§ 229.401(e)).

Instructions to Item 407(d). 1. 2. (A) If such compensation consultant was engaged by the compensation committee (or persons performing the equivalent functions) to provide advice or recommendations on the amount or form of executive and director compensation (other than any role limited to consulting on any broad-based plan that does not discriminate in scope, terms, or operation, in favor of executive officers or directors of the registrant, and that is available generally to all salaried employees; or providing information that either is not customized for a particular registrant or that is customized based on parameters that are not developed by the compensation consultant, and about which the compensation consultant does not provide advice) and the compensation consultant or its affiliates has provided additional services to the registrant in an amount in excess of $120,000 during the registrant’s last completed fiscal year, then disclose the aggregate fees for determining or recommending the amount or form of executive and director compensation and the aggregate fees for such additional services. Disclose whether the decision to engage the compensation consultant or its affiliates for these other services was made, or recommended, by management, and whether the compensation committee or the board approved such other services of the compensation consultant or its affiliates.

(B) If the compensation committee (or persons performing the equivalent functions) has not engaged a compensation consultant, but management has engaged a compensation consultant to provide advice or recommendations on the amount or form of executive and director compensation (other than any role limited to consulting on any broad-based plan that does not discriminate in scope, terms, or operation, in favor of executive officers or directors of the registrant, and that is available generally to all salaried employees; or providing information that either is not customized for a particular registrant or that is customized based on parameters that are not developed by the compensation consultant, and about which the compensation consultant does not provide advice) and such compensation consultant or its affiliates has provided additional services to the registrant in an amount in excess of $120,000 during the registrant’s last completed fiscal year, then disclose the aggregate fees for determining or recommending the amount or form of executive and director compensation and the aggregate fees for any additional services provided by the compensation consultant or its affiliates.

of the Exchange Act (15 U.S.C. 78r), except to the extent that the registrant specifically requests that the information be treated as soliciting material or specifically incorporates it by reference into a document filed under the Securities Act or the Exchange Act.

2. The disclosure required by paragraph (e)(5) of this Item need not be provided in any filings other than an annual report on Form 10-K (§249.310 of this chapter), a proxy statement on Schedule 14A (§240.14a–101 of this chapter) or an information statement on Schedule 14C (§240.14c–101 of this chapter). Such information will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. If the registrant elects to incorporate this information by reference from the proxy or information statement into its annual report on Form 10-K pursuant to General Instruction G(3) to Form 10-K, the disclosure required by paragraph (e)(5) of this Item will be deemed furnished in the annual report on Form 10-K and will not be deemed incorporated by reference into any filing under the Securities Act or the Exchange Act as a result as a result of furnishing the disclosure in this manner.

3. The disclosure required by paragraph (e)(5) of this Item need only be provided one time during any fiscal year.

(i) Shareholder communications. (1) State whether or not the registrant’s board of directors provides a process for security holders to send communications to the board of directors and, if the registrant does not have such a process for security holders to send communications to the board of directors, state the basis for the view of the board of directors that it is appropriate for the registrant not to have such a process.

(ii) If the registrant has a process for security holders to send communications to the board of directors:

(i) Describe the manner in which security holders can send communications to the board and, if applicable, to specified individual directors; and

(ii) If all security holder communications are not sent directly to board members, describe the registrant’s process for determining which communications will be relayed to board members.

Instructions to Item 407(f). 1. In lieu of providing the information required by paragraph (f)(2) of this Item in the proxy statement, the registrant may instead provide the registrant’s Web site address where such information appears.

2. For purposes of the disclosure required by paragraph (f)(2)(i) of this Item, a registrant’s process for collecting and organizing security holder communications, as well as similar or related activities, need not be disclosed provided that the registrant’s process is approved by a majority of the independent directors or, in the case of a registrant that is an investment company, a majority of the directors who are not “interested persons” of the investment company as defined in section 2(a)(19) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(19)).

3. For purposes of this paragraph, communications from an officer or director of the registrant will not be viewed as “security holder communications.” Communications from an employee or agent of the registrant will be viewed as “security holder communications” for purposes of this paragraph only if those communications are made solely in such employee’s or agent’s capacity as a security holder.

4. For purposes of this paragraph, security holder proposals submitted pursuant to §240.14a–8 of this chapter, and communications made in connection with such proposals, will not be viewed as “security holder communications.”

(g) Smaller reporting companies and emerging growth companies. (1) A registrant that qualifies as a “smaller reporting company,” as defined by §229.10(f)(1), is not required to provide:

(i) The disclosure required in paragraph (d)(5) of this Item in its first annual report filed pursuant to Section 13(a) or 15(d) of the Exchange Act (15 U.S.C. 78m(a) or 78o(d)) following the effective date of its first registration statement filed under the Securities Act (15 U.S.C. 77a et seq.) or Exchange Act (15 U.S.C. 78a et seq.); and

(ii) The disclosure required by paragraphs (e)(4) and (e)(5) of this Item.

(2) A registrant that qualifies as an “emerging growth company,” as defined in Rule 405 of the Securities Act (§230.405 of this chapter) or Rule 12b–2 of the Exchange Act (§240.12b–2 of this chapter), is not required to provide the disclosure required by paragraph (e)(5) of this Item.

(h) Board leadership structure and role in risk oversight. Briefly describe the leadership structure of the registrant’s board, such as whether the same person serves as both principal executive officer and chairman of the board, or
whether two individuals serve in those positions, and, in the case of a registrant that is an investment company, whether the chairman of the board is an “interested person” of the registrant as defined in section 2(a)(19) of the Investment Company Act (15 U.S.C. 80a–2(a)(19)). If one person serves as both principal executive officer and chairman of the board, or if the chairman of the board of a registrant that is an investment company is an “interested person” of the registrant, disclose whether the registrant has a lead independent director and what specific role the lead independent director plays in the leadership of the board. This disclosure should indicate why the registrant has determined that its leadership structure is appropriate given the specific characteristics or circumstances of the registrant. In addition, disclose the extent of the board’s role in the risk oversight of the registrant, such as how the board administers its oversight function, and the effect that this has on the board’s leadership structure.

(i) Employee, officer and director hedging. In proxy or information statements with respect to the election of directors:

(1) Describe any practices or policies that the registrant has adopted regarding the ability of employees (including officers) or directors of the registrant, or any of their designees, to purchase financial instruments (including prepaid variable forward contracts, equity swaps, collars, and exchange funds), or otherwise engage in transactions, that hedge or offset, or are designed to hedge or offset, any decrease in the market value of registrant equity securities—

(i) Granted to the employee or director by the registrant as part of the compensation of the employee or director; or

(ii) Held, directly or indirectly, by the employee or director.

(2) A description provided pursuant to paragraph (1) shall provide a fair and accurate summary of the practices or policies that apply, including the categories of persons covered, or disclose the practices or policies in full.

(3) A description provided pursuant to paragraph (1) shall also describe any categories of hedging transactions that are specifically permitted and any categories of such transactions specifically disallowed.

(4) If the registrant does not have any such practices or policies regarding hedging, the registrant shall disclose that fact or state that the transactions described in paragraph (1) above are generally permitted.

For purposes of this Item 407(i), “registrant equity securities” means those equity securities as defined in section 3(a)(11) of the Exchange Act (15 U.S.C. 78c(a)(11)) and §240.3a11–1 of this chapter) that are issued by the registrant or by any parent or subsidiary of the registrant or any subsidiary of any parent of the registrant.

2. The information required by this Item 407(i) will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.

With respect to paragraphs (c)(2)(1), (d)(1) and (e)(2) of this Item, disclose whether a current copy of the applicable committee charter is available to security holders on the registrant’s Web site, and if so, provide the registrant’s Web site address. If a current copy of the charter is not available to security holders on the registrant’s Web site, include a copy of the charter in an appendix to the registrant’s proxy or information statement that is provided to security holders at least once every three fiscal years, or if the charter has been materially amended since the beginning of the registrant’s last fiscal year. Subpart 229.500—Registration Statement and Prospectus Provisions

§ 229.501 (Item 501) Forepart of Registration Statement and Outside Front Cover Page of Prospectus.

The registrant must furnish the following information in plain English. See § 230.421(d) of Regulation C of this chapter.

(a) Front cover page of the registration statement. Where appropriate, include the delaying amendment legend from § 230.473 of Regulation C of this chapter. Limit the outside cover page to one page. If the following information applies to your offering, disclose it on the outside cover page of the prospectus.

(1) Name. The registrant’s name. A foreign registrant must give the English translation of its name.

Instruction to paragraph 501(b)(1): If your name is the same as that of a company that is well known, include information to eliminate any possible confusion with the other company. If your name indicates a line of business in which you are not engaged or in which you are engaged only to a limited extent, include information to eliminate any misleading inference as to your business.

(2) Title and amount of securities. The title and amount of securities offered by selling security holders, if any. If the underwriter has any arrangement with the issuer, such as an over-allotment option, under which the underwriter may purchase additional shares in connection with the offering, indicate that this arrangement exists and state the amount of additional shares that the underwriter may purchase under the arrangement. Give a brief description of the securities except where the information is clear from the title of the security. For example, you are not required to describe common stock that has full voting, dividend and liquidation rights usually associated with common stock.

(3) Offering price of the securities. Where you offer securities for cash, the price to the public of the securities, the underwriter’s discounts and commissions, the net proceeds you receive, and any selling shareholder’s net proceeds. Show this information on both a per share or unit basis and for the total amount of the offering. If you make the offering on a minimum/maximum basis, show this information based on the total minimum and total maximum amount of the offering. You may present the information in a table, term sheet format, or other clear presentation. You may present the information in any format that fits the design of the cover page so long as the information can be easily read and is not misleading:

Instructions to paragraph 501(b)(3): 1. If a preliminary prospectus is circulated and you are not subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act, provide, as applicable:

(A) A bona fide estimate of the range of the maximum offering price and the maximum number of securities offered; or

(B) A bona fide estimate of the principal amount of the debt securities offered.

2. If it is impracticable to state the price to the public, explain the method by which the price is to be determined. Instead of explaining the method on the outside front cover page of the prospectus, you may state that the offering price will be determined by a particular method or formula that is described in the prospectus and include a cross-reference to the location of such disclosure in the prospectus, including the page number. Highlight the cross-reference by prominent type or in another manner. If the securities are to be offered at the market price, or if the offering price is to be determined by a formula related to the market price, indicate the market and market price of the securities as of the latest practicable date.

3. If you file a registration statement on Form S-8, you are not required to comply with this paragraph (b)(3).

(4) Market for the securities. The national securities exchange(s) where the securities being offered are listed. If the securities being offered are not listed on a national securities exchange, the principal United States market(s) where the registrant, through the engagement of a registered
broker-dealer, has actively sought and achieved quotation. In each case, also disclose the corresponding trading symbol(s) for the securities on such market(s).

(5) Risk factors. A cross-reference to the risk factors section, including the page number where it appears in the prospectus. Highlight this cross-reference by prominent type or in another manner;

(6) State legend. Any legend or statement required by the law of any state in which the securities are to be offered. You may combine this with any legend required by the SEC, if appropriate;

(7) Commission legend. A legend that indicates that neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities or passed upon the accuracy or adequacy of the disclosures in the prospectus and that any contrary representation is a criminal offense. You may use one of the following or other clear, plain language:

Example A: Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

Example B: Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

(8) Underwriting. (i) Name(s) of the lead or managing underwriter(s) and an identification of the nature of the underwriting arrangements;

(ii) If the offering is not made on a firm commitment basis, a brief description of the underwriting arrangements. You may use any clear, concise, and accurate description of the underwriting arrangements. You may use the following descriptions of underwriting arrangements where appropriate:

Example A: Best efforts offering. The underwriters are not required to sell any specific number or dollar amount of securities but will use their best efforts to sell the securities offered.

Example B: Best efforts, minimum-maximum offering. The underwriters must sell the minimum number of securities offered (insert number) if any are sold. The underwriters are required to use only their best efforts to sell the maximum number of securities offered (insert number).

(iii) If you offer the securities on a best efforts or best efforts minimum/maximum basis, the date the offering will end, any minimum purchase requirements, and any arrangements to place the funds in an escrow, trust, or similar account. If you have not made any of these arrangements, state this fact and describe the effect on investors;

(9) Date of prospectus. The date of the prospectus;

(10) Prospectus “Subject to Completion” legend. (i) If you use the prospectus before the effective date of the registration statement or if you use Rule 430A (§230.430A of this chapter) to omit pricing information and the prospectus is used before you determine the public offering price, include a prominent statement that:

(A) The information in the prospectus will be amended or completed;

(B) A registration statement relating to these securities has been filed with the Securities and Exchange Commission;

(C) The securities may not be sold until the registration statement becomes effective; and

(D) The prospectus is not an offer to sell the securities, and it is not soliciting an offer to buy the securities, in any state where offers or sales are not permitted.

(ii) The legend called for by paragraph (b)(10)(i) of this Item may be in the following or other clear, plain language:

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

(iii) Registrants may exclude the statement in paragraph (b)(10)(i)(D) of this Item if the offering is not prohibited by state law.
§ 229.502 (Item 502) Inside front and outside back cover pages of prospectus.

The registrant must furnish this information in plain English. See § 230.421(d) of Regulation C of this chapter.

(a) Table of contents. On either the inside front or outside back cover page of the prospectus, provide a reasonably detailed table of contents. It must show the page number of the various sections or subdivisions of the prospectus. Include a specific listing of the risk factors section required by Item 105 of this Regulation S-K (17 CFR 229.105). You must include the table of contents immediately following the cover page in any prospectus you deliver electronically.

(b) Dealer prospectus delivery obligation. On the outside back cover page of the prospectus, advise dealers of their prospectus delivery obligation, including the expiration date specified by Section 4(3) of the Securities Act (15 U.S.C. 77d(3)) and § 230.174 of this chapter. If you do not know the expiration date on the effective date of the registration statement, include the expiration date in the copy of the prospectus you file under § 230.424(b) of this chapter. You do not have to include this information if dealers are not required to deliver a prospectus under § 230.174 of this chapter or Section 24(d) of the Investment Company Act (15 U.S.C. 80a–24). You may use the following or other clear, plain language:

DEALER PROSPECTUS DELIVERY OBLIGATION

Until [insert date], all dealers that effect transactions in these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers’ obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

§ 229.504 (Item 504) Use of proceeds.

State the principal purposes for which the net proceeds to the registrant from the securities to be offered are intended to be used and the approximate amount intended to be used for each such purpose. Where registrant has no current specific plan for the proceeds, or a significant portion thereof, the registrant shall so state and discuss the principal reasons for the offering.

Instructions to Item 504: 1. Where less than all the securities to be offered may be sold and more than one use is listed for the proceeds, indicate the order of priority of such purposes and discuss the registrant’s plans if substantially less than the maximum proceeds are obtained. Such discussion need not
be included if underwriting arrangements with respect to such securities are such that, if any securities are sold to the public, it reasonably can be expected that the actual proceeds will not be substantially less than the aggregate proceeds to the registrant shown pursuant to Item 501 of Regulation S-K (§ 229.501).

2. Details of proposed expenditures need not be given; for example, there need be furnished only a brief outline of any program of construction or addition of equipment. Consideration should be given as to the need to include a discussion of certain matters addressed in the discussion and analysis of registrant’s financial condition and results of operations, such as liquidity and capital expenditures.

3. If any material amounts of other funds are necessary to accomplish the specified purposes for which the proceeds are to be obtained, state the amounts of such other funds needed for each such specified purpose and the sources thereof.

4. If any material part of the proceeds is to be used to discharge indebtedness, set forth the interest rate and maturity of such indebtedness. If the indebtedness to be discharged was incurred within one year, describe the use of the proceeds of such indebtedness other than short-term borrowings used for working capital.

5. If any material amount of the proceeds is to be used to acquire assets, otherwise than in the ordinary course of business, describe briefly and state the cost of the assets and, where such assets are to be acquired from affiliates of the registrant or their associates, give the names of the persons from whom they are to be acquired and set forth the principle followed in determining the cost to the registrant.

6. Where the registrant indicates that the proceeds may, or will, be used to finance acquisitions of other businesses, the identity of such businesses, if known, or, if not known, the nature of the businesses to be sought, the status of any negotiations with respect to the acquisition, and a brief description of such business shall be included. Where, however, pro forma financial statements reflecting such acquisition are not required by Regulation S-X (17 CFR 210.01 through 210.12–29), including Rule 8–05 for smaller reporting companies, to be included in the registration statement, the possible terms of any transaction, the identification of the parties thereto or the nature of the business sought need not be disclosed, to the extent that the registrant reasonably determines that public disclosure of such information would jeopardize the acquisition. Where Regulation S-X, including Rule 8–04 for smaller reporting companies, as applicable, would require financial statements of the business to be acquired to be included, the description of the business to be acquired shall be more detailed.

7. The registrant may reserve the right to change the use of proceeds, provided that such reservation is due to certain contingencies that are discussed specifically and the alternatives to such use in that event are indicated.

§ 229.505 (Item 505) Determination of offering price.

(a) Common equity. Where common equity is being registered for which there is no established public trading market for purposes of paragraph (a) of Item 201 of Regulation S-K (§ 229.201(a)) or where there is a material disparity between the offering price of the common equity being registered and the market price of outstanding shares of the same class, describe the various factors considered in determining such offering price.

(b) Warrants, rights and convertible securities. Where warrants, rights or convertible securities exercisable for common equity for which there is no established public trading market for purposes of paragraph (a) of Item 201 of Regulation S-K (§ 229.201(a)) are being registered, describe the various factors considered in determining their exercise or conversion price.

§ 229.506 (Item 506) Dilution.

Where common equity securities are being registered and there is substantial disparity between the public offering price and the effective cash cost to officers, directors, promoters and affiliated persons of common equity acquired by them in transactions during the past five years, or which they have the right to acquire, and the registrant is not subject to the reporting requirements of section 13(a) or 15(d) of the Exchange Act immediately prior to filing of the registration statement, there shall be included a comparison of the public contribution under the proposed public offering and the effective cash contribution of such persons. In such cases, and in other instances where common equity securities are being registered by a registrant that has had losses in each of its last three fiscal years and there is a material dilution.
of the purchasers’ equity interest, the following shall be disclosed:

(a) The net tangible book value per share before and after the distribution;
(b) The amount of the increase in such net tangible book value per share attributable to the cash payments made by purchasers of the shares being offered; and
(c) The amount of the immediate dilution from the public offering price which will be absorbed by such purchasers.

§ 229.507 (Item 507) Selling security holders.

If any of the securities to be registered are to be offered for the account of security holders, name each such security holder, indicate the nature of any position, office, or other material relationship which the selling security holder has had within the past three years with the registrant or any of its predecessors or affiliates, and state the amount of securities of the class owned by such security holder prior to the offering, the amount to be offered for the security holder’s account, the amount and (if one percent or more) the percentage of the class to be owned by such security holder after completion of the offering.

§ 229.508 (Item 508) Plan of distribution.

(a) Underwriters and underwriting obligation. If the securities are to be offered through underwriters, name the principal underwriters, and state the respective amounts underwritten. Identify each such underwriter having a material relationship with the registrant and state the nature of the relationship. State briefly the nature of the obligation of the underwriter(s) to take the securities.

Instruction to paragraph 508(a): All that is required as to the nature of the underwriters’ obligation is whether the underwriters are or will be committed to take and to pay for all of the securities if any are taken, or whether it is merely an agency or the type of best efforts arrangement under which the underwriters are required to take and to pay for only such securities as they may sell to the public. Conditions precedent to the underwriters’ taking the securities, including market-outs, need not be described except in the case of an agency or best efforts arrangement.

(b) New underwriters. Where securities being registered are those of a registrant that has not previously been required to file reports pursuant to section 13(a) or 15(d) of the Exchange Act, or where a prospectus is required to include reference on its cover page to material risks pursuant to Item 501 of Regulation S-K (§ 229.501), and any one or more of the managing underwriter(s) (or where there are no managing underwriters, a majority of the principal underwriters) has been organized, reactivated, or first registered as a broker-dealer within the past three years, these facts concerning such underwriter(s) shall be disclosed in the prospectus together with, where applicable, the disclosures that the principal business function of such underwriter(s) will be to sell the securities to be registered, or that the promoters of the registrant have a material relationship with such underwriter(s). Sufficient details shall be given to allow full appreciation of such underwriter(s) experience and its relationship with the registrant, promoters and their controlling persons.

(c) Other distributions. Outline briefly the plan of distribution of any securities to be registered that are to be offered otherwise than through underwriters.

(1) If any securities are to be offered pursuant to a dividend or interest reinvestment plan the terms of which provide for the purchase of some securities on the market, state whether the registrant or the participant pays fees, commissions, and expenses incurred in connection with the plan. If the participant will pay such fees, commissions and expenses, state the anticipated cost to participants by transaction or other convenient reference.

(2) If the securities are to be offered through the selling efforts of brokers or dealers, describe the plan of distribution and the terms of any agreement, arrangement, or understanding entered into with broker(s) or dealer(s) prior to the effective date of the registration statement, including volume limitations on sales, parties to the agreement and the conditions under which the agreement may be terminated. If known, identify the broker(s) or dealer(s) which will participate in
§ 229.508

the offering and state the amount to be offered through each.

(3) If any of the securities being registered are to be offered otherwise than for cash, state briefly the general purposes of the distribution, the basis upon which the securities are to be offered, the amount of compensation and other expenses of distribution, and by whom they are to be borne. If the distribution is to be made pursuant to a plan of acquisition, reorganization, readjustment or succession, describe briefly the general effect of the plan and state when it became or is to become operative. As to any material amount of assets to be acquired under the plan, furnish information corresponding to that required by Instruction 5 of Item 504 of Regulation S-K (§229.504).

(d) Offerings on exchange. If the securities are to be offered on an exchange, indicate the exchange. If the registered securities are to be offered in connection with the writing of exchange-traded call options, describe briefly such transactions.

(e) Underwriter’s compensation. Provide a table that sets out the nature of the compensation and the amount of discounts and commissions to be paid to the underwriter for each security and in total. The table must show the separate amounts to be paid by the company and the selling shareholders. In addition, include in the table all other items considered by the Financial Industry Regulatory Authority (“FINRA”) to be underwriting compensation for purposes of FINRA rules.

Instructions to paragraph 508(e): 1. The term “commissions” is defined in paragraph (17) of Schedule A of the Securities Act. Show separately in the table the cash commissions paid by the registrant and selling security holders. Also show in the table commissions paid by other persons. Disclose any finder’s fee or similar payments in the table.

2. Disclose the offering expenses specified in Item 511 of Regulation S-K (17 CFR 229.511).

3. If the underwriter has any arrangement with the issuer, such as an over-allotment option, under which the underwriter may purchase additional shares in connection with the offering, indicate that this arrangement exists and state the amount of additional shares that the underwriter may purchase under the arrangement. Where the underwriter has such an arrangement, present maximum-minimum information in a separate column to the table, based on the purchase of all or none of the shares subject to the arrangement. Describe the key terms of the arrangement in the narrative.

(f) Underwriter’s representative on board of directors. Describe any arrangement whereby the underwriter has the right to designate or nominate a member or members of the board of directors of the registrant. The registrant shall disclose the identity of any director so designated or nominated, and indicate whether or not a person so designated or nominated, or allowed to be designated or nominated by the underwriter is or may be a director, officer, partner, employee or affiliate of the underwriter.

(g) Indemnification of underwriters. If the underwriting agreement provides for indemnification by the registrant of the underwriters or their controlling persons against any liability arising under the Securities Act, furnish a brief description of such indemnification provisions.

(h) Dealers’ compensation. State briefly the discounts and commissions to be allowed or paid to dealers, including all cash, securities, contracts or other considerations to be received by any dealer in connection with the sale of the securities. If any dealers are to act in the capacity of sub-underwriters and are to be allowed or paid any additional discounts or commissions for acting in such capacity, a general statement to that effect will suffice without giving the additional amounts to be sold.

(i) Finders. Identify any finder and, if applicable, describe the nature of any material relationship between such finder and the registrant, its officers, directors, principal stockholders, finders or promoters or the principal underwriter(s), or if there is a managing underwriter(s), the managing underwriter(s), (including, in each case, affiliates or associates thereof).

(j) Discretionary accounts. If the registrant was not, immediately prior to the filing of the registration statement, subject to the requirements of section 13(a) or 15(d) of the Exchange Act, identify any principal underwriter that intends to sell to any accounts over which it exercises discretionary
authority and include an estimate of the amount of securities so intended to be sold. The response to this paragraph shall be contained in a pre-effective amendment which shall be circulated if the information is not available when the registration statement is filed.

(k) Passive market making. If the underwriters or any selling group members intend to engage in passive market making transactions as permitted by Rule 103 of Regulation M (§242.103 of this chapter), indicate such intention and briefly describe passive market making.

(l) Stabilization and other transactions.
(1) Briefly describe any transaction that the underwriter intends to conduct during the offering that stabilizes, maintains, or otherwise affects the market price of the offered securities. Include information on stabilizing transactions, syndicate short covering transactions, penalty bids, or any other transaction that affects the offered security’s price. Describe the nature of the transactions clearly and explain how the transactions affect the offered security’s price. Identify the exchange or other market on which these transactions may occur. If true, disclose that the underwriter may discontinue these transactions at any time.

(2) If the stabilizing began before the effective date of the registration statement, disclose the amount of securities bought, the prices at which they were bought and the period within which they were bought. If you use §230.430A of this chapter, the prospectus you file under §230.424(b) of this chapter or include in a post-effective amendment must contain information on the stabilizing transactions that took place before the determination of the public offering price; and

(3) If you are making a warrants or rights offering of securities to existing security holders and any securities not purchased by existing security holders are to be reoffered to the public, disclose in a supplement to the prospectus or in the prospectus used in connection with the reoffering:

(1) The amount of securities bought in stabilization activities during the offering period and the price or range of prices at which the securities were bought;

(ii) The amount of the offered securities subscribed for during the offering period;

(iii) The amount of the offered securities subscribed for by the underwriter during the offering period;

(iv) The amount of the offered securities sold during the offering period by the underwriter and the price or price ranges at which the securities were sold; and

(v) The amount of the offered securities that will be reoffered to the public and the public offering price.

§ 229.509 (Item 509) Interests of named experts and counsel.

Instructions to Item 509: 1. The interest of an expert (other than an accountant) or counsel

In addition to the disclosure prescribed by Item 702 of Regulation S-K (§229.702), if the undertaking required by paragraph (h) of Item 512 of Regulation S-K (§229.512) is not required to be included in the registration statement because acceleration of the effective date of the registration statement is not being requested, and if waivers have not been obtained comparable to those specified in paragraph (h), a brief description of the indemnification provisions relating to directors, officers and controlling persons of the registrant against liability arising under the Securities Act (including any provision of the underwriting agreement which relates to indemnification of the underwriter or its controlling persons by the registrant against such liabilities where a director, officer or controlling person of the registrant is such an underwriter or controlling person thereof or a member of any firm which is such an underwriter) shall be included in the prospectus, together with a statement in substantially the following form:

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or persons controlling the registrant pursuant to the foregoing provisions, the registrant has been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is therefore unenforceable.

§ 229.511 (Item 511) Other expenses of issuance and distribution.

Furnish a reasonably itemized statement of all expenses in connection with the issuance and distribution of the securities to be registered, other than underwriting discounts and commissions. If any of the securities to be registered are to be offered for the account of security holders, indicate the portion of such expenses to be borne by such security holder.

Instruction to Item 511: Insofar as practicable, registration fees, Federal taxes, State taxes and fees, trustees’ and transfer agents’ fees, costs of printing and engraving, and legal, accounting, and engineering fees shall be itemized separately. Include as a separate item any premium paid by the registrant or any selling security holder on any policy obtained in connection with the offering and sale of the securities being registered which insures or indemnifies directors or officers against any liabilities they may incur in connection with the registration, offering, or sale of such securities. The information may be given as subject to future contingencies. If the amounts of any items are not known, estimates, identified as such, shall be given.

§ 229.512 (Item 512) Undertakings.

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement.
(or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) ($230.424(b) of this chapter) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, That:

(A) Paragraphs (a)(1)(i) and (a)(1)(ii) of this section do not apply if the registration statement is on Form S-8 ($239.16b of this chapter), and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)) that are incorporated by reference in the registration statement; and

(B) Paragraphs (a)(1)(i), (ii), and (iii) of this section do not apply if the registration statement is on Form S-1 ($239.11 of this chapter), Form S-3 ($239.13 of this chapter), Form SF-3 ($239.45 of this chapter) or Form F-3 ($239.33 of this chapter) and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)) that are incorporated by reference in the registration statement, or, as to a registration statement on Form S-3, Form SF-3 or Form F-3, is contained in a form of prospectus filed pursuant to §230.424(b) of this chapter that is part of the registration statement.

(C) Provided further, however, that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the registration statement is for an offering of asset-backed securities on Form SF-1 ($239.44 of this chapter) or Form SF-3 ($239.45 of this chapter), and the information required to be included in a post-effective amendment is provided pursuant to Item 1100(c) of Regulation AB ($229.1100(c)).

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) If the registrant is a foreign private issuer, to file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A of Form 20-F ($249.220f of this chapter) at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the Act (15 U.S.C. 77j(a)(3)) need not be furnished, provided that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (a)(4) and other information necessary to ensure that all other information in the prospectus is at least as current as the date of those financial statements. Notwithstanding the foregoing, with respect to registration statements on Form F-3 ($239.33 of this chapter), a post-effective amendment need not be filed to include financial statements and information required by Section 10(a)(3) of the Act or Item 8.A of Form 20-F if such financial statements and information are contained in periodic reports filed with or
furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Form F–3.

As provided in Rule 430B of this chapter, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in any such document immediately prior to such effective date; or

(ii) If the registrant is subject to Rule 430C (§ 230.430C of this chapter), each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A (§ 230.430A of this chapter), shall be deemed to be part of and included in the registration statements as of the date it is first used after effectiveness. such effective date; or

(6) That, for the purpose of deter-
mining liability of the registrant under
the Securities Act of 1933 to any pur-
chaser in the initial distribution of the
securities:

The undersigned registrant undertakes
that in a primary offering of securities of the

registrant to the purchaser.

(7) If the registrant is relying on
§230.430D of this chapter, with respect
to any offering of securities registered
on Form SF–3 (§239.45 of this chapter),
to file the information previously

part of an effective registration state-
ment in accordance with §§230.424(h)

clude the following if the registration
statement incorporates by reference
any Exchange Act document filed sub-
sequent to the effective date of the reg-
istration statement:

The undersigned registrant hereby under-
takes that, for purposes of deter-
mining liability under the Securities Act of 1933,
each filing of the registrant’s annual report

(h) Request for acceleration of effective date or filing of registration statement becoming effective upon filing. Include the following if acceleration is requested of the effective date of the registration statement pursuant to Rule 461 under the Securities Act (§230.461 of this chapter), if a Form S-3 or Form F-3 will become effective upon filing with the Commission pursuant to Rule 462 (e) or (f) under the Securities Act (§230.462 (e) or (f) of this chapter), or if the registration statement is filed on Form S-8, and:

Subpart 229.600—Exhibits

§229.601 (Item 601) Exhibits.

(a) Exhibits and index required. (1) Subject to Rule 411(c) (§230.411(c) of this chapter) under the Securities Act and Rule 12b–23(c) (§240.12b–23(c) of this chapter) under the Exchange Act regarding incorporation of exhibits by reference, the exhibits required in the exhibit table must be filed as indicated, as part of the registration statement or report.

(2) Each registration statement or report shall contain an exhibit index, which must appear before the required signatures in the registration statement or report. For convenient reference, each exhibit shall be listed in the exhibit index according to the number assigned to it in the exhibit table. If an exhibit is incorporated by reference, this must be noted in the exhibit index. Each exhibit identified in the exhibit index (other than an exhibit filed in eXtensible Business Reporting Language or an exhibit that is filed with Form ABS–EE) must include an active link to an exhibit that is filed with the registration statement or report or, if the exhibit is incorporated by reference, an active hyperlink to the exhibit separately filed on EDGAR. If a registration statement or report is amended, each amendment must include hyperlinks to the exhibits required with the amendment. For a description of each of the exhibits included in the exhibit table, see paragraph (b) of this section.

(3) This Item applies only to the forms specified in the exhibit table. With regard to forms not listed in that table, reference shall be made to the appropriate form for the specific exhibit filing requirements applicable thereto.

(4) If a material contract or plan of acquisition, reorganization, arrangement, liquidation or succession is executed or becomes effective during the reporting period reflected by a Form 10–Q or Form 10–K, it shall be filed as an exhibit to the Form 10–Q or Form 10–K filed for the corresponding period. Any amendment or modification to a previously filed exhibit to a Form 10, 10–K or 10–Q document shall be filed as an exhibit to a Form 10–Q and Form 10–K. Such amendment or modification need not be filed where such previously filed exhibit would not be currently required.

(5) Schedules (or similar attachments) to the exhibits required by this Item are not required to be filed provided that they do not contain information material to an investment or voting decision and that information is not otherwise disclosed in the exhibit or the disclosure document. Each exhibit filed must contain a list briefly identifying the contents of all omitted schedules. Registrants need not prepare a separate list of omitted information if such information is already included within the exhibit in a manner that conveys the subject matter of the omitted schedules and attachments. In addition, the registrant must provide a copy of any omitted schedule to the Commission or its staff upon request.

(6) The registrant may redact information from exhibits required to be filed by this Item if disclosure of such information would constitute a clearly unwarranted invasion of personal privacy (e.g., disclosure of bank account numbers, social security numbers, home addresses, and similar information).

Instructions to Item 601: 1. If an exhibit to a registration statement (other than an opinion or consent), filed in preliminary form,
has been changed only (A) to insert information as to interest, dividend or conversion rates, redemption or conversion prices, purchase or offering prices, underwriters' or dealers' commissions, names, addresses or participation of underwriters or similar matters, which information appears elsewhere in an amendment to the registration statement or a prospectus filed pursuant to Rule 424(b) under the Securities Act (§ 230.424(b) of this chapter), or (B) to correct typographical errors, insert signatures or make other similar immaterial changes, then, notwithstanding any contrary requirement of any rule or form, the registrant need not refile such exhibit as so amended. Any such incomplete exhibit may not, however, be incorporated by reference in any subsequent filing under any Act administered by the Commission.

2. In any case where two or more indentures, contracts, franchises, or other documents required to be filed as exhibits are substantially identical in all material respects except as to the parties thereto, the dates of execution, or other details, the registrant need file a copy of only one of such documents, with a schedule identifying the other documents omitted and setting forth the material details in which such documents differ from the document a copy of which is filed. The Commission may at any time in its discretion require filing of copies of any documents so omitted.

3. Only copies, rather than originals, need be filed of each exhibit required except as otherwise specifically noted.

4. Electronic filings. Whenever an exhibit is filed in paper pursuant to a hardship exemption (§§ 232.201 and 232.202 of this chapter), the letter “P” (paper) shall be placed next to the exhibit in the list of exhibits required by Item 601(a)(2) of this Rule. Whenever an electronic confirming copy of an exhibit is filed pursuant to a hardship exemption (§ 232.201 or § 232.202(d) of this chapter), the exhibit index should specify where the confirming electronic copy can be located; in addition, the designation “CE” (confirming electronic) should be placed next to the listed exhibit in the exhibit index.

**Exhibit Table**

Instructions to the Exhibit Table.

1. The exhibit table indicates those documents that must be filed as exhibits to the respective forms listed.

2. The “X” designation indicates the documents which are required to be filed with each form even if filed previously with another document, Provided, However, that such previously filed documents may be incorporated by reference to satisfy the filing requirements.

3. The number used in the far left column of the table refers to the appropriate subsection in paragraph (b) where a description of the exhibit can be found. Whenever necessary, alphabetical or numerical subparts may be used.

For example, if the Form 8-K pertains to the departure of a director, only the exhibit described in paragraph (b)(17) of this section need be filed. A required exhibit may be incorporated by reference from a previous filing.

Where the opinion of the expert or counsel has been incorporated by reference into a previously filed Securities Act registration statement.

Pursuant to §§240.13a–13(b)(3) and 240.15d–13(b)(3) of this chapter, asset-backed issuers are not required to file reports on Form 10-Q.

If required pursuant to §229.1302 (Item 1302 of Regulation S-K).
(b) Description of exhibits. Set forth below is a description of each document listed in the exhibit tables.

(1) Underwriting agreement. Each underwriting contract or agreement with a principal underwriter pursuant to which the securities being registered are to be distributed; if the terms of such documents have not been determined, the proposed forms thereof. Such agreement may be filed as an exhibit to a report on Form 8-K (§ 249.308 of this chapter) which is incorporated by reference into a registration statement subsequent to its effectiveness.

(2) Plan of acquisition, reorganization, arrangement, liquidation, or succession.

(i) Any material plan of acquisition, disposition, reorganization, readjustment, succession, liquidation, or arrangement and any amendments thereto described in the statement or report.

(ii) The registrant may redact provisions or terms of exhibits required to be filed by paragraph (b)(2) of this Item if those provisions or terms are both not material and would likely cause competitive harm to the registrant if publicly disclosed. If it does so, the registrant should mark the exhibit index to indicate that portions of the exhibit or exhibits have been omitted and include a prominent statement on the first page of the redacted exhibit that certain information has been excluded from the exhibit because it is both not material and would likely cause competitive harm to the registrant.

The registrant also must indicate by brackets where the information is omitted from the filed version of the exhibit. If requested by the Commission or its staff, the registrant must promptly provide an unredacted copy of the exhibit on a supplemental basis. The Commission staff also may request the registrant to provide its materiality and competitive harm analyses on a supplemental basis. Upon evaluation of the registrant’s supplemental materials, the Commission or its staff may request the registrant to amend its filing to include in the exhibit any previously redacted information that is not adequately supported by the registrant’s materiality and competitive harm analyses. The registrant may request confidential treatment of the supplemental material submitted under paragraph (b)(2)(ii) of this Item as currently in effect and any amendments thereto.

(3)(i) Articles of incorporation. The articles of incorporation of the registrant or instruments corresponding thereto as currently in effect and any amendments thereto. Whenever the registrant files an amendment to its articles of incorporation, it must file a complete copy of the articles as amended. However, if such amendment is being reported on Form 8-K (§ 249.308 of this chapter), the registrant is required to file only the text of the amendment as a Form 8-K exhibit. In such case, a complete copy of the articles of incorporation as amended must be filed as an exhibit to the next Securities Act registration statement or periodic report filed by the registrant to which this exhibit requirement applies. Where it is impracticable for the registrant to file a charter amendment authorizing new securities with the appropriate state authority prior to the effective date of the registration statement registering such securities, the registrant may file as an exhibit to the registration statement the form of amendment to be filed with the state authority. In such a case, if material changes are made after the copy is filed, the registrant must also file the changed copy.

(ii) Bylaws. The bylaws of the registrant or instruments corresponding thereto as currently in effect and any amendments thereto. Whenever the registrant files an amendment to the bylaws, it must file a complete copy of the amended bylaws. However, if such amendment is being reported on Form 8-K (§ 249.308 of this chapter), the registrant is required to file only the text of the amendment as an exhibit to the next Securities Act
registration statement or periodic report filed by the registrant to which this exhibit requirement applies.

(4) Instruments defining the rights of security holders, including indentures. (i) All instruments defining the rights of holders of the equity or debt securities being registered including, where applicable, the relevant portion of the articles of incorporation or by-laws of the registrant.

(ii) Except as set forth in paragraph (b)(4)(iii) of this Item for filings on Forms S–1, S–4, S–11, N–14, and F–4 under the Securities Act (§§239.11, 239.23, 239.18, 239.23 and 239.34 of this chapter) and Forms 10 and 10–K under the Exchange Act (§§249.210 and 249.310 of this chapter) all instruments defining the rights of holders of long-term debt of the registrant and its consolidated subsidiaries and for any of its unconsolidated subsidiaries for which financial statements are required to be filed.

(iii) Where the instrument defines the rights of holders of long-term debt of the registrant and its consolidated subsidiaries and for any of its unconsolidated subsidiaries for which financial statements are required to be filed, there need not be filed:

(A) Any instrument with respect to long-term debt not being registered if the total amount of securities authorized thereunder does not exceed 10 percent of the total assets of the registrant and its subsidiaries on a consolidated basis and if there is filed an agreement to furnish a copy of such agreement to the Commission upon request;

(B) Any instrument with respect to any class of securities if appropriate steps to assure the redemption or retirement of such class will be taken prior to or upon delivery by the registrant of the securities being registered; or

(C) Copies of instruments evidencing scrip certificates for fractions of shares.

(iv) If any of the securities being registered are, or will be, issued under an indenture to be qualified under the Trust Indenture Act, the copy of such indenture which is filed as an exhibit shall include or be accompanied by:

(A) A reasonably itemized and informative table of contents; and

(B) A cross-reference sheet showing the location in the indenture of the provisions inserted pursuant to sections 310 through 318(a) inclusive of the Trust Indenture Act of 1939.

(v) With respect to Forms 8–K and 10–Q under the Exchange Act that are filed and that disclose, in the text of the Form 10–Q, the interim financial statements, or the footnotes thereto the creation of a new class of securities or indebtedness or the modification of existing rights of security holders, file all instruments defining the rights of holders of these securities or indebtedness. However, there need not be filed any instrument with respect to long-term debt not being registered which meets the exclusion set forth in paragraph (b)(4)(iii)(A) of this Item.

(vi) For each class of securities that is registered under Section 12 of the Exchange Act, provide the information required by Item 202(a) through (d) and (f) of Regulation S–K (§229.202 of this chapter).

Instruction 1 to paragraph (b)(4)(vi). A registrant is only required to provide the information called for by Item 601(b)(4)(vi) if it is filing an annual report under Exchange Act Section 13(a) or 15(d).

Instruction 2 to paragraph (b)(4)(vi). For purposes of Item 601(b)(4)(vi), all references in Item 202 to securities to be or being registered, offered, or sold will mean securities that are registered as of the end of the period covered by the report with which the exhibit is filed. In addition, for purposes of this Item, the disclosure will be required for classes of securities that have not been retired by the end of the period covered by the report.

Instruction 3 to paragraph (b)(4)(vi). The registrant may incorporate by reference to an exhibit previously filed in satisfaction of Item 601(b)(4)(vi) of Regulation S–K, as applicable, so long as there has not been any change to the information called for by Item 202 (§229.202 of this chapter) since the filing date of the linked filing. Such hyperlink will be deemed to satisfy the requirements of Item 601(b)(4)(vi) for the current filing.
Instruction 1 to paragraph (b)(4): There need not be filed any instrument which defines the rights of participants (not as security holders) pursuant to an employee benefit plan.

Instruction 2 to paragraph (b)(4) (for electronic filings): If the instrument defining the rights of security holders is in the form of a certificate, the text appearing on the certificate shall be reproduced in an electronic filing together with a description of any other graphic and image material appearing on the certificate, as provided in Rule 304 of Regulation S-T ($232.304 of this chapter).

(5) Opinion re legality. (i) An opinion of counsel as to the legality of the securities being registered, indicating whether they will, when sold, be legally issued, fully paid and non-assessable, and, if debt securities, whether they will be binding obligations of the registrant.

(ii) If the securities being registered are issued under a plan and the plan is subject to the requirements of ERISA furnish either:

(A) An opinion of counsel which confirms compliance of the provisions of the written documents constituting the plan with the requirements of ERISA pertaining to such provisions; or

(B) A copy of the Internal Revenue Service determination letter that the plan is qualified under section 401 of the Internal Revenue Code.

(iii) If the securities being registered are issued under a plan which is subject to the requirements of ERISA and the plan has been amended subsequent to the filing of paragraph (b)(5)(ii) (A) or (B) above, furnish either:

(A) An opinion of counsel which confirms compliance of the amended provisions of the plan with the requirements of ERISA pertaining to such provisions; or

(B) A copy of the Internal Revenue Service determination letter that the amended plan is qualified under section 401 of the Internal Revenue Code.

NOTE: Attention is directed to Item 8 of Form S–8 for exemptions to this exhibit requirement applicable to that Form.

(6) [Reserved]

(7) Correspondence from an independent accountant regarding non-reliance on a previously issued audit report or completed interim review. Any written notice from the registrant’s current or previously engaged independent accountant that the independent accountant is withdrawing a previously issued audit report or that a previously issued audit report or completed interim review, covering one or more years or interim periods for which the registrant is required to provide financial statements under Regulation S-X (part 210 of this chapter), should no longer be relied upon. In addition, any letter, pursuant to Item 4.02(c) of Form 8–K ($249.308 of this chapter), from the independent accountant to the Commission stating whether the independent accountant agrees with the statements made by the registrant describing the events giving rise to the notice.

(8) Opinion re tax matters. For filings on Form S–11 under the Securities Act ($239.18) or those to which Securities Act Industry Guide 5 applies, an opinion of counsel or of an independent public or certified public accountant or, in lieu thereof, a revenue ruling from the Internal Revenue Service, supporting the tax matters and consequences to the shareholders as described in the filing when such tax matters are material to the transaction for which the registration statement is being filed. This exhibit otherwise need only be filed with the other applicable registration forms where the tax consequences are material to the investor and a representation as to tax consequences is set forth in the filing. If a tax opinion is set forth in full in the filing, an indication that such is the case may be made in lieu of filing the otherwise required exhibit. Such tax opinions may be conditioned or may be qualified, so long as such conditions and qualifications are adequately described in the filing.

(9) Voting trust agreement. Any voting trust agreements and amendments thereto.

(10) Material contracts. (i)(A) Every contract not made in the ordinary course of business that is material to the registrant and is to be performed in whole or in part at or after the filing of the registration statement or report. In addition, for newly reporting registrants, every contract not made in the ordinary course of business that is material to the registrant and that was
entered into not more than two years before the date on which such registrant:

1. First files a registration statement or report; or

2. Completes a transaction that had the effect of causing it to cease being a public shell company.

(B) The only contracts that need to be filed are those to which the registrant or a subsidiary of the registrant is a party or has succeeded to a party by assumption or assignment or in which the registrant or such subsidiary has a beneficial interest.

(ii) If the contract is such as ordinarily accompanies the kind of business conducted by the registrant and its subsidiaries, it will be deemed to have been made in the ordinary course of business and need not be filed unless it falls within one or more of the following categories, in which case it shall be filed except where immaterial in amount or significance:

(A) Any contract to which directors, officers, promoters, voting trustees, security holders named in the registration statement or report, or underwriters are parties other than contracts involving only the purchase or sale of current assets having a determinable market price, at such market price;

(B) Any contract upon which the registrant’s business is substantially dependent, as in the case of continuing contracts to sell the major part of registrant’s products or services or to purchase the major part of registrant’s requirements of goods, services or raw materials or any franchise or license or other agreement to use a patent, formula, trade secret, process or trade name upon which registrant’s business depends to a material extent;

(C) Any contract calling for the acquisition or sale of any property, plant or equipment for a consideration exceeding 15 percent of such fixed assets of the registrant on a consolidated basis; or

(D) Any material lease under which a part of the property described in the registration statement or report is held by the registrant.

(iii)(A) Any management contract or any compensatory plan, contract or arrangement, including but not limited to plans relating to options, warrants or rights, pension, retirement or deferred compensation or bonus, incentive or profit sharing (or if not set forth in any formal document, a written description thereof) in which any director or any of the named executive officers of the registrant, as defined by Item 402(a)(3) (§ 229.402(a)(3)), participates shall be deemed material and shall be filed; and any other management contract or any other compensatory plan, contract, or arrangement in which any other executive officer of the registrant participates shall be filed unless immaterial in amount or significance.

(B) Any compensatory plan, contract or arrangement adopted without the approval of security holders pursuant to which equity may be awarded, including, but not limited to, options, warrants or rights (or if not set forth in any formal document, a written description thereof), in which any employee (whether or not an executive officer of the registrant) participates shall be filed unless immaterial in amount or significance. A compensation plan assumed by a registrant in connection with a merger, consolidation or other acquisition transaction pursuant to which the registrant may make further grants or awards of its equity securities shall be considered a compensation plan of the registrant for purposes of the preceding sentence.

(C) Notwithstanding paragraph (b)(10)(iii)(A) above, the following management contracts or compensatory plans, contracts or arrangements need not be filed:

1. Ordinary purchase and sales agency agreements.

2. Agreements with managers of stores in a chain organization or similar organization.

3. Contracts providing for labor or salesmen’s bonuses or payments to a class of security holders, as such.

4. Any compensatory plan, contract or arrangement which pursuant to its terms is available to employees, officers or directors generally and which in operation provides for the same method of allocation of benefits between management and nonmanagement participants.
§ 229.601  17 CFR Ch. II (4–1–20 Edition)

(5) Any compensatory plan, contract or arrangement if the registrant is a foreign private issuer that furnishes compensatory information under Item 402(a)(1) (§229.402(a)(1)) and the public filing of the plan, contract or arrangement, or portion thereof, is not required in the registrant's home country and is not otherwise publicly disclosed by the registrant.

(6) Any compensatory plan, contract, or arrangement if the registrant is a wholly owned subsidiary of a company that has a class of securities registered pursuant to section 12 or files reports pursuant to section 15(d) of the Exchange Act and is filing a report on Form 10-K or registering debt instruments or preferred stock that are not voting securities on Form S-1.

(iv) The registrant may redact provisions or terms of exhibits required to be filed by this paragraph (b)(10) if those provisions or terms are both not material and would likely cause competitive harm to the registrant if publicly disclosed. If it does so, the registrant should mark the exhibit index to indicate that portions of the exhibit or exhibits have been omitted and include a prominent statement on the first page of the redacted exhibit that certain identified information has been excluded from the exhibit because it is both not material and would likely cause competitive harm to the registrant if publicly disclosed. The registrant also must indicate by brackets where the information is omitted from the filed version of the exhibit. If requested by the Commission or its staff, the registrant must promptly provide an unredacted copy of the exhibit on a supplemental basis. The Commission or its staff also may request the registrant to provide its materiality and competitive harm analyses on a supplemental basis. Upon evaluation of the registrant’s supplemental materials, the Commission or its staff may require the registrant to amend its filing to include in the exhibit any previously redacted information that is not adequately supported by the registrant’s materiality and competitive harm analyses. The registrant may request confidential treatment of the supplemental material submitted under this paragraph (b)(10)(iv) pursuant to Rule 83 (§200.83 of this chapter) while it is in the possession of the Commission or its staff. After completing its review of the supplemental information, the Commission or its staff will return or destroy it at the request of the registrant if the registrant complies with the procedures outlined in Rules 418 or 12b–4 (§230.418 or §240.12b–4 of this chapter).

Instruction 1 to paragraph (b)(10) of Item 601: For purposes of paragraph (b)(10)(1) of this Item, a “newly reporting registrant” is:
1. Any registrant filing a registration statement that, at the time of such filing, is not subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act, whether or not such registrant has ever previously been subject to the reporting requirements of Section 13(a) or 15(d).
2. Any registrant that has not filed an annual report since the revival of a previously suspended reporting obligation, and
3. Any registrant that:
   a. Was a shell company, other than a business combination related shell company, as defined in Rule 12b–2 under the Exchange Act (17 CFR 240.12b–2), immediately before completing a transaction that has the effect of causing it to cease being a shell company and
   b. Has not filed a registration statement or Form S-K as required by Items 2.01 and 5.06 of that form, since the completion of such transaction.
4. For example, newly reporting registrants would include a registrant that is filing its first registration statement under the Securities Act or the Exchange Act, and a registrant that was a public shell company, other than a business combination related shell company, and completes a reverse merger transaction causing it to cease being a shell company.

Instruction 2 to paragraph (b)(10): With the exception of management contracts, in order to comply with paragraph (b)(10)(i) of this section, registrants need only file copies of the various compensatory plans and need not file each individual director’s or executive officer’s personal agreement under the plans unless there are particular provisions in such personal agreements whose disclosure in an exhibit is necessary to an investor's understanding of that individual’s compensation under the plan.

Instruction 3 to paragraph (b)(10): If a material contract is executed or becomes effective during the reporting period reflected by a Form 10-Q or Form 10-K, it must be filed as an exhibit to the Form 10-Q or Form 10-K filed for the corresponding period. See paragraph (a)(4) of this Item. With respect to quarterly reports on Form 10-Q, only those contracts executed or becoming effective...
(11)–(12) [Reserved]

(13) Annual or quarterly report to security holders. (i) The registrant’s annual report to security holders for its last fiscal year or its quarterly report to security holders, if all or a portion thereof is incorporated by reference in the filing. Such report, except for those portions thereof that are expressly incorporated by reference in the filing, is to be furnished for the information of the Commission and is not to be deemed “filed” as part of the filing. If the financial statements in the report have been incorporated by reference in the filing, the accountant’s certificate must be manually signed in one copy. See Rule 439 (§ 230.439 of this chapter).

(ii) Electronic filings. If all, or any portion, of the annual or quarterly report to security holders is incorporated by reference into any electronic filing, all, or such portion of the annual or quarterly report to security holders so incorporated, must be filed in electronic format as an exhibit to the filing.

(14) Code of ethics. Any code of ethics, or amendment thereto, that is the subject of the disclosure required by §229.406 (Item 406 of Regulation S–K) or Item 5.05 of Form 8-K (§249.308 of this chapter), to the extent that the registrant intends to satisfy the Item 406 or Item 5.05 requirements through filing of an exhibit.

(15) Letter re unaudited interim financial information. A letter, where applicable, from the independent accountant that acknowledges awareness of the use in a registration statement of a report on unaudited interim financial information that pursuant to Rule 436(c) under the Securities Act (§230.436(c) of this chapter) is not considered a part of a registration statement prepared or certified by an accountant or a report prepared or certified by an accountant within the meaning of sections 7 and 11 of that Act. Such letter may be filed with the registration statement, an amendment thereto, or a report on Form 10-Q which is incorporated by reference into the registration statement.

(16) Letter re change in certifying accountant. A letter from the registrant’s former independent accountant regarding its concurrence or disagreement with the statements made by the registrant in the current report concerning the resignation or dismissal as the registrant’s principal accountant.

(18) Letter re change in accounting principles. Unless previously filed, a letter from the registrant’s independent accountant indicating whether any change in accounting principles or practices followed by the registrant, or any change in the method of applying any such accounting principles or practices, which affected the financial statements being filed with the Commission in the report or which is reasonably certain to affect the financial statements of future fiscal years is to an alternative principle which in his judgment is preferable under the circumstances. No such letter need be filed when such change is made in response to a standard adopted by the Financial Accounting Standards Board that creates a new accounting principle, that expresses a preference for an accounting principle, or that rejects a specific accounting principle.

(19) [Reserved]

(20) Other documents or statements to security holders. If the registrant makes available to its stockholders or otherwise publishes, within the period prescribed for filing the report, a document or statement containing information meeting some or all of the requirements of this form the information called for may be incorporated by reference to such published document or statement provided copies thereof are filed as an exhibit to the report on this form.

(21) Subsidiaries of the registrant. (i) List all subsidiaries of the registrant, the state or other jurisdiction of incorporation or organization of each, and
the names under which such subsidiaries do business. This list may be incorporated by reference from a document which includes a complete and accurate list.

(See the definition of “significant subsidiary” in Rule 1–02(w) (17 CFR 210.1–02(w)) of Regulation S-X.) The names of consolidated wholly-owned multiple subsidiaries carrying on the same line of business, such as chain stores or small loan companies, may be omitted, provided the name of the immediate parent, the line of business, the number of omitted subsidiaries operating in the United States and the number operating in foreign countries are given. This instruction shall not apply, however, to banks, insurance companies, savings and loan associations or to any subsidiary subject to regulation by another Federal agency.

(22) [Reserved]

(i) Securities Act filings. All written consents required to be filed shall be dated and manually signed. Where the consent of an expert or counsel is contained in his report or opinion or elsewhere in the registration statement or document filed therewith, a reference shall be made in the index to the report, the part of the registration statement or document or opinion, containing the consent.

(ii) Exchange Act reports. Where the filing of a written consent is required with respect to material incorporated by reference in a previously filed registration statement under the Securities Act, such consent may be filed as exhibit to the material incorporated by reference. Such consents shall be dated and manually signed.

(24) Power of attorney. If any name is signed to the registration statement or report pursuant to a power of attorney, manually signed copies of such power of attorney shall be filed. Where the power of attorney is contained elsewhere in the registration statement or documents filed therewith a reference shall be made in the index to the part of the registration statement or document containing such power of attorney. In addition, if the name of any officer signing on behalf of the registrant is signed pursuant to a power of attorney, certified copies of a resolution of the registrant’s board of directors authorizing such signature shall also be filed. A power of attorney that is filed with the Commission shall relate to a specific filing or an amendment thereto, provided, however, that a power of attorney relating to a registration statement under the Securities Act or an amendment thereto also may relate to any registration statement for the same offering that is to be effective upon filing pursuant to Rule 462(b) under the Securities Act (§ 230.462(b) of this chapter). A power of attorney that confers general authority shall not be filed with the Commission.

(25) Statement of eligibility of trustee.
(i) A statement of eligibility and qualification of each person designated to act as trustee under an indenture to be qualified under the Trust Indenture Act of 1939. Such statement of eligibility shall be bound separately from the other exhibits.

(ii) Electronic filings. The requirement to bind separately the statement of eligibility and qualification of each person designated to act as a trustee under the Trust Indenture Act of 1939 from other exhibits shall not apply to statements submitted in electronic format. Rather, such statements must be submitted as exhibits in the same electronic submission as the registration statement to which they relate, or in an amendment thereto, except that electronic filers that rely on Trust Indenture Act Section 305(b)(2) for determining the eligibility of the trustee under indentures for securities to be issued, offered or sold on a delayed basis by or on behalf of the registrant shall file such statements separately in the manner prescribed by §260.5b–1 through §260.5b–3 of this chapter and by the EDGAR Filer Manual.

A natural person must sign the certification in his or her individual capacity, although the title of that person in the organization of which he or she is an officer may be included under the signature.

2 The first version of paragraph 4 is to be used when the servicer is signing the report on behalf of the issuing entity. The second version of paragraph 4 is to be used when the depositor is signing the report.

3 The certification refers to the reports prepared by parties participating in the servicing function that are required to be included as an exhibit to the Form 10-K. See Item 1122 of Regulation AB (§ 229.1122) and Rules 13a–18 and 15d–18 (§§ 240.13a–18 and 240.15d–18 of this chapter). If a report that is otherwise required to be included is not attached, disclosure that the report is not included and an associated explanation must be provided in the Form 10-K report.

4 Because the signer of the certification must rely in certain circumstances on information provided by unaffiliated parties outside of the signer’s control, this paragraph must be included if the signer is reasonably relying on information that unaffiliated trustees, depositors, servicers, sub-servicers or co-servicers have provided.

(ii) A certification furnished pursuant to this item will not be deemed “filed” for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.

(35) Servicer compliance statement. Each servicer compliance statement required by § 229.1123.

(36) Certification for shelf offerings of asset-backed securities. Provide the certification required by General Instruction I.B.1.(a) of Form SF-3 (§ 239.45 of this chapter) exactly as set forth below:

Certification

I [identify the certifying individual] certify as of [the date of the final prospectus under § 230.424 of this chapter] that:

1. I have reviewed the prospectus relating to [title of all securities, the offer and sale of which are registered] (the “securities”) and am familiar with, in all material respects, the following: The characteristics of the securitized assets underlying the offering (the “securitized assets”), the structure of
the securitization, and all material underlying transaction agreements as described in the prospectus;

2. Based on my knowledge, the prospectus does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading;

3. Based on my knowledge, the prospectus and other information included in the registration statement of which it is a part fairly present, in all material respects, the characteristics of the securitized assets, the structure of the securitization and the risks of ownership of the securities, including the risks relating to the securitized assets that would affect the cash flows available to service payments or distributions on the securities in accordance with their terms; and

4. Based on my knowledge, taking into account all material aspects of the characteristics of the securitized assets, the structure of the securitization, and the related risks as described in the prospectus, there is a reasonable basis to conclude that the securitization is structured to produce, but is not guaranteed by this certification to produce, expected cash flows at times and in amounts to service scheduled payments of interest and the ultimate repayment of principal on the securities (or other scheduled or required distributions on the securities, however denominated) in accordance with their terms as described in the prospectus.

5. The foregoing certifications are given subject to any and all defenses available to me under the federal securities laws, including any and all defenses available to an executive officer that signed the registration statement of which the prospectus referred to in this certification is part.

Date: __________________________

The qualified person is not required to use estimates of confidence limits derived from geostatistics or other numerical methods to support the disclosure of uncertainty surrounding mineral resource classification. If the qualified person chooses to use confidence limit estimates from geostatistics or other numerical methods, he or she should consider the limitations of these methods and adjust the estimates appropriately to reflect sources of uncertainty that are not accounted for by these methods;

(vi) When reporting the grade or quality for a multiple commodity mineral resource as metal or mineral equivalent, disclose the individual grade of each metal or mineral and the commodity prices, recoveries, and any other relevant conversion factors used to estimate the metal or mineral equivalent grade; and

Subpart 229.900—Roll-Up Transactions

SOURCE: 56 FR 57247, Nov. 8, 1991, unless otherwise noted.

§ 229.901 Definitions.

For the purposes of this subpart 229.900:

(a) General partner means the person or persons responsible under state law for managing or directing the management of the business and affairs of a partnership that is the subject of a roll-up transaction including, but not limited to, the general partner(s), board of directors, board of trustees, or other person(s) having a fiduciary duty to such partnership.

(b)(1) Partnership means any:

(i) Finite-life limited partnership; or

(ii) Other finite-life entity.

(2)(i) Except as provided in paragraph (b)(2)(ii) of this Item (§ 229.901(b)(2)(ii)), a limited partnership or other entity is “finite-life” if:

(A) It operates as a conduit vehicle for investors to participate in the ownership of assets for a limited period of time; and

(B) It has as a policy or purpose distributing to investors proceeds from the sale, financing or refinancing of assets or cash from operations, rather than reinvesting such proceeds or cash in the business (whether for the term of the entity or after an initial period of time following commencement of operations).

(ii) A real estate investment trust as defined in I.R.C. section 856 is not finite-life solely because of the distribution to investors of net income as provided by the I.R.C. if its policies or purposes do not include the distribution to investors of proceeds from the sale, financing or refinancing of assets, rather than the reinvestment of such proceeds in the business.

(3) Partnership does not include any entity registered under the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.) or any Business Development Company as defined in section 2(a)(48) of that Act (15 U.S.C. 80a–2(a)(48)).

(c)(1) Except as provided in paragraph (c)(2) or (c)(3) of this Item, (§ 229.901(c)(2) or (c)(3)) roll-up transaction means a transaction involving the combination or reorganization of one or more partnerships, directly or indirectly, in which some or all of the investors in any of such partnerships will receive new securities, or securities in another entity.

(2) Notwithstanding paragraph (c)(1) of this Item, (§ 229.901(c)(1)) roll-up transaction shall not include:

(i) A transaction wherein the interests of all of the investors in each of the partnerships are repurchased, recalled, or exchanged in accordance with the terms of the preexisting partnership agreement for securities in an operating company specifically identified at the time of the formation of the original partnership;

(ii) A transaction in which the securities to be issued or exchanged are not required to be and are not registered under the Securities Act of 1933 (15 U.S.C. 77a et seq.);

(iii) A transaction that involves only issuers that are not required to register or report under Section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78l), both before and after the transaction;

(iv) A transaction that involves the combination or reorganization of one or more partnerships in which a non-affiliated party succeeds to the interests of a general partner or sponsor, if:

(A) Such action is approved by not less than 66 2/3% of the outstanding units of each of the participating partnerships; and

(B) As a result of the transaction, the existing general partners will receive only compensation to which they are entitled as expressly provided for in the preexisting partnership agreements;

(v) A transaction in which the securities offered to investors are securities of another entity that are reported
under a transaction reporting plan declared effective before December 17, 1993 by the Commission under Section 11A of the Securities Exchange Act of 1934 (15 U.S.C. 78k–1), if:

(A) Such other entity was formed, and such class of securities was reported and regularly traded, not less than 12 months before the date on which soliciting material is mailed to investors; and

(B) The securities of that entity issued to investors in the transaction do not exceed 20% of the total outstanding securities of the entity, exclusive of any securities of such class held by or for the account of the entity or a subsidiary of the entity; and

(C) For purposes of paragraph (c)(2)(v) of this Item (§229.901(c)(2)(v)), a regularly traded security means any security with a minimum closing price of $2.00 or more for a majority of the business days during the preceding three-month period and a six-month minimum average daily trading volume of 1,000 shares;

(viii) A transaction in which all investors are provided an option to receive or retain a security under substantially the same terms and conditions as the original issue.

(3) The Commission, upon written request or upon its own motion, may exempt by rule or order any security or class of securities, any transaction or class of transactions, or any person or class of persons, in whole or in part, conditionally or unconditionally, from the definition of roll-up transaction or the requirements imposed on roll-up transactions by Items 902–915 of Regulation S-K (§§229.902–229.915), if it finds such action to be consistent with the public interest and the protection of investors.

(d) Sponsor means the person proposing the roll-up transaction.

(e) Successor means the surviving entity after completion of the roll-up transaction or the entity whose securities are being offered or sold to, or acquired by, limited partners of the partnerships or the limited partnerships to be combined or reorganized.

Instruction to Item 901. If a transaction is a roll-up transaction as defined in Item 901(c) of this subpart (§229.901(c)), the requirements of this subpart apply to each entity proposed to be included in the roll-up transaction, whether or not the entity is a “partnership” as defined in Item 901(b) of this subpart (§229.901(b)).

§229.902 (Item 902) Individual partnership supplements.

(a) If two or more entities are proposed to be included in the roll-up transaction, provide the information specified in this Item (§229.902) in a separate supplement to the disclosure document for each entity.

(b) The separate supplement required by paragraph (a) of this Item (§229.902) shall be filed as part of the registration statement, shall be delivered with the prospectus to investors in the partnership covered thereby, and shall include:

(1) A statement in the forepart of the supplement to the effect that:

(1) Supplements have been prepared for each partnership:
(ii) The effects of the roll-up transaction may be different for investors in the various partnerships; and

(iii) Upon receipt of a written request by an investor or his representative who has been so designated in writing, a copy of any supplement will be transmitted promptly, without charge, by the general partner or sponsor. This statement must include the name and address of the person to whom investors should make their request.

(2) A brief description of each material risk and effect of the roll-up transaction, including, but not limited to, federal income tax consequences, for investors in the partnership, with appropriate cross references to the discussions of the risks, effects and tax consequences of the roll-up transaction required in the principal disclosure document pursuant to Items 904 and 915 of this subpart (§§ 229.904 and 229.915). Such discussion shall address the effect of the roll-up transaction on the partnership's financial condition and results of operations.

(3) A statement concerning whether the general partner reasonably believes that the roll-up transaction is fair or unfair to investors in the partnership, together with a brief discussion of the bases for such belief, with appropriate cross references to the discussion of the fairness of the roll-up transaction required in the principal disclosure document pursuant to Item 910 of this subpart (§ 229.910). If there are material differences between the fairness analysis for the partnership and for the other partnerships, such differences shall be described briefly in the supplement.

(4) A brief, narrative description of the method of calculating the value of the partnership and allocating interests in the successor to the partnership, and a table showing such calculation and allocation. Such table shall include the following information (or other information of a comparable character necessary to a thorough understanding of the calculation and allocation):

(i) The appraised value of each separately appraised significant asset (as defined in Item 911(c)(5) of this subpart (§§ 229.911(c)(5)) held by the partnership, or, if appraisals have not been obtained

for each significant asset, the value assigned for purposes of the valuation of the partnership to each significant asset for which an appraisal has not been obtained;

(ii) The dollar amount of any mortgages or other similar liabilities to which each of such assets is subject;

(iii) Cash and cash equivalent assets held by the partnership;

(iv) Other assets held by the partnership;

(v) Other liabilities of the partnership;

(vi) The value assigned to the partnership;

(vii) The value assigned to the partnership per interest held by investors in the partnership (on an equivalent interest basis, such as per $1,000 original investment);

(viii) The aggregate number of interests in the successor to be allocated to investors in the partnership for each interest held by such investors (on an equivalent interest basis, such as per $1,000 original investment); and

(ix) The number of interests in the successor to be allocated to investors in the partnership for each interest held by such investors (on an equivalent interest basis, such as per $1,000 original investment).

(5) The amounts of compensation paid, and cash distributions made, to the general partner and its affiliates by the partnership for the last three fiscal years and the most recently completed interim period and the amounts that would have been paid if the compensation and distributions structure to be in effect after the roll-up transaction had been in effect during such period. If any proposed change(s) in the business or operations of the successor after the roll-up transaction would change materially the compensation and distributions that would have been paid by the successor (e.g., if properties will be sold
or purchased after the roll-up transaction and no properties were sold or purchased during the period covered by the table), describe such changes and the effects thereof on the compensation and distributions to be paid by the successor.

(6) Cash distributions made to investors during each of the last five fiscal years and most recently completed interim period, identifying any such distributions which represent a return of capital.

(7) An appropriate cross reference to selected financial information concerning the partnership and the pro forma financial statements included in the principal disclosure document in response to Item 914(b)(2) of this subpart (§ 229.914(b)(2)).

§ 229.903 (Item 903) Summary.

(a) Provide in the forepart of the disclosure document a clear, concise and comprehensible summary of the roll-up transaction.

(b) The summary required by paragraph (a) of this Item (§ 229.903) shall include a summary description of each of the following items, as well as any other material terms or consequences of the roll-up transaction necessary to an understanding of such transaction:

(1) Each material risk and effect on investors, including, but not limited to:

(i) Changes in the business plan, voting rights, cash distribution policies, form of ownership interest or management compensation;

(ii) The general partner’s conflicts of interest in connection with the roll-up transaction and in connection with the successor’s future operations; and

(iii) The likelihood that securities received by investors in the roll-up transaction will trade at prices substantially below the value assigned to such securities in the roll-up transaction and/or the value of the successor’s assets;

(2) The material terms of the roll-up transaction, including the valuation method used to allocate securities in the successor to investors in the partnerships;

(3) Whether the general partner reasonably believes that the roll-up transaction is fair or unfair to investors in each partnership, including a brief discussion of the bases for such belief;

(4) Any opinion from an outside party concerning the fairness of the roll-up transaction, including whether the opinion addresses the fairness of all possible combinations of partnerships or portions of partnerships, and contacts with any outside party concerning fairness opinions, valuations or reports in connection with the roll-up transaction required to be disclosed pursuant to Item 911(a)(5) of this subpart (§ 229.911(a)(5));

(5) The background of and reasons for the roll-up transaction, as well as alternatives to the roll-up transaction described in response to Item 908(b) of this subpart (§ 229.908(b));

(6) Rights of investors to exercise dissenters’ or appraisal rights or similar rights and to obtain a list of investors in the partnership in which the investor holds an interest; and

(7) If any affiliates of the general partner or the sponsor may participate in the business of the successor or receive compensation from the successor, an organizational chart showing the relationships between the general partner, the sponsor and their affiliates.

Instruction to Item 903. The description of the material risks and effects of the roll-up transaction required by paragraph (b)(1) of this Item (§ 229.903) must be presented prominently in the forepart of the summary.

§ 229.904 (Item 904) Risk factors and other considerations.

(a) Immediately following the summary required by Item 903 of this subpart (§ 229.903), describe in reasonable detail each material risk and effect of the roll-up transaction on investors in each partnership, including, but not limited to:

(1) The potential risks, adverse effects and benefits of the roll-up transaction for investors and for the general partner, including those which result from each matter described in response to Item 905 of this subpart (§ 229.905), with appropriate cross references to the comparative information required by Item 905;

(2) The material risks arising from an investment in the successor; and

(3) The likelihood that securities of the successor received by investors in
the roll-up transaction will trade in the securities markets at a price substantially below the value assigned to such securities in the roll-up transaction and/or the value of the assets of the successor, and the effects on investors of such a trading market discount.

(b) Quantify each risk or effect to the extent practicable.

(c) State whether any of such risks or effects may be different for investors in any partnership and, if so, identify such partnership(s) and describe such difference(s).

Instruction to Item 904. The requirement to quantify the effects of the roll-up transaction shall include, but not be limited to:

(i) If cost savings resulting from combined administration of the partnerships is identified as a potential benefit of the roll-up transaction, the amount of cost savings and a comparison of such amount to the costs of the roll-up transaction; and

(ii) If there may be a material conflict of interest of the sponsor or general partner arising from its receipt of payments or other consideration as a result of the roll-up transaction, the amount of such payments and other consideration to be obtained in the roll-up transaction and a comparison of such amounts to the amounts to which the sponsor or general partner would be entitled without the roll-up transaction.

§ 229.905 (Item 905) comparative information.

(a)(1) Describe the voting and other rights of investors in the successor under the successor's governing instruments and under applicable law. Compare such rights to the voting and other rights of investors in each partnership subject to the transaction under the partnerships' governing instruments and under applicable law. Describe the effects of the change(s) in such rights.

(2) Describe the duties owed by the general partner of the successor to investors in the successor under the successor's governing instruments and under applicable law. Compare such duties to the duties owed by the general partner of each partnership to investors in the partnership under the partnership's governing instruments and under applicable law. Describe the effects of the change(s) in such duties.

(b)(1) Describe each item of compensation (including reimbursement of expenses) payable by the successor after the roll-up transaction to the general partner and its affiliates or to any affiliate of the successor. Compare such compensation to the compensation currently payable to the general partner and its affiliates by each partnership. Describe the effects of the change(s) in compensation arrangements.

(2) Describe each instance in which cash or other distributions may be made by the successor to the general partner and its affiliates or to any affiliate of the successor. Compare such distributions to the distributions currently paid or payable to the general partner and its affiliates by each partnership. Describe the effects of the change(s) in distribution arrangements. If distributions similar to those currently paid or payable by any partner to the general partner or its affiliates will not be made by the successor, state whether or not other compensation arrangements with the successor described in response to paragraph (b)(1) of this Item (§ 229.905) (e.g., incentive fees payable upon sale of a property) will, in effect, replace such distributions.

(3) Provide a table demonstrating the changes in such compensation and distributions setting forth among other things:

(i) The actual amounts of compensation and distributions, separately identified, paid by the partnerships on a combined basis to the general partner and its affiliates for the partnerships' last three fiscal years and most recently ended interim periods; and

(ii) The amounts of compensation and distributions that would have been paid if the compensation and distributions structure to be in effect after the roll-up transaction had been in effect during such period.

(4) If any proposed change(s) in the business or operations of the successor after the roll-up transaction would change materially the compensation and distributions that would have been paid by the successor from that shown in the table provided in response to paragraph (b)(3)(ii) of this Item (§ 229.905) (e.g., if properties will be sold or purchased after the roll-up transaction and no properties were sold or purchased during the period covered by the roll-up transaction).
§ 229.906 Allocation of roll-up consideration.

(a) Describe in reasonable detail the method used to allocate interests in the successor to investors in the partnerships and the reasons why such method was used.

(b) Provide a table showing the calculation of the valuation of each partnership and the allocation of interests in the successor to investors. Such table shall include for each partnership the following information (or other information of a comparable character necessary to an understanding of the calculation and allocation):

1. The value assigned to each significant category of assets of the partnership and the total value assigned to the partnership;
2. The total value assigned to all partnerships;
3. The aggregate amount of interests in the successor to be allocated to each partnership and the percentage of the total amount of all such interests represented thereby; and
4. The amount of interests of the successor to be issued to investors per interest held in each partnership (on an equivalent interest basis, such as per $1,000 invested).

(c) If interests in the successor will be allocated to the general partner in exchange for its general partner interest or otherwise or if the general partner will receive other consideration in connection with the roll-up transaction:

1. Describe in reasonable detail the method used to allocate interests in the successor to the general partner or to determine the amount of consideration payable to the general partner and the reasons such method(s) was used; and
2. Identify the consideration paid by the general partner for interests in the partnerships that will be exchanged in the roll-up transaction.

Instructions to Item 906: (1) The information provided in response to this Item (§229.905) should be illustrated in tables or other readily understandable formats, which should be included together with the disclosures required by this Item.

(2) The information required by this Item (§229.905) shall be set forth in appropriate separate sections of the principal disclosure document.
§ 229.907 (Item 907) Background of the roll-up transaction.

(a)(1) Furnish a summary of the background of the transaction. Such summary shall include, but not be limited to, a description of any contacts, negotiations or transactions concerning any of the following matters:

(i) A merger, consolidation, or combination of any of the partnerships;

(ii) An acquisition of any of the partnerships or a material amount of any of their assets;

(iii) A tender offer for or other acquisition of securities of any class issued by any of the partnerships; or

(iv) A change in control of any of the partnerships.

(b)(1) State whether or not the general partner has retained an unaffiliated representative to act on behalf of investors for purposes of negotiating the terms of the roll-up transaction. (b) Discuss in reasonable detail the material factors upon which the belief stated in paragraph (a) of this Item (§ 229.910) is based and, to the extent practicable, the weight assigned to each such factor. Such discussion should include an analysis of the extent, if any, to which such belief is based on the factors set forth in Instructions (2) and (3) to this Item (§ 229.910), paragraph (b)(1) of Item 909 of this subpart (§ 229.909(b)(1)) and Item 911 of this subpart (§ 229.911). (e) State whether the general partner's statements in response to paragraphs (a) and (b) of this Item (§ 229.910) are based, in whole or in part, on any report, opinion or appraisal described in response to Item 911 of this subpart (§ 229.911). If so, describe any material
uncertainties known to the general partner that relate to the conclusions in any such report, opinion or appraisal including, but not limited to, developments or trends that have affected or are reasonably likely to affect materially such conclusions.

*Instructions to Item 910:* (1) A statement that the general partner has no reasonable belief as to the fairness of the roll-up transaction to investors will not be considered sufficient disclosure in response to paragraph (a) of this Item (§229.910(a)).

(2) The factors which are important in determining the fairness of a roll-up transaction to investors and the weight, if any, which should be given to them in a particular context will vary. Normally such factors will include, among others, those referred to in paragraph (b)(1) of Item 909 (§229.909(b)(1)) and whether the consideration offered to investors constitutes fair value in relation to:

(i) Current market prices, if any;
(ii) Historic market prices, if any;
(iii) Net book value;
(iv) Going concern value;
(v) Liquidation value;

(vii) Any report, opinion, or appraisal described in Item 911 of this subpart (§229.911); and
(viii) Offers of which the general partner or sponsor has received any report, opinion (other than an opinion of counsel) or appraisal from an outside party which is materially related to the roll-up transaction including, but not limited to, any such report, opinion or appraisal relating to the consideration or the fairness of the consideration or the fairness of such transaction to the general partner or investors.

(3) The discussion concerning fairness should specifically address material terms of the transaction including whether the consideration offered to investors constitutes fair value in relation to:

(i) The form and amount of consideration to be received by investors and the sponsor in the roll-up transaction;
(ii) The methods used to determine such consideration; and
(iii) The compensation to be paid to the sponsor in the future.

(4) Conclusory statements, such as “The roll-up transaction is fair to investors in relation to net book value, going concern value, liquidation value and future prospects of the partnership,” will not be considered sufficient disclosure in response to paragraph (b) of this Item (§229.910(b)).

(5) Consideration should be given to presenting the comparative numerical data as to the value of the consideration being received by investors, liquidation value and other values in a tabular format. Financial and other information concerning the partnerships should be prepared based upon the most recent available information, such as, in the case of financial information, the periods covered by interim selected financial information included in the prospectus in accordance with Item 914 of this subpart (§229.914).

513
(vi) Furnish a summary concerning such report, opinion or appraisal which shall include, but not be limited to, the procedures followed; the findings and recommendations; the bases for and methods of arriving at such findings and recommendations; instructions received from the general partner, sponsor or its affiliates; and any limitation imposed by the general partner, sponsor or affiliate on the scope of the investigation. If any limitation was imposed by the general partner, sponsor or affiliate on the scope of the investigation, including, but not limited to, access to its personnel, premises, and relevant books and records, state the reasons therefor.

(vii) State whether any compensation paid to such outside party is contingent on the approval or completion of the roll-up transaction and, if so, the reasons for compensating such parties on a contingent basis.

(A) Identify the combinations that are addressed;

(B) Identify the person(s) that determined which combinations would be addressed and state the reasons for the selection of the combinations; and

(C) State that if the roll-up transaction is completed with a combination of partnerships not addressed, no report, opinion or appraisal concerning the fairness of the roll-up transaction will have been obtained.

(2) If the sponsor or the general partner has not obtained any opinion on the fairness of the proposed roll-up transaction to investors in each of the affected partnerships, state the sponsor’s or general partner’s reasons for concluding that such an opinion is not necessary in order to permit the limited partners or shareholders to make an informed decision on the proposed transaction.

(1) Describe the purpose(s) for which the appraisals were obtained and their use in connection with the roll-up transaction;

(2) Describe which assets are covered by the appraisals and state the aggregate appraised value of the assets covered by the appraisals (including such value net of associated indebtedness). Provide a description of, and valuation

(c) The pro forma financial statements required by paragraph (b) of this Item (§229.914) shall disclose the effect of the roll-up transaction on the successor's:

§ 229.915 (Item 915) Federal income tax consequences.

(a) Provide a brief, clear and understandable summary of the material Federal income tax consequences of the roll-up transaction and an investment in the successor. Where a tax opinion has been provided, briefly summarize the substance of such opinion, including identification of the material consequences upon which counsel has not been asked, or is unable, to opine. If any of the material Federal income tax consequences are not expected to be the same for investors in all partnerships, the differences shall be described.

(b) State whether or not the opinion of counsel is included as an appendix to the prospectus. If filed as an exhibit to the registration statement and not included as an appendix to the prospectus, include a statement to the effect that, upon receipt of a written request by an investor or his representative who has been so designated in writing, a copy of the opinion of counsel will be transmitted promptly, without charge, by the general partner or sponsor. Instructions to Item 1016:

1. Schedules (or similar attachments) to the exhibits required by this Item are not required to be filed provided that they do not contain information material to an investment or voting decision and that information is not otherwise disclosed in the exhibit or the disclosure document. Each exhibit filed must contain a list briefly identifying the contents of all omitted schedules. Registrants need not prepare a separate list of omitted information if such information is already included within the exhibit in a manner that conveys the subject matter of the omitted schedules and attachments. In addition, the registrant must provide a copy of any omitted schedule to the Commission or its staff upon request.

2. The registrant may redact information from exhibits required to be filed by this Item if disclosure of such information would constitute a clearly unwarranted invasion of personal privacy (e.g., disclosure of bank account numbers, social security numbers, home addresses and similar information).

### Subpart 229.1100—Asset-Backed Securities (Regulation AB)

**Source:** 70 FR 1597, Jan. 7, 2005, unless otherwise noted.

#### §229.1100 (Item 1100) General.

(a) Application of Regulation AB. Regulation AB (§§229.1100 through 229.1125) is the source of various disclosure items and requirements for “asset-backed securities” filings under the Securities Act of 1933 (15 U.S.C. 77a et seq.) (the “Securities Act”) and the Securities Exchange Act of 1934 (the “Exchange Act”) (15 U.S.C. 78a et seq.). Unless otherwise specified, definitions to be used in this Regulation AB, including the definition of “asset-backed security,” are set forth in Item 1101.

(b) Presentation of historical delinquency and loss information. Several Items in Regulation AB call for the presentation of historical information and data on delinquencies and loss information. In providing such information:

1. Present delinquency experience in 30 or 31 day increments, as applicable, beginning at least with assets that are 30 or 31 days delinquent, as applicable, through the point that assets are written off or charged off as uncollectible. At a minimum, present such information by number of accounts and dollar amount. Present statistical information in a tabular or graphical format, if such presentation will aid understanding.

2. Disclose the total amount of delinquent assets as a percentage of the aggregate asset pool.

3. Present loss and cumulative loss information, as applicable, regarding charge-offs, charge-off rate, gross losses, recoveries and net losses (with a description of how these terms are defined), the number and amount of assets experiencing a loss and the number and amount of assets with a recovery, the ratio of aggregate net losses to average portfolio balance and the average of net loss on all assets that have experienced a net loss.
§ 229.1100

(4) Categorize all delinquency and loss information by pool asset type.

(5) In a registration statement under the Securities Act or the Exchange Act or in a prospectus to be filed pursuant to §230.424, describe how delinquencies, charge-offs and uncollectible accounts are defined or determined, addressing the effect of any grace period, re-aging, restructure, partial payments considered current or other practices on delinquency and loss experience.

(6) Describe any other material information regarding delinquencies and losses particular to the pool asset type(s), such as repossession information, foreclosure information and real estate owned (REO) or similar information.

(c) Presentation of certain third party information. If information of a third party is required in a filing by Item 1112(b) of this Regulation AB (Information regarding significant obligors) (§229.1112(b)), Items 1114(b)(2) or 1115(b) of this Regulation AB (Information regarding significant provider of enhancement or other support) (§229.1114(b)(2) or (§229.1115(b)), or Item 1125 of this Regulation AB (Asset-level information) (§229.1125) such information, in lieu of including such information, may be provided as follows:

(1) Incorporation by reference. If the following conditions are met, you may incorporate by reference (by means of a statement to that effect) the reports filed by the third party (or the entity that consolidates the third party) pursuant to section 13(a) or 15(d) of the Exchange Act (15 U.S.C. 78m(a) or 78o(d)):

(i) Such third party or the entity that consolidates the third party is required to file reports with the Commission pursuant to section 13(a) or 15(d) of the Exchange Act.

(ii) Such third party or the entity that consolidates the third party has filed all reports and other materials required to be filed by such requirements during the preceding 12 months (or such shorter period that such party was required to file such reports and materials).

(iii) The reports filed by such third party, or entity that consolidates the third party, include (or properly incorporate by reference) the financial statements of such third party.

(iv) If incorporated by reference into a prospectus or registration statement, the prospectus also states that all documents subsequently filed by such third party, or the entity that consolidates the third party, pursuant to section 13(a) or 15(d) of the Exchange Act prior to the termination of the offering also shall be deemed to be incorporated by reference into the prospectus.

Instruction 1 to paragraph (c)(1) of Item 1100. In addition to the conditions in this paragraph (c)(1), any information incorporated by reference must comply with all applicable Commission rules pertaining to incorporation by reference, such as Rule 303 of Regulation S-T (§232.303 of this chapter), Rule 411 of Regulation C (§239.411 of this chapter), and Rule 12b-23 of Regulation 12B (§240.12b-23 of this chapter), except that for purposes of this paragraph (c)(1), an asset-backed issuer may incorporate by reference to a second document that incorporates pertinent information by reference to a third document.

Instruction 2 to paragraph (c)(1) of Item 1100. In addition, any applicable requirements under the Securities Act or the rules and regulations of the Commission regarding the filing of a written consent for the use of incorporated material apply to the material incorporated by reference. See, for example, §230.439 of this chapter.

Instruction 3 to paragraph (c)(1) of Item 1100. Any undertakings set forth in Item 512 of Regulation S-K (§229.512) apply to any material incorporated by reference in a registration statement or prospectus.

Instruction 4 to paragraph (c)(1) of Item 1100. If neither the third party nor any of its affiliates has had a direct or indirect agreement, arrangement, relationship or understanding, written or otherwise, relating to the ABS transaction, and neither the third party nor any of its affiliates is an affiliate of the sponsor, depositor, issuing entity or underwriter of the ABS transaction, then paragraph (c)(1)(ii) of this section is qualified by the knowledge of the registrant.

Instruction 5 to paragraph (c)(1) of Item 1100. If you are relying on paragraph (c)(1) of this section to provide information required by Item 1112 of this Regulation AB regarding a significant obligor that is an asset-backed issuer and the pool assets relating to such significant obligor are asset-backed securities, then for purposes of paragraph (c)(1)(iii) of this section, the term “financial statements” means the information required by Instruction 3 of Item 1112 of this Regulation AB. Such information required by Instruction 3.a. of Item 1112 of this Regulation AB may be incorporated by reference from a prospectus that contains such information and
is included in an effective Securities Act registration statement or filed pursuant to §230.424 of this chapter.

(2) Reference information for significant obligors. If the third party information relates to a significant obligor and the following conditions are met, you may include a reference to the third party’s periodic reports (or the third party’s parent with respect to paragraph (c)(2)(i)(C) of this section) under section 13(a) or 15(d) of the Exchange Act (15 U.S.C. 78m(a) or 78o(d)) that are on file with the Commission (or otherwise publicly available with respect to paragraph (c)(2)(i)(F) of this section), along with a statement of how those reports may be accessed, including the third party’s name and Commission file number, if applicable (See, e.g., Item 1118 of this Regulation AB):

(i) Neither the third party nor any of its affiliates has had a direct or indirect agreement, arrangement, relationship or understanding, written or otherwise, relating to the asset-backed securities transaction, and neither the third party nor any of its affiliates is an affiliate of the sponsor, depositor, issuing entity or underwriter of the asset-backed securities transaction.

(ii) To the knowledge of the registrant, any of the following is true:

(A) The third party is eligible to use Form S–3 or F–3 (§239.13 or 239.33 of this chapter) for a primary offering of non-investment grade securities pursuant to General Instruction I.B.1 of such forms.

(B) The third party meets the requirements of General Instruction I.A. of Form S–3 or General Instructions I.A.1, 2, 3, 4 and 6 of Form F–3 and the pool assets relating to such third party are non-convertible investment grade securities, as described in General Instruction I.B.2 of Form S–3 or Form F–3.

(C) If the third party does not meet the conditions of paragraph (c)(2)(i)(A) or (c)(2)(i)(B) of this section and the pool assets relating to the third party are fully and unconditionally guaranteed by a direct or indirect parent of the third party, General Instruction I.C.3 of Form S–3 or General Instruction I.A.5(iii) of Form F–3 is met with respect to the pool assets relating to such third party and the requirements of Rule 3–10 of Regulation S–X (§210.3–10 of this chapter) are satisfied regarding the information in the reports to be referenced.

(D) If the pool assets relating to the third party are guaranteed by a wholly owned subsidiary of the third party and the subsidiary does not meet the conditions of paragraph (c)(2)(ii)(A) or (c)(2)(ii)(B) of this section, the criteria in either paragraph (c)(2)(i)(A) or paragraph (c)(2)(ii)(B) of this section are met with respect to the third party and the requirements of Rule 3–10 of Regulation S–X (§210.3–10 of this chapter) are satisfied regarding the information in the reports to be referenced.

(E) The pool assets relating to such third party are asset-backed securities and the third party is filing reports pursuant to section 12 or 15(d) of the Exchange Act (15 U.S.C. 78l or 78o(d)) and has filed all the material that would be required to be filed pursuant to section 13, 14 or 15(d) of the Exchange Act (15 U.S.C. 78m, 78n or 78o(d)) for a period of at least twelve calendar months and any portion of a month immediately preceding the filing referencing the third party’s reports (or such shorter period that such third party was required to file such materials).

(F) The third party is a U.S. government-sponsored enterprise, has outstanding securities held by non-affiliates with an aggregate market value of $75 million or more, and makes information publicly available on an annual and quarterly basis, including audited financial statements prepared in accordance with generally accepted accounting principles covering the same periods that would be required for audited financial statements under Regulation S–X (§§210.1–01 through 210.12–29 of this chapter) and non-financial information consistent with that required by Regulation S–K (§§229.10 through 229.1123).

Instruction to Item 1100(c)(2): If you are relying on paragraph (c)(2)(i)(E) of this section because the pool assets relating to such third party are asset-backed securities, then for purposes of a registration statement under the Securities Act or the Exchange Act or a prospectus to be filed pursuant to §230.424 for your securities, you also must include a reference (including Commission reporting number and filing date) to the prospectus for the third party asset-backed securities that:
Securities and Exchange Commission

(a) Is either included in an effective Securities Act registration statement or filed pursuant to §230.424 of this chapter; and

(b) Contains the information required by Instruction 3.a. of Item 1112 of this Regulation AB.

(d) Other participants to the transaction and pool assets representing interests in certain other asset pools. (1) If the asset-backed securities transaction involves additional or intermediate parties not specifically identified in this Regulation AB, the disclosure required by this Regulation AB includes information to the extent material regarding any such party and its role, function and experience in relation to the asset-backed securities and the asset pool. Describe the material terms of any agreement with such party regarding the transaction, and file such agreement as an exhibit.

(2) If the asset pool backing the asset-backed securities includes one or more pool assets representing an interest in or the right to the payments or cash flows of another asset pool, then for purposes of this Regulation AB and §§240.13a–18 and 240.15d–18 of this chapter, references to the asset pool and the pool assets of the issuing entity also include the other asset pool and its pool assets if the following conditions are met:

(i) Both the issuing entity for the asset-backed securities and the entity issuing the pool asset to be included in the issuing entity’s asset pool were established under the direction of the same sponsor or depositor.

(ii) The pool asset was created solely to satisfy legal requirements or otherwise facilitate the structuring of the asset-backed securities transaction.

Instruction to Item 1100(d)(2). Reference to the underlying asset pool includes, without limitation, compliance with applicable servicing criteria referenced in §§240.13a–18 and 240.15d–18 of this chapter and the servicer compliance statement required by Item 1123 of this Regulation AB. In addition, provide clear and concise disclosure, including by flow chart or other illustration, of the transaction and the various parties involved.

(e) Foreign asset-backed securities. If the asset-backed securities are issued by a foreign issuer (as defined in §230.405 of this chapter), backed by pool assets that are foreign assets, or affected by enhancement or support contemplated by Items 1114 or 1115 of this Regulation AB provided by a foreign entity, then in providing the disclosure required by this Regulation AB (including, but not limited to, Items 1104 and 1110 of this Regulation AB regarding origination and securitization practices, Item 1107 of this Regulation AB regarding the sale or transfer of the pool assets, bankruptcy remoteness and collateral protection, Item 1108 of this Regulation AB regarding servicing, Item 1109 of this Regulation AB regarding the rights, duties and responsibilities of the trustee, Item 1111 of this Regulation AB regarding the terms, nature and treatment of the pool assets and Items 1114 or 1115 of this Regulation AB, as applicable, regarding the enhancement provider), the filing must describe any pertinent governmental, legal or regulatory or administrative matters and any pertinent tax matters, exchange controls, currency restrictions or other economic, fiscal, monetary or potential factors in the applicable home jurisdiction that could materially affect payments on, the performance of, or other matters relating to, the assets contained in the pool or the asset-backed securities. See also Instruction 2 to Item 202 of Regulation S-K (§229.202). In addition, in a registration statement under the Securities Act, provide the information required by Item 101(g) of Regulation S-K (§229.101(g)). Disclosure also is required in Forms 10–D (§249.312 of this chapter) and 10–K (§249.310 of this chapter) with respect to the asset-backed securities regarding any material impact caused by foreign legal and regulatory developments during the period covered by the report which have not been previously described in a Form 10–D, 10–K or 8–K (§249.308 of this chapter) filed under the Exchange Act.

(f) Filing of required exhibits. Where agreements or other documents in this Regulation AB (§§229.1100 through 229.1125) are specified to be filed as exhibits to a Securities Act registration statement, such agreements or other documents, if applicable, may be incorporated by reference as an exhibit to the registration statement, such as by filing a Form 8–K (§249.308 of this chapter) in the case of offerings registered on Form SF–3 (§239.45 of this chapter).
Final agreements must be filed and made part of the registration statement no later than the date the final prospectus is required to be filed under §230.424 of this chapter.

§ 229.1101 (Item 1101) Definitions.

The following definitions apply to the terms used in Regulation AB (§§229.1100 through 229.1123), unless specified otherwise:

(a) **ABS informational and computational material** means a written communication consisting solely of one or some combination of the following:

(1) Factual information regarding the asset-backed securities being offered and the structure and basic parameters of the securities, such as the number of classes, seniority, payment priorities, terms of payment, the tax, Employment Retirement Income Security Act of 1974, as amended, (29 U.S.C. 1001 et seq.) ("ERISA") or other legal conclusions of counsel, and descriptive information relating to each class (e.g., principal amount, coupon, minimum denomination, anticipated price, yield, weighted average life, credit enhancements, anticipated ratings, and other similar information relating to the proposed structure of the offering);

(2) Factual information regarding the pool assets underlying the asset-backed securities, including origination, acquisition and pool selection criteria, information regarding any prefeeding or revolving period applicable to the offering, information regarding significant obligors, data regarding the contractual and related characteristics of the underlying pool assets (e.g., weighted average coupon, weighted average maturity, delinquency and loss information and geographic distribution) and other factual information concerning the parameters of the asset pool appropriate to the nature of the underlying assets, such as the type of assets comprising the pool and the programs under which the loans were originated;

(3) Identification of key parties to the transaction, such as servicers, trustees, depositors, sponsors, originators and providers of credit enhancement or other support, including a brief description of each such party’s roles, responsibilities, background and experience;

(4) Static pool data, as referenced in Item 1105 of this Regulation AB, such as for the sponsor’s and/or servicer’s portfolio, prior transactions or the asset pool itself;

(5) Statistical information displaying for a particular class of asset-backed securities the yield, average life, expected maturity, interest rate sensitivity, cash flow characteristics, total rate of return, option adjusted spread or other financial or statistical information relating to the class or classes under specified prepayment, interest rate, loss or other hypothetical scenarios. Examples of such information under the definition include:

(i) Statistical results of interest rate sensitivity analyses regarding the impact on yield or other financial characteristics of a class of securities from changes in interest rates at one or more assumed prepayment speeds;

(ii) Statistical information showing the cash flows that would be associated with a particular class of asset-backed securities at a specified prepayment speed; and

(iii) Statistical information reflecting the financial impact of losses based on a variety of loss or default experience, prepayment, interest rate and related assumptions.

(6) The names of underwriters participating in the offering of the securities, and their additional roles, if any, within the underwriting syndicate;

(7) The anticipated schedule for the offering (including the approximate date upon which the proposed sale to the public will begin) and a description of marketing events (including the dates, times, locations, and procedures for attending or otherwise accessing them); and

(8) A description of the procedures by which the underwriters will conduct the offering and the procedures for transactions in connection with the offering with an underwriter or participating dealer (including procedures regarding account-opening and submitting indications of interest and conditional offers to buy).
(b) **Asset-backed issuer** means an issuer whose reporting obligation results from either the registration of an offering of asset-backed securities under the Securities Act, or the registration of a class of asset-backed securities under section 12 of the Exchange Act (15 U.S.C. 78l).

(c)(1) **Asset-backed security** means a security that is primarily serviced by the cash flows of a discrete pool of receivables or other financial assets, either fixed or revolving, that by their terms convert into cash within a finite time period, plus any rights or other assets designed to assure the servicing or timely distributions of proceeds to the security holders; provided that in the case of financial assets that are leases, those assets may convert to cash partially by the cash proceeds from the disposition of the physical property underlying such leases.

(2) The following additional conditions apply in order to be considered an asset-backed security:

(i) Neither the depositor nor the issuing entity is an investment company under the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.) nor will become an investment company as a result of the asset-backed securities transaction.

(ii) The activities of the issuing entity for the asset-backed securities are limited to passively owning or holding the pool of assets, issuing the asset-backed securities supported or serviced by those assets, and other activities reasonably incidental thereto.

(iii) No non-performing assets are part of the asset pool as of the measurement date.

(iv) Delinquent assets do not constitute 50% or more, as measured by dollar volume, of the asset pool as of the measurement date.

(v) With respect to securities that are backed by leases, the portion of the securitized pool balance attributable to the residual value of the physical property underlying the leases, as determined in accordance with the transaction agreements for the securities, does not constitute:

(A) For motor vehicle leases, 65% or more, as measured by dollar volume, of the securitized pool balance as of the measurement date.

(B) For all other leases, 50% or more, as measured by dollar volume, of the securitized pool balance as of the measurement date.

(3) Notwithstanding the requirement in paragraph (c)(1) of this section that the asset pool be a discrete pool of assets, the following are considered to be a discrete pool of assets for purposes of being considered an asset-backed security:

(i) **Master trusts.** The offering related to the securities contemplates adding additional assets to the pool that backs such securities in connection with future issuances of asset-backed securities backed by such pool. The offering related to the securities also may contemplate additions to the asset pool, to the extent consistent with paragraphs (c)(3)(ii) and (c)(3)(iii) of this section, in connection with maintaining minimum pool balances in accordance with the transaction agreements for master trusts with revolving periods or receivables or other financial assets that arise under revolving accounts.

(ii) **Prefunding periods.** The offering related to the securities contemplates a prefunding account where a portion of the proceeds of that offering is to be used for the future acquisition of additional pool assets, if the duration of the prefunding period does not extend for more than one year from the date of issuance of the securities and the portion of the proceeds for such prefunding account does not involve in excess of:

(A) For master trusts, 25% of the aggregate principal balance of the total asset pool whose cash flows support the securities; and

(B) For other offerings, 25% of the proceeds of the offering.

(iii) **Revolving periods.** The offering related to the securities contemplates a revolving period where cash flows from the pool assets may be used to acquire additional pool assets, provided, that, for securities backed by receivables or other financial assets that do not arise under revolving accounts, the revolving period does not extend for more than three years from the date of issuance of the securities and the additional pool assets are of the same general character as the original pool assets.
§ 229.1101

Instructions to Item 1101(c). 1. For purposes of determining non-performing, delinquency and residual value thresholds, the “measurement date” means either:

a. The designated cut-off date for the transaction (i.e., the date on and after which collections on the pool assets accrue for the benefit of asset-backed security holders), if applicable; or

b. In the case of master trusts, the date as of which delinquency and loss information or securitized pool balance information, as applicable, is presented in the prospectus for the asset-backed securities to be filed pursuant to §230.424(b) of this chapter.

2. Non-performing and delinquent assets that are not funded or purchased by proceeds from the securities and that are not considered in cash flow calculations for the securities need not be considered as part of the asset pool for purposes of determining non-performing and delinquency thresholds.

3. For purposes of determining non-performing, delinquency and residual value thresholds for master trusts, calculations are to be measured against the total asset pool whose cash flows support the securities.

4. For purposes of determining residual value thresholds, residual values need not be included in measuring against the thresholds to the extent a separate party is obligated for such amounts (e.g., through a residual value guarantee, residual value insurance or where the lessee is obligated to cover any residual losses).

(d) Delinquent, for purposes of determining if a pool asset is delinquent, means if a pool asset is more than 30 or 31 days or a single payment cycle, as applicable, past due from the contractual due date, as determined in accordance with any of the following:

1. The transaction agreements for the asset-backed securities;

2. The delinquency recognition policies of the sponsor, any affiliate of the sponsor that originated the pool asset or the servicer of the pool asset; or

3. The delinquency recognition policies applicable to such pool asset established by the primary safety and soundness regulator of any entity listed in paragraph (d)(2) of this section or the program or regulatory entity that oversees the program under which the pool asset was originated.

(e) Depositor means the depositor who receives or purchases and transfers or sells the pool assets to the issuing entity. For asset-backed securities transactions where there is not an intermediate transfer of the assets from the sponsor to the issuing entity, the term depositor refers to the sponsor. For asset-backed securities transactions where the person transferring or selling the pool assets is itself a trust, the depositor of the issuing entity is the depositor of that trust.

(f) Issuing entity means the trust or other entity created at the direction of the sponsor or depositor that owns or holds the pool assets and in whose name the asset-backed securities supported or serviced by the pool assets are issued.

(g) Non-performing, for purposes of determining if a pool asset is non-performing, means a pool asset if any of the following is true:

1. The pool asset would be treated as wholly or partially charged-off under the requirements in the transaction agreements for the asset-backed securities;

2. The pool asset would be treated as wholly or partially charged-off under the charge-off policies of the sponsor, an affiliate of the sponsor that originates the pool asset or a servicer that services the pool asset; or

3. The pool asset would be treated as wholly or partially charged-off under the charge-off policies applicable to such pool asset established by the primary safety and soundness regulator of any entity listed in paragraph (g)(2) of this section or the program or regulatory entity that oversees the program under which the pool asset was originated.

(h) NRSRO has the same meaning as the term “nationally recognized statistical rating organization” as used in §240.15c3–1(c)(2)(vi)(F) of this chapter.

1. Obligor means any person who is directly or indirectly committed by contract or other arrangement to make payments on all or part of the obligations on a pool asset.

2. Servicer means any person responsible for the management or collection of the pool assets or making allocations or distributions to holders of the asset-backed securities. The term servicer does not include a trustee for the issuing entity or the asset-backed securities that makes allocations or distributions to holders of the asset-backed securities if the trustee receives such allocations or distributions from a servicer and the trustee does
not otherwise perform the functions of a servicer.

(k) Significant obligor means any of the following:

1. An obligor or a group of affiliated obligors on any pool asset or group of pool assets if such pool asset or group of pool assets represents 10% or more of the asset pool.

2. A single property or group of related properties securing a pool asset or a group of pool assets if such pool asset or group of pool assets represents 10% or more of the asset pool.

3. A lessee or group of affiliated lessees if the related lease or group of leases represents 10% or more of the asset pool.

Instructions to Item 1101(k): 1. Regarding paragraph (k)(3) of this section, the calculation must focus on the leases whose cash flow supports the asset-backed securities directly or indirectly (including the residual value of the physical property underlying the leases if a portion of the securitized pool balance is attributable to the residual value of such property), regardless of whether the asset pool contains the leases themselves, mortgages on properties that are the subject of the leases or other assets related to the leases.

2. If separate pool assets, or properties underlying pool assets, are cross-defaulted and/or cross-collateralized, such pool assets are to be aggregated and considered together in determining concentration levels.

3. If the pool asset is a mortgage or lease relating to real estate, the pool asset is non-recourse to the obligor, and the obligor does not manage the property or does not own other assets and has no other operations, then the obligor need not be considered a separate significant obligor from the real estate.

4. The determination of significant obligors is to be made as of the designated cut-off date for the transaction (i.e., the date on and after which collections on the pool assets accrue for the benefit of asset-backed security holders), provided, that, in the case of master trusts, the determination is to be made as of the cut-off date (or issuance date if there is not a cut-off date) for each issuance of asset-backed securities backed by the same asset pool. In addition, if disclosure is required pursuant to either Item 605 of Form 8-K (17 CFR 249.306) or in a Form 10-D (17 CFR 249.312) pursuant to Item 1121(b) of this Regulation AB, the determination of significant obligors is to be made against the asset pool described in such report. However, if the percentage concentration regarding an obligor falls below 10% subsequent to the determination dates discussed in this Instruction, the obligor no longer need be considered a significant obligor.

1. Sponsor means the person who organizes and initiates an asset-backed securities transaction by selling or transferring assets, either directly or indirectly, including through an affiliate, to the issuing entity.

(m) Asset representations reviewer means any person appointed to review the underlying assets for compliance with the representations and warranties on the underlying pool assets and is not affiliated with any sponsor, depositor, servicer, or trustee of the transaction, or any of their affiliates. The asset representations reviewer shall not be the party to determine whether noncompliance with representations or warranties constitutes a breach of any contractual provision. (2) If the sponsor has less than three years of experience securitizing assets of the type to be included in the offered asset pool, consider providing instead static pool information, to the extent material, regarding delinquencies, cumulative losses and prepayments by vintage origination years regarding originations or purchases by the sponsor, as applicable, for that asset type. A vintage origination year represents assets originated during the same year.

(3) In providing the information required by paragraphs (a)(1) and (a)(2) of this section:

(i) Provide the requested information for prior pools or vintage origination years, as applicable, relating to the following time period, to the extent material:

(iv) Provide graphical illustration of delinquencies, prepayments and losses for each prior securitized pool or by vintage origination year regarding originations or purchases by the sponsor, as applicable for that asset type.

(b) For revolving asset master trusts, unless the registrant determines that such information is not material, provide, to the extent material, data regarding delinquencies, cumulative losses, prepayments, payment rate, yield and standardized credit scores or other applicable measure of obligor credit quality in separate increments based on the date of origination of the pool assets. While the material increments may vary, consider presenting such data at a minimum in 12-month increments through the first five years of the account’s life (e.g., 0–12 months, 13–24 months, 25–36 months, 37–48 months, 49–60 months and 61 months or more).

(c) If the information that would otherwise be required by paragraph (a)(1), (a)(2) or (b) of this section is not material, but alternative static pool information would provide material disclosure, provide such alternative information instead. (2) With respect to information regarding the currently offered pool, information about the pool for periods before January 1, 2006.

(e) For prospectuses to be filed pursuant to §230.424 of this chapter that include information specified in paragraph (d)(1) or (d)(2) of this section, the prospectus shall disclose that such information is not deemed to be part of that prospectus or the registration statement for the asset-backed securities.

(f) If any of the information identified in paragraph (d)(1) or (d)(2) of this section that is to be provided in response to this section is unknown and not available to the registrant without unreasonable effort or expense, such information may be omitted, provided the registrant provides the information on the subject it possesses or can acquire without unreasonable effort or expense, and the registrant includes a statement in the prospectus showing that unreasonable effort or expense would be involved in obtaining the omitted information.

(c) For any originator identified under paragraph (b) of this section, if such originator is required to repurchase or replace a pool asset for breach of a representation and warranty pursuant to the transaction agreements, provide information regarding the originator’s financial condition to the extent that there is a material risk that the effect on its ability to comply with the provisions in the transaction agreements relating to the repurchase obligations for those assets resulting from such financial condition could have a material impact on pool performance or performance of the asset-backed securities.

§ 229.1111 (Item 1111) Pool assets.

Describe the pool assets, including the information required by this Item 1111. Present statistical information in tabular or graphical format, if such presentation will aid understanding. Present statistical information in appropriate distributional groups or incremental ranges in addition to presenting the number, amount and percentage of pool assets by distributional group or range, also provide statistical information for each group or range by variables, to the extent material, such as, average balance, weighted average coupon, average age and remaining term, average loan-to-value or similar ratio and weighted average standardized credit score or other applicable measure of obligor credit quality. These variables are just examples and should be tailored to the particular asset class backing the asset-backed...

Securities. Consider providing minimums and maximums when presenting averages on an aggregate basis and within each group or range. In addition, provide historical data on the pool assets as appropriate (e.g., the lesser of three years or the time such assets have existed) to allow material evaluation of the pool data. In making any calculations regarding overall pool balances, disregard any funds set aside for a prefunding account.

(1) A brief description of the type or types of pool assets to be securitized.
(2) A general description of the material terms of the pool assets.

(4) The method and criteria by which the pool assets were selected for the transaction.
(5) The cut-off date or similar date for establishing the composition of the asset pool, if applicable.
(6) If legal or regulatory provisions (such as bankruptcy, consumer protection, predatory lending, privacy, property rights or foreclosure laws or regulations) may materially affect pool asset performance or payments or expected payments on the asset-backed securities, briefly identify these provisions and their effects on such items.

Instruction to Item 1111(a)(6): Unless a material concentration of assets exists, it is not necessary to provide details of the laws in each jurisdiction. Even in that case, a legalistic description or recitation of the laws or regulations in a particular jurisdiction is not required.

(ii) The findings and conclusions of the review of the assets by the issuer, sponsor, or third party described in paragraph (a)(7)(i) of this section.

Instruction to Item 1111(a)(7): The disclosure required under this item shall provide an understanding of how the review related to the disclosure regarding the assets. For example, if benchmarks or criteria different from that specified in the prospectus were used to evaluate the assets, these should be described, as well as the findings and conclusions. If the review is of a sample of assets in the pool, disclose the size of the sample and the criteria used to select the assets sampled. If the issuer has engaged a third party for purposes of performing the review of assets, and attributes the findings and conclusions of the review to the third party in the disclosure required by this item, the issuer must provide the name of the third-party reviewer and comply with the requirements of §230.436 of this chapter.

Disclose which entity (e.g., sponsor, originator, or underwriter) or entities determined that those assets should be included in the pool, despite not having met the disclosed underwriting standards or other criteria or benchmark used to evaluate the assets, and what factors were used to make the determination, such as compensating factors or a determination that the exception was not material. If compensating or other factors were used, provide data on the amount of assets in the pool or in the sample that are represented as meeting each such factor and the amount of assets that do not meet those factors. If multiple entities are involved in the decision to include assets despite not having met the disclosed underwriting standards, this should be described and each participating entity should be disclosed.

(iv) Whether the pool assets are open-end leases (e.g., where the lessee is required to cover the shortfall between the residual value of the leased property and the sale proceeds) or closed-
end leases (e.g., where the lessor is responsible for such shortfalls), and where both types of leases are included in the asset pool, the percentage of each.

(11) The circumstances under which funds in a prefunding or revolving account will be returned to investors or otherwise disposed of.

(12) A statement of whether, and if so, how, investors will be notified of changes to the asset pool.

(h) Asset-level information. (1) If the asset pool includes residential mortgages, commercial mortgages, automobile loans, automobile leases, debt securities or resecuritizations of asset-backed securities, provide asset-level information for each asset or security in the pool in the manner specified in Schedule AL (§ 229.1125).

(2) If pool assets relating to a significant obligor represent 20% or more of the asset pool, provide financial statements meeting the requirements of Regulation S–X (§§ 210.1–01 through 210.12–29 of this chapter), except § 210.3–05 of this chapter and Article 11 of Regulation S–X (§§ 210.11–01 through 210.11–03 of this chapter), of the significant obligor. Financial statements of such obligor and its subsidiaries consolidated (as required by § 240.14a–3(b) of this chapter) shall be filed under this item.

Instructions to Item 1112(b): 1. No information need be provided pursuant to paragraph (b) of this section if the obligations of the significant obligor as they relate to the pool assets are backed by the full faith and credit of the United States.

2. If the significant obligor is an asset-backed issuer and the pool assets relating to the significant obligor are asset-backed securities, provide the following information in lieu of the information required by paragraph (b) of this section:

(2) The flow of funds for the transaction, including the payment allocations, rights and distribution priorities among all classes of the issuing entity’s securities, and within each class, with respect to cash flows, credit enhancement or other support and any other structural features designed to enhance credit, facilitate the timely payment of monies due on the pool assets or owing to security holders, adjust the rate of return on the asset-backed securities, or preserve monies that will or might be distributed to security holders. In addition to an appropriate narrative discussion of the allocation and priority structure of pool cash flows, present the flow of funds graphically if doing so will aid understanding. In the flow of funds discussion, provide information regarding any requirements directing cash flows from the pool assets (such as to reserve accounts, cash collateral accounts or expenses) and the purpose and operation of such requirements.

(3) In describing the interest rate or rate of return on the asset-backed securities and how such amounts are payable, explain how the rate is determined and how frequently it will be determined. If the rate to be paid can be a combination of two or more rates (such as the lesser of a variable rate or the actual weighted average net coupon on the pool assets), provide clear information regarding each rate and when each rate applies.

(4) How principal, if any, will be paid on the asset-backed securities, including maturity dates, amortization or principal distribution schedules, principal distribution dates, formulas for calculating principal distributions from the cash flows and other factors that will affect the timing or amount of principal payments for each class of securities.

(5) The denominations in which the asset-backed securities may be issued.

(6) Any specified changes to the transaction structure that would be triggered upon a default or event of default (such as a change in distribution priority among classes).

(7) Any liquidation, amortization, performance or similar triggers or events, and the rights of investors or changes to the transaction structure or flow of funds if such events were to occur.

(i) Describe how the delinquency threshold that triggers a review by the
Securities and Exchange Commission

§ 229.1113

asset representations reviewer was determined to be appropriate. In describing the appropriateness of such delinquency threshold, compare such delinquency threshold against the delinquencies disclosed for prior securitized pools of the sponsor for that asset type in accordance with Item 1105 of Regulation AB (§229.1105).

(ii) [Reserved]

(8) Whether the servicer or other party is required to provide periodic evidence of the absence of a default or of compliance with the terms of the transaction agreements.

(9) If applicable, the extent, expressed as a percentage, the transaction is overcollateralized or undercollateralized as measured by comparing the principal balance of the asset-backed securities to the asset pool.

(10) Any provisions contained in other securities that could result in a cross-default or cross-collateralization.

(11) Any minimum standards, restrictions or suitability requirements regarding potential investors in purchasing the securities or any restrictions on ownership or transfer of the securities.

(c) Fees and expenses. Provide in a separate table an itemized list of all fees and expenses to be paid or payable out of the cash flows from the pool assets. In itemizing the fees and expenses, also indicate their general purpose, the party receiving such fees or expenses, the source of funds for such fees or expenses (if different from other fees or expenses or if such fees or expenses are to be paid from a specified portion of the cash flows) and the distribution priority of such expenses. If the amount of such fees or expenses is not fixed, provide the formula used to determine such fees or expenses. The tabular presentation should be accompanied by footnotes or other accompanying narrative disclosure to the extent necessary for an understanding of the timing or amount of such fees or expenses, such as any restrictions or limits on fees or whether the estimate may change in certain instances, such as in an event of default (and how the fees would change in such an instance or the factors that would affect the change). In addition, through footnote or other accompanying narrative disclosure, describe if any, and if so how, such fees or expenses can be changed without notice to, or approval by, security holders and any restrictions on the ability to change a fee or expense amount, such as due to a change in transaction party.

(d) Excess cash flow. (1) Describe the disposition of residual or excess cash flows. Identify who owns any residual or retained interests to the cash flows if such person is affiliated with the sponsor, depositor, issuing entity or any entity identified in Item 1119(a) of this Regulation AB or if such person has rights that may alter the transaction structure beyond receipt of residual or excess cash flows. Describe such rights, as material.

(2) Disclose any requirements in the transaction agreements to maintain a minimum amount of excess cash flow or spread from, or retained interest in, the transaction and any actions that would be required or changes to the transaction structure that would occur if such requirements were not met.

(3) To the extent material to an understanding of the asset-backed securities, disclose any features or arrangements to facilitate a securitization of the excess cash flow or retained interest from the transaction, including whether any material changes to the transaction structure may be made.
without the consent of asset-backed security holders in connection with these securitizations.

If one or more additional series or classes have been or may be issued that are backed by the same asset pool, provide information regarding the additional securities to the extent material to an understanding of their effect on the securities being offered, including the following:

(2) Allocation of cash flow from the asset pool and any expenses or losses among the various series or classes.

(3) Terms under which such additional series or classes may be issued and pool assets increased or changed.

(4) The terms of any security holder approval or notification of such additional securities.

(5) Which party has the authority to determine whether such additional securities may be issued. In addition, if there are conditions to such additional issuance, disclose whether or not there will be an independent verification of such person’s exercise of authority or determinations.

(f) Optional or mandatory redemption or termination. (1) If any class of the asset-backed securities includes an optional or mandatory redemption or termination feature, provide the following information:

(i) Terms for triggering the redemption or termination.

(ii) The identity of the party that holds the redemption or termination option or obligation, as well as whether such party is an affiliate of the sponsor, depositor, issuing entity or any entity identified in Item 1119(a) of this Regulation AB.

(iii) The amount of the redemption or repurchase price or formula for determining such amount.

(iv) The procedures for redemption or termination, including any notices to security holders.

(v) If the amount allocated to security holders is reduced by losses, the policy regarding any amounts recovered after redemption or termination.

(2) The title of any class of securities with an optional redemption or termination feature that may be exercised when 25% or more of the original principal balance of the pool assets is still outstanding must include the word “callable,” provided, however, that in the case of a master trust, a title of a class of securities must include the word “callable” when an optional redemption or termination feature may be exercised when 25% or more of the original principal balance of the particular series in which the class was issued is still outstanding.

(g) Prepayment, maturity and yield considerations. (1) Describe any models, including the related material assumptions and limitations, used as a means to identify cash flow patterns with respect to the pool assets.

(2) Describe to the extent material the degree to which each class of securities is sensitive to changes in the rate of payment on the pool assets (e.g., prepayment or interest rate sensitivity), and describe the consequences of such changing rate of payment. Provide statistical information of such effects, such as the effect of prepayments on yield and weighted average life.

(3) Describe any special allocations of prepayment risks among the classes of securities, and whether any class protects other classes from the effects of the uncertain timing of cash flow.

§ 229.1114 (Item 1114) Credit enhancement and other support, except for certain derivatives instruments.

(a) Descriptive information. To the extent material, describe the following, including a clear discussion of the manner in which each potential item is designed to affect or ensure timely payment of the asset-backed securities:

(1) Any external credit enhancement designed to ensure that the asset-backed securities or pool assets will pay in accordance with their terms, such as bond insurance, letters of credit or guarantees.
(2) Any mechanisms to ensure that payments on the asset-backed securities are timely, such as liquidity facilities, lending facilities, guaranteed investment contracts and minimum principal payment agreements.

(3) Any derivatives whose primary purpose is to provide credit enhancement related to pool assets or the asset-backed securities.

(4) Any internal credit enhancement as a result of the structure of the transaction that increases the likelihood that payments will be made on one or more classes of the asset-backed securities in accordance with their terms, such as subordination provisions, overcollateralization, reserve accounts, cash collateral accounts or spread accounts.

Instructions to Item 1114(a): 1. Include a description of the material terms of any enhancement or support described, including any limits on the timing or amount of the enhancement or support or any conditions that must be met before the enhancement or support can be accessed. The enhancement or support agreement is to be filed as an exhibit. Also describe any provisions regarding the substitution of enhancement or support.

2. This Item should not be construed as allowing anything other than an asset-backed security whose payment is based primarily by reference to the performance of the receivables or other financial assets in the pool.

(b) Information regarding significant enhancement providers—(1) Descriptive information. If an entity or group of affiliated entities providing enhancement or other support described in paragraph (a) of this section is liable or contingently liable to provide payments representing 10% or more of the cash flow supporting any offered class of the asset-backed securities, provide financial data required by Item 301 of Regulation S-K (§229.301) for each such entity or group of affiliated entities.

(ii) If any entity or group of affiliated entities providing enhancement or other support described in paragraph (a) of this section is liable or contingently liable to provide payments representing 20% or more of the cash flow supporting any offered class of the asset-backed securities, provide financial statements meeting the requirements of Regulation S-X (§§210.1–01 through 210.12–29 of this chapter), except §210.3–05 of this chapter and Article 11 of Regulation S-X (§§210.11–01 through 210.11–03 of this chapter), of such entity or group of affiliated entities. Financial statements of such enhancement provider and its subsidiaries consolidated (as required by §240.14a–3(b) of this chapter) shall be filed under this Item.

Instruction 1 to Item 1114(b). The requirements in paragraph (b) of this section apply to all providers of external credit enhancement or other support, other than those described in Item 1115 of this Regulation AB. Enhancement may support payment on the pool assets or payments on the asset-backed securities themselves.

Instruction 2 to Item 1114(b). No information need be provided pursuant to paragraph (b)(2) of this section if the obligations of the enhancement provider are backed by the full faith and credit of the United States.

Instruction 3 to Item 1114(b). If the pool assets are student loans originated under the Federal Family Education Loan Program of the Higher Education Act of 1965 (20 U.S.C. 1091 et seq.) and the enhancement provider for the pool assets is a guarantee agency as defined under the Higher Education Act, then the following information may be provided in lieu of providing financial information required pursuant to paragraph (b)(2) of this section:

**Subpart 229.1200—Disclosure by Registrants Engaged in Oil and Gas Producing Activities**

Source: 74 FR 2193, Jan. 14, 2009, unless otherwise noted.

§ 229.1201 (Item 1201) General instructions to oil and gas industry-specific disclosures.

(a) If oil and gas producing activities are material to the registrant’s or its subsidiaries’ business operations or financial position, the disclosure specified in this Subpart 229.1200 should be included under appropriate captions (with cross references, where applicable, to related information disclosed in financial statements). However, limited partnerships and joint ventures that conduct, operate, manage, or report upon oil and gas drilling or income programs, that acquire properties either for drilling and production, or for production of oil, gas, or geothermal steam or water, need not include such disclosure.

(b) To the extent that Items 1202 through 1208 (§§ 229.1202–229.1208) call for disclosures in tabular format, as specified in the particular Item, a registrant may modify such format for ease of presentation, to add information or to combine two or more required tables.

(c) The definitions in Rule 4–10(a) of Regulation S–X (17 CFR 210.4–10(a)) shall apply for purposes of this Subpart 229.1200.

(d) For purposes of this Subpart 229.1200, the term by geographic area means, as appropriate for meaningful disclosure in the circumstances:

(1) By individual country;

(2) By groups of countries within a continent; or

(3) By continent.

§ 229.1202 (Item 1202) Disclosure of reserves.

(2) Disclose, in the aggregate and by geographic area and for each country containing 15% or more of the registrant’s proved reserves, expressed on an oil-equivalent-barrels basis, reserves estimated using prices and costs under existing economic conditions, for the product types listed in paragraph (a)(4) of this Item, in the following categories:

(i) Proved developed reserves;
(ii) Proved undeveloped reserves;
(iii) Total proved reserves;
(iv) Probable developed reserves (optional);
(v) Probable undeveloped reserves (optional);
(vi) Possible developed reserves (optional); and
(vii) Possible undeveloped reserves (optional).

Instruction 1 to paragraph (a)(2): Disclose updated reserves tables as of the close of each fiscal year.

Instruction 2 to paragraph (a)(2): The registrant is permitted, but not required, to disclose probable or possible reserves pursuant to paragraphs (a)(2)(iv) through (a)(2)(vii) of this Item.

Instruction 3 to paragraph (a)(2): If the registrant discloses amounts of a product in barrels of oil equivalent, disclose the basis for such equivalency.

Instruction 4 to paragraph (a)(2): A registrant need not provide disclosure of the reserves in a country containing 15% or more of the registrant’s proved reserves if that country’s government prohibits disclosure of reserves in that country. In addition, a registrant need not provide disclosure of the reserves in a country containing 15% or more of the registrant’s proved reserves if that country’s government prohibits disclosure in a particular field and disclosure of reserves in that country would have the effect of disclosing reserves in particular fields.

(3) Reported total reserves shall be simple arithmetic sums of all estimates for individual properties or fields within each reserves category. When probabilistic methods are used, reserves should not be aggregated probabilistically beyond the field or property level; instead, they should be aggregated by simple arithmetic summation.

(4) Disclose separately material reserves of the following product types:

(i) Oil;
(ii) Natural gas;
(iii) Synthetic oil;
(iv) Synthetic gas; and
(v) Sales products of other non-renewable natural resources that are intended to be upgraded into synthetic oil and gas.

(5) If the registrant discloses probable or possible reserves, discuss the uncertainty related to such reserves estimates.

(6) If the registrant has not previously disclosed reserves estimates in a filing with the Commission or is disclosing material additions to its reserves estimates, the registrant shall provide a general discussion of the technologies used to establish the appropriate level of certainty for reserves estimates from material properties included in the total reserves disclosed. The particular properties do not need to be identified.

(7) Preparation of reserves estimates or reserves audit. Disclose and describe the internal controls the registrant uses in its reserves estimation effort. In addition, disclose the qualifications of the technical person primarily responsible for overseeing the preparation of the reserves estimates and, if the registrant represents that a third party conducted a reserves audit, disclose the qualifications of the technical personnel primarily responsible for overseeing such reserves audit.

(8) Third party reports. If the registrant represents that a third party prepared, or conducted a reserves audit
of, the registrant’s reserves estimates, or any estimated valuation thereof, or conducted a process review, the registrant shall file a report of the third party as an exhibit to the relevant registration statement or other Commission filing. If the report relates to the preparation of, or a reserves audit of, the registrant’s reserves estimates, it must include the following disclosure, if applicable to the type of filing:

(i) The purpose for which the report was prepared and for whom it was prepared;

(ii) The effective date of the report and the date on which the report was completed;

(iii) The proportion of the registrant’s total reserves covered by the report and the geographic area in which the covered reserves are located;

(iv) The assumptions, data, methods, and procedures used, including the percentage of the registrant’s total reserves reviewed in connection with the preparation of the report, and a statement that such assumptions, data, methods, and procedures are appropriate for the purpose served by the report;

(v) A discussion of primary economic assumptions;

(vi) A discussion of the possible effects of regulation on the ability of the registrant to recover the estimated reserves;

(vii) A discussion regarding the inherent uncertainties of reserves estimates;

(viii) A statement that the third party has used all methods and procedures as it considered necessary under the circumstances to prepare the report;

(ix) A brief summary of the third party’s conclusions with respect to the reserves estimates; and

(x) The signature of the third party.

(9) For purposes of this Item 1202, the term reserves audit means the process of reviewing certain of the pertinent facts interpreted and assumptions underlying a reserves estimate prepared by another party and the rendering of an opinion about the appropriateness of the methodologies employed, the adequacy and quality of the data relied upon, the depth and thoroughness of the reserves estimation process, the classification of reserves appropriate to the relevant definitions used, and the reasonableness of the estimated reserves quantities.

(b) Reserves sensitivity analysis (optional). (1) The registrant may, but is not required to, provide the information specified in paragraph (b)(2) of this Item in tabular format as provided below:

(2) The registrant may, but is not required to, disclose, in the aggregate, an estimate of reserves estimated for each product type based on different price and cost criteria, such as a range of prices and costs that may reasonably be achieved, including standardized futures prices or management’s own forecasts.

(3) If the registrant provides disclosure under this paragraph (b), disclose the price and cost schedules and assumptions on which the disclosed values are based.

Instruction to Item 1202: Estimates of oil or gas resources other than reserves, and any estimated values of such resources, shall not be disclosed in any document publicly filed with the Commission, unless such information is required to be disclosed in the document by foreign or state law; provided, however, that where such estimates previously have been provided to a person (or any of its affiliates) that is offering to acquire, merge, or consolidate with the registrant or otherwise to acquire the registrant’s securities, such estimate may be included in documents related to such acquisition.

§ 229.1203 (Item 1203) Proved undeveloped reserves.

(a) Disclose the total quantity of proved undeveloped reserves at year end.

(b) Disclose material changes in proved undeveloped reserves that occurred during the year, including proved undeveloped reserves converted into proved developed reserves.

(c) Discuss investments and progress made during the year to convert proved undeveloped reserves to proved developed reserves, including, but not limited to, capital expenditures.

(d) Explain the reasons why material amounts of proved undeveloped reserves in individual fields or countries remain undeveloped for five years or more after disclosure as proved undeveloped reserves.

§ 229.1204 (Item 1204) Oil and gas production, production prices and production costs.

(a) For each of the last three fiscal years disclose production, by final product sold, of oil, gas, and other products. Disclosure shall be made by geographical area and for each country and field that contains 15% or more of the registrant’s total proved reserves expressed on an oil-equivalent-barrels basis unless prohibited by the country in which the reserves are located.

(b) For each of the last three fiscal years disclose, by geographical area:

(1) The average sales price (including transfers) per unit of oil, gas and other products produced; and

(2) The average production cost, not including ad valorem and severance taxes, per unit of production.

Instruction 1 to Item 1204: Generally, net production should include only production that is owned by the registrant and produced to its interest, less royalties and production due others. However, in special situations (e.g., foreign production) net production before any royalties may be provided, if more appropriate. If “net before royalty” production figures are furnished, the change from the usage of “net production” should be noted.

Instruction 2 to Item 1204: Production of natural gas should include only marketable production of natural gas on an “as sold” basis. Production will include dry, residue, and wet gas, depending on whether liquids have been extracted before the registrant transfers title. Flared gas, injected gas, and gas consumed in operations should be omitted. Recovered gas-lift gas and reproduced gas should not be included until sold. Synthetic gas, when marketed as such, should be included in natural gas sales.

Instruction 3 to Item 1204: If any product, such as bitumen, is sold or custody is transferred prior to conversion to synthetic oil or gas, the product’s production, transfer prices, and production costs should be disclosed separately from all other products.

Instruction 4 to Item 1204: The transfer price of oil and gas (natural and synthetic) produced should be determined in accordance with FASB ASC paragraph 932–235–50–24 (Extractive Activities—Oil and Gas Topic).

Instruction 5 to Item 1204: The average production cost, not including ad valorem and severance taxes, per unit of production should be computed using production costs disclosed pursuant to FASB ASC Topic 932, Extractive Activities—Oil and Gas. Units of production should be expressed in common units of production with oil, gas, and other products converted to a common unit of measure on the basis used in computing amortization.
§ 229.1205 (Item 1205) Drilling and other exploratory and development activities.

(a) For each of the last three fiscal years, by geographical area, disclose:

(1) The number of net productive and dry exploratory wells drilled; and

(2) The number of net productive and dry development wells drilled.

(b) Definitions. For purposes of this Item 1205, the following terms shall be defined as follows:

(1) A dry well is an exploratory, development, or extension well that proves to be incapable of producing either oil or gas in sufficient quantities to justify completion as an oil or gas well.

(2) A productive well is an exploratory, development, or extension well that is not a dry well.

(3) Completion refers to installation of permanent equipment for production of oil or gas, or, in the case of a dry well, to reporting to the appropriate authority that the well has been abandoned.

(4) The number of wells drilled refers to the number of wells completed at any time during the fiscal year, regardless of when drilling was initiated.

(c) Disclose, by geographic area, for each of the last three years, any other exploratory or development activities conducted, including implementation of mining methods for purposes of oil and gas producing activities.

§ 229.1206 (Item 1206) Present activities.

(a) Disclose, by geographical area, the registrant’s present activities, such as the number of wells in the process of being drilled (including wells temporarily suspended), waterfloods in process of being installed, pressure maintenance operations, and any other related activities of material importance.

(b) Provide the description of present activities as of a date at the end of the most recent fiscal year or as close to the date that the registrant files the document as reasonably possible.

(c) Include only those wells in the process of being drilled at the “as of” date and express them in terms of both gross and net wells.

(d) Do not include wells that the registrant plans to drill, but has not commenced drilling unless there are factors that make such information material.

§ 229.1207 (Item 1207) Delivery commitments.

(a) If the registrant is committed to provide a fixed and determinable quantity of oil or gas in the near future under existing contracts or agreements, disclose material information concerning the estimated availability of oil and gas from any principal sources, including the following:

(1) The principal sources of oil and gas that the registrant will rely upon and the total amounts that the registrant expects to receive from each principal source and from all sources combined;

(2) The total quantities of oil and gas that are subject to delivery commitments; and

(3) The steps that the registrant has taken to ensure that available reserves and supplies are sufficient to meet such commitments for the next one to three years.

(b) Disclose the information required by this Item:

(1) In a form understandable to investors; and

(2) Based upon the facts and circumstances of the particular situation, including, but not limited to:

(i) Disclosure by geographic area;

(ii) Significant supplies dedicated or contracted to the registrant;

(iii) Any significant reserves or supplies subject to priorities or curtailments which may affect quantities delivered to certain classes of customers, such as customers receiving services under low priority and interruptible contracts;

(iv) Any priority allocations or price limitations imposed by Federal or State regulatory agencies, as well as other factors beyond the registrant’s control that may affect the registrant’s ability to meet its contractual obligations (the registrant need not provide detailed discussions of price regulation);

(v) Any other factors beyond the registrant’s control, such as other parties having control over drilling new wells, competition for the acquisition of reserves and supplies, and the availability of foreign reserves and supplies,
which may affect the registrant’s ability to acquire additional reserves and supplies or to maintain or increase the availability of reserves and supplies; and

(vi) Any impact on the registrant’s earnings and financing needs resulting from the inability to meet short-term or long-term contractual obligations. (See Items 303 and 1209 of Regulation S–K (§§229.303 and 229.1209).)

(c) If the registrant has been unable to meet any significant delivery commitments in the last three years, describe the circumstances concerning such events and their impact on the registrant.

(d) For purposes of this Item, available reserves are estimates of the amounts of oil and gas which the registrant can produce from current proved developed reserves using presently installed equipment under existing economic and operating conditions and an estimate of amounts that others can deliver to the registrant under long-term contracts or agreements on a per-day, per-month, or per-year basis.

§ 229.1208 (Item 1208) Oil and gas properties, wells, operations, and acreage.

(a) Disclose, as of a reasonably current date or as of the end of the fiscal year, the total gross and net productive wells, expressed separately for oil and gas (including synthetic oil and gas produced through wells) and the total gross and net developed acreage (i.e., acreage assignable to productive wells) by geographic area.

(b) Disclose, as of a reasonably current date or as of the end of the fiscal year, the amount of undeveloped acreage, both leases and concessions, if any, expressed in both gross and net acres by geographic area, together with an indication of acreage concentrations, and, if material, the minimum remaining terms of leases and concessions.

(c) Definitions. For purposes of this Item 1208, the following terms shall be defined as indicated:

(1) A gross well or acre is a well or acre in which the registrant owns a working interest. The number of gross wells is the total number of wells in which the registrant owns a working interest. Count one or more completions in the same bore hole as one well. In a footnote, disclose the number of wells with multiple completions. If one of the multiple completions in a well is an oil completion, classify the well as an oil well.

(2) A net well or acre is deemed to exist when the sum of fractional ownership working interests in gross wells or acres equals one. The number of net wells or acres is the sum of the fractional working interests owned in gross wells or acres expressed as whole numbers and fractions of whole numbers.

(3) Productive wells include producing wells and wells mechanically capable of production.

(4) Undeveloped acreage encompasses those leased acres on which wells have not been drilled or completed to a point that would permit the production of economic quantities of oil or gas regardless of whether such acreage contains proved reserves. Do not confuse undeveloped acreage with undrilled acreage held by production under the terms of the lease.

Subpart 229.1300—Disclosure by Registrants Engaged in Mining Operations

§ 229.1300 (Item 1300) Definitions.

As used in this subpart, these terms have the following meanings:

Adequate geological evidence, when used in the context of mineral resource determination, means evidence that is sufficient to establish geological and grade or quality continuity with reasonable certainty.

Conclusive geological evidence, when used in the context of mineral resource determination, means evidence that is sufficient to test and confirm geological and grade or quality continuity.

Cut-off grade is the grade (i.e., the concentration of metal or mineral in rock) that determines the destination of the material during mining. For purposes of establishing “prospects of economic extraction,” the cut-off grade is the grade that distinguishes material deemed to have no economic value (it
will not be mined in underground mining or if mined in surface mining, its destination will be the waste dump) from material deemed to have economic value (its ultimate destination during mining will be a processing facility). Other terms used in similar fashion as cut-off grade include net smelter return, pay limit, and break-even stripping ratio.

Development stage issuer is an issuer that is engaged in the preparation of mineral reserves for extraction on at least one material property.

Development stage property is a property that has mineral reserves disclosed, pursuant to this subpart, but no material extraction.

Economically viable, when used in the context of mineral reserve determination, means that the qualified person has determined, using a discounted cash flow analysis, or has otherwise analytically determined, that extraction of the mineral reserve is economically viable under reasonable investment and market assumptions.

Exploration results are data and information generated by mineral exploration programs (i.e., programs consisting of sampling, drilling, trenching, analytical testing, assaying, and other similar activities undertaken to locate, investigate, define or delineate a mineral prospect or mineral deposit) that are not part of a disclosure of mineral resources or reserves. A registrant must not use exploration results alone to derive estimates of tonnage, grade, and production rates, or in an assessment of economic viability.

Exploration stage issuer is an issuer that has no material property with mineral reserves disclosed.

Exploration stage property is a property that has no mineral reserves disclosed.

Exploration target is a statement or estimate of the exploration potential of a mineral deposit in a defined geological setting where the statement or estimate, quoted as a range of tonnage and a range of grade (or quality), relates to mineralization for which there has been insufficient exploration to estimate a mineral resource.

Feasibility study is a comprehensive technical and economic study of the selected development option for a mineral project, which includes detailed assessments of all applicable modifying factors, as defined by this section, together with any other relevant operational factors, and detailed financial analysis that are necessary to demonstrate, at the time of reporting, that extraction is economically viable. The results of the study may serve as the basis for a final decision by a proponent or financial institution to proceed with, or finance, the development of the project.

(1) A feasibility study is more comprehensive, and with a higher degree of accuracy, than a pre-feasibility study. It must contain mining, infrastructure, and process designs completed with sufficient rigor to serve as the basis for an investment decision or to support project financing.

(2) The confidence level in the results of a feasibility study is higher than the confidence level in the results of a pre-feasibility study. Terms such as full, final, comprehensive, bankable, or definitive feasibility study are equivalent to a feasibility study.

Final market study is a comprehensive study to determine and support the existence of a readily accessible market for the mineral. It must, at a minimum, include product specifications based on final geologic and metallurgical testing, supply and demand forecasts, historical prices for the preceding five or more years, estimated long term prices, evaluation of competitors (including products and estimates of production volumes, sales, and prices), customer evaluation of product specifications, and market entry strategies or sales contracts. The study must provide justification for all assumptions, which must include assumptions concerning the material contracts required to develop and sell the mineral reserves.

Indicated mineral resource is that part of a mineral resource for which quantity and grade or quality are estimated on the basis of adequate geological evidence and sampling. The level of geological certainty associated with an indicated mineral resource is sufficient to allow a qualified person to apply modifying factors in sufficient detail to support mine planning and evaluation of the economic viability of the
deposit. Because an indicated mineral resource has a lower level of confidence than the level of confidence of a measured mineral resource, an indicated mineral resource may only be converted to a probable mineral reserve.

**Inferred mineral resource** is that part of a mineral resource for which quantity and grade or quality are estimated on the basis of limited geological evidence and sampling. The level of geological uncertainty associated with an inferred mineral resource is too high to apply relevant technical and economic factors likely to influence the prospects of economic extraction in a manner useful for evaluation of economic viability. Because an inferred mineral resource has the lowest level of geological confidence of all mineral resources, which prevents the application of the modifying factors in a manner useful for evaluation of economic viability, an inferred mineral resource may not be considered when assessing the economic viability of a mining project, and may not be converted to a mineral reserve.

**Initial assessment** is a preliminary technical and economic study of the economic potential of all or parts of mineralization to support the disclosure of mineral resources. The initial assessment must be prepared by a qualified person and must include appropriate assessments of reasonably assumed technical and economic factors, together with any other relevant operational factors, that are necessary to demonstrate at the time of reporting that there are reasonable prospects for economic extraction. An initial assessment is required for disclosure of mineral resources but cannot be used as the basis for disclosure of mineral reserves.

**Investment and market assumptions**, when used in the context of mineral resource determination, includes all assumptions made about the prices, exchange rates, interest and discount rates, sales volumes, and costs that are necessary to determine the economic viability of the mineral reserves. The qualified person must use a price for each commodity that provides a reasonable basis for establishing that the project is economically viable.

**Limited geological evidence**, when used in the context of mineral resource determination, means evidence that is only sufficient to establish that geological and grade or quality continuity are more likely than not.

**Material** has the same meaning as under §230.405 or §240.12b-2 of this chapter.

**Material of economic interest** when used in the context of mineral resource determination, includes mineralization, including dumps and tailings, mineral brines, and other resources extracted on or within the earth's crust. It does not include oil and gas resources resulting from oil and gas producing activities, as defined in §210.4-10(a)(16)(i) of this chapter, gases (e.g., helium and carbon dioxide), geothermal fields, and water.

**Measured mineral resource** is that part of a mineral resource for which quantity and grade or quality are estimated on the basis of conclusive geological evidence and sampling. The level of geological certainty associated with a measured mineral resource is sufficient to allow a qualified person to apply modifying factors, as defined in this section, in sufficient detail to support detailed mine planning and final evaluation of the economic viability of the deposit. Because a measured mineral resource has a higher level of confidence than the level of confidence of either an indicated mineral resource or an inferred mineral resource, a measured mineral resource may be converted to a proven mineral reserve or to a probable mineral reserve.

**Mineral reserve** is an estimate of tonnage and grade or quality of indicated and measured mineral resources that, in the opinion of the qualified person, can be the basis of an economically viable project. More specifically, it is the economically mineable part of a measured or indicated mineral resource, which includes diluting materials and allowances for losses that may occur when the material is mined or extracted.

**Mineral resource** is a concentration or occurrence of material of economic interest in or on the Earth's crust in
such form, grade or quality, and quantity that there are reasonable prospects for economic extraction. A mineral resource is a reasonable estimate of mineralization, taking into account relevant factors such as cut-off grade, likely mining dimensions, location or continuity, that, with the assumed and justifiable technical and economic conditions, is likely to, in whole or in part, become economically extractable. It is not merely an inventory of all mineralization drilled or sampled.

Modifying factors are the factors that a qualified person must apply to indicated and measured mineral resources and then evaluate in order to establish the economic viability of mineral reserves. A qualified person must apply and evaluate modifying factors to convert measured and indicated mineral resources to proven and probable mineral reserves. These factors include, but are not restricted to: Mining; processing; metallurgical; infrastructure; economic; marketing; legal; environmental compliance; plans, negotiations, or agreements with local individuals or groups; and governmental factors. The number, type and specific characteristics of the modifying factors applied will necessarily be a function of and depend upon the mineral, mine, property, or project.

Preliminary feasibility study (or pre-feasibility study) is a comprehensive study of a range of options for the technical and economic viability of a mineral project that has advanced to a stage where a qualified person has determined (in the case of underground mining) a preferred mining method, or (in the case of surface mining) a pit configuration, and in all cases has determined an effective method of mineral processing and an effective plan to sell the product.

(1) A pre-feasibility study includes a financial analysis based on reasonable assumptions, based on appropriate testing, about the modifying factors and the evaluation of any other relevant factors that are sufficient for a qualified person to determine if all or part of the indicated and measured mineral resources may be converted to mineral reserves at the time of reporting, that extraction is economically viable.

(2) A pre-feasibility study is less comprehensive and results in a lower confidence level than a feasibility study. A pre-feasibility study is more comprehensive and results in a higher confidence level than an initial assessment.

Preliminary market study is a study that is sufficiently rigorous and comprehensive to determine and support the existence of a readily accessible market for the mineral. It must, at a minimum, include product specifications based on preliminary geologic and metallurgical testing, supply and demand forecasts, historical prices for the preceding five or more years, estimated long term prices, evaluation of competitors (including products and estimates of production volumes, sales, and prices), customer evaluation of product specifications, and market entry strategies. The study must provide justification for all assumptions. It can, however, be less rigorous and comprehensive than a final market study, which is required for a full feasibility study.

Probable mineral reserve is the economically mineable part of an indicated and, in some cases, a measured mineral resource.

Production stage issuer is an issuer that is engaged in material extraction of mineral reserves on at least one material property.

Production stage property is a property with material extraction of mineral reserves.

Proven mineral reserve is the economically mineable part of a measured mineral resource and can only result from conversion of a measured mineral resource.

Qualified person is an individual who is:

(1) A mineral industry professional with at least five years of relevant experience in the type of mineralization and type of deposit under consideration and in the specific type of activity that person is undertaking on behalf of the registrant; and

(2) An eligible member or licensee in good standing of a recognized professional organization at the time the
technical report is prepared. For an organization to be a recognized professional organization, it must:

(i) Be either:
(A) An organization recognized within the mining industry as a reputable professional association; or
(B) A board authorized by U.S. federal, state or foreign statute to regulate professionals in the mining, geoscience or related field;

(ii) Admit eligible members primarily on the basis of their academic qualifications and experience;

(iii) Establish and require compliance with professional standards of competence and ethics;

(iv) Require or encourage continuing professional development;

(v) Have and apply disciplinary powers, including the power to suspend or expel a member regardless of where the member practices or resides; and

(vi) Provide a public list of members in good standing.

Relevant experience means, for purposes of determining whether a party is a qualified person, that the party has experience in the specific type of activity that the person is undertaking on behalf of the registrant. If the qualified person is preparing or supervising the preparation of a technical report concerning exploration results, the relevant experience must be in exploration. If the qualified person is estimating, or supervising the estimation of mineral resources, the relevant experience must be in the estimation, assessment and evaluation of mineral resources and associated technical and economic factors likely to influence the prospect of economic extraction. If the qualified person is estimating, or supervising the estimation of mineral reserves, the relevant experience must be in engineering and other disciplines required for the estimation, assessment, evaluation and economic extraction of mineral reserves.

(1) Relevant experience also means, for purposes of determining whether a party is a qualified person, that the party has experience evaluating the specific type of mineral deposit under consideration (e.g., coal, metal, base metal, industrial mineral, or mineral brine). The type of experience necessary to qualify as relevant is a facts and circumstances determination. For example, experience in a high-nugget, vein-type mineralization such as tin or tungsten would likely be relevant experience for estimating mineral resources for vein-gold mineralization, whereas experience in a low grade disseminated gold deposit likely would not be relevant.

Note 1 to paragraph (1) of the definition of relevant experience: It is not always necessary for a person to have five years’ experience in each and every type of deposit in order to be an eligible qualified person if that person has relevant experience in similar deposit types. For example, a person with 20 years’ experience in estimating mineral resources for a variety of metalliferous hard-rock deposit types may not require as much as five years of specific experience in porphyry-copper deposits to act as a qualified person. Relevant experience in the other deposit types could count towards the experience in relation to porphyry-copper deposits.

(2) For a qualified person providing a technical report for exploration results or mineral resource estimates, relevant experience also requires, in addition to experience in the type of mineralization, sufficient experience with the sampling and analytical techniques, as well as extraction and processing techniques, relevant to the mineral deposit under consideration. Sufficient experience means that level of experience necessary to be able to identify, with substantial confidence, problems that could affect the reliability of data and issues associated with processing.

(3) For a qualified person applying the modifying factors, as defined by this section, to convert mineral resources to mineral reserves, relevant experience also requires:

(i) Sufficient knowledge and experience in the application of these factors to the mineral deposit under consideration; and

(ii) Experience with the geology, geostatistics, mining, extraction and processing that is applicable to the type of mineral and mining under consideration.
§ 229.1301 (Item 1301) General instructions.

(a) As used in this section, the term mining operations includes operations on all mining properties that a registrant:

(1) Owns or in which it has, or it is probable that it will have, a direct or indirect economic interest;

(2) Operates, or it is probable that it will operate, under a lease or other legal agreement that grants the registrant ownership or similar rights that authorize it, as principal, to sell or otherwise dispose of the mineral; or

(3) Has, or it is probable that it will have, an associated royalty or similar right.

(b) A registrant must provide the disclosure specified in this subpart if its mining operations are material to its business or financial condition.

(c) When determining whether its mining operations are material, a registrant must:

(1) Consider both quantitative and qualitative factors, assessed in the context of the registrant’s overall business and financial condition;

(2) Aggregate mining operations on all of its mining properties, regardless of the stage of the mining property, and size or type of commodity produced, including coal, metalliferous minerals, industrial materials, and mineral brines; and

(3) Include, for each property, as applicable, all related activities from exploration through extraction to the first point of material external sale, including processing, transportation, and warehousing.

(d) Upon a determination that its mining operations are material, a registrant must provide summary disclosure concerning all of its mining activities, as specified in §229.1303, as well as individual property disclosure concerning each of its mining properties that is material to its business or financial condition, as specified in §229.1304. When providing either summary or individual property disclosure, the registrant:

(1) Should provide an appropriate glossary if the disclosure requires the use of technical terms relating to geology, mining or related matters, which cannot readily be found in conventional dictionaries;

(2) Should not include detailed illustrations and technical reports, full feasibility studies or other highly technical data. The registrant shall, however, furnish such reports and other material supplementally to the staff upon request; and

(3) Should use plain English principles, to the extent practicable, such as those provided in §§230.421 and 240.13a–20 of this chapter, to enhance the readability of the disclosure for investors.

§ 229.1302 (Item 1302) Qualified person, technical report summary, and technical studies.

(a)(1) A registrant’s disclosure of exploration results, mineral resources, or mineral reserves, as required by §§229.1303 and 229.1304, must be based on and accurately reflect information and supporting documentation prepared by a qualified person, as defined in §229.1300. As used in this section, the term information includes the findings and conclusions of a qualified person relating to exploration results or estimates of mineral resources or mineral reserves.

(2) The registrant is responsible for determining that the person meets the qualifications specified under the definition of qualified person in §229.1300, and that the disclosure in the registrant’s filing accurately reflects the information provided by the qualified person.

(3) If a registrant has relied on more than one qualified person to prepare the information and documentation supporting its disclosure of exploration results, mineral resources, or mineral reserves, the registrant’s responsibilities as specified in this paragraph (a) pertain to each qualified person.

(b)(1) The registrant must obtain a dated and signed technical report summary from the qualified person that, pursuant to §229.601(b)(96), identifies and summarizes the information reviewed and conclusions reached by the qualified person about the registrant’s mineral resources or mineral reserves determined to be on each material property. At its election, the registrant may also obtain a dated and signed
technical report summary from the qualified person that, pursuant to §229.601(b)(96), identifies and summarizes the information reviewed and conclusions reached by the qualified person about the registrant’s exploration results.

(i) Except as provided in paragraph (b)(1)(ii) of this section, if more than one qualified person has prepared the technical report summary, each qualified person must date and sign the technical report summary. The qualified person’s signature must comply with §230.402(e) or §240.12b–11(d) of this chapter. The technical report summary must also clearly delineate the section or sections of the summary prepared by each qualified person.

(ii) A third-party firm comprising mining experts, such as professional geologists or mining engineers, may date and sign the technical report summary instead of, and without naming, its employee, member or other affiliated person who prepared the technical report summary.

(2)(i) The registrant must file the technical report summary as an exhibit to the relevant registration statement or other Commission filing when disclosing for the first time mineral reserves or mineral resources or when there is a material change in the mineral reserves or mineral resources from the last technical report summary filed for the property.

(ii) If a registrant files a technical report summary to support the disclosure of exploration results, it must also file a technical report summary when there is a material change in the exploration results from the last technical report summary filed for the property. In each instance, the registrant must file the technical report summary as an exhibit to the relevant Commission filing.

(3)(i) A registrant that has a royalty, streaming, or other similar right is not required to submit a separate technical report summary for a property that is covered by a current technical report summary filed by the producing mining registrant. In that situation, the registrant holding the royalty, streaming, or other similar right should refer to the producing registrant’s previously filed technical report summary in its filing with the Commission. Such a reference will not be deemed to incorporate by reference, pursuant to §230.411 or §240.12b–23 of this chapter, the previously filed technical report summary into the royalty company’s or other similar company’s filing absent an express statement to so incorporate by reference the previously filed technical report summary.

(ii) A registrant that has a royalty, streaming, or other similar right is not required to file a technical report summary for an underlying property if the registrant lacks access to the technical report summary because:

(A) Obtaining the information would result in an unreasonable burden or expense; or

(B) It requested the technical report summary from the owner, operator, or other person possessing the technical report summary, who is not affiliated with the registrant, and who denied the request.

(4)(i) The registrant must obtain the written consent of the qualified person to the use of the qualified person’s name, or any quotation from, or summarization of, the technical report summary in the relevant registration statement or report, and to the filing of the technical report summary as an exhibit to the registration statement or report.

(ii) Except as provided in paragraph (b)(4)(iii) of this section, if more than one qualified person has prepared the technical report summary, the registrant must obtain the written consent required by this section from each qualified person pertaining to the particular section or sections of the technical report summary prepared by each qualified person.

(iii) If, pursuant to paragraph (b)(1)(ii) of this section, a third-party firm has signed the technical report summary, the third-party firm must provide the written consent. If a qualified person is an employee or person affiliated with the registrant, the qualified person must provide the written consent on an individual basis.

(iv) For Securities Act filings, the registrant must file the written consent as an exhibit to the registration statement pursuant to §§230.436 and
§ 229.1302 17 CFR Ch. II (4–1–20 Edition)

230.601(b)(23) of this chapter. For Exchange Act reports, the registrant is not required to file the written consent obtained from the qualified person, but should retain the written consent for as long as it is relying on the qualified person’s information and supporting documentation for its current estimates regarding mineral resources, mineral reserves, or exploration results.

(5) The registrant must state in the filed registration statement or report whether each qualified person who prepared the technical report summary is an employee of the registrant. If the qualified person is not an employee of the registrant, the registrant must name the qualified person’s employer, disclose whether the qualified person or the qualified person’s employer is affiliated with the registrant or another entity that has an ownership, royalty, or other interest in the property that is the subject of the technical report summary, and if affiliated, describe the nature of the affiliation. As used in this section, affiliate or affiliated has the same meaning as in § 230.405 or § 240.12b–2 of this chapter.

(6)(i) A qualified person may include in the technical report summary information and documentation provided by a third-party specialist who is not a qualified person, as defined in § 229.1300, such as an attorney, appraiser, and economic or environmental consultant, upon which the qualified person has relied in preparing the technical report summary.

(ii) The qualified person may not disclaim responsibility for any information or documentation prepared by a third-party specialist upon which the qualified person has relied, or any part of the technical report summary based upon or related to that information and documentation.

(iii) A registrant is not required to file a written consent of any third-party specialist upon which a qualified person has relied pursuant to paragraph (b)(6)(i) of this section.

(c)(1) A registrant may disclose an exploration target, as defined in § 229.1300, for one or more of its properties that is based upon and accurately reflects information and supporting documentation of a qualified person. The qualified person may include a discussion of an exploration target in a technical report summary.

(2) Any disclosure of an exploration target must appear in a separate section of the Commission filing or technical report summary that is clearly captioned as a discussion of an exploration target. That section must include a clear and prominent statement that:

(i) The ranges of potential tonnage and grade (or quality) of the exploration target are conceptual in nature;

(ii) There has been insufficient exploration of the relevant property or properties to estimate a mineral resource;

(iii) It is uncertain if further exploration will result in the estimation of a mineral resource; and

(iv) The exploration target therefore does not represent, and should not be construed to be, an estimate of a mineral resource or mineral reserve.

(3) Any disclosure of an exploration target must also include:

(i) A detailed explanation of the basis for the exploration target, such as the conceptual geological model used to develop the target;

(ii) An explanation of the process used to determine the ranges of tonnage and grade, which must be expressed as approximations;

(iii) A statement clarifying whether the exploration target is based on actual exploration results or on one or more proposed exploration programs, which should include a description of the level of exploration activity already completed, the proposed exploration activities designed to test the validity of the exploration target, and the time frame in which those activities are expected to be completed; and

(iv) A statement that the ranges of tonnage and grade (or quality) of the exploration target could change as the proposed exploration activities are completed.

(d)(1) A registrant’s disclosure of mineral resources under this subpart must be based upon a qualified person’s initial assessment, as defined in § 229.1300, which includes and supports the qualified person’s determination of mineral resources.
(i) When determining the existence of a mineral resource, a qualified person must:
   (A) Be able to estimate or interpret the location, quantity, grade or quality continuity, and other geological characteristics of the mineral resource from specific geological evidence and knowledge, including sampling; and
   (B) Conclude that there are reasonable prospects for economic extraction of the mineral resource based on his or her initial assessment. At a minimum, the initial assessment must include the qualified person’s qualitative evaluation of relevant technical and economic factors likely to influence the prospect of economic extraction to establish the economic potential of the mining property or project.

(ii) For a material property, the technical report summary submitted by the qualified person to support a determination of mineral resources must describe the procedures, findings and conclusions reached for the initial assessment, as required by §229.601(b)(96).

(iii)(A) When determining mineral resources, a qualified person must subdivide mineral resources, in order of increasing geological confidence, into inferred, indicated, and measured mineral resources.
   (B) For inferred mineral resources, a qualified person:
      (1) Must have a reasonable expectation that the majority of inferred mineral resources could be upgraded to indicated or measured mineral resources with continued exploration; and
      (2) Should be able to defend the basis of this expectation before his or her peers.

(iv) The qualified person should refer to Table 1 to paragraph (d) of this section for the assumptions permitted to be made when preparing the initial assessment.

(2) A qualified person must include cut-off grade estimation, based on assumed unit costs for surface or underground operations and estimated mineral prices, in the initial assessment. To estimate mineral prices, the qualified person must use a price for each commodity that provides a reasonable basis for establishing the prospects of economic extraction for mineral resources. The qualified person must disclose the price used and explain, with particularity, his or her reasons for using the selected price, including the material assumptions underlying the selection. This explanation must include disclosure of the time frame used to estimate the commodity price and unit costs for cut-off grade estimation and the reasons justifying the selection of that time frame. The qualified person may use a price set by contractual arrangement, provided that such price is reasonable, and the qualified person discloses that he or she is using a contractual price when disclosing the price used. The selected price required by this section and all material assumptions underlying it must be current as of the end of the registrant’s most recently completed fiscal year.

(3) The qualified person must provide a qualitative assessment of all relevant technical and economic factors likely to influence the prospect of economic extraction to establish economic potential and justify why he or she believes that all issues can be resolved with further exploration and analysis. As provided by Table 1 to paragraph (d) of this section, those factors include, but are not limited to, to the extent material:
   (i) Site infrastructure (e.g., whether access to power and site is possible);
   (ii) Mine design and planning (e.g., what is the broadly defined mining method);
   (iii) Processing plant (e.g., whether all products used in assessing prospects of economic extraction can be processed with methods consistent with each other);
   (iv) Environmental compliance and permitting (e.g., what are the required permits and corresponding agencies and whether significant obstacles exist to obtaining those permits); and
   (v) Any other reasonably assumed technical and economic factors, including plans, negotiations, or agreements with local individuals or groups, which are necessary to demonstrate reasonable prospects for economic extraction.

(4)(i) A qualified person may include cash flow analysis in an initial assessment to demonstrate economic potential. If the qualified person includes cash flow analysis in the initial assessment, then operating and capital cost
estimates must have an accuracy level of at least approximately \( \pm 50\% \) and a contingency level of no greater than 25\%, as provided by Table 1 to paragraph (d) of this section. The qualified person must state the accuracy and contingency levels in the initial assessment.

(ii) If providing an economic analysis in the initial assessment, a qualified person may include inferred mineral resources in the economic analysis, provided that the qualified person:

(A) States with equal prominence to the disclosure of mineral resource estimates that the assessment is preliminary in nature, it includes inferred mineral resources that are considered too speculative geologically to have modifying factors applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that this economic assessment will be realized;

(B) Discloses the percentage of the mineral resources used in the cash flow analysis that was classified as inferred mineral resources; and

(C) Discloses, with equal prominence, the results of the economic analysis excluding inferred mineral resources in addition to the results that include inferred mineral resources.

1 When applied in an initial assessment, these factors pertain to the relevant technical and economic factors likely to influence the prospect of economic extraction. When applied in a preliminary or final feasibility study, these factors pertain to the modifying factors, as defined in this subpart.
2 The relevant technical and economic factors to be applied in an initial assessment, and the modifying factors to be applied in a pre-feasibility or final feasibility study, include, but are not limited to, the factors listed in this table. The number, type, and specific characteristics of the applicable factors will be a function of and depend upon the particular mineral, mine, property, or project.
3 Initial assessment, as defined in this subpart, does not require a cash flow analysis or operating and capital cost estimates. The qualified person may include a cash flow analysis at his or her discretion.
4 An initial assessment does not require capital and operating cost estimates or economic analysis; although it requires unit cost assumptions based on an assumption that the resource will be exploited with surface or underground mining methods. An economic analysis, if included, may be based only on measured and indicated mineral resources, or also may include inferred resources if additional conditions are met.
(e)(1) A registrant’s disclosure of mineral reserves under this subpart must be based upon a qualified person’s preliminary feasibility (pre-feasibility) study or feasibility study, each as defined in §229.1300, which includes and supports the qualified person’s determination of mineral reserves. The pre-feasibility or feasibility study must include the qualified person’s detailed evaluation of all applicable modifying factors to demonstrate the economic viability of the mining property or project. For a material property, the technical report summary submitted by the qualified person to support a determination of mineral reserves must describe the procedures, findings and conclusions reached for the pre-feasibility or feasibility study, as required by §229.601(b)(96).

(2) When determining mineral reserves, a qualified person must subdivide mineral reserves, in order of increasing confidence, into probable mineral reserves and proven mineral reserves, as defined in §229.1300. The determination of probable or proven mineral reserves must be based on a qualified person’s application of the modifying factors to indicated or measured mineral resources, which results in the qualified person’s determination that part of the indicated or measured mineral resource is economically mineable.

(i) For a probable mineral reserve, the qualified person’s confidence in the results obtained from the application of the modifying factors and in the estimates of tonnage and grade or quality is lower than what is sufficient for a classification as a proven mineral reserve, but is still sufficient to demonstrate that, at the time of reporting, extraction of the mineral reserve is economically viable under reasonable investment and market assumptions. The qualified person must have a high degree of confidence in the results obtained from the application of the modifying factors to the measured mineral resource is lower than what is sufficient for a proven mineral reserve.

(ii) For a proven mineral reserve, the qualified person must have a high degree of confidence in the results obtained from the application of the modifying factors and in the estimates of tonnage and grade or quality.

(3) The pre-feasibility study or feasibility study, which supports the qualified person’s determination of mineral reserves, must demonstrate that, at the time of reporting, extraction of the mineral reserve is economically viable under reasonable investment and market assumptions. The study must establish a life of mine plan that is technically achievable and economically viable, which will be the basis of determining the mineral reserve.

(i) The term mineral reserves does not necessarily require that extraction facilities are in place or operational, that the company has obtained all necessary permits or that the company has entered into sales contracts for the sale of mined products. It does require, however, that the qualified person has, after reasonable investigation, not identified any obstacles to obtaining permits and entering into the necessary sales contracts, and reasonably believes that the chances of obtaining such approvals and contracts in a timely manner are highly likely.

(ii) In certain circumstances, the determination of mineral reserves may require the completion of at least a preliminary market study, as defined in §229.1300, in the context of a pre-feasibility study, or a final market study, as defined in §229.1300, in the context of a feasibility study, to support the qualified person’s conclusions about the chances of obtaining revenues from sales. For example, a preliminary or final market study would be required where the mine’s product cannot be traded on an exchange, there is no other established market for the product, and no sales contract exists. When assessing mineral reserves, the qualified person must take into account the potential adverse impacts, if any, from any unresolved material matter on
which extraction is contingent and which is dependent on a third party.

(4) For both a pre-feasibility and feasibility study, a qualified person must use a price for each commodity that provides a reasonable basis for establishing that the project is economically viable. The qualified person must disclose the price used and explain, with particularity, his or her reasons for using the selected price, including the material assumptions underlying the selection. This explanation must include disclosure of the time frame used to estimate the price and costs and the reasons justifying the selection of that time frame. The qualified person may use a price set by contractual arrangement, provided that such price is reasonable, and the qualified person discloses that he or she is using a contractual price when disclosing the price used. The selected price required by this section and all material assumptions underlying it must be current as of the end of the registrant’s most recently completed fiscal year.

(5) A pre-feasibility study must include an economic analysis that supports the property’s economic viability as assessed by a detailed discounted cash flow analysis or other similar financial analysis. The economic analysis must describe in detail applicable taxes and provide an estimate of revenues. The qualified person must use a price for each commodity in the economic analysis that meets the requirements of paragraph (e)(4) of this section. As discussed in paragraph (e)(3) of this section, in certain situations, estimates of revenues must be based on at least a preliminary market study.

(6) The qualified person must exclude inferred mineral resources from the pre-feasibility study’s demonstration of economic viability in support of a disclosure of a mineral reserve.

(7) Factors to be considered in a pre-feasibility study are typically the same as those required for a final feasibility study, but considered at a lower level of detail or at an earlier stage of development. The list of factors is not exclusive. For example, as provided in Table 1 to paragraph (d) of this section, a pre-feasibility study must define, analyze or otherwise address in detail, to the extent material:

(i) The required access roads, infrastructure location and plant area, and the source of all utilities (e.g., power and water) required for development and production;

(ii) The preferred underground mining method or surface mine pit configuration, with detailed mine layouts drawn for each alternative;

(iii) The bench lab tests that have been conducted, the process flow sheet, equipment sizes, and general arrangement that have been completed, and the plant throughput;

(iv) The environmental compliance and permitting requirements, the baseline studies, and the plans for tailings disposal, reclamation, and mitigation, together with an analysis establishing that permitting is possible; and

(v) Any other reasonable assumptions, based on appropriate testing, on the modifying factors sufficient to demonstrate that extraction is economically viable.

(8) A pre-feasibility study must also identify sources of uncertainty that require further refinement in a final feasibility study.

(9) Operating and capital cost estimates in a pre-feasibility study must, at a minimum, have an accuracy level of approximately ±25% and a contingency range not exceeding 15%, as provided in Table 1 of this section. The qualified person must state the accuracy level and contingency range in the pre-feasibility study.

(10) A feasibility study must contain the application and description of all relevant modifying factors in a more detailed form and with more certainty than a pre-feasibility study. The list of factors is not exclusive. For example, as provided in Table 1 to paragraph (d) of this section, a feasibility study must define, analyze, or otherwise address in detail, to the extent material:

(i) Final requirements for site infrastructure, including well-defined access roads, finalized plans for infrastructure location, plant area, and camp or town site, and the established source of all required utilities (e.g., power and water) for development and production;

(ii) Finalized mining method, including detailed mine layouts and final development and production plan for the preferred alternative with the required...
equipment fleet specified. The feasibility study must address detailed mining schedules, construction and production ramp up, and project execution plans;

(iii) Completed detailed bench lab tests and a pilot plant test, if required, based on risk. The feasibility study must further address final requirements for process flow sheet, equipment sizes, and general arrangement and specify the final plant throughput;

(iv) The final identification and detailed analysis of environmental compliance and permitting requirements, and the completion of baseline studies and finalized plans for tailings disposal, reclamation, and mitigation; and

(v) The final assessments of other modifying factors necessary to demonstrate that extraction is economically viable.

(11) A feasibility study must also include an economic analysis that describes taxes in detail, estimates revenues, and assesses economic viability by a detailed discounted cash flow analysis. The qualified person must use a price for each commodity in the economic analysis that meets the requirements of paragraph (e)(4) of this section. As discussed in paragraph (e)(3) of this section, in certain situations, estimates of revenues must be based on a final market study or letters of intent to purchase.

(12) Operating and capital cost estimates in a feasibility study must, at a minimum, have an accuracy level of approximately ±15% and a contingency range not exceeding 10%, as provided by Table 1 of this section. The qualified person must state the accuracy level and contingency range in the feasibility study.

(13) If the uncertainties in the results obtained from the application of the modifying factors that prevented a measured mineral resource from being converted to a proven mineral reserve no longer exist, then the qualified person may convert the measured mineral resource to a proven mineral reserve.

(14) The qualified person cannot convert an indicated mineral resource to a proven mineral reserve unless new evidence first justifies conversion to a measured mineral resource.

(15) The qualified person cannot convert an inferred mineral resource to a mineral reserve without first obtaining new evidence that justifies converting it to an indicated or measured mineral resource.

(f)(1) The qualified person may indicate in the technical report summary that the qualified person has relied on information provided by the registrant in preparing its findings and conclusions regarding the following aspects of modifying factors:

(i) Macroeconomic trends, data, and assumptions, and interest rates;

(ii) Marketing information and plans within the control of the registrant;

(iii) Legal matters outside the expertise of the qualified person, such as statutory and regulatory interpretations affecting the mine plan;

(iv) Environmental matters outside the expertise of the qualified person;

(v) Accommodations the registrant commits or plans to provide to local individuals or groups in connection with its mine plans; and

(vi) Governmental factors outside the expertise of the qualified person.

(2) In a separately captioned section of the technical report summary entitled “Reliance on Information Provided by the Registrant,” the qualified person must:

(i) Identify the categories of information provided by the registrant;

(ii) Identify the particular portions of the technical report summary that were prepared in reliance on information provided by the registrant pursuant to paragraph (f)(1) of this section, and the extent of that reliance; and

(iii) Disclose why the qualified person considers it reasonable to rely upon the registrant for any of the information specified in paragraph (f)(1) of this section.

(3) Notwithstanding the provisions of §230.436(a) and (b) of this chapter, any description in the technical report summary or other part of the registration statement of the procedures, findings, and conclusions reached about matters identified by the qualified person as having been based on information provided by the registrant pursuant to this section shall not be considered a part of the registration statement prepared or certified by the
qualified person within the meaning of Sections 7 and 11 of the Securities Act.

§ 229.1303 (Item 1303) Summary disclosure.

(a)(1) A registrant that has material mining operations, as determined pursuant to §229.1301, and two or more mining properties, must provide the information specified in paragraph (b) of this section for all properties that the registrant:

(i) Owns or in which it has, or it is probable that it will have, a direct or indirect economic interest;

(ii) Operates, or it is probable that it will operate, under a lease or other legal agreement that grants the registrant ownership or similar rights that authorize it, as principal, to sell or otherwise dispose of the mineral; or

(iii) Has, or it is probable that it will have, an associated royalty or similar right.

(2) A registrant that has material mining operations but only one mining property is not required to provide the information specified in paragraph (b) of this section. That registrant need only provide the disclosure required by §229.1304 for the mining property that is material to its business.

(3) A registrant that has a royalty, streaming or other similar right, but which lacks access to any of the information specified in paragraph (b) of this section about the underlying properties, may omit such information, provided that the registrant:

(i) Specifies the information to which it lacks access;

(ii) Explains that it does not have access to the required information because:

(A) Obtaining the information would result in an unreasonable burden or expense; or

(B) It requested the information from a person possessing knowledge of the information, who is not affiliated with the royalty company or similar registrant, and who denied the request; and

(iii) Provides all required information that it does possess or which it can acquire without incurring an unreasonable burden or expense.

(b) Disclose the following information for all properties specified in paragraph (a) of this section:

(1) A map or maps, of appropriate scale, showing the locations of all properties. Such maps should be legible on the page when printed.

(2) An overview of the registrant’s mining properties and operations. This overview may be presented in narrative or tabular format.

(i) The overview must include aggregate annual production for the properties during each of the three most recently completed fiscal years preceding the filing.

(ii) The overview should include, as relevant, the following items of information for the mining properties considered in the aggregate:

(A) The location of the properties;

(B) The type and amount of ownership interests;

(C) The identity of the operator or operators;

(D) Titles, mineral rights, leases or options and acreage involved;

(E) The stages of the properties (exploration, development or production);

(F) Key permit conditions;

(G) Mine types and mineralization styles; and

(H) Processing plants and other available facilities.

(iii) When presenting the overview, the registrant should include the amount and type of disclosure concerning its mining properties that is material to an investor’s understanding of the registrant’s properties and mining operations in the aggregate. This disclosure will depend upon a registrant’s specific facts and circumstances and may vary from registrant to registrant. A registrant should refer to, rather than duplicate, any disclosure concerning individually material properties provided in response to §229.1304.

(iv) A registrant with only a royalty or similar economic interest should provide only the portion of the production that led to royalty or other incomes for each of the three most recently completed fiscal years.

(3) A summary of all mineral resources and mineral reserves, as determined by the qualified person, at the
§ 229.1303 17 CFR Ch. II (4–1–20 Edition)

end of the most recently completed fiscal year by commodity and geographic area and for each property containing 10% or more of the registrant’s combined measured and indicated mineral resources or containing 10% or more of the registrant’s mineral reserves. This summary must be provided for each class of mineral resources (inferred, indicated, and measured), together with total measured and indicated mineral resources, and each class of mineral reserves (probable and proven), together with total mineral reserves, using the format in Table 1 to paragraph (b) of this section for mineral resources, and the format in Table 2 to paragraph (b) of this section for mineral reserves.

(i) The term by geographic area means by individual country, regions of a country, state, groups of states, mining district, or other political units, to the extent material to and necessary for an investor’s understanding of a registrant’s mining operations.

(ii) All disclosure of mineral resources by the registrant must be exclusive of mineral reserves.

(iii) All disclosure of mineral resources and reserves must be only for the portion of the resources or reserves attributable to the registrant’s interest in the property.

(iv) Each mineral resource and reserve estimate must be based on a reasonable and justifiable price selected by a qualified person pursuant to §229.1302(d) or (e), which provides a reasonable basis for establishing the prospects of economic extraction for mineral resources, and is the expected price for mineral reserves.

(v) Each mineral resource and reserve estimate called for in Tables 1 and 2 to paragraph (b) of this section must be based on a specific point of reference selected by a qualified person. The registrant must disclose the selected point of reference for each of Tables 1 and 2 to paragraph (b) of this section.

(vi) The registrant may modify the tabular formats in Tables 1 and 2 to paragraph (b) of this section for ease of presentation or to add information.

(vii) All material assumptions and information pertaining to the summary disclosure of a registrant’s mineral resources and mineral reserves required by this section, including material assumptions related to price estimates, must be current as of the end of the registrant’s most recently completed fiscal year.

¹ The registrant must use a reasonable and justifiable price for each commodity, which it must disclose, together with the time frame and point of reference used, when estimating mineral reserves for this Table 2.

§ 229.1304 (Item 1304) Individual property disclosure.

(a)(1) A registrant must disclose the information specified in this section for each property that is material to its business or financial condition. When determining the materiality of a property relative to its business or financial condition, a registrant must apply the standards and other considerations specified in § 229.1301(c) to each individual property that it:

(i) Owns or in which it has, or it is probable that it will have, a direct or indirect economic interest;

(ii) Operates, or it is probable that it will operate, under a lease or other legal agreement that grants the registrant ownership or similar rights that authorize it, as principal, to sell or otherwise dispose of the mineral; or

(iii) Has, or it is probable that it will have, an associated royalty or similar right.
(2) A registrant that has a royalty, streaming or other similar right, but which lacks access to any of the information specified in this section about the underlying property or properties, may omit such information, provided that the registrant:

(i) Specifies the information to which it lacks access;

(ii) Explains that it does not have access to the required information because:

(A) Obtaining the information would result in an unreasonable burden or expense; or

(B) It requested the information from a person possessing knowledge of the information, who is not affiliated with the with the royalty company or similar registrant, and who denied the request; and

(iii) Provides all required information that it does possess or which it can acquire without incurring an unreasonable burden or expense.

(b) Disclose the following information for each material property specified in paragraph (a) of this section:

(1) A brief description of the property including:

(i) The location, accurate to within one mile, using an easily recognizable coordinate system. The registrant must provide appropriate maps, with proper engineering detail (such as scale, orientation, and titles). Such maps must be legible on the page when printed;

(ii) Existing infrastructure including roads, railroads, airports, towns, ports, sources of water, electricity, and personnel; and

(iii) A brief description, including the name or number and size (acreage), of the titles, claims, concessions, mineral rights, leases or options under which the registrant and its subsidiaries have or will have the right to hold or operate the property, and how such rights are obtained at this location, indicating any conditions that the registrant must meet in order to obtain or retain the property. If held by leases or options or if the mineral rights otherwise have termination provisions, the registrant must provide the expiration dates of such leases, options or mineral rights and associated payments.

(iv) Except as provided in paragraph (a)(2) of this section, if the registrant holds a royalty or similar interest or will have an associated royalty or similar right, the disclosure must describe all of the information in paragraph (b)(1) of this section, including, for example, the documents under which the owner or operator holds or operates the property, the mineral rights held by the owner or operator, conditions required to be met by the owner or operator, and the expiration dates of leases, options and mineral rights. The registrant must also briefly describe the agreement under which the registrant and its subsidiaries have or will have the right to a royalty or similar interest in the property, indicating any conditions that the registrant must meet in order to obtain or retain the royalty or similar interest, and indicating the expiration date.

(2) The following information, as relevant to the particular property:

(i) A brief description of the present condition of the property, the work completed by the registrant on the property, the registrant’s proposed program of exploration or development, the current stage of the property as exploration, development or production, the current state of exploration or development of the property, and the current production activities. Mines should be identified as either surface or underground, with a brief description of the mining method and processing operations. If the property is without known reserves and the proposed program is exploratory in nature or the registrant has started extraction without determining mineral reserves, the registrant must provide a statement to that effect;

(ii) The age, details as to modernization and physical condition of the equipment, facilities, infrastructure, and underground development;

(iii) The total cost for or book value of the property and its associated plant and equipment;

(iv) A brief history of previous operations, including the names of previous operators, insofar as known; and

(v) A brief description of any significant encumbrances to the property, including current and future permitting requirements and associated timelines,
permit conditions, and violations and fines.

(c) When providing the disclosure required by paragraph (b) of this section:

(1) A registrant must identify an individual property with no mineral reserves as an exploration stage property, even if it has other properties in development or production. Similarly, a registrant that does not have reserves on any of its properties cannot characterize itself as a development or production stage company, even if it has mineral resources or exploration results, or even if it is engaged in extraction without first disclosing mineral reserves.

(2) A registrant should not include extensive description of regional geology. Rather, it should include geological information that is brief and relevant to property disclosure.

(d)(1) If mineral resources or reserves have been determined, the registrant must provide a summary of all mineral resources or reserves as of the end of the most recently completed fiscal year, which, for each property, discloses in tabular form, as provided in Table 1 to paragraph (d)(1) of this section for each class of mineral resources (measured, indicated, and inferred), together with total measured and indicated mineral resources, the estimated tonnages and grades (or quality, where appropriate), and as provided in Table 2 to paragraph (d)(1) of this section for each class of mineral reserves (proven and probable), together with total mineral reserves, the estimated tonnages, grades (or quality, where appropriate), cut-off grades, and metallurgical recovery, based on a specific point of reference selected by a qualified person pursuant to §229.601(b)(96). The registrant must disclose the selected point of reference for each of Tables 1 and 2 to paragraph (d)(1) of this section.

¹ The registrant must use a reasonable and justifiable price for each commodity, which it must disclose, together with the time frame and point of reference used, when estimating mineral reserves for this Table 2.

Instruction 1 to paragraph (d)(1): The registrant may modify the tabular formats in Tables 1 and 2 to paragraph (d)(1) of this section for ease of presentation, to add information, or to combine two or more required tables. When combining tables, the registrant should not report mineral resources and reserves in the same table.

(2) All disclosure of mineral resources by the registrant must be exclusive of mineral reserves.

(3) A registrant with only a royalty or similar interest should provide only
the portion of the resources or reserves that are subject to the royalty or similar agreement.

(e) Compare the property’s mineral resources and reserves as of the end of the last fiscal year with the mineral resources and reserves as of the end of the preceding fiscal year, and explain any material change between the two. The comparison, which may be in either narrative or tabular format, must disclose information concerning:

(1) The mineral resources or reserves at the end of the last two fiscal years;
(2) The net difference between the mineral resources or reserves at the end of the last completed fiscal year and the preceding fiscal year, as a percentage of the resources or reserves at the end of the fiscal year preceding the last completed one;
(3) An explanation of the causes of any discrepancy in mineral resources including depletion or production, changes in commodity prices, additional resources discovered through exploration, and changes due to the methods employed; and
(4) An explanation of the causes of any discrepancy in mineral reserves including depletion or production, changes in the resource model, changes in commodity prices and operating costs, changes due to the methods employed, and changes due to acquisition or disposal of properties.

(f)(1) If the registrant has not previously disclosed mineral reserve or resource estimates in a filing with the Commission or is disclosing material changes to its previously disclosed mineral reserve or resource estimates, provide a summary that describes the sampling methods used, and, for each sampling method used, disclose the number of samples, the total size or length of the samples, and the total number of assays.

(2) If disclosing exploration results for any material property specified in paragraph (a) of this section for the most recently completed fiscal year, provide a summary that, for each property, identifies the hole, trench or other sample that generated the exploration results, describes the length, lithology, and key geologic properties of the exploration results, and includes a brief discussion of the exploration results’ context and relevance. If the summary only includes results from selected samples and intersections, it should be accompanied with a discussion of the context and justification for excluding other results.

(3) The information disclosed under this paragraph (g) may be presented in either narrative or tabular format.

(4) A registrant must disclose exploration results and related exploration activity for a material property under this section if they are material to investors. When determining whether exploration results and related exploration activity are material, the registrant should consider all relevant
facts and circumstances, such as the importance of the exploration results in assessing the value of a material property or in deciding whether to develop the property, and the particular stage of the property.

(5) A registrant may disclose an exploration target when discussing exploration results or exploration activity related to a material property as long as the disclosure is in compliance with the requirements of §229.1302(c).

(6)(i) If the registrant is disclosing exploration results, but has not previously disclosed such results in a filing with the Commission, or is disclosing material changes to its previously disclosed exploration results, it must provide sufficient information to allow for an accurate understanding of the significance of the exploration results. The registrant must include information such as exploration context, type and method of sampling, sampling intervals and methods, relevant sample locations, distribution, dimensions, and relative location of all relevant assay and physical data, data aggregation methods, land tenure status, and any additional material information that may be necessary to make the required disclosure concerning the registrant’s exploration results not misleading. If electing to file a technical report summary, the registrant must cite corresponding sections of the technical report summary, which must be filed as an exhibit pursuant to §229.1302(b).

(ii) Whether a change in exploration results is material is based on all facts and circumstances, both quantitative and qualitative.

(iii) A change in exploration results that significantly alters the potential of the subject deposit is considered material.

(h) A report containing one or more estimates of the quantity, grade, or metal or mineral content of a deposit or exploration results that a registrant has not verified as a current estimate of mineral resources, mineral reserves, or exploration results, and which was prepared before the registrant acquired, or entered into an agreement to acquire, an interest in the property that contains the deposit, is not considered current and cannot be filed in support of disclosure. Notwithstanding this prohibition, a registrant may include such an estimate in a Commission filing that pertains to a merger, acquisition, or business combination if the registrant is unable to update the estimate prior to the completion of the relevant transaction. In that event, when referring to the estimate, the registrant must disclose the source and date of the estimate, and state that a qualified person has not done sufficient work to classify the estimate as a current estimate of mineral resources, mineral reserves, or exploration results and that the registrant is not treating the estimate as a current estimate of mineral resources, mineral reserves, or exploration results.
